DIRECTIVE NO. 17. REDUCED FORCES.

June 22, 1965.

To All Department Heads.

Effective Tuesday, July 6, 1965, through and including Friday, September 3, 1965, department heads will be permitted to have a reduced force from 4.30 P.M. to 5 P.M. each day.

It is expected that department heads will remain at their desks through 5 P.M. (unless official duties require them elsewhere and they can be immediately contacted by their office).

A sufficient number of employees must be kept on duty to insure the proper handling of department responsibilities and citizens' requests through the 5 P.M. time.

The policy of each department should include the stipulation that any employee not at his or her desk at 9 A.M. ready to work, forfeits any right to leave at 4.30 P.M.

This would appear to be the proper time to repeat the basic rules of reduced forces as applicable to heat days, long week ends, summer policy, etc. Department heads should indicate to their employees that reduced forces are permitted for special purposes. At no time is it anticipated, desired, or allowed that employees who stay on the job during the reduced force period will receive extra benefits such as "compensatory time" for working. Schedules should be drafted far enough in advance that will indicate to each employee whether or not he or she will be dismissed upon receipt of notice of a reduced force, or whether it is their obligation to remain on duty.

Under ideal circumstances it would be expected that 50 percent of the force would be released and that this same 50 percent would remain on duty at the next reduced force call. Reduced forces are called by the department head, only upon permission from the Mayor, and it is his responsibility to insure that the necessary functions of his department can and will be performed at all times.

A SPECTACULAR

Movie writer Mel Frank of Hollywood had been corresponding for several months from England with producer Martin Poll, an old friend, about a TV series. Many ideas were proposed but nothing settled on. Then Mel was informed that his oldest daughter had been accepted at Bennington College for the fall semester.

A typically proud papa, he advised friends in the United States about the event, including Poll, who received a wire simply stating: "Daughter at Bennington." Poll wired back: "Terrific, send more details. Sounds like a great series."

POLICE DEPARTMENT ORDERS

June 14.

Personnel Order No. 745.

In accordance with the provisions of chapter 32, section 58, as amended (Veterans' Retirement Act), the following-named member of this department is hereby retired from active duty effective at the close of business on Tuesday, June 15, 1965:

Sergt. Hugh R. Morrison, District 15.

June 15.

Personnel Order No. 746.

Detective Third-Grade Robert J. Fawcett and Patrolman Walter J. O'Rourke, District 7 are hereby commended for meritorious police duty and each granted one day additional vacation.

About 1.10 A.M., Sunday, May 23, 1965, the above-named officers responded to a call of men breaking into the Barnes School, 127 Marion street, East Boston, and on arrival the officers observed two men run from the school, enter a Mercury sedan and speed down Princeton street.

The officers pursued the car through several streets in East Boston and during the chase the trunk lid of the Mercury flew open and the officers observed a number of typewriters in the trunk of the car.

In Day square, East Boston, the officers overtook and forced the Mercury to stop and they arrested at gunpoint the occupants, George J. Hoey, 31 years, of 19 Marion street, East Boston, and Bernard J. Fagan, 31 years, of 24 Columbia street, Malden.

The officers recovered 16 typewriters as well as other office equipment, all to a total value of \$5,052.

Investigation revealed that the suspects had stolen the Mercury sedan, broke a grille and windowpane in the school building and removed the above office equipment.

They were arraigned in the East Boston District Court and held in \$5,000 bail each, pending a hearing.

The Police Commissioner is pleased to recognize the alertness, courage, and devotion to duty displayed by the officers in the apprehension of these felons.

June 15.

Personnel Order No. 747.

The services of Rita M. McCaffrey as temporary clerk and typist will be terminated at the close of business on June 15, 1965.

Rita M. McCaffrey, 111 H street, South Boston, is hereby appointed a permanent clerk and typist in this department, Central Services Division, effective on Wednesday, June 16, 1965, at a salary of \$55 a week.

June 16.

Personnel Order No. 748.

The following details are hereby ordered to take effect at 7.45 o'clock A.M., Thursday, June 17, 1965, for duty until further orders:

Lieut. Andrew D. O'Sullivan, from Traffic Division to District 5.

Patrolman Thaddeus T. Lewis, Jr., from District 11 to Identification Section.

TIMES CHANGE

"Poor House Lane" was not considered a good address in the eighteenth century, so in 1708, the name was changed to Beacon street, after the Hill, of course.

CITY OF BOSTON.

PARKS AND RECREATION DEPARTMENT.

TO PAINTING CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR PAINTING OF GREENHOUSE PLANT, FRANKLIN PARK SERVICE YARD, WEST ROXBURY, MASS.

The City of Boston, acting by the Commissioner of Parks and Recreation, 33 Beacon street, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for painting of Greenhouse Plant, Franklin Park Service Yard, West Roxbury, Mass.

General bids will be received until 2 o'clock P.M. (Eastern Daylight Saving Time), Tuesday, July 6, 1965, at the office of the Awarding Authority, 33 Beacon street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained at the Engineer's office of the Parks and Recreation Department, 33 Beacon street, Boston, Mass. Each copy of the general bid shall be properly filled out, signed, enclosed in an envelope, sealed, and

plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$4,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bids filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time thereafter.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D inclusive, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid signed set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

Plans and specifications and other contract documents may be obtained at the Engineer's office of the Parks and Recreation Department, fourth floor, 33 Beacon street, Boston, Mass., on or after 9 A.M. (Eastern Daylight Saving Time) on Monday, June 28, 1965, upon deposit of a certified check made payable to the City of Boston, in the sum of \$15 per set of plans and specifications. The amount of deposit, per set of plans and specifications will be refunded upon return of the same in good condition to the Awarding Authority with the general bid or upon return thereof in good condition to the Engineer's Office designated above not later than 30 days after the opening of general bids (Saturdays, Sundays and legal holidays excluded).

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon, (Eastern Daylight Saving Time), Tuesday, July 6, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the

form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority.

Ventilating\$1,100

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

Mayor Names Five To New Youth Activities Commission

Mayor John F. Collins announced on June 25 the acceptance of chapter 391 of the Acts of 1965 establishing a Youth Activities Commission for the City of Boston.

The Youth Activities Commission will replace the Youth Activities Bureau's Advisory Committee and make the Youth Activities Bureau a permanent municipal service.

The new commission will consist of seven members; five appointed by the Mayor and one each by the Superintendent of Schools and the Chairman of the Youth Service Board.

Mayor Collins has appointed the following as of July 1, 1965:

Dr. Ray Johns, General Secretary of the Greater Boston YMCA, and chairman of the YAB Advisory Committee for the past five years. Dr. Johns was appointed to a full five-year term.

Attorney William Wolf, active in Jewish Community Centers, member of the YAB Advisory Committee for the past five years, vice-chairman of Youth Educational Assistance. Wolf was appointed for a four-year term.

Dr. Kenneth I. Wollan, Executive Director, Boston Children Services Association, and vice-chairman of the YAB Advisory Committee for the past five years. Dr. Wollan was appointed for a three-year term.

Attorney David Nelson, prominent Negro attorney, a member of the Board of Directors of the Roxbury Multi-Service Center, President of the Catholic Interracial Council. Nelson was appointed for a two-year term.

The fifth member is Park Commissioner William Devine, appointed to the commission for a one-year term.

All future terms will be for five year durations. All members serve without compensation. The new commission will be "in but not under" the Parks and Recreation Department.

The legislation establishing the commission was filed by Senator Stephen Davenport on the recommendation of Dr. John D. Coughlan, chairman of the Youth Service Board.

The Youth Activities Bureau is the city's official delinquency prevention agency and receives 50 percent of its budget from the Youth Service Board.

NYC In-School Project Extended for Summer

The vital Neighborhood Youth Corps Program, which has helped to maintain many boys and girls facing the end of their formal education before completion of high school, received a new stimulus recently.

At Action for Boston Community Development, it was announced that the U. S. Department of Labor had agreed to make a local federal grant of \$536,722 to carry out a summer extension of the In-School program.

Under an agreement with the Labor Department, ABCD and the Boston School Department will act as cosponsors for an enrollment of up to 1,500 boys and girls, young men and women, between their 16th and 22d birthdays, from July 1 to September 18.

Young people employed in the NYC projects will be rendering useful community service under local sponsorship. Employment of NYC students will enable them to remain in school and also provide them with a steady source of income.

Enrollees have responded enthusiastically to the NYC, particularly in view of the fact that every other Friday, they receive a paycheck.

This work-study program will not hamper students in their school work. When enrollees return to school, they will work a 10-15 hour week.

Columbia Point Shares Unique Health Service

Tufts University and its School of Medicine will undertake a pioneering effort to help crack the "poverty cycle" through sweeping health programs in both the urban north and the rural south with federal funds of \$1,168,000.

The programs will actively involve the poor themselves by helping them organize health care through community action programs based in area health centers.

Under the research and demonstration grant announced by Sargent Shriver, Director of the Office of Economic Opportunity, the Department of Preventive Medicine of Tufts University School of Medicine will create two comprehensive programs. Each will be built around a full-scale health center, one in Boston and the other in a rural area of the south.

The Boston program will be centered at the Columbia Point Housing Project. Located on Dorchester Bay, the low-income housing project is the largest of its kind in New England with a population of 6,500 persons.

Although the northern project site has been chosen, the first stage of the southern effort will be the identification of a rural county site in any one of the several southern states. Here also, as in the northern program, a university health center will be established which will provide direct medical care, preventive services and health education for an impoverished population. It will also organize a county-wide health improvement association, develop related community action programs, and seek out and train local residents as community health assistants.

Directing the project and in charge of the northern program, from his base at Boston's Tufts-New England Medical Center, will be Dr. Count D. Gibson, Jr., Professor and Chairman of the Department of Preventive Medicine at Tufts. The Associate Director, Dr. H. Jack Geiger, who joins the Tufts medical faculty on July 1 as

Associate Professor of Preventive Medicine, will assume initial responsibility for the program in the south. Ultimately, Dr. Geiger will supervise both projects as Director of a proposed Division of Community Health within the school's Department of Preventive Medicine.

The community health action projects are designed to demonstrate how medical care can best be organized for the poorest and sickest populations in the United States, to study in detail the health needs of such populations, and to measure the effect of community health action in cracking the cycle of poverty, ill health, unemployment and illiteracy by inducing social and economic changes related to health.

The projects are planned so that this information can rapidly be made available to other universities and medical schools, health agencies, and the Office of Economic Opportunity in its attempt to develop similar health improvement efforts as part of its War on Poverty.

To ensure the best possible medical and surgical care for its patients, the Cambridge City Hospital has established professional relationships with the Harvard Medical School through the School's Medical and Surgical Departments and Services at the Boston City Hospital, and through the School's Department and the Pediatric Service at the Massachusetts General Hospital.

Announcement of the new affiliation for patient care, teaching and research, has been made by Dr. George P. Berry, Dean of the faculty of Medicine at Harvard, and by Theodore A. Austin, Director, Cambridge City Hospital, as spokesman for the Hospital's Trustees.

Dr. Berry and Mr. Austin also announce the appointments of Dr. George Nichols, Jr., as Clinical Professor of Medicine at Harvard and Chief of the Hospital's Medical Service, and of Dr. Philip J. Porter, Clinical Associate in Pediatrics at Harvard as Chief of the Pediatric Service. Both appointments are effective as of July 1, 1965.

Operation Head Start Under Way in Boston

Boston's Operation Head Start, designed to give preschool children in the underprivileged areas an even start when they start their formal education careers as kindergartners or first graders in the fall, got under way June 28.

The program is financed by a grant from the U. S. Office of Economic Opportunity, and is co-ordinated by Action for Boston Community Development (ABCD). Participating in the program which will run through August 20, are the Boston School Department, and 18 other sponsoring agencies, including churches and settlement houses.

About half the classes opened last Monday. The others will open July 6.

The children are from lower-income groups. The group covers an age range from four years, three months, to six years, six months.

Classes will be conducted by experienced teachers and trained aids, with 15 children to a class. The program is designed to help children become accustomed to classrooms, so that when they do attend kindergarten in the fall they will be accustomed to the teachers and the routine.

Teachers will strive to assist children whose vocabularies are limited. In addition to the classroom phase children will be taken on trips, for rides on the Swan Boats, and visits to points of interest.

Classes will continue until August 20.

The schoolday runs from 9 A.M. to 1 P.M. Classes are being conducted throughout the city—in Roxbury, Dorchester, North End, South End, Jamaica Plain, Charlestown, East Boston, South Boston, Parker Hill-Fenway, and Columbia Point.

Studious Officer

Boston Police Officer Arnold W. James tackled crime by day for the past four years and cracked crime books at night.

Recently at Northeastern's graduation, James' hectic schedule paid off. He became one of the first recipients of Northeastern University's associate degree in law enforcement.

James, of Roxbury, is a member of the Boston Police Tactical Patrol Force which handles quick call assignments in hard-core crime areas.

A 38-year-old bachelor, he played football at Boston English High School until his graduation and at West Virginia State College which he attended briefly. Also a track enthusiast, James believes both help him in his job.

He plans to continue his studies at Northeastern toward a bachelor's degree.

First Job Corps Girl

Boston's first young woman Job Corps enrollee left Logan Airport on June 25, en route to the Job Corps Center for Women located in Cleveland.

This Center was the first Women's Center established in the country and is under a \$4 million government grant for 24 months.

Nancy Keegan, 16 years old, and a resident of Orchard Park Housing Development, became interested in the Job Corps weeks ago. The program is coordinated locally by ABCD.

Her mother, Mrs. Rose Keegan, receives \$174 per month from Social Security to support herself and two children.

Nancy, a graduate of the Dearborn Grammar School, first learned about the Job Corps from her brother, Francis, who is a member of Norfolk House.

Nancy has always been interested in a nursing career. She has already given 1,500 hours of voluntary service in Boston City Hospital.

After securing more information on the Job Corps and learning about the many opportunities it offers, Nancy applied and was accepted. She will be trained for two years in Cleveland as a practical nurse.

She will receive a two-week orientation program. Following this, Nancy will take a basic education course and train in the occupation of her choice.

As a resident of University House, where the girls are housed, Nancy will be living with girls 16-21 of all ethnic groups from all parts of the United States.

Nancy said that upon finishing her practical nurse's course, she will seek to enroll in a nursing school with the money she receives as a Job Corps member in order to become a full-fledged registered nurse. One of the features of the Job Corps is that enrollees are paid while they learn.

The Cleveland Job Corps Center for Women is an Alpha Kappa Alpha Project. Students selected for all government Job Corps Centers are screened and recruited by Women In Community Service (WICS).

This organization represents the National Council of Catholic Women, Jewish Women, Negro Women, and United Church Women. However, the final selection of girls for the Centers is made by the Job Corps in Washington.

Rodent Drive

Boston's newly-created Housing Inspection Department launched the start of a city-wide rodent control program in the Back Bay.

Housing Commissioner Daniel J. Finn said a professional exterminator will work for two days in the area bordered by Arlington street, Massachusetts avenue, Boylston street, and the Charles River.

"The rodent problem is at its height in the Back Bay due to its proximity to the river and the tremendous congestion of people in apartment houses, with the resultant garbage problem," Finn said.

TRAVELLING HOUNDS

Since dogs must pay carfare aboard streetcars in Basel, Switzerland, transportation officials have arranged season tickets at reduced fares for regular canine passengers. But each season ticket must include a photograph of the dog for identification purposes.

WELFARE COSTS FOR MAY

Following is a summary of the Welfare Department for May:

Lower medical payments in all categories except Medical Assistance for the Aged, cut last month's costs by \$201,978 (4.0 percent to \$4,875,191). The caseload, however, increased by 187 to 33,506 a new high for the year and a 7.1 percent increase of 2,229 since May, 1964. Caseload activity involved 1,427 applications approved and 1,240 closings, in addition to the 311 rejected or voluntarily withdrawn.

Old Age Assistance: Although 190 approvals and 193 closings meant a decrease of only three cases, a seemingly irreversible pattern of reduction in the caseload continues. A January count of 11,291 now reads 11,089, a drop of 202 cases since the beginning of the year. The onset of illness among Old Age Assistance clients however, follows no definite pattern. Hence, fluctuating medical payments have produced budgets rising or falling from month to month, the current figure of \$1,114,787 being the second highest of the year.

Medical Assistance for Aged: This program was unique among the categories this month, the only one to show an increase in both caseload and costs. An addition of 130 recipients, 74 (56.97 percent) of whom were transferred from other categories contributed substantially to the caseload growth. An outlay of \$1,181,682 represented a \$4,672 cost increase above last month.

Aid to Families with Dependent Children: Due chiefly to unemployment (35.0 percent) and marital estrangement (32.6 percent) 383 applications were approved during the month. However, the net caseload increase was reduced to 74 since 309 cases were closed primarily because of client reemployment. In spite of a caseload increase however, an 18.0 percent drop in medical expenses contributed to an over-all cost reduction of \$123,192 with the total expenditure being \$1,725,190.

Disability Assistance: Of 223 requests for assistance received during the month, 171 (76.6 percent) were new, 52 were reapplications. More than one half of the 155 approvals given were based on loss of employment due to illness. The 98 closings brought the net caseload increase to 57 and placed the total caseload reading at 3,915 for the month. To underwrite the program an appropriation of \$660,486 was required.

General Relief: There was considerable caseload activity in this category during the month involving the approval of 348 cases and the closing of 419, for a net reduction of 71 cases. The revised total caseload of 2,375 is a new low for the year. A \$193,046 expenditure represented a 4.4 percent reduction of \$8,911 below last month.

EXTRAORDINARY STEP-RATE ADVANCE UNDER COMPENSATION PLAN.

BUILDING DEPARTMENT.

Supervisor of Personnel.

DEAR SIR:

On June 23, 1965, Vincent Catricala was appointed plumbing inspector in this department after certification for permanent employment by the Division of Civil Service with compensation in Grade R-10 of the Compensation Plan at the rate of \$81.50 per week.

He has been employed in the department as sprinkler inspector, Grade R-10, since March 15, 1957, attaining permanent status on February 26, 1958, and by reason of service in the position has most recently been compensated at the rate of \$98 per week. Mr. Catricala is therefore qualified in two areas of mechanical inspection which are closely allied and highly similar in nature.

It is requested, because of his prior service and qualification with the department, that his $\frac{1}{2}$, $1\frac{1}{2}$, $2\frac{1}{2}$, and $3\frac{1}{2}$ year step-rate increments in the position of plumbing inspector be determined under the provisions of Rule 9 (f) of the Compensation Plan, to be effective June 23, 1965, at the rate of \$98 per week.

Very truly yours,
R. E. YORK, Commissioner.

FIRE

Appointment

Alberta J. Selya, 34 Bloomfield street, Dorchester, statistical machine operator, \$61 a week.

Reinstatement

Leo F. Mooney, 138 Chittick road, Hyde Park, fire fighter, \$133.80 a week.

ELECTION

Appointments

CONTRACTS AWARDED WITHOUT ADVERTISING

LIBRARY DEPARTMENT.

WATCHMAN-RECORDING AND FIRE ALARM SYSTEM.

DEAR MR. MAYOR:

The Trustees of the Public Library respectfully request that you approve the signing of a service agreement, without public advertising, with the American District Telegraph Company, 60 State street, Boston, for the period July 1, 1965, through March 31, 1966, for furnishing inspection service for the combination watchman-recording and fire alarm system in the Central Library building. In 1951 the equipment for the system was installed by the General Alarm Corporation. On September 1, 1965, the assets and service obligations of the General Alarm Corporation were taken over by the American District Telegraph Company. Inasmuch as the servicing of this equipment can be obtained only from the American District Telegraph Company, the Trustees have therefore

"Voted, That there be entered into with the American District Telegraph Company, 60 State street, Boston, a service agreement for the period July 1, 1965, through March 31, 1966, for furnishing of inspection service for the combination watchman-recording and fire alarm system in the Central Library building, the total fee for such services not to exceed one thousand one hundred and seventy-five dollars (\$1,175)."

Although a written contract for this service is not necessary inasmuch as the total cost will be under two thousand dollars (\$2,000), it is believed desirable in this case to have a written contract because of the nature of the work involved.

Respectfully,
MILTON E. LORD,
Director.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES

The Mayor and Public Improvement Commission have approved the following:

That the amount of \$87 is awarded to Carl L. Ward for all damages sustained under the order of the Public Improvement Commission and Mayor of October 8, 1963, for the widening and construction of Capen street, Dorchester district, at the southeasterly corner of Dyer street.

That the amount of \$43.20 is awarded to Ruth I. Clifford for all damages sustained under the order of the Public Improvement Commission and Mayor of September 3, 1963, for the widening and construction of Ashford street, Brighton district, at the westerly corner of Ashford terrace.

That the amount of \$80 is awarded to Marion E. Clark for all damages sustained under the order of the Public Improvement Commission and Mayor of October 8, 1963, for the widening and construction of Capen street, Dorchester district, at the southwest-erly corner of Dyer street.

Permanent

OFFICIAL ADVERTISEMENT TRAFFIC AND PARKING DEPART- MENT

June 28, 1965.

Whereas, The Traffic and Parking Commission is not in session, now, therefore, under the authority granted to me under St. 1929, c. 263, s. 2B, as amended, I hereby promulgate the following:

That the Traffic Rules and Regulations of the City of Boston are amended as follows, effective July 4, 1965:

Article IV, Section 3, Part 2 (Prohibition of Parking), is amended by striking out the following:

Ryder Hill Road, Brighton.

East side, from Brayton road to the dead end, 24 hours.

Article IV, Section 3, Part 2 (Prohibition of Parking), is amended by inserting in its proper place in the alphabetical arrangement under the caption "Boston Proper" the following:

Mechanic Street (Private Way).

Both sides, from Hanover street to the dead end, 24 hours.

Article IV, Section 3, Part 2 (Prohibition of Parking), is amended by inserting in its proper place in the alphabetical arrangement under the caption "Brighton" the following:

Ryder Hill Road.

West side, from Brayton road to the dead end, 24 hours.

Article IV, Section 5, Part 3 (Restrictions in Ten Cent Parking Meter Zones), is amended by striking out the following:

Columbus Avenue, Boston Proper.

Southeast side, from Church street to Stuart street, 8 A.M. to 6 P.M.

Article IV, Section 5, Part 3 (Restrictions in Ten Cent Parking Meter Zones), is amended by striking out from under the caption "Municipal Off-Street Parking Areas" the following:

Under the Fitzgerald Expressway, Boston Proper.

From Traverse street to Washington Street North, 8 A.M. to 6 P.M.

From Washington Street North to Cross street, 8 A.M. to 6 P.M.

From Cross street to North street, 8 A.M. to 6 P.M.

Article IV A, Section 4, Part 2 (Prohibition of Parking in Downtown Area), is amended by striking out the following:

Columbus Avenue, Boston Proper.

Southeast side, from Park square to Church street, 24 hours.

Article IV A, Section 4, Part 2 (Prohibition of Parking in Downtown Area), is amended by inserting in its proper place in the alphabetical arrangement under the caption "Boston Proper" the following:

Columbus Avenue.

Southeast side, from Park square to Stuart street, 24 hours.

The undersigned does hereby certify that after taking into account the public safety and convenience, the reasonably free circulation of vehicular traffic and the need for providing in the streets, ways, highways, roads and parkways in the downtown area of Boston the maximum number of parking spaces at all times, he is of opinion that the amendment made this twenty-eighth day of June, 1965, to

Article IV A of the Traffic Rules and Regulations of the City of Boston is required by urgent public necessity.

A true copy.

CITY OF BOSTON.

HOSPITAL DEPARTMENT.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR THE REMODELING OF VARIOUS X-RAY ROOMS WITHIN THE MAIN X-RAY DEPARTMENT AND SHORTELL UNIT AT THE BOSTON CITY HOSPITAL, 818 HARRISON AVENUE, BOSTON, MASS.

The City of Boston, acting by the Board of Trustees in charge of its Hospital Department, hereinafter referred to as the Awarding Authority, invites sealed general bids for remodeling of various X-ray rooms within the Main X-Ray Department and Shortell Unit at the Boston City Hospital, 818 Harrison Avenue, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), on Wednesday, July 28, 1965, at the office of the Director of Hospitals, on the mezzanine level of the Administration Building, Boston City Hospital, 818 Harrison Avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the forms for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by a responsible bank or trust company, payable to the City of Boston, in the sum of \$10,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids and the subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed

with the Awarding Authority, at the office designated above, before twelve o'clock noon (Eastern Daylight Saving Time) on Wednesday, July 21, 1965, at which time and place they will be publicly opened and read aloud. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority through the architect, Wm. Nelson Jacobs Associates, Inc., 316 Stuart Street, Boston, Mass., and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount specified in the following list for the respective subtrades, shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Miscellaneous Metals and Light Iron.....	\$100
Furring, Lathing, and Plastering.....	\$150
Acoustical Tile.....	\$100
Ceramic Tile.....	\$175
Polyester Flooring.....	\$100
Painting	\$150
Metal Hospital Casework.....	\$250
Plumbing	\$350
Heating, Ventilating, and Air Conditioning	\$400
Electrical	\$750
Masonry	\$100

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the date fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade, by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the architect, Wm. Nelson Jacobs Associates, Inc., 316 Stuart Street, Boston, Mass., on or after 9 A.M. (Eastern Daylight Saving Time), Tuesday, July 6, 1965, upon deposit of a certified check payable to the City of Boston in the amount of \$100 per set of plans and specifications. The amount of the deposit, per set of plans and specifications, will be refunded upon return thereof in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to Wm. Nelson Jacobs Associates, Inc., 316 Stuart Street, Boston, Mass., not later than 30 days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of one hundred percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

Modern Neurological Facility . . .

(Continued from front page)

City Hospital are entitled to the best of such advanced neurological services. These services are in fact a necessity in a modern medical treatment center."

Dr. Mark said that by the spring of 1966 Boston City Hospital "will have one of the finest and most modern neurological services in the world."

In detailing the purpose of the new unit, Dr. Mark said "the relief of severe unrelenting pain, the lessening or eliminating of persistent movement disorders such as tremor and palsy, are just two of the primary functions of neurosurgery."

The new unit, which will cover over 8,000 feet atop the hospital's medical building, will include two operating rooms, a monitoring room, and a special room designed for teaching, which will include closed circuit television to observe operations.

The entire unit will be air conditioned and the air in the operating room will be sterilized by ultraviolet light. Construction will begin in mid-October.

Six Boston Boys Seek Self-Reliance on Deserted Hurricane Island Off Maine's Rocky Coast

Five Roxbury boys and a sixth from Brighton were among a group of boys who left Boston over the holiday weekend to "get lost" on a deserted spot called Hurricane Island off the rocky coast of Maine.

They've enrolled in one of the nation's most unique educational programs—a bit of schooling called "Outward Bound."

The stalwart, adventure-seeking youngsters include two brothers, Raymond and Warren Taylor, 173 Ruthven street; Robert Reid, 63 Bernard street; Joel Monroe, 94 Seaver street; and John W. Thomas, 96 Alexander street, all of Roxbury; and John J. O'Donnell, 11 Hobson street, Brighton.

Outward Bound is an unusual type of school. First it toughens up its pupils, rids them of any excess weight and then it gives them a real taste of how tough nature in the raw can be. The boys are subjected to rigorous experiences that demand stamina, courage, and resourcefulness.

The six boys are being sponsored at the nonprofit school by Action for Boston Community Development, Inc., under a grant from the Office of Economic Opportunity in Washington, in one of its most unusual youth training programs.

Outward Bound camps are unusual in this country. Besides the one located at Hurricane Island, a ferry ride out of Rockland, Maine, there are only two others in the United States. One a pioneer

developed near Aspen, Colorado, and another in the Superior National Forest, Minnesota.

Idea for the American camps stemmed from similar programs used in Germany's most mountainous regions and for the training of British sailors and marines in World War II.

Purpose of the camps is to develop self-reliance in the face of danger, fitness, and above all a self-confidence to face and solve the toughest kind of physical problems.

The Hurricane Island camp went into operation last summer and drew wide attention in the East. The island is one of the unspoiled spots off the Maine Coast, rugged and tough in every sense of the word.

The program which extends through the summer calls for basic training, particularly in the handling of small craft along the rocky shores. After the boys have been toughened up and given plenty of grounding in the art of survival in almost primeval conditions the program is really stepped up.

Sleep, plenty of exercise, and good food are requisite considerations for the 100 young men undergoing the training. But plenty of thrilling experiences in hand-to-hand fighting with the high seas pounding the shore and the rest of the man-traps nature has built into Hurricane Island are what the boys have asked.

The well-trained faculty not only promises to provide them but to send the boys home along toward summer's end much better prepared for whatever life may throw at them.

FIGHTING WEIGHT

A League of Women Voters study group, wrestling with the world's problems, was discussing whether to send wheat to Russia and whether such wheat would raise the standard of living and make the Reds less disposed to war. Finally, one quiet member settled it. "If you feed them enough, they'll be less likely to fight," she said, then explained her reasoning: "I know. I've been on Metrecal for two weeks, and I'm ready to fight anybody!"

CHRONICLE

MUNICIPAL
AFFAIRS

HON. JOHN F. COLLINS, MAYOR OF BOSTON

JOHN J. TIERNEY
PRESIDENT CITY COUNCIL

VOL. 57

SATURDAY, JULY 10, 1965

NO. 28

John F. Flaherty, Veteran Municipal Engineer, Named Head of P. W. D.

The appointment of John F. Flaherty as Commissioner of Public Works was announced July 1 by Mayor Collins.

A career employee in the city service since 1931, Mr. Flaherty, 58, succeeds Commissioner James W. Haley, who retired on June 30. Mr. Flaherty has been deputy commissioner of the D.P.W.'s Sanitary Service for four years.

A registered professional engineer and past president of the Boston Society of Civil Engineers, the newly appointed commissioner recently was elected to office in the New England Chapter, American Public Works Association.

He was graduated from Mechanic Arts High School and Lowell Institute of M.I.T.

He entered the city service 34 years ago as an employee of the old Boston Transit Commission, later transferring to the D.P.W. when the former agency was abolished.

He was named division engineer of the Sanitary Service in 1957 and elevated to the post of deputy commissioner four years later.

Mr. Flaherty will receive \$16,000 a year in his new position.

Born and raised in South Boston, he now makes his home at 84 Ridgewood road, Milton.

Meter Supervisors

Mayor Collins announced last week that applications are being received for the post of parking meter supervisors (meter maids). They will give out tickets to illegal parkers. They will not collect from meters.

The Traffic Department is in the process of abolishing the job of meter collector and will let a contract to a private collector at an estimated saving of \$20,000 annually.

Until the contract is awarded through competitive bidding, the job is being handled by Brink's, Inc., under a three-week service order for \$1,700.

The Mayor said the city will initiate the meter maid system in September with an initial force of 13 women supervisors.

Summer Concerts

Summer band concerts will be held at Parkman Bandstand on Boston Common every day of the week, except Mondays, Mayor Collins announces.

Weekday concerts will be held from 12 NOON to 2 P.M. and Sunday concerts, through August 29, will be from 2 to 4 P.M.

In addition, the Musicians' Union of Boston will present a series of Sunday concerts alternating between Jamaica Pond and Franklin Park.

These concerts, from 2 to 4 p.m., will be at:

Jamaica Pond—July 11 and 25, August 8 and 22.

Franklin Park—July 18, August 1, 15, and 29.

Modern Neurological Facility To Be Built At Boston City Hospital; Available Next Spring

On June 30 Mayor Collins presented Boston City Hospital with a check for \$450,000 to be used to give the hospital one of the finest and most modern neurosurgical services in the world by the spring of next year.

The check covers the cost of the 8,000-square foot ultramodern installation atop the hospital's medical building. It was presented to Doctors Derek Denny-Brown, director of the neurology unit, and Vernon H. Mark, one of the nation's leading neurosurgeons and director of the neurosurgical service.

The money is part of the \$5 million set aside by the city for the rebuilding of the hospital.

In presenting the city's check to Dr. Mark and Dr. Denny-Brown, Mayor Collins said "the citizens of Boston and the patients at Boston

Operation Head Start Smoothly Launched As 1,500 Youngsters Get Acquainted With School

Even as the end-of-school year war whoops of their elder brothers and sisters still echoed, some 1,500 small boys and girls got their first introduction to "formal" schooling as Operation Head Start—Boston got under way.

Formality, of course, quickly gave way to informality—pre-kindergarten style, that is.

The little ones on the first day acted exactly like their older sisters and brothers did when the latter found themselves meeting head-on with a mystery called school. Some cried. Some clung tenaciously to mothers' hands and skirts. Some placidly sucked thumbs and awaited developments. Most betrayed the curiosity of youth everywhere—"What's this all about?"

By the second day all of them seemed to be in favor of school—the Head Start, prekindergarten type of school.

The Boston program, coordinated by Action for Boston Community Development, Inc., was smoothly launched with two opening dates—June 28 for some classes and on July 6 for the remainder of the 100-odd groups.

The class groups are located in Brighton, North Dorchester-Roxbury, South End, Jamaica Plain, Charlestown, East Boston, South Boston, Parker Hill-Fenway, North End, Columbia Point. Under ABCD's aegis they are sponsored by Boston's School Department and a score of private, voluntary, and religious agencies.

A grant of \$234,934 by the U. S. Office of Economic Opportunity made the project possible.

Head Start is a nationwide program. In the opinion of the First Lady, Mrs. Lyndon B. Johnson, Sargent Shriver and officials of the OEO, it is one of the most important weapons in the anti-poverty arsenal.

Mayor John F. Collins hailed the program as "a tremendously worth-while project—bound to pay rich future dividends for our children."

"I consider this one of Boston's highest priority community action programs," the Mayor said. "I wish to congratulate ABCD and all the public, voluntary, and private agencies participating."

Mrs. Rheable Edwards of Homestead street, Roxbury, is director of Head Start in Boston.

The Head Start school day begins at 8 A.M. and ends at 1 P.M., Monday through Friday, during an eight-week period which ends August 20. There'll be play periods, a snack and rest period and lunch. When necessary, transportation will be furnished the little ones.

Field trips to spots like the Public Garden and elsewhere are planned.

About 600 professional and non-professionals will staff and supervise the classes, in schools and other carefully selected locales. Each class will include a qualified head teacher and an assistant teacher along with other trained aides.

One of the most important features of the program is that which will concern the child's health. Expert medical advice will be available along with the facilities of several large hospitals and dental clinics.

Scores of mothers will play important active roles in many phases of the program. Assigned to assist will be around 200 boys and girls enrolled in the Neighborhood Youth Corps.

Along with assigning highly qualified teachers the Boston School Department will provide classroom space and facilities and also make available consulting services.

Each class is limited to 15 enrollees. One of the conditions of enrollment is that none of the children has previously attended kindergarten or first grade. All are due to become kindergartners or first graders in the fall. Age limits are from four years and three months to six years and two months.

Ninety-Three Retire

Ninety-three city employees have had their retirements approved, effective immediately, by the Boston Retirement Board.

Fifty-six were connected with the School System; 14 in the Hospital Department; seven in the Police Department.

The longest from the standpoint of city service was Ida M. Fields of Chestnut Hill who taught kindergarten in the Dorchester-Roxbury-West Roxbury area for almost 51 years. Ida and Blanche Feldman, sister teachers, served a total of 80 years.

Code Violations Cited

Property inspections of 1,538 dwellings in South Boston, Jamaica Plain, Dorchester, and Roxbury have resulted in a total of 3,430 housing and sanitary code violations, Mayor Collins announced last week.

The violations were found by Boston's new Housing Inspection Department in its first six weeks' activities. The department has inspected 7,135 houses and apartments.

Housing Inspection Commissioner Daniel J. Finn reported to the Mayor that placards have been placed on 50 dwellings to ban further occupancy because they are unfit. The placards will be removed if violations are corrected by the owners.

Mayor Collins said the violation rate ranges from 6 to 8 percent in South Boston, Dorchester, and Jamaica Plain to 25 to 30 percent in Roxbury.

The Mayor said the department also has undertaken an inspection program of 220 dormitories, fraternity houses, and lodging houses in the Back Bay. The new unit has started a rodent control campaign in the Back Bay and completed a mosquito spraying project in East Boston.

Joint Display

Boston and Cambridge staged a joint fireworks display on the Charles River on July 5, as a climax to the long Independence Day holiday weekend.

MDC Chairman Howard Whitmore granted the two cities permission for fireworks to be exploded from a large barge between the Longfellow and Harvard Bridges in the Charles River Basin.

That same night Boston conducted another fireworks display on the water off the South Boston-Dorchester Bay area.

Bernard B. Whelan

Bernard B. Whelan, 77, of 29 Addington road, West Roxbury, retired superintendent of the Wiring Division of the Boston Fire Department, died on June 30 in Hyannis after a short illness.

Mr. Whelan served with the city for more than 40 years. He was an inspector in the Fire Department's Wire Division for 28 years, and superintendent for 19 years, until retirement in 1957.

During his term as superintendent, he was called upon to testify during the famed trial following the Coconut Grove fire which took 491 lives. In his testimony he said that the wiring of the club was installed in violation of the laws.

Mr. Whelan was a past president of the Eastern Section, International Association of Electrical Inspectors; past chairman of Paul Revere Chapter, Eastern Section, I.A.E.I., and a member of the Municipal Inspectors of Massachusetts and Rhode Island, and the Holy Name Society of St. Theresa's Church, West Roxbury. He was associated with the Electrical Institute, Inc., of Boston, and was a past member of the Massachusetts Catholic Order of Foresters.

He leaves three daughters, Bernadine F. Whelan of West Roxbury, Mrs. Claire Johnston of Hingham, and Mrs. Marion Stevens of Hyannis; four grandchildren; two brothers, John and Thomas, both of Norwell, and a sister, Mrs. Claire Cashman of Boston.

Sisters Honored

Sisters who are retiring from the Boston Welfare Department were honored at a joint dinner party on July 1 at Charles River Charter House Motor Hotel.

Mrs. Ethyl M. Clancy of Jamaica Plain is head social work supervisor, and Miss Gertrude J. Leahy of Brighton is supervisor of the payment section.

Mrs. Clancy has been with the department for 47 years, serving in a supervisory capacity since 1933. She is a past president of

Massachusetts Relief Officers Association.

Miss Leahy joined the welfare staff in 1920 and was appointed head administrative clerk in 1943. For many years she supervised the burial division and in 1956 assumed responsibility for the payment section.

FIRE DEPARTMENT ORDERS

June 15.

General Order No. 23.

I. DANIEL J. BAGLEY.

It is with deep regret that the Fire Commissioner announces the death, on June 6, 1965, of Fire Fighter Daniel J. Bagley of Engine Company 17. Fire Fighter Bagley was appointed to the department on November 28, 1945.

The funeral was held from the John F. O'Brien Funeral Home, 146 Dorchester street, South Boston, at 9 A.M., Wednesday, June 9, 1965, followed by a Solemn High Funeral Mass at St. Joseph's Church, 85 Regent street, Roxbury, at 10 A.M.

The Chief of Department made the customary detail to act as funeral escort, and the members of Engine Company 17 and Ladder Company 7 were excused from duty in order to attend the funeral services.

II. CHANGE IN DESIGNATION OF FIRE ALARM BOXES.

The designation of the following fire alarm boxes will be changed to read as given below:

12-5372, St. John's Seminary, St. William's Hall, 5 Lake street.

12-5374, St. John's Hall, opposite 106 Lake street.

13-5374, St. John's Seminary, Bishop Peterson Hall, 127 Lake street.

The name of the Ramsay House has been changed to LaSalle Manor Nursing Home.

The designation of Fire Alarm Box 13-2523 will be changed to read as follows:

13-2523, LaSalle Manor Nursing Home, 11 Revere street.

Company commanders will make the above changes on assignment cards.

III. FIRE ALARM BOX DISCONTINUED.

The following fire alarm box has been removed from service and discontinued permanently:

12-3165, Simms Brothers, 242 Freeport street (Circuit 68).

Company commanders will delete above box from assignment cards and from Circuit Card 68.

IV. CHANGE IN ASSIGNMENT.

Effective at 8 A.M., Thursday, June 17, 1965, the following change in assignment shall be made:

Box 5117, first alarm, drop Brookline Engine 5.

V. DISCONTINUANCE OF A.D.T. SIGNAL.

Notice has been received from the American District Telegraph Company that the following signal has been discontinued:

Signal 3474, Congress Sportswear Company, 89-91 Bedford street.

VI. HIGH COMMENDATIONS.

The Fire Commissioner is pleased to highly commend Fire Fighter Joseph F. Hoar of Ladder Company 4 for rescuing a child during a fire at 14 Adams street, Roxbury, about 10.54 P.M., May 7, 1965. Fire Fighter Hoar ran over the front stairs to the third floor, entered an apartment which was heavily charged with smoke and gases, proceeded through the living room and entered a bedroom which was heavily involved in fire. He ran across this room and removed a child from a crib and, shielding the baby from the heat, he ran out of the bedroom. A few moments later the fire had extended to all the furnishings in the bedroom.

Fire Fighter Hoar performed the foregoing rescue work without a gas mask, before ventilation had begun, and before hose lines were in operation.

The Fire Commissioner is pleased to highly commend Fire Fighter John S. Varner of Engine Squad 18 for removing

the body of a boy from a flooded pit at a construction site at 100 Delhi street, Dorchester, at about 6.09 P.M., on May 30, 1965. With complete disregard for his own personal safety, Fire Fighter Varner dove into the pit several times before bringing the body of an eight-year-old boy to the surface.

His rescue work was performed under extremely hazardous conditions as the pit contained rocks and other debris.

June 29.

General Order No. 25.

I. RETIREMENT.

The following retirement, in accordance with the provisions of sections 7 and 94 of chapter 32 of the General Laws which will become effective at 8 A.M., Thursday, July 1, 1965, is hereby announced:

Fire Fighter John P. McCabe of Ladder Company 22.

Fire Fighter McCabe was appointed to the department on April 3, 1946. He leaves the department with the best wishes of his associates.

II. RESIGNATION.

The following resignation, which will become effective at 8 A.M., Tuesday, July 6, 1965, is hereby announced:

Fire Fighter Joseph I. McGrath of Ladder Company 10.

III. FIRE ALARM BOXES INSTALLED.

The following fire alarm box, which was established in General Order No. 22, dated June 5, 1965, has been installed and connected into Circuit No. 3:

13-1243, St. Stephen's Church and rectory, 401 Hanover street (add to Circuit Card 3).

POLICE DEPARTMENT ORDERS

June 22.

General Order No. 256.

Subject: Revision of Day of Relief Schedule and Hours of Duty.

I. PURPOSE.

A. This order provides for increased availability of present department personnel during the days and hours in which there exists a high incidence of crime and requests for police service. Its implementation will provide a more efficient patrol that will increase the department's crime prevention efforts.

B. Days of Relief on Fridays and Saturdays will be discontinued for personnel of the Patrol Division.

C. A fourth Working Shift is established that will extend from 7 P.M. to 2 A.M. daily.

D. Elimination of last half tours of duty prior to Days of Relief.

E. General Order No. 1389, dated December 6, 1950, is rescinded, effective at 12:01 A.M., Sunday, June 27, 1965.

II. BUREAU OF FIELD OPERATIONS.

A. Patrol Division—Districts.

1. District commanders shall apportion the patrolmen in their command into three equal platoons, namely, one day platoon and two night platoons.

2. Variations from such apportionment may be made subject to the approval of the Superintendent of the Bureau of Field Operations.

3. The complement of each such platoon shall then be evenly divided into five (5) squads and each member of the platoon shall be assigned to duty in either Squad 1, 2, 3, 4, or 5.

4. The personnel of each squad shall take their Days of Relief in accordance with the attached "Day of Relief" schedule.

5. On each day, Sunday to Thursday, inclusive, there shall be no more than two (2) squads on Days of Relief. A full cycle of Days of Relief, in accordance with the attached schedule, will be as follows:

1st Week—Sunday and Monday.

2d Week—Monday and Tuesday.

3d Week—Tuesday and Wednesday.

4th Week—Wednesday and Thursday.

5th Week—Sunday and Thursday.

6th Week—Sunday and Monday, etc.

6. The hours of duty of all Patrol Division personnel shall be limited to the following shifts:

(a) First Shift—12:30 A.M. to 7:45 A.M.

(b) Second Shift—7:45 A.M. to 5:45 P.M.

(c) Third Shift—5:45 P.M. to 12:30 A.M.

(d) Fourth Shift—7 P.M. to 2 A.M.

7. Officers on night duty shall not be assigned to other than an alternating schedule of tours of duty without approval of the Superintendent of the Bureau of Field Operations. Requests for such tours of duty and the reasons therefor shall be forwarded to said superintendent.

8. The regular alternation of the First and Third Shifts shall be modified as follows:

(a) All Patrol Division personnel ordinarily scheduled to report for duty on a First Shift, as indicated in this order, immediately preceding their Days of Relief shall instead report for duty on the Fourth Shift.

(b) Patrol Division personnel ordinarily scheduled to report for duty on a First Shift, as indicated in this order, on either Thursday or Friday after having completed their Day of Relief on either Wednesday or Thursday, shall instead report for duty on the Fourth Shift.

9. Commanding officers of divisions, districts, and units attached to the Bureau of Field Operations shall take Sunday as one of their days of relief, and the second day of relief will be taken in accordance with a schedule prepared by the Superintendent of the Bureau of Field Operations.

10. Commanding officers of divisions, districts, and units attached to the Bureau of Field Operations shall arrange day-off schedules for superior officers under their command that will not interfere with the proper functioning of their division, district, or unit. During the absence of the division, district, or unit commander, the senior superior officer shall be in charge of the particular division, district, or unit, unless otherwise ordered or approved by the Superintendent of the Bureau of Field Operations.

11. The responsibility for traffic control on Sundays in Districts 1, 2, 4, and 14 shall rest with the respective commanding officers.

B. Criminal Investigation Division.

The commanding officer of the Criminal Investigation Division shall arrange a day-off schedule for personnel assigned to his command that will not interfere with the proper functioning of the division.

C. Traffic Division.

The commanding officer of the Traffic Division shall arrange a day-off schedule that will permit all officers attached to the Traffic Division to take one day of Relief on Sunday. The second day of relief shall be assigned by the commanding officer in such a manner as to afford an efficient operation of the Traffic Division.

III. BUREAU OF INSPECTIONAL SERVICES, BUREAU OF GENERAL SERVICES, AND ADMINISTRATIVE DIVISION.

The commanding officers of the Bureau of Inspectional Services, the Bureau of General Services, and the Administra-

tive Division shall establish a schedule of days of relief for personnel assigned to their command which will provide for the most efficient operation of their respective bureaus and division.

IV. DAY OF RELIEF SCHEDULE FOR 1965.

Forwarded with this order are two copies of the "Day of Relief Schedule for 1965," one copy of which shall be posted on the bulletin board for the information of all officers.

V. EFFECTIVE DATE.

This order is effective at 12:01 A.M., Sunday, June 27, 1965.

June 23.

Personnel Order No. 749.

Patrolmen Thomas L. Donahue and Harold J. Linehan, District 10, are hereby commended for meritorious police duty and each granted three days' additional vacation.

About 3:40 A.M., Friday, May 28, 1965, the above officers, assigned to a sector car, observed that the window blinds in the office of the New England Telephone and Telegraph Company, 63 Roxbury street, were closed, contrary to the usual practice of the management to leave the blinds open at all times.

On further investigation, the officers found an iron bar sawed off a rear window and the window open. Summoning additional assistance, the officers entered the building and found the office safe half peeled off and a set of burglar tools on the floor. On a further search, they found a man hiding between a desk and the office wall.

The suspect was arrested and identified as Russell House, 44 years, of 147 Beal street, New York City, who has a long criminal record for safe jobs and other serious crimes.

On June 11, 1965, in Suffolk Superior Court, the defendant pleaded guilty to three indictments and was sentenced to three to five years at the Massachusetts Correctional Institution.

The Police Commissioner is pleased to recognize the alertness, devotion to duty and courage displayed by the officers in the apprehension of this felon.

June 29.

Personnel Order No. 750.

In accordance with law the following-named police officers are hereby retired from active duty in the Boston Police Department, effective at the close of business, Wednesday, June 30, 1965:

Veterans' Retirement Act, Section 58, Chapter 32.

Lieut. Donald F. MacKinnon, District 2.

Patrolman Charles R. Condrick, Traffic Division.

State-Boston Retirement System.

Lieut. Thomas J. Mundy, District 5.

Lieut. Denis J. Riordan, District 5.

PARKS AND RECREATION DEPARTMENT.

INVITATION FOR GENERAL BIDS FOR REPAIRS AND ALTERATIONS TO ADMINISTRATION BUILDING AT FRANKLIN PARK SERVICE YARD, WEST ROXBURY, MASS.

The City of Boston, acting by the Commissioner of Parks and Recreation, 33 Beacon street, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for repairs and alterations to Administration Building at Franklin Park Service Yard, West Roxbury, Mass. General bids will be received until 2 o'clock P.M. (Eastern Daylight Saving Time), Tuesday, August 3, 1965, at the office of the Awarding Authority, 33 Beacon street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained at the Engineer's office of the Parks and Recreation Department, 33 Beacon street, Boston, Mass. Each copy of the general bid shall be properly filled out, signed, enclosed in an envelope, sealed and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$700. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid signed set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority at the above address before 12 o'clock noon (Eastern Daylight Saving Time), Tuesday, July 27, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: title of work; subtrade for which subbid submitted; subbidder's name; subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades, as listed below, shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Lathing and Plastering.....\$100

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the date fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority on and after Monday, July 12, 1965, upon deposit of a certified check, payable to the City of Boston, in the amount of \$15 per set of plans and specifications. The full amount of the deposit will be refunded upon return thereof in good condition to the Awarding Authority, with the general bid, or within thirty days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth of Massachusetts, and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

PROPOSALS FOR INSTALLING 800 PARKING METER POSTS IN THE CITY OF BOSTON, MASS.

The City of Boston, acting by the Commissioner of Traffic and Parking, hereinafter referred to as the Commissioner, with offices at 112 Southampton street, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for installing 800 parking meter posts in the City of Boston, Mass. A performance bond and also a payment bond, each of a surety company satisfactory to the Commissioner and each in the sum of 100 percent of the contract price will be required of the successful contractor. Forms of proposals may be obtained at 112 Southampton street. Each proposal should be filled out, signed, enclosed in an envelope, sealed, marked "Proposal for Installing 800 Parking Meter Posts in the City of Boston, Mass.," one copy of which is to be left at 112 Southampton street before 12 M. (Eastern Daylight Saving Time) on Monday, July 26, 1965, with a certified check for five hundred dollars (\$500) payable to and to become the property of the city if the proposal after acceptance is not carried out.

The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the unit price on any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to accept any proposal or any item of a proposal should he deem it to be for the best interests of the city so to do.

CONTRACTS AWARDED WITHOUT ADVERTISING

AUDITORIUM COMMISSION.

WAR MEMORIAL AUDITORIUM.

DEAR MR. MAYOR:

Your Honor's authority is hereby respectfully requested to award to Limbach Company, 150 Causeway street, Boston, a contract for the operation and preventive maintenance (other than washing or replacing air filters) of all plumbing, heating, and air-conditioning systems in the city's War Memorial Auditorium at 900 Boylston street, Boston, twenty-four hours a day, including Saturdays, Sundays, and legal holidays, from 4 P.M., on June 30, 1965, to 4 P.M., on September 30, 1965, at a basic cost to the city of \$600 a week plus an additional fee of \$15 for each day an exhibition, convention, show or gathering is held or is being set up, rehearsed or dismantled, and a further fee of \$70 for each day the refrigeration machines for the assembly and exhibition halls are operated at the written request of the commission with the latter fee becoming \$85 instead of \$70 if the \$15 fee is not paid for the same day. The contract will contain a provision that Limbach Company shall not operate the systems or provide preventive maintenance therefor after liability on the part of the city is accrued to an aggregate of \$12,500.

Limbach Company was the subcontractor who installed the systems involved. If Limbach Company is engaged to operate these systems during the period involved, Limbach Company could hardly deny proper operation in the event of a situation occasioning resort to the guarantees respecting these expensive systems. This advantage could not be secured were the contract awarded to another; and so, we submit, no useful purpose would be served by inviting by advertisement bids for this contract.

Very truly yours,

ROBERT C. NORDBLOM,
Chairman.

CITY REGISTRAR'S REPORT FOR JUNE

City Registrar William J. Kane announced the monthly figures on Boston births, marriages, and deaths for June as follows:

	1965	1964
Births.....	2,092	1,019
Marriages.....	803	777
Deaths.....	1,138	1,181

Totals for six months, January to June, are as follows:

	1965	1964
Births.....	10,218	10,913
Marriages.....	3,308	3,300
Deaths.....	6,621	6,323

The above figures refer to births, marriages, and deaths which occurred in Boston, regardless of official places of residence.

INVITATION FOR GENERAL BIDS FOR REPAIRS TO GREENHOUSE PLANT AT FRANKLIN PARK SERVICE YARD, WEST ROXBURY, MASS.

The City of Boston, acting by the Commissioner of Parks and Recreation, 33 Beacon street, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for repairs to Greenhouse Plant at Franklin Park Service Yard, West Roxbury, Mass.

General bids will be received until 2 o'clock P.M. (Eastern Daylight Saving Time), Tuesday, August 3, 1965, at the office of the Awarding Authority, 33 Beacon street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained at the Engineer's office of the Parks and Recreation Department, 33 Beacon street, Boston, Mass. Each copy of the general bid shall be properly filled out, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid signed set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority at the above address before 12 o'clock noon (Eastern Daylight Saving Time), Tuesday, July 27, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: title of work; subtrade for which subbid submitted; subbidder's name; subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on

the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades, as listed below, shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Heating\$100

No subbid may be withdrawn after the time limit for the filing of subbids, and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the day fixed for the opening of the general bids. In addition neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders may be withdrawn after the opening of the general bids, and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority on and after Monday, July 12, 1965, upon deposit of a certified check, payable to the City of Boston, in the amount of \$15 per set of plans and specifications. The full amount of the deposit will be refunded upon return thereof in good condition to the Awarding Authority, with the general bid, or within thirty days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth of Massachusetts, and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

DEPARTMENT OF SCHOOL BUILDINGS.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR REPAIRING BOILER AND INCINERATOR MASONRY IN DISTRICT NO. 3, IN VARIOUS SCHOOLS, BOSTON, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for repairing boiler and incinerator masonry in District No. 3, in various schools, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Wednesday, July 28, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not

be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Wednesday, July 21, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Masonry, etc.\$900

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a sub-contract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

Mayor's Long-Range Plan To Guard City Against Water Shortage

Long-range plans for a total \$40,500,000 in improvements to both water and sewer systems in Boston were unveiled by Mayor Collins.

He asked the City Council to approve his applications for federal grants of:

\$240,000 to plan \$23,300,000 of improvements to the Boston main drainage system, relief sewers and outlet works.

\$175,000 for engineering plans leading to \$17,200,000 in construction of new and improved water systems serving most sections of the city.

The Mayor, in his message on need for an improved Boston water distribution system, pointed out for the first time "a distinct deficiency" in water pressure in some areas for fire-fighting purposes.

The Mayor called it "a definite hazard to public safety."

He said construction of new water lines, tunnels, and cleaning of systems "will assure an adequate amount of water (including that required for fighting fires) for all sections of the city for many years to come."

The two orders were referred to the Council's Appropriations and Finance Committee for a public hearing in the near future.

Mayor Collins outlined water systems improvements totalling \$3,000,000 in Charlestown; \$1,615,000 in Roxbury; \$3,270,000 in West Roxbury and Hyde Park; \$3,970,000 in the downtown Boston area; \$700,000 in Dorchester; \$620,000 in East Boston; \$580,000 for South Boston; and a miscellaneous \$3,450,000 for other improvements to 8-inch and smaller mains around the city and local work at Mission Hill and Brighton.

In sewer system improvements to tie in with the MDC main trunks under construction, Mayor Collins estimated need of \$6,000,000 for work on the main interceptor; \$7,300,000 for the East Side interceptor; a total of \$10,000,000 to eliminate overflow in recreational areas, and \$200,000 for land acquisitions.

Mayor to Serve in Top National Youth Post

Vice-President Hubert Humphrey last week announced appointment of Boston Mayor John F. Collins as a member of the national Youth Opportunity campaign task force.

Vice-President Humphrey, in a letter to Mayor Collins, said to date federal, state, and local governments along with private employers have pledged to hire over 400,000 young men and women for summer work.

"These young people will benefit substantially by getting a good, solid start on their work careers or by earning the money necessary to go back to school this fall," Vice-President Humphrey said.

In Boston, most of the usual summer jobs in city departments have been given over this year to youths from low-income and welfare families in a program being administered by Action for Boston Community Development.

Mayor Collins met with President Johnson and Vice-President Humphrey on June 3 on the Youth Opportunity campaign. The Mayor said: "We've gone a long way since the President first announced this campaign on May 23, but there is still a great deal more that we can do."

"I don't intend to let up until every possible summer job is filled by a young person who wants and needs work."

ABCD Wins \$704,000 Grant to Continue Work in Youth Development-Delinquency

Announcement was made recently of a \$704,000 grant to Action for Boston Community Development, Inc., by the Department of Health, Education and Welfare Administration in Washington, to continue the local war on delinquency.

Word of the HEW's okay, through its Office of Juvenile Delinquency and Youth Development, was received by Mayor John F. Collins and Executive Director Joseph S. Slavet of ABCD.

The grant is for work first approved by the President's Committee on Delinquency in major cities across the country.

Boston is one of only four cities getting the "carry on" signal, indicating the favorable reaction of Washington officials to the methods and the use of funds here.

Boston's original federal grant for the first year of the program was \$700,000.

The main objective of the project is to reduce the volume and seriousness of criminal-type acts committed by 12- to 16-year olds living in crowded areas of the city. The project calls for intervention in the processes by which youth and adults learn and perform their extralegal roles.

The rationale rests on the assumption that strengthening these processes will lead to more conforming behavior by youth with respect to the law.

To illustrate the basic strategy of this multipackaged project, it is assumed that strengthening a boy's role performance in school by improving his reading skill will reduce the chances of his committing a criminal-type act. A program is designed with the objective of improving reading skills.

When the demonstration period is over, it is necessary (1) to determine whether the reading skills of individuals exposed to the program have in fact improved and (2) whether those whose reading improved also committed fewer criminal-type acts than had been anticipated.

Far-Reaching Inquiry

High delinquency rates, by terms of the project's rationale, are related to a breakdown in role performances by youth and by the adults who are significant in their lives. Most of the programs are addressed directly to youth. This program is concerned primarily, though not exclusively, with the adult members of families who are

beset by problems that damage and distort their performance of their roles as parents, husbands, wives, and economic providers for their children.

In the low-income areas in which the project concentrates its efforts, families face serious problems with respect to employment, physical and mental health, involvement with the courts, child rearing, home-management, and other environmental and personal difficulties. Adults who have struggled with these problems since their own childhoods often lack both the knowledge and the skill for performing their roles and for teaching appropriate role performance to their children.

The program is designed to assist families to overcome these handicaps and limitations by reaching out to them with services that are geared to the resolution of their problems.

Playing highly integrated roles and forming the basis for the entire program are ABCD-coordinated service centers in Roxbury and Charlestown, the South End Neighborhood House, a special unified legal service program, youth training and employment programs.

Working with ABCD in the reading, school guidance, adjustment counselling, work-study, home and school liaison and college campus programs are the Boston public schools and other top educational institutions.

The broad program focusing on the entire problem of youth in the target areas even includes Head Start, a prekindergarten project.

Teacher Exams for Boston Schools Aug. 17

Special summer examinations for teaching appointments to the Boston public schools will be held at Boston Latin School on August 17 at 9 A.M.

The examinations will be given for high, junior high, primary, and specialized teaching positions.

An interview will be conducted with each candidate on the day of the examination.

Applicants, including college seniors, are admitted to the examinations without previous teaching experience. Inquiry concerning state certification should be made to the Massachusetts Department of Education, 200 Newbury street, Boston.

Registration for the examination should be made with the Board of Examiners before July 30. The registration fee is \$5 for all applicants except veterans.

Sample copies of previous examinations and detailed information may be obtained from the Board of Examiners, eighth floor, 15 Beacon street.

BHA Draws Many New Workers from Youth Opportunity Programs with Help of ABCD

Approximately 75 young people, 16-22, are gainfully employed in various capacities at the Boston Housing Authority, according to Chairman Jacob I. Brier of the Boston Housing Authority.

Chairman Brier noted that the Authority is making every effort to support the goal established by Mayor John F. Collins when he was informed of his recent appointment to the National Youth Opportunity Campaign Task Force by Vice-President Hubert H. Humphrey.

The Mayor said, "I don't intend to let up until every possible summer job is filled by a young person who wants and needs work."

Mr. Brier added that the Authority eventually will have a total of 130 young people working under the provisions of the President's Youth Opportunity Program, the College Work Study Program, and the Neighborhood Youth Corps.

The President's Youth Opportunity Program, a voluntary summer hiring program suggested by the President, was approved and is administered by the Authority.

Six summer trainees in this group have been assigned to the Department of Tenant and Community Relations, the Planning and Development Section, the Tenant Selection Office, and the Department of Administrative Methods and Research. The trainees work a total of 40 hours weekly at a pay scale of \$1.25 per hour.

A total of 30 trainees are being assigned to the Boston Housing Authority from the College Work Study Program administered locally by Action for Boston Community Development.

Those already employed and the majority of those to be assigned will work with housing managers in each of the 13 managerial offices. Students are paid for a 32-hour-work week through the offices of ABCD.

The largest number of new recruits, eventually totalling 100 in

number, are registered with the Neighborhood Youth Corps and are being referred to the Housing Authority by the counsellors of local Neighborhood Youth Centers. The Neighborhood Youth Corps was created by the Economic Opportunity Act.

This group is made up of in-school students whose working period ends September 3 and school dropouts who will be employed for an indefinite period. The aim of this program is to provide work training and the development of good work habits together with an earned weekly income.

Enrollees in the in-school groups have been assigned as clerical assistants in the Authority's management offices and as neighborhood aides in housing developments.

Neighborhood aides, working under the supervision of members of the Authority's Department of Tenant and Community Relations, are serving as playground supervisors and performing essential, time-consuming tasks, such as checking on the well-being of elderly people and shut-ins, assisting them with their shopping or other needs, and escorting them to hospitals or medical appointments.

The performance of such duties, Mr. Brier pointed out, enables the tenant and management aides to devote more time to those situations which require the professional attention and skill of trained social workers.

Boys in the Neighborhood Youth Corps are being assigned to custodial duties in the developments, performing the extra duties which can't be handled in the usual daily schedules, such as cleaning stairwells and corridors.

Youth Corps enrollees, paid at the rate of \$1.25 per hour, are working a 40-hour week with eight hours assigned to consultations with their counsellors.

Mr. Brier stressed the fact that none of the additional employees is filling any of the permanent positions with the Authority.

Work assignments in all programs are in those areas where additional help is needed to clear up extra backlogs of work or to undertake chores which need doing but which cannot be accomplished by regular employees within the usual working period.

Waterfront Apartments

Tentative plans for a \$20 million, 1,200-unit, "moderate income" apartment development on the South Boston waterfront were outlined at a State House hearing by representatives of the First Realty Corporation of Boston.

The planned four 25-story apartment towers could do for Boston what Lake Shore Drive did for Chicago's North Side, its planners claim. Site is that of the old Merchants and Miners Pier No. 2, once owned by the New Haven Railroad, destroyed in a spectacular fire some years ago.

The developers went before the Committee on Harbors and Public Lands to seek irrevocable licenses to tidelands involved. Their request was unopposed, although Anthony Sapdofora of the Licensing Department of Public Works, voiced some reservations on details.

The legislation was filed by Senator J. Joseph Moakley (D., South Boston) for First Realty.

Walter K. Winchester, First Corporation, intended to build for rentals of \$110 to \$150 per month for one-bedroom units and from \$140 to \$200 per month for units with two bedrooms.

No urban renewal funds nor participation by the Boston Redevelopment Authority is involved, he said. The Massachusetts Port Authority has given its blessing, he added.

Mr. Winchester pointed out that the apartments would be within walking distance of the Government Center and the financial district. Where the present property yields \$20,000 in taxes per year, the apartments would pay "hundreds of thousands," he said.

Dr. Alexander Brin Paid Tribute to Mayor Collins in Prelude to July 4th Address at Faneuil Hall

(Editor's Note.—The "City Record" has had so many requests to reprint the Faneuil Hall introductory remarks of Dr. Alexander Brin, editor and publisher of the "Jewish Advocate," on July 4th, that we are happy to oblige.):

Before delivering my scheduled address under the title, "The Challenge of Independence Day," may I be granted the privilege of a personal word, on this glorious occasion.

I want to say something about the New Boston which stands at the threshold of a great destiny. As a lad in the grammar school I won the first prize in a contest based on the 4 B's, Bigger, Better, Busier, Boston, for which I received the magnificent sum of \$25 from the then Mayor John F. Fitzgerald.

In my lifetime I am watching the dream come true. A new epoch began when Mayor Collins became our chief executive six years ago. He has infused our city with new ideas, new spirit, new thinking, new goals, and new determination to make Boston a new city to meet the needs of the new times. As a first-rate administrator Mayor Collins has become a symbol of humane constructive creativeness. He has come forward with dynamic policies of our city's development which have captured the enthusiasm and energies of forward-looking Americans everywhere.

National Attention

His spark of dynamism has aroused nationwide attention. We are more than pleased to note the frequency with which New Boston is being praised by visitors and newcomers to our city. It is a source of exquisite delight and boundless satisfaction to us to be assured that the achievements of our Mayor have enkindled such enthusiasm and engendered such confidence in other sections of the country as to inspire them to register a higher degree of progress.

I want to salute our distinguished Mayor for making it possible for New Boston to attain this exalted

position among the cities of our nation. We should not forget the infinite pains, the agonizing struggles, the unending experiments, and the fervent prayers that have dug the furrows, fertilized the soil and planted the seed of our present harvest, which is the beginning of greater things yet to come.

The proven competence of our Mayor, his impeccable integrity, the high order and the quality and the quantity of the accomplishments by his administrations, the courage and poise with which he meets important problems, and his avoidance of demagogic self-exploitation, has made him a good Mayor, an excellent Mayor, a Mayor with a very real concern for the social welfare of his city; a Mayor who unceasingly insists that the people's money, which pays for the municipal government, be spent scrupulously and prudently.

The people who love New Boston know that their municipal government is honest, intelligent, and forward-looking. It is a pleasure to take note on this great day about the quality of Mayor Collins's administration and the character of our chief executive. Our community has been enriched by his leadership.

Veteran Observer

I have been in public life and in education for a third of a century, serving under 10 governors and six presidents. I have known many great personalities in public life. None, however, has impressed me as deeply as has Mayor Collins, because he is endowed in a remarkable degree with the rare qualities of boundless energy and gracious self-effacement.

It is a privilege to pay tribute to one to whom the performance of duty is not merely a task but a social obligation, social responsibility; not merely a phrase, but a creed, and sympathy; not merely an attitude of mind, but a motive to action.

Modest, sensitive, and retiring, he has none the less been a mighty

warrior for his convictions. With keen acumen and disinterested purpose, with untiring industry and enlightened outlook he has dedicated himself to make Boston a No. 1 city in the nation. I can close this tribute in no better fashion than with an appropriate quotation from the Talmud:

"When God endows a man with unusual attributes of mind and heart, he becomes the elect of God. And when a man uses those talents for the welfare of the people, he becomes the servant of God."

Boston Drive to Eliminate Pedestrian Fatalities Shows Results, Even as Jaywalk Ban is Readied

Fewer pedestrians were killed in Boston during the first five months of the year than during the same period last year, a police traffic survey reveals.

The statistical improvement was announced following a police traffic fatality study conducted from January 1 to June 5. The study showed that 17 persons had been killed so far this year, compared with 23 in the same period in 1964.

James H. Fairclough, Jr., chairman of the Citizens' Traffic Advisory Committee, said, "It is too early to attribute this decline to Mayor Collins' Pedestrian Lifesaving Campaign. (Boston's anti-jaywalking ordinance goes into effect in September.)"

There were more pedestrian fatalities in Dorchester, Roxbury, and Boston Proper than in any other city districts.

The survey also showed that of 77 traffic fatalities last year 57 were pedestrians.

Elimination of all pedestrian accidents could result in a \$10 cut in Boston's compulsory auto insurance rates, State Insurance Commissioner C. Eugene Farnam pointed out as he praised Boston's anti-jaywalking program.

"Boston already has a good start toward reducing the rates for next year," he said.

"The reduction is a tribute to an intelligent public, now changing a long tradition of bad walking habits," he said.

"Compulsory auto insurance rates are based on accident frequency. Every 1 percent we reduce the frequency represents \$1 million less the auto insurance-buying public must pay.

"If all pedestrian accidents were eliminated, fatal and nonfatal, the statewide decrease would be \$4.50 and in the Boston area it would be \$10," Commissioner Farnam said.

Land Agreement for Community College Site in Charlestown; 43 Acres Involved

A land disposition agreement setting aside 43 acres of the Charlestown renewal area for the proposed Community College was signed on July 7 in Mayor Collins' office.

Renewal Chief Edward J. Logue said his agency will clear the land on the old State Prison site and convey it to the Community College Board for about \$500,000. He said the land will be cleared and ready for construction about April 1, 1967.

Cosigner was Kermit Morrissey, representing the Massachusetts Board of Regional Community Colleges.

A map showing the proposed site was on display in the Mayor's office. The major site consisting of approximately 37 acres extends from the Prison Point Bridge along

Rutherford avenue to "A" street and is bounded on the west by the main tracks of the Boston & Maine Railroad and the proposed Inner Belt highway and relocated MBTA line.

The smaller site of approximately six acres is located along the proposed realignment of Rutherford avenue extending to the south of the Prison Point Bridge. The Boston Redevelopment Authority will endeavor to have made available for college use, additional property for parking purposes.

The proposed time schedule under the agreement provides for the conveyance of a substantial portion of the land by the Boston Redevelopment Authority to the Community College Board on or before April 1, 1967.

Also by this date, final plans and specifications will be prepared by the architectural firm for the college, Shepley Bulfinch Richardson & Abbott. Construction of the first phase of the college which will house approximately 2,500 students is expected to take place within 90 days after the conveyance of the property and will be completed not later than January 1, 1969. The remaining phases of work which will provide for a student body enrollment of approximately 7,500 will be completed not later than July 1, 1971.

Joseph P. Richardson, representing the architectural firm for the college, described the proposed college complex.

Literacy Program

An adult literacy program for adults who wish to improve their reading levels got under way at the Columbia Point housing development on July 6, under the sponsorship of the Massachusetts Council for Public Schools.

Two-hour sessions are held every Tuesday and Thursday at the Columbia Point Center under the supervision of a professional reading expert.

The first of four training sessions for tutors who will conduct additional programs for residents of the housing development and adjacent areas will be held at the Center on July 13, at 8 P.M.

The additional tutor-supervised classes in the reading program will operate on Tuesdays and Thursdays, from 8 to 10 P.M., beginning July 27.

All classes will be limited to small groups so that those who attend may receive maximum attention to their individual needs.

Adults interested in participating in the program as tutors should contact Mrs. Edna Koretsky at the Massachusetts Council for Public Schools at 16 Arlington street, Back Bay. Adults interested in improving their reading abilities may contact Mrs. Deborah Goodman at the Columbia Point management office.

VETERANS' SERVICES DEPARTMENT

Expenditures for veterans' benefits for May, 1965, show a decrease of \$34,890.42 in comparison with expenditures for the corresponding period of 1964.

The 1,865 cases aided during the month of May, 1965, represented a total of 3,630 individuals benefited through the facilities of the Veterans' Services Department.

There were 246 cases closed during the month of May, 1965, because of obtaining employment, having been awarded unemployment compensation, receiving social security, and becoming eligible to receive financial assistance for miscellaneous reasons.

Good Head Start

Fifteen more preschool children from the Columbia Point housing development have joined Project Head Start at the Paul A. Dever School, it was reported by Chairman Jacob I. Brier of the Boston Housing Authority.

The program which has been expanded in this area by the addition of an extra class now serves a total of 45 children in three morning sessions.

Six Columbia Point mothers also are taking part in the program working in the capacity of teachers' aides and neighborhood aides.

The three teachers' aides assist the head teachers in the performance of a number of duties such as supervising rest, recreation, and lunch periods, telling stories or mixing paints.

The neighborhood aides, working under the supervision of a professional social service worker, are working with the children's parents, individually or in discussion groups, to help further the children's learning progress at home as well as in school.

POLICE DEPARTMENT ORDERS

July 6.

Personnel Order No. 752.

Detective Third Grade Arthur Linsky and Patrolman Dennis F. Casey, Vice Control Unit, are hereby commended for meritorious police duty and each is granted three days' additional vacation.

About 9.50 p.m., Thursday, June 3, 1965, four males were standing on the corner of Tremont street and Rutland square, when an unknown colored male approached the group and stabbed one Raphael Moore, then fled the scene on foot. Moore was removed to the Boston City Hospital where he was pronounced dead at 10.45 p.m. as the result of wounds to the stomach and chest.

Detective Linsky and Patrolman Casey, knowing that prostitutes and suspected drug addicts frequented the area, conducted an investigation with officers from District 4, and as a result of this investigation learned that one Donald Brown, 30 years, colored, single, of 42 Concord square, Boston, was suspected of committing this crime. About 6.30 a.m., Friday, June 4, 1965, the above-named officers observed Brown at Worcester and Tremont streets, and Brown on seeing the officers jumped into a taxicab which drove off in Tremont street. The officers gave chase and overtook the cab at Davenport and Tremont streets, Roxbury, where after a struggle they placed Brown under arrest and conveyed him to District 4 for interrogation. In Boston Municipal Court, Brown was held without bail and case continued and probable cause found.

In the past ten months the officers have devoted much of their own time working with agents of the Federal Bureau of Narcotics, and as a result of this ten-month surveillance work the officers were able to give testimony that resulted in sixteen indictments being handed down by the Federal Grand Jury for the unlawful sale of Narcotic Drugs. It was during the investigation that the officers had learned of the identity of Donald Brown and effected his arrest for the murder of Raphael Moore.

The Police Commissioner is pleased to recognize the devotion to duty displayed by these officers, who giving many day and night hours of their own time in the investigation of difficult narcotic incidents, and who through their untiring efforts in their perform-

ance of duty brought about the arrest of this dangerous felon.

BHA Painting Bids

The Boston Housing Authority announced that the Authority is receiving sealed bids for painting at the state-aided Gallivan Boulevard housing development in Dorchester.

The scope of the work to be performed calls for the exterior painting of 121 two-family and 9 single-family dwellings located on the grounds of the development as well as the Administration Building with attached maintenance section and garage.

Closing date for all bids, accompanied by a performance bid deposit of \$1,800, is noon of July 23.

Proposed forms of contract documents, including plans and specifications, are on file and available at the offices of the Boston Housing Authority, 230 Congress street, Boston.

Fire Victims Aided

A total of nine families who lost their homes in the recent Roxbury and South Boston fires have been relocated into new homes in public housing developments, Jacob I. Brier, Chairman of the Boston Housing Authority, announced.

The fires routed tenants at Cedar street and Alvan Kittredge park in Roxbury and Ward street in South Boston.

The relocated families, numbering 13 adults and 21 children, have been assigned apartments in the Mary Ellen McCormack, Old Colony, Bromley Park, and Heath Street housing developments, it was reported to the Chairman by James H. Crowley, Chief of Tenant Selection and Tenant Status Review.

CONTRACTS AWARDED WITHOUT ADVERTISING

BUILDING DEPARTMENT.

BUILDINGS RAZED.

DEAR MR. MAYOR:

The following houses have been condemned by me as being in an unsafe and dangerous condition. Notices have been sent to the owners, but they have taken no steps to abate the dangerous condition. These buildings are a menace to the neighborhood. The locations follow:

427-429 Main street, Ward 2; 431-433 Main street, Ward 2.

Accordingly, in conformity with the provisions of chapter 479, Acts of 1938, as amended, particularly section 116(d) thereof, I have asked and have received your Honor's permission to enter these various premises and to raze the structure.

Bidders were requested to submit an aggregate bid for the entire lot of houses, but to break down their bids to show the charge against each separate address. This breakdown is necessary for later departmental use in billing demolition costs insured against the individual property owner of each house.

We have solicited invitation bids, award to be made to the lowest qualified bidder, and have received the following:

General.—427-429 Main street, Ward 2, \$1,945; 431-433 Main street, Ward 2, \$1,945; total, \$3,890.

Polcari.—427-429 Main street, Ward 2, \$1,475; 431-433 Main street, Ward 2, \$1,475; total, \$2,950.

Allstate.—427-429 Main street, Ward 2, \$2,490; 431-433 Main street, Ward 2, \$2,490; total, \$4,980.

McGrath.—427-429 Main street, Ward 2, \$1,473; 431-433 Main street, Ward 2, \$1,473; total, \$2,946.

Duane.—427-429 Main street, Ward 2, \$1,075; 431-433 Main street, Ward 2, \$1,075; total, \$2,150.

Mystic.—427-429 Main street, Ward 2, \$1,990; 431-433 Main street, Ward 2, \$1,990; total, \$3,980.

Duane Building Wrecking Company, 600 Southern Artery, Quincy, Mass., has submitted the lowest aggregate bid. This company is thoroughly familiar with this work, it carries all necessary insurance and it has done satisfactory work for this department in the past.

Bids for the demolition of individual houses were not requested because it would be a practical physical impossibility for several different wreckers to conduct efficient wrecking operations simultaneously in individual houses. Under such conditions, there would be much mutual interference, and each wrecker would be exposed to severe hazards not under his control, by the operations of adjacent wreckers. I also believe that the aggregate cost of individual bids would be much higher than the cost of one bid for the lot, and that handling the houses as one unit results in lower administrative costs to the city than would result from handling the houses as separate bids and contracts. Unit handling results, however, in this case, in a contract price \$2,000 or over the statutory limitation upon awards that can be made without advertising, unless your Honor approves the transaction.

Accordingly, the general public safety so requiring, I ask your Honor's approval for the awarding, without advertising, as required in the city charter, of a contract in the sum of \$2,150 to Duane Building and Wrecking Company, 600 Southern Artery, Quincy, Mass.

Very truly yours,

R. E. YORK,
Building Commissioner.

SOFT VOICE, PLEASE

Paris policemen, a harassed but normally courteous body of men, are inclined to lose their tempers with argumentative citizens. One officer who took current traffic problems very much to heart had a batch of special notices printed for the benefit of erring motorists. They read: "Kindly speak to me gently without raising your voice and without upsetting me in any way. It causes excess acid and is liable to make me irritable."

TRAFFIC AND PARKING DEPARTMENT.

PROPOSALS FOR INSTALLING 800 PARKING METER POSTS IN THE CITY OF BOSTON, MASS.

The City of Boston, acting by the Commissioner of Traffic and Parking, hereinafter referred to as the Commissioner, with offices at 112 Southampton street, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for installing 800 parking meter posts in the City of Boston, Mass. A performance bond and also a payment bond, each of a surety company satisfactory to the Commissioner and each in the sum of 100 percent of the contract price will be required of the successful contractor. Forms of proposals may be obtained at 112 Southampton street. Each proposal should be filled out, signed, enclosed in an envelope, sealed, marked "Proposal for Installing 800 Parking Meter Posts in the City of Boston, Mass.," one copy of which is

to be left at 112 Southampton street before 12 M. (Eastern Daylight Saving Time) on Monday, July 26, 1965, with a certified check for five hundred dollars (\$500) payable to and to become the property of the city if the proposal after acceptance is not carried out.

The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the unit price on any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to accept any proposal or any item of a proposal should he deem it to be for the best interests of the city so to do.

DEPARTMENT OF SCHOOL BUILDINGS.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR ALTERATIONS AT THE CHARLES SUMNER SCHOOL, 15 BASILE STREET, ROSLINDALE, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for alterations at the Charles Sumner School, 15 Basile street, Roslindale, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, August 9, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$7,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time) Monday, August 2, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding

Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Kalamein Work.....	\$300
Chalkboards and Tackboards.....	\$150
Lathing and Plastering.....	\$100
Roofing and Flashing.....	\$200
Painting	\$1,200
Plumbing and Gasfitting.....	\$100
Heating and Ventilating.....	\$1,100
Electric	\$250

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, August 2, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the form for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of specifications for the project on file at the office of the Superintendent of Construction of the Department of School Buildings designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to

the bidder is a true and complete copy of the set of specifications on file as aforesaid.

Specifications and other documents may be obtained at the office of the Awarding Authority.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, chapter 149, of the General Laws, as amended.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR ALTERATIONS
AT THE MOZART SCHOOL, BEECH STREET,
ROSLINDALE, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for alterations at the Mozart School, Beech street, Roslindale, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Wednesday, August 4, 1965, at the office of the Awarding Authority, fourth floor, 380 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$300. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide for insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Wednesday, July 28, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Heating\$100

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

Castle Sq. Area To Be One of City's Top Residential Spots, Mayor Predicts

Mayor John F. Collins declared the housing construction planned for the so-called Castle Square area of the South End would become one of Boston's most-sought residential areas.

With the formal start of construction on July 15, at a ceremony attended by city and federal officials, the Mayor said the groundbreaking signaled the beginning of "a new era."

On the 20-acre area bounded by Herald, Dover, and Tremont streets and Shawmut avenue, an \$11 million middle-income housing complex will be erected.

The land has been cleared by the Boston Housing Authority to make room for 500 units of private housing as well as 96 units of public housing.

Mayor Collins said the "family oriented garden-type development, with many features normally found in more expensive accommodations, is indeed a tribute to the foresight and determination of executives of the BRA and Castle Square Associates (developers)."

Bertram A. Druker, of the Castle Square Associates, termed the development a "significant achievement of the urban renewal program of Boston" that "will serve as a catalyst in the redevelopment of the South End.

"I only hope that a substantial number do take advantage of this opportunity," he said.

The apartment development will include 19 two-and four-story buildings containing 303 two-, three-, and four-bedroom duplex apartments. There also will be four seven-story elevator buildings along Tremont street containing 192 one-and two-bedroom suites over street floor retail shops.

In addition, two twin-story seven-story towers of the public housing, completely integrated with the private development, will be constructed.

One tower is along Tremont street, the other to its rear. A passageway under the public housing building leads to an inner plaza and shopping facilities.

Besides the housing, a 66,500-square foot shopping complex and a two-story parking structure accommodating 382 cars will be constructed along Herald street (next to the Massachusetts Turnpike roadbed).

Construction, by the Beacon-Castle Square Building Corporation, will be of reinforced concrete and brick.

Inner Belt Design Crux of Southwest X-Way

(Mayor John F. Collins issued the following statement on plans concerning transportation facilities linked with the Southwest Expressway):

The announcements regarding the Southwest Expressway and other transportation facilities through Roxbury, Jamaica Plain, Roslindale, and Hyde Park on July 14, 1965, are of great concern to me because of their many implications upon the future of Boston.

The recommendations of that study include the relocation and extension of the Forest Hills Rapid Transit line and the eventual demolition of the elevated structure through the South End and Roxbury.

This recommendation I concur with strongly as I do with the proposal to extend these facilities south of Forest Hills, particularly to West Roxbury, by March, 1967.

In addition, I concur with the Committee's report that the entire Inner Belt must be programed concurrently with the Southwest Expressway if the Southwest Expressway is to be a workable solution to our transportation network. The Committee's report correctly points out that practically all of the Southwest Expressway traffic will flow onto the Inner Belt.

According to Druker, whose firm of John Druker & Son will manage the development, rentals will range from \$88 for a one-bedroom unit to \$132 for four-bedroom unit (the latter with two baths). The rentals will include heat, hot water, and parking, said Druker.

The development, featuring landscaped inner courtyards, private terraces, a public park and special "tot lots", will include 50 four-bedroom units, 132 three-bedroom units, and 11 two-bedroom units.

Initial occupancy, said Druker, is expected next Summer.

"We have worked and planned to make Castle square a highly desirable and enjoyable place for people" and "we are grateful to the many people who have worked so diligently to help us achieve our goal.

"We hope this development will spark the revitalization for the entire South End and the South Cove (the latter area abuts Castle square)," said Druker.

U. S. Funds \$728,720 To Aid Health Department in Major Five-Year Fight on Tuberculosis

The U. S. Public Health Service has announced allotment of a total grant of \$728,720 for tuberculosis control in the City of Boston under the direction of Dr. John T. Foley, Tuberculosis Project Director and Boston Health Commissioner.

The purpose of the grant is to increase and improve services to tuberculosis patients and their families.

Although Boston's pulmonary tuberculosis rate dropped from 62.0 to 47.3 per 100,000 population between 1958 and 1964 and the death rate declined from 14.6 per 100,000 in 1958 to 10.9 in 1964, tuberculosis continues to be a major concern to the Boston Health Department, Doctor Foley pointed out.

"Despite the constant reduction in the number of tuberculosis cases and deaths," he said, "continual expansion of Health Department services for tuberculosis control has been necessary. This is the result of change in treatment for many patients from a long period of hospitalization to ambulatory tuberculosis clinics in the Department's health units."

During 1960, 805 patients received chemotherapy. In 1964, over 2,000 tuberculosis patients throughout the city received drug therapy for the disease. Chemotherapy (drug treatment) is continued on an outpatient basis. Medical care, including clinic facilities and adequate nursing super-

vision, must be made available by the Health Department to those patients and their families not under the care of a private physician.

The South End Health Unit, focal point of the TB control program, holds daily clinics providing diagnostic and therapeutic services to patients. The medical staff also offers consultation service to physicians and hospitals regarding their tuberculosis patients.

Funds under the new grant will be allocated over a five-year period, Doctor Foley stated.

Southwest X-Way . . .

(Continued from front page)

In view of that conclusion, I believe the Committee's recommendation should have been much stronger and specifically recommend that steps be taken now to insure that the Inner Belt is operable before or at the same time as the Southwest Expressway.

I see little reason to make haste on the Southwest Expressway until further advances are made toward design and construction of the Inner Belt.

Further, I concur with the recommendation of the Southwest Corridor Committee that the main line operations of the New Haven Railroad should be relocated onto a consolidated right of way on the Midland Branch. This action results in the savings of much unnecessary land takings along the route of the Southwest Expressway.

I am pleased to note that the total number of homes have been substantially reduced from earlier proposals. Originally, the number of homes to be taken totaled over 2,000 and now this figure is down to nearer 900-1,000.

I am still interested in the possibilities of further reduction in land takings, and the very necessary relocation program that must be carried out for the home and business owners of Boston.

The Southwest Corridor problem is complex, and the Committee's report is long. It will be necessary for me to give this matter considerable additional time and review to assure myself that the people of Boston have received all possible consideration. I shall react more directly if and when the Department of Public Works submits a specific proposal to me.

"IRREPARABLE LOSS"

In a proclamation to Bostonians asking that they join him in paying tribute to the memory of Ambassador Adlai E. Stevenson, Mayor John F. Collins declared his loss removed a "solid pillar of the United Nations."

"News of the untimely death of Adlai Stevenson has left me with a sense of deep, personal, and irreparable loss," said the Mayor.

"He was a man completely committed to the promotion of the public good whose every act reflected warmth, understanding, and total concern for the worth and dignity of the individual.

"On the practical political scene domestically and in the rigorous atmosphere so prevalent in international affairs, he enlarged respect for individuality, decency, morality, and honesty. His loss removes the single most solid pillar of the United Nations, an agency we so desperately need in our quest for peace.

"The beauty of his words for which the world will ever remember him was the manifestation of a truly compassionate soul. Our loss is severe."

The Mayor ordered all municipal flags at half-staff during the mourning period.

Frances Ainsworth

Mrs. Frances (Kenires) Ainsworth, of 61 Fletcher street, Roslindale, wife of Boston District 1 Fire Chief John J. Ainsworth, Sr., died on July 15.

Besides her husband she leaves three children, Mrs. Frances C. Sullivan, Mrs. Barbara A. Whelan, and John J., Jr., all of Boston; and two sisters, Helen J. Kenires of Boston and Mrs. Mary D. Fitzgerald of Weymouth.

A High Requiem Mass was sung in Holy Name Church on July 17.

Mayor Lauds Visiting German Destroyers' Crews for Super Constellation Crash Rescues

Mayor John F. Collins extended the city's official welcome to the officers and crews of three West German destroyers which participated in the search and rescue operations for victims of the crash of the Early-Warning Super Constellation plane off Nantucket.

The three destroyers arrived July 19 at the Naval Shipyard Annex in South Boston, with a total complement of 720 officers and crew. One of the destroyers picked up two of the victims and received a third, taken from the seas by a helicopter. All were from Otis Field air base.

The three destroyers joined the rescue operations while on their way here to pay a courtesy call on Boston.

As they came up Boston Harbor they were greeted by Boston Fire Department fireboats. On the dock the Boston Fire Department band was on hand to render a musical welcome.

Capt. Gerd Schreiber, squadron commander; the commanders of the visiting vessels, Jurgen Goetschke of the Z-1, Hebert Mumm of the Z-2, and Hans J. Krug of the Z-3 and their staffs were welcomed by the Mayor at City Hall.

The squadron was presented with a specially inscribed Paul Revere bowl commemorating their swift action in participating in the rescue operations. It was the Z-1 which received three of the Otis Field plane's survivors. All of the vessels spent hours in the rescue area 100 miles east of Nantucket.

On the night of July 19 the visiting sailors were guests of the city at the Dorothy Quincy Suite, John Hancock Hall, at a dinner-reception. Mayor Collins presided.

Hailing the visitors as representatives of West Germany, "today our staunch ally," the Mayor pointed out the heroic work of the destroyers in pressing the hunt for victims of the Otis Super Constellation tragedy. "They joined our own air and sea forces during the dramatic hours which followed the crash. Their persistence resulted in the saving of two American lives."

The destroyers are regularly assigned to the NATO force in the Baltic Sea and nearby waters.

The vessels tied up at the South Jetty of the South Boston Naval Annex. During their five-day stay

here the crews were the guests of the crews of the U.S.S. "Wilkinson," the U.S.S. "Willis A. Lee," and the U.S.S. "Stickell." The visitors' home port is at Kiel.

On Wednesday and Thursday, July 21 and 22, the German destroyers' officers and crew played host to the visiting public.

Don't Miss It!

Mayor Collins' annual polio tournament will be held at the George Wright Golf Course, Hyde Park, August 19, with the first tee off scheduled for 8.30 A.M. A cocktail hour and the tournament dinner will be held at 7 P.M.

Bill Taylor will serve as official starter. There'll be all sorts of prizes, including awards for high and low scores, a booby prize, and door prizes. At the 10th green refreshments will be available.

Offering a program of entertainment at the dinner will be three gifted singers, William Doyle, Francis X. Dennehey, and Thomas Adams. Organ accompanist will be Chet French.

Bill Devine, assisted by Waldo Pisco, heads the committee.

New Grant to BCH

Dr. James V. Sacchetti, acting director, recently announced a supplement grant award of \$104,719 to Boston City Hospital from the federal government. The new grant makes a total of \$219,719 awarded Boston City Hospital since April.

The grant was made by the National Institutes of Health for improvement of the hospital's medical care, teaching, or research.

Historic Study Group Finds Commonwealth Ave. Does Not Warrant Historic Designation

(Mayor Collins made the following announcement after receiving report of the Back Bay Historic District Study Committee):

"I have been advised by Mr. William Arthur Reilly, Chairman of the Back Bay Historic District Study Committee, that on July 13, 1965, the committee formally voted, by majority action, against the establishment of an historic district in the Back Bay.

"I am informed that the committee has decided that while the beauty of Commonwealth avenue should be preserved, and its mall and setbacks retained, there is no historical warrant for the establishment therein of an historic district; and, indeed, that there are overriding physical and economic considerations which would make the establishment of an historic district infeasible, impractical, and contrary to the best interests of the inhabitants of Boston, including those of the Back Bay itself.

"The Study Committee was established pursuant to vote of the City Council dated April 6, 1964, for the purpose of investigating the feasibility of establishing an historic district in the Back Bay, within the purview of the provisions of Chapter 40C of the General Laws.

"The committee held more than a dozen formal hearings, and heard the testimony and views of numerous historians, architects, planners, soil engineers, civic leaders, and other interested persons. In addition, the committee reviewed the records of prior public hearings on this subject, and has carefully studied reports and materials provided for its consideration by various cooperating agencies and organizations, as well as bringing to bear the specialized abilities and knowledge of its own members in the fields of architectural history, engineering, real estate, business, and municipal administration.

"I have been further advised by the Law Department that the Study Committee's rejection of the proposal for an historic district in the Back Bay terminates and

concludes its functions, and that no further action is required on its part under Chapter 40C.

"On behalf of the City of Boston I wish publicly to express the thanks of its citizens to the members of the Study Committee for their diligent, arduous, and time-consuming unpaid public service."

Pedestrian Has Rights, Too, Carty Points Out

Rights of pedestrians have never received 100 percent recognition by motorists, Traffic and Parking Commissioner Thomas F. Carty declared this week.

"On the other hand, Boston pedestrians who insist on free exercise of their 'rights' are extremely foolhardy," he said.

"That is why enforcement of the city's new Pedestrian Control Law, which starts November 1, is important to both pedestrians and motorists."

The Commissioner pointed out that pedestrians who walk sensibly, legally, and attentively are protected by a few basic rights that automobile operators must respect.

These rights are: (1) priority of right in using sidewalks; (2) the right at a signalized intersection to use the crosswalk, during a green or "Walk" indication, without being subject to hazing, or crowding, by vehicles; (3) the right to priority use of crosswalks where or when signals are not in operation, so long as the pedestrian shows proper regard for approaching vehicles on his side of the roadway; (4) the right to walk on the left side of a roadway facing traffic where there are no sidewalks; (5) with certain exceptions, the right to cross a roadway at other places than at a crosswalk, but only by yielding right of way to all vehicles.

DRY PARKS

The New York City Parks Department has banned drinking in 18 city parks in a move to rid them of undesirables.

A department spokesman said that signs prohibiting drinking had been posted in the parks because of numerous complaints that they were being overrun with derelicts.

Park regulations allow persons to bring a six-pack of beer or ale or 32 ounces of alcohol into parks where there are no playgrounds, swimming pools, or recreation centers. This rule will remain in effect except for those parks singled out by the department.

Shopping Center Plans

Construction of a \$1,250,000 shopping center in the Washington Park Urban Renewal Area was seen as imminent when the Boston Re-development Authority sold a 279,000-square foot parcel of land to Blair Associates who will develop the center.

To be located at Warren street, between Dale street and the new Washington Park Boulevard now under construction, the center will be opposite the new Roxbury branch YMCA and a newly created residential area consisting of church-sponsored moderate-income housing.

Among the major tenants of the center will be a Zayre's Department Store and a Blair's Supermarket, and a bank. Numerous smaller shops will sell everything from pharmaceuticals to shoes and wearing apparel. The entire one-story steel frame structure will feature a brick curtain wall exterior with all shops accessible via an air-conditioned, heated interior pedestrian mall.

Screened service areas, off-street parking for more than 200 cars, attractively landscaped courtyard and sitting areas, and a pedestrian mall linking the center to the nearby Charlamé Park Homes development, will also be among the attractive features of this neighborhood shopping complex.

Representing the BRA at the sale of the land to Blair Associates was James Drought, Assistant Administrator. Representing the developer were Harold Burg of Blair Associates and Herbert E. Tucker, Jr., of Cardozo & Tucker. Others connected with the development include the Associated Architect and Engineer of 755 Boylston street as architect; and Lawrence Walquist of Cambridge as landscape architect.

Construction will begin immediately and is expected to be completed by February, 1966.

Other alternate prices on items were received, but the material is not acceptable to the Boston School Department for educational purposes.

An asterisk on the enclosed schedule beside the bid price, indicates the firm to which the award is to be made.

I have been informed that subject to your Honor's approval the State Department of Education as a result of an agreement made with the Boston School Department will deposit funds with the City Treasurer to cover the entire cost of this equipment.

Therefore, I respectfully request your Honor's approval, to award a contract, without advertising, on the basis of informal bids received, for furnishing and delivering in accordance with specifications various items of printing equipment to certain schools, as per attached list, to the Miehle Company, Division of Miehle-Goss-Dexter, Inc., 220 Boylston street, Chestnut Hill, Mass., in the amount of nine thousand two hundred fifteen dollars (\$9,215).

Respectfully yours,

WM. A. McPHERSON,
Superintendent of Construction.

Columbia Pt. Trees

Boston Housing Authority announced July 14 the award of a contract for landscaping and site repairs at the federally-aided Columbia Point housing development to the Winchester Heritage Construction Corporation of Winchester which submitted the low bid of \$71,918.

The general contract calls for planting 32 trees, including installation of tree guards and area gratings, the replacement or resurfacing of bituminous pavement in designated areas, the replacement of approximately 8,000 square feet of badly settled concrete sidewalks, including the resetting of curbing, and specified amounts of fencing.

DEPARTMENT OF SCHOOL BUILDINGS.

INVITATION FOR GENERAL BIDS FOR RAZING OF THE NORCROSS SCHOOL BUILDING, 200 D STREET, SOUTH BOSTON, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for razing of the Norcross School Building, 200 D street, South Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, August 9, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the form for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with

the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of specifications for the project on file at the office of the Superintendent of Construction of the Department of School Buildings designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

Specifications and other documents may be obtained at the office of the Awarding Authority.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, chapter 149, of the General Laws, as amended.

INVITATION FOR GENERAL BIDS FOR REPAIRING BOILER AND INCINERATOR MASONRY IN DISTRICT No. 2, IN VARIOUS SCHOOLS, BOSTON, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for repairing boiler and incinerator masonry in District No. 2, in various schools, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Wednesday, August 11, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$700. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for

this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Wednesday, August 4, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Masonry, etc.....\$500

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

CITY OF BOSTON.

Proceedings of City Council.

Monday, June 7, 1965.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President TIERNEY in the chair, and all the members present.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

Infinite and Eternal God we pray that the divine voice of Thy wisdom and counsel may be heard and heeded by all who have come to this chamber for a new week of work for the people of the city. No needed blessing will be held from us if we do justly, love mercy, and walk humbly with the Lord. In administering the affairs of this city may these Thy servants be God-directed counselors, wise in counsel and understanding, clear-minded and farsighted in devising plans and policies that are just, steadfast in loyalty to the lofty principles of democracy, courageous in championing the cause of peace, and humble in spirit.

In Christ's holy name we make our petitions and seek Thy blessing.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

The meeting was opened with the salute to the Flag.

VETO OF ORDER RE POLICE RESIDENCY REQUIREMENTS.

City of Boston,
Office of the Mayor, May 26, 1965.
To the City Council.

Gentlemen:

I am returning herewith disapproved, and without my signature, an order passed by your Honorable Body May 10, 1965, calling for the acceptance of chapter 411 of the Acts of 1955. This act provides as follows:

"In any city or town which accepts this action, the members of the regular police department of said city or town who have been members of said department for at least five years may reside outside said city or town; provided, they reside within the commonwealth and within ten miles of the limits of said city or town."

At the present time Rules and Regulations of the Police Department of the City of Boston require that all members of the Force live within the City of Boston. This residence requirement has been in existence for many years. The reason for the regulation is obvious.

Police officers are never really "off duty" and are supposed to be ready at all times to respond for emergency police service whenever the need requires. Rapid mobilization is necessary in the event of any major emergency or community disaster.

A check of forty-five communities in the Commonwealth discloses that five of those surveyed permit police officers to reside outside the city or town limits, and that forty of them require police officers to live within the community they serve.

Respectfully,

JOHN F. COLLINS, Mayor.

The message and order were laid on the table for one week.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment:

Referred to the Committee on Confirmations.

APPROPRIATION FOR GENERAL SCHOOL PURPOSES.

The following was received:

City of Boston,
Office of the Mayor, June 3, 1965.

To the City Council.

Gentlemen:

I am forwarding herewith a vote of the Boston School Committee, taken on June 2, 1965, requesting an additional appropriation of \$200,000 for General School Purposes.

At a meeting between myself and members of the School Committee on May 25, 1965, it was agreed that I would submit an appropriation order to your Honorable Body for this amount after the committee had legally voted to request \$200,000 to supplement funds presently available in the General School Purposes account.

This appropriation, added to existing available funds, will allow between \$600,000 and \$700,000 for salary increases to teachers commencing at the start of the school year in September. A projection of the cost of such action by the School Committee for the calendar year 1966 is estimated to be in the vicinity of \$2,000,000.

It is noteworthy that the budget this year for all school purposes, if the accompanying order is approved by your Honorable Body, will total, in the aggregate, \$46,931,435 exclusive of principal and interest on school

debt and the city's share of the Health and Insurance Plan.

The accompanying order is forwarded herewith and I respectfully recommend adoption by your Honorable Body.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,

School Committee, June 2, 1965.

Ordered, That the Mayor of the City of Boston be requested to recommend to the City Council that an additional \$200,000 be appropriated for General School Purposes for 1965.

On roll call the order passed by the following vote:

Yeas—Messrs. Eisenstadt, Gartland, Lee, and Mrs. Hicks—4.

Nays—0.

Absent—Mr. O'Connor—1.

A true copy.

Attest:

EDWARD J. WINTER, Secretary.

Ordered, That the sum of money specified herein be, and hereby is, appropriated for General School Purposes in addition to appropriations previously voted by the School Committee; said sum to be raised by taxation on the estates in the City of Boston; and that all orders heretofore or hereafter passed by the City Council relating to appropriations, taxes, and the interest thereon, apply to the appropriations and taxes herein provided for, \$200,000.

Referred to the Committee on Appropriations and Finance.

ORDER FOR LOAN FOR SCHOOL RE-MODELING, RECONSTRUCTION, ETC.

The following was received:

City of Boston,
Office of the Mayor, May 28, 1965.

To the City Council.

Gentlemen:

Chapter 215 of the Acts of 1965 authorized the city to borrow from time to time such sums as may be necessary, not exceeding in the aggregate, five million dollars for remodeling, reconstructing, or making extraordinary improvements or repairs to school buildings.

Following a meeting between the Supervisor of Budgets and the Superintendent of School Buildings, it was agreed that I would request your Honorable Body's approval of a bond issue, at this time, for two million dollars to improve the facilities of our existing school buildings.

It was further determined that prior to the expenditure of any monies from this bond issue, such expenditure shall be agreed upon between the Supervisor of Budgets and the Superintendent of School Buildings.

Recognizing there are existing schools, in some cases, that are in dire need of major repairs, I have submitted an appropriation order to your Honorable Body for one million dollars of revenue money to bring current appropriations for Alteration and Repairs of School Buildings to one million eight hundred one thousand seven hundred forty-seven dollars (\$1,801,747). The funds authorized by this loan will be spent only for repairs falling within the scope of chapter 215 of the Acts of 1965.

I am submitting herewith an order for the loan authorization of \$2,000,000 and respectfully recommend adoption by your Honorable Body.

Respectfully,

JOHN F. COLLINS, Mayor.

Ordered, That under the provisions of chapter 215, of the Acts of 1965, the sum of two million (2,000,000) dollars be, and the same hereby is, appropriated for remodeling, reconstructing, or making extraordinary improvements or repairs to school buildings owned by the city, and that to meet said

appropriation the Collector-Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or notes to said amount.

Referred to the Committee on Appropriations and Finance.

APPROPRIATION FOR ALTERATIONS AND REPAIRS OF SCHOOL BUILDINGS.

The following was received:

City of Boston,
Office of the Mayor, May 27, 1965.

To the City Council.

Gentlemen:

I am forwarding herewith a communication from the Boston School Committee requesting the sum of one million dollars for the Alterations and Repairs of Schools.

This appropriation will bring the amount allowed for the repair of schools in 1965 to \$1,801,747 which is only slightly higher than the sum originally recommended in my letter of March 29, 1965, to the School Committee.

The School Committee at its meeting of April 3, 1965, reduced the account for repairs of school buildings by one million dollars under the mistaken impression that this would allow them to appropriate an additional million dollars for salary increases. This action of the committee was criticized by me in my letter of April 9, 1965, to the School Committee, and also, in my letter of transmittal to your Honorable Body on the same date of an appropriation order for General School Purposes.

On Tuesday, May 25, 1965, I met with members of the School Committee and agreed to submit their request to your Honorable Body with the stipulation that this additional million dollars be used for repairs and not for salary increases.

I further agreed to forward a request for an additional \$200,000 for General School Purposes to your Honorable Body when such request is legally voted by the School Committee.

The accompanying order for one million dollars is forwarded herewith and I respectfully recommend adoption by your Honorable Body.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,
School Committee, May 17, 1965.

Ordered, That the Mayor of the City of Boston be requested to recommend to the City Council that an additional \$1,000,000 be appropriated for Alterations and Repairs.

On roll call, the order passed by the following vote:

Yeas—Messrs. Eisenstadt, Gartland, Lee, O'Connor and Mrs. Hick —5.

Nays—0.

A true copy.

Attest:

EDWARD J. WINTER,
Secretary to School Committee.

Ordered, That the respective sum of money specified be, and hereby is appropriated for Alterations and Repairs of School Buildings in addition to appropriations previously voted by the School Committee; said sum to be raised by taxation on the estates in the City of Boston; and that all orders heretofore or hereafter passed by the City Council relating to appropriations, taxes, and the interest thereon, apply to the appropriations and taxes herein provided for, \$1,000,000. Alterations and Repairs of School Buildings, \$1,000,000.

Referred to the Committee on Appropriations and Repairs.

A. PRE-HEARING PROCEEDINGS

1. Informal Committee Hearing — April 7, 1965
On April 7, 1965, the Chairman of the Boston City Council Committee on Urban Renewal conducted an informal committee hearing on the Urban Renewal Project (Mass. R-55) proposed for Charlestown. The hearing was open to members of the public. The transcript of the informal hearing, running 120 pages in length, was thereafter permitted by Chairman G. Foley to be included with the record of the formal public hearing for information purposes, but not to suffice as meeting any legal requirements applicable to the formal public hearing, (Public Hearing, Volume I — April 27, 1965, p. 109). The exposition included a lengthy presentation by the Project Director, Frank Del Vecchio, which covered the following items:

Project Area Report
The Urban Renewal Plan
 New Housing
 Community Facilities
 Street and Utility Improvements
 Transportation
Rehabilitation
Relocation
Financing

Mr. Logue, Development Administrator of the Boston Redevelopment Authority, traced the background of the project, the experience in the project area, and emphasized that the guarantees given for proper relocation within Charlestown, new housing and rehabilitation, were realistic and would be carried out. Larry Hansen, Project Finance Officer, assisted Mr. Del Vecchio in describing the financial aspects of the plan.

2. View of the Project Area — April 14, 1965
Following the request of the Committee Chairman, the BRA's Project Director and other staff members conducted a tour of the project area for the Council's Urban Renewal Committee. This tour included an inspection of the area proposed for the new Community College, areas scheduled for demolition and redevelopment, and areas marked for conservation and rehabilitation.

B. PUBLIC HEARING CHRONOLOGY

1. Notice
Following the publication of notice in accordance with state and federal requirements, the public hearing was called to order by Chairman G. Foley on April 27, 1965. The hearing was opened to all interested parties and the Chairman permitted all persons desiring to speak an opportunity to do so.
2. Termination
Proponents of the proposed program presented their testimony April 27, 28, 29, May 4 and 5, completing their testimony on May 5. Thereafter with the exception of the testimony of certain public officials, opponents of the program were heard through May 13. At the close of the proceedings on May 13, the Chairman asked if there were any further opponents desiring to be heard and there were none who had not already been heard. The Chairman then closed the testimony portion of the proceedings, holding open the proceedings to further cross-examination of BRA officials.
The proceedings of May 18 through 20 were devoted exclusively to eliciting further testimony from BRA officials with the exception of May 19, when the Committee took another view of the project area on a tour conducted by Mr. John Harrington, President of the Self-Help Organization of Charlestown. BRA officials were in attendance and responded to questioning. On May 20, Councillors Craven, Iannella, Kerrigan, and W. J. Foley stated they had no further questions in these proceedings and Chairman G. Foley closed the public hearing.

C. POSITION OF THE BOSTON REDEVELOPMENT AUTHORITY

1. Arrest Charlestown's Decline

The basic position of the BRA was that Charlestown was declining rapidly as a residential area for reasons beyond the control of its residents and that unless strong public action were taken immediately, Charlestown would continue its decline to a point of general abandonment by residents and by investment. The Plan, consequently, was designed to correct those factors which caused Charlestown's decline. This involved:

- (a) Removal and relocation of the MBTA elevated structure.
- (h) Replacement of outmoded public schools, fire stations, and other facilities.
- (c) Replacement and renovation of streets and utility systems.
- (d) Revision of the street and highway system to relieve congestion and increase safety in the residential community.
- (e) Conservation of existing sound housing and rehabilitation of existing deficient housing.
- (f) Provision of new shopping opportunities.
- (g) Provision of substantial opportunities for the construction of moderate rental housing and substantial opportunity for the construction of private homes.
- (h) Provision of a major industrial opportunity (Mystic Wharf).
- (i) Construction of a Community College.

2. Basis for Conclusions

The BRA's conclusions were drawn from statistical analysis and field experience. As a statistical matter, the Charlestown Project Area has been exhibiting population and economic loss generally and at a rate greater than that of other older areas of the city. For example:

(a) Population

	1950	1960	1965
	26,321	20,147	17,400

This population loss has been at a constant rate of about 600 people a year. Not only is the area losing population, but the population is changing. An example is to compare the relative numbers of children, elderly persons and young adults over this period.

Age Groups	1950	1960	1965
0-19	9,906	7,855	7,300
20-44	9,685	6,165	4,500
45 and over	6,730	6,118	5,600

What is happening is that the older people tend to remain in Charlestown, but the young families between the ages of 20 and 45 are leaving. This part of the population has been cut by more than half since 1950, dropping from 9,685 persons to about 4,500 persons. Those in this age group who remain tend to be the families with many children. This is borne out by the high proportion of children (7,300). This population pattern documents what is well known to the pastors of Charlestown especially, namely that the young married couple goes outside of Charlestown to find housing. A trend of this kind tends to accelerate particularly when compared with the housing stock.

(b) Housing

The pattern in Charlestown over the past fifteen years has been a high vacancy rate in housing, a poor housing market, leading to an abandonment of properties, failure to pay taxes, foreclosure, and eventual demolition of structures. This is illustrated by the tax foreclosure rolls of the city. Prior to September, 1961, the city was carrying about 250 parcels in Charlestown on its foreclosure rolls. Of these, 50 were buildings. From year to year about 40 buildings were coming onto the foreclosure rolls whereas only five or six were being auctioned off. The reason for this, of course, was that the structures coming into foreclosure were deteriorated and had to be torn down. The foreclosure rate on vacant parcels was similar with about 40 of these yearly coming into foreclosure and something less than 40 being auctioned every year. Those vacant parcels that were being auctioned in all but one or two unusual cases were thereafter devoted to truck parking, parking lots for Navy Yard workers, or were unused. In fact, 75 percent of these lots sold by the city are lying vacant and collecting rubble.

Although land such as this has been available for new construction, none has occurred except for two private homes in this century. This proves that Charlestown's defects are so great that they must be corrected before the population and housing decline can be reversed.

(c) Building Condition

Charlestown's existing residential properties are old and generally deteriorating. Ninety percent of all structures have some technical deficiency. About one third of all buildings have several deficiencies. Those buildings which are structurally unsound are to be cleared under the Plan, but for the others conservation or rehabilitation is proposed. It is the BRA's conclusion that most of the remaining housing is basically sound and that rehabilitation that needs to be done can be done without hardship on the part of the residents. Based on its field experience in Charlestown, the BRA is convinced that Charlestown homeowners desire to maintain their properties and will make repairs to them if they are convinced that the district is going to be preserved and improved. Consequently, conservation and rehabilitation of more than 90 percent of the occupied homes is the treatment proposed and this approach will retain intact the Charlestown community and be the basis around which public improvement can take place.

3. Elements of the Plan

The Urban Renewal Plan is nothing more than a series of needed improvements collected into a package which can be accomplished over a definite period of time and with enormous financial savings to the city. The BRA argues that each separate part of the Plan is a desirable public undertaking and that the advantage in doing them under renewal is that they all can be done more efficiently, more quickly, and more cheaply in terms of both public and private economics. Moreover, the BRA argues work of this kind would be impossible to achieve privately and it is improbable that it could be achieved even publicly by anything short of the coordinated approach the urban renewal technique provides.

4. Controversial Elements of the Plan

The BRA defends every aspect of the Plan as sound and admits, however, that some aspects require a public policy judgment. For example:

(a) MBTA

Urban renewal financing will provide \$12 million for the removal and relocation of the MBTA elevated structure in Charlestown. This payment will induce the MBTA to expend a comparable additional sum to do this work. The MBTA states it would not replace the Charlestown line under any other terms than these because although unsightly, that line provides rapid transit service and the MBTA would not otherwise use its limited funds to replace such a line but would use those funds to extend service. The public policy question that has to be answered here is whether regardless of urban renewal, MBTA funds should not be used to replace the "el." The BRA's position is that urban renewal provides the means to replace the "el" and avoids that public policy impasse.

(b) Relocation of Families

By latest count, 465 families and individuals would be relocated under the Plan. The objection to this is that it is an involuntary movement. The justification for this is threefold. First, as a matter of sound planning, the areas in which these families live need to be acquired for the various public improvements and other aspects of the Plan. Secondly, most of these properties are in areas of extreme deterioration and as a matter of sound public policy, these conditions should be corrected. Thirdly, these families represent a total of about 1,600 people. Under the Plan opportunities will be provided for them to remain in Charlestown. Consequently, no further population loss need occur. Apart from urban renewal, Charlestown has been losing about 600 people a year, so that the relocation indicated not only is much less than what has been happening under present conditions, but there is every reason to conclude that the entire trend will be reversed even during the relocation process.

(c) Business Relocation

About 60 major business firms employing nearly 600 employees are to be relocated from an area adjacent to the Little Mystic Channel for housing and recreation purposes and from an area along Rutherford Avenue for purposes of constructing the Massachusetts Bay Community College. The BRA did not propose a definitive business relocation program identifying particular sites to which individual businesses would be moved. Its reason was that the businesses did not have an "identity of interests" of the kind which would induce them to collaborate in the selection of an appropriate major relocation site elsewhere and that because of the diverse nature of these firms, their relocation would be a practical matter to occur on an individual basis — each having its own particular business relocation need, economic posture, and timetable. The BRA, however, does propose development of the Mystic Wharf for more intensive industrial and commercial use. It refused to guarantee that Charlestown's businesses would relocate to the Mystic Wharf holding to its position that the affected businesses might prefer other locations. It would offer, however, that through urban renewal the Mystic Wharf, comprising about 55 acres, could become a more important part of Boston's industrial base.

The BRA's analysis of the firms to be displaced indicated that the majority of them were of a kind which indicated they would relocate, if not in Boston, in the immediate vicinity. Moreover, many of the firms expressed their intention to relocate in Boston if possible and in fact to expand their operations in the process. As a closing argument, the BRA showed that the areas in question were uniformly old except for some limited new construction, were unutilized and inefficient and were returning less in taxes than other commercial areas.

(d) Community College

The Community College is planned for an area of 50 acres that is assessed at something less than \$2 million. The criticism is that the land is better suited for industrial use and that the College could go elsewhere. The BRA's argument is that it is true the land is suited for industrial development, but that by the same token no matter where the College located the land on which it was placed would also be suited for one kind of development or another. For example, if the College were to be built in any other downtown location, it would pre-empt valuable commercial land. If it were to be placed in a suburban location, it would pre-empt valuable commercial or residential land. Under the Charlestown location, moreover, the site of the College is fixed and limited. Under the suburban proposal, the College could physically spread to 150 acres or more. The controlling factor in locating the College in Charlestown, however, was its accessibility to the greatest number of students of families in the lower economic ranges who are "disadvantaged" in terms of education. The Charlestown location right at a new rapid transit stop, at the Inner Belt, and close to student job opportunities related to the day or evening sessions and to other cultural and educational institutions with which education cooperation is anticipated, is the optimum location in the Boston area for such a two-year commuter college. In addition to this, it represents an attractive neighbor to the Charlestown residential community.

(e) Rehabilitation

Conservation or rehabilitation is the treatment for over 2,000 residential buildings in Charlestown containing nearly 5,000 dwelling units. This represents more than 90 percent of the occupied dwelling units in Charlestown. Large scale conservation and rehabilitation is the only way to preserve this historic family district. Without it, the exodus of the past will continue: housing is old, financing is difficult to arrange except on personal credit, those who do desire better housing look elsewhere — particularly to the suburbs to find it. There are two reasons why rehabilitation will work. The first is that people naturally desire to live in decent properties and will spend their time, money, and effort to make properties decent if they are happy with their neighborhood. When an area is declining rapidly such as Charlestown has over the past fifteen years, ordinary responsible people will not invest their money in maintaining old properties but will find housing elsewhere. On this point, the Charlestown Plan completely refurbishes the Charlestown area and provides the basis for an independent family decision to improve one's home and to commit oneself to Charlestown. The second reason is one of degree. Charlestown is an area to which most of its present residents are temperamentally committed. It is not a transient area. Even in the face of decline, many Charlestown homeowners have put money into their properties. This has happened in nearly every section of the town and with every kind of home. Rehabilitation will work — in the first place, because the town will be brightened up and a reason provided to repair and maintain; in the second place, because the natural inclination of Charlestown residents to commit themselves to their town will and has already manifested itself. Rehabilitation has become "controversial" under the following charges:

- (1) "It is a lie."
- (2) "It will not work."
- (3) "If it works, it will do so only at great expense."
- (4) "It will substitute federal controls for local government."

The BRA counters these criticisms in the following way:

- (1) "It is a lie"
The whole concept of the Plan is to preserve the Charlestown residential community. Rehabilitation and conservation is the only way to preserve it, for demolition would destroy it. Every element of the Plan is tailored to protecting the residential community. The Plan has received federal approval and BRA approval. It has specific safeguarding provisions which, upon passage by the City Council, will have the force of law. This kind of criticism ignores these factors, is cynical, or is highly emotional based upon something other than the Charlestown Plan.
- (2) "It will not work"
The best test there is that rehabilitation will work, says the BRA, is to look at what is going on in Charlestown today. Under its voluntary program of technical assistance to Charlestown homeowners, the BRA has drawn up plans for the conservation and rehabilitation of 76 buildings containing 144 dwelling units. About half of these buildings are single family homes and most of the remaining are two- and three-family homes. These homes are located in every part of Charlestown and are owned by people who are very little different from their neighbors. The BRA's analysis for these homes showed that about 65 percent of them had violations of the safety and health codes and that an average expenditure of \$467.02 for each dwelling unit was needed to correct these violations. In many cases such correction would cost from \$100 to \$300. In a number of cases, however, some extensive structural work was required, and there are several instances of code work costing from \$2,000 to \$4,000. Apart from correcting code violations, the BRA found that the homeowner really desired to do much more. In fact, for all 144 units, the average total cost per dwelling unit was \$1,427.70. Roughly, therefore, homeowners spend twice as much more on their properties than what is required by the codes. Apart from the BRA, homeowners in Charlestown in the past year and a half have done a great deal of work on their own. This was not unexpected because Charlestown is not a poverty-stricken area and its people are not slum dwellers. For example, based on an analysis of the 1960 Census, Charlestown's residents can be divided into two groups. The first group resides in the public housing project. Its average family income is about \$3,000 a year and the median is about \$2,500 a year. The figures are this low because there are many elderly individuals and families who are not working, and there are many families in the project without an employed head of household. The second group is the one which is relevant for purposes of rehabilitation, since this group includes the owners of and residents in private housing. This group has an unusually high family income. Under the U. S. Census figures, the average income in 1960 was nearly \$7,000 and the median about \$6,200. Given the "real income" gain since 1960, these figures are even higher today. Consequently, with the exception of elderly individuals with limited income, the chronically underemployed and the hardship case, the overwhelming majority of Charlestown families are in what might be called the moderate-income bracket. Their housing costs, on the other hand, are an unusually small percentage of their income, for the average Charlestown family expends about 10 percent of its income for housing. This is appreciably lower than is to be found in the housing market generally and as a percentage is lower than what is paid in public housing. Charlestown residents have shown that they are willing to pay more for better housing when it can be found. It is well known that those who have left Charlestown are spending more for housing, willingly, than they did

when they were in Charlestown. It has also been established that Charlestown homeowners are willing to carry loans or dip into their savings to make repairs to their property. Based on what has happened in the past, what is happening now, and this income and expenditure profile, the BRA contends that Charlestown has the highest potential for conservation and rehabilitation.

- (3) "If it works, it will do so only at great expense."

The reply to this is found above. There is no question that many of the older buildings will prove to have serious structural defects. Rehabilitation assistance already has disclosed foundation problems, main beam problems, and parapet wall problems that may require several thousand dollars to correct. Regardless of renewal, the BRA points out, defects of this importance would eventually come to the attention of the city's code enforcement agencies and would have to be corrected. Without renewal, two things are clear. First of all, loans might be difficult to receive to do such work, and secondly, the owner when faced with a high cost may decide to abandon the property. This, of course, is what has been happening in the past. It is proved out by experiences with the banks and by the high rate of foreclosure on old abandoned structurally deficient buildings. With renewal, however, financing is made easier in two ways. The lending agency realizes its investment will be protected both by upgrading of the neighborhood and by the availability of FHA mortgage insurance. Secondly, the homeowner himself will be more likely to expend his money on repairs when he knows his home will have value in a stable area.

- (4) "It will substitute federal controls for local government."

Elsewhere in the United States, urban renewal plans have included special controls on property. In Boston, however, with a very explicit building code and health code and other specific codes, the BRA decided that such codes were sufficient to protect the public health and safety and adopted them in toto. The standards applicable in Charlestown, therefore, are the standards already applicable in all parts of the city. The difference, however, is the timing. Under urban renewal, the properties in Charlestown at the end of the six-year execution period must be certified by the BRA to the federal Urban Renewal Administration as meeting code standards. What urban renewal in Charlestown means, consequently, is that the city's code enforcement program can be made a reality in that district with minimum hardship on those affected and maximum benefit to every homeowner and resident and the district as a whole. Upon the completion of the project execution period (6 years), it is expected that code enforcement will be picked up as a matter of course by the city's enforcing agencies at that time. The Federal Loan and Grant contract should be closed out at that time, all construction completed, and other expenses terminated. There has never been an intention in any federal legislation or urban renewal practices to impose federal controls on local governments.

- (f) New Housing

Under the Urban Renewal Plan, about 270 residential buildings occupied by about 465 families and individuals would be acquired and demolished. The Plan provides for the construction of 950 apartments in three moderate rental housing developments. In addition, land will be available throughout Charlestown on which smaller moderate rental developments or the construction of private homes can occur. Such land, if fully developed, would provide for another 450 dwelling units — for a total of 1,400 new private dwelling units, or a net gain of about 1,000 units over existing conditions. In addition to this, the Plan programs the construction of 200 units of public housing for the elderly so that the Plan should result in a net increase in the housing stock of about 1,200 units. There is very little criticism of the public elderly housing program under the Plan.

The new private housing proposed has been criticized as either too expensive or too cheap. It is probably just right says the BRA. It is too expensive by the standards of public housing rentals, but this is because of the very minimum kind of government subsidy (subsidy through the "below-market" interest rate). It is too cheap by suburban standards because it lacks some of the spaciousness and finishing of suburban subdivision development, but this because of the rather limited space a city can make available for housing and because such extras would result in increased rentals. This new housing, notwithstanding its critics, is the best housing that can be built today considering current costs of construction, to rent in these moderate ranges. The Charlestown Plan, however, includes opportunities for individual initiative, for Charlestown's many vacant lots, in the attractive setting the renewed community will provide, can be marketed to individuals or groups who desire to build homes of their choice. The Plan in this respect might be called indefinite, but, argues the BRA, what it is in reality is flexible. It offers for the first time in any large degree a real opportunity for families to build homes in their own community.

- (g) Taxes

Taxes came into question during the public hearing on the Plan. Between 1960 and the present, taxable properties in Charlestown as a whole, increased from a total of about \$34 million to about \$36,200,000 (a net increase of \$2,200,000). This increase was, however, due to \$3½ million of new industrial construction outside of the project area. Within the project area, taxable properties were disappearing from the tax rolls through abandonment, deterioration, etc. In 1960 in the project area, taxable properties totaled \$21 million. In 1964 in the project area, these properties totaled slightly better than \$19½ million for a net loss of nearly \$1½ million.

The trend in the project area has been clear — taxable properties have been disappearing through foreclosures and otherwise. Under the Urban Renewal Plan, many tax foreclosed properties should be returned to the tax rolls. Many other properties of declining value will be replaced by tax-producing development. The BRA does not expect the project to produce a large tax increase to the city and the project was never designed solely to do this. Nevertheless it is presently estimated that all the project developments proposed, would upon final construction, result in some four millions of dollars net addition to the tax base in the project area.

D. POSITION OF OPPONENTS TO THE PLAN

Opposition to the Plan has been of several kinds:

- Opposition on General Principles
- Opposition for Historic Reasons
- Opposition Because of Local Conflicts
- Opposition Because of Personal Dislikes
- Opposition Because of Ignorance
- Opposition Because of Distrust
- Skeptical Opposition

1. Opposition on General Principles

The transcripts of the public hearing indicate that many speakers in opposition to the Plan addressed themselves, not to the details of the Plan or even to the condition of Charlestown, but to broader considerations. For example, a number of speakers indicated that urban renewal was "inherently evil." Others that it was inherently unjust. Several stated that it was unconstitutional and many felt that it was immoral. There were those who believed it was part of a conspiracy. Several speakers were convinced that all matters should be left to the initiative of the individual, and that the state had no role to play when it came to communities. Some speakers felt that moral and spiritual well being should be emphasized and that physical surroundings were only an incidental part of life. The BRA discounts these objections as having little or no bearing on the Charlestown Plan as such.

2. Opposition for Historic Reasons

Much of the opposition to the Plan was based on prior events. For example, some objectors regarded the demolition of homes for the construction of the large public housing project in Charlestown in 1940 as an improper governmental act.

Others regarded the taking of homes for the Mystic River Bridge in Charlestown in 1950 as a similar act. In the late 1950's, Charlestown residents could see urban redevelopment demolition across the Charles River in the

West End of Boston and a great many Charlestown residents established their position in opposition to the BRA at that time. In addition to these factors, there are many residents of Charlestown who over the years have become critical of the City of Boston's activities, or lack of them, in the Charlestown district. Opposition of this kind manifested itself at the hearings in the form of suspicion, or even fear. To this kind of opposition, the BRA answers that the current program is one designed for the community and not in spite of it and that the BRA should be given an opportunity to be judged on its own performance, rather than for the experiences of the past.

3. **Opposition Because of Local Conflicts**
 Much of the opposition came from the local organization — Self Help Organization of Charlestown (SHOC). This organization, several years before, had been active in community affairs. During the planning process, a new organization was established — the Federation of Charlestown Organizations, and SHOC polarized into the opposition group. SHOC contends that the Charlestown Plan did not take their desires into account and that it therefore does not represent the desires of the people of Charlestown. The BRA answers that it has worked with every group and individual that would work with it, and in fact, has gone beyond and taken deeply into account the objections raised by oppositor groups. The BRA contends that much of this kind of opposition is inevitable in Charlestown where there is always to be found those who will argue on one side of the question or another.
4. **Opposition Because of Personal Dislikes**
 Many speakers in opposition to the Charlestown Urban Renewal Plan expressed a dislike for Edward J. Logue, Development Administrator, Boston Redevelopment Authority.
5. **Opposition Because of Ignorance**
 The BRA contends that much of the opposition was based on ignorance. It supports this contention by analyzing those who spoke in opposition at the public hearing. A total of 83 Charlestown residents spoke in opposition to the Plan. These speakers resided in a total of 74 residential properties. Of these properties, 59 were scheduled not to be acquired and only 15 (or about 20 percent) to be acquired. Yet, many if not most of the speakers, had the impression or created the impression that their homes were going to be acquired. Many of these speakers simply did not know. Others refused to believe, and some apparently had been misled. The BRA states that opposition based on misconception is not relevant to the Plan and that the actual carrying out of the Plan as proposed will correct these misconceptions.
6. **Opposition Because of Distrust**
 It is difficult to separate this kind of opposition from the former kind, and the BRA's answer for this is the same — namely that the carrying out of the Plan will prove it groundless. Nevertheless, the majority of speakers indicated a profound distrust of the BRA. Some of them because the memory of the West End Project cannot be forgotten. Others because they felt that Mr. Logue did not keep his word. Many opponents distrusted Logue and staff members because they were not from Boston — some objected they were not from Charlestown.
7. **Skeptical Opposition**
 There was opposition to be found against several elements of the Plan:
 - (a) **MBTA**
 This opposition felt that the MBTA would remove the "el" eventually regardless of urban renewal, and that this could be done under federal and state mass transit funds. The BRA had concluded differently.
 - (b) **Family Relocation**
 There was some opposition to the Plan for the relocation of families. This opposition felt that relocated families would have to pay higher rates which they could not afford. The BRA felt that if rents were higher, they would not be beyond the ability to pay of the families involved and that special provision would be made for the most difficult cases.
 - (c) **Business Relocation**
 There was opinion that relocated businesses would move out of the city and would sustain hardship in moving expenses. The BRA felt it had a realistic business relocation plan and that it would be able to solve problems on a case-by-case basis.
 - (d) **Community College**
 There were those who felt that the Community College should be located elsewhere than Charlestown, because the land had high industrial value. The BRA contends that the land has higher educational value.
 - (e) **Rehabilitation**
 There were those who felt that rehabilitation would either be too expensive to undertake or would result in high rent increases. The BRA's answer is that a program can be worked out to meet the homeowner's needs and ability to pay, and that such a program need not be of prohibitive cost. In any event, code enforcement without urban renewal would result in a serious hardship with none of the benefits.
 - (f) **New Housing**
 There was opposition to the proposed new housing on the grounds that it would be rat infested and unsteady and occupied by outsiders. The BRA's position was that rat infestation will be cleaned up, that the new housing would be as substantial as any new housing, and that there was every reason to believe that over the course of 4 to 6 years, many former residents would return and that many of the young couples who now leave there would remain.

GEORGE F. FOLEY, JR., Chairman.

The question came on the acceptance of the committee's report.

In connection with the foregoing report, Councillor W. J. Foley offered the following motion:

Moved, That the Executive Committee be directed to determine whether, in fact, public hearings were held as required by law.

The motion was lost, yeas 2, nays 6:

Yeas—Councillors Craven, W. J. Foley—2.

Nays—Councillors G. F. Foley, Hines, Hynes, Iannella, Kerrigan, Tierney—6.

The foregoing report of the committee was accepted, yeas 7, nays 2:

MINORITY REPORT OF COUNCILLOR WILLIAM J. FOLEY, VICE-CHAIRMAN OF COMMITTEE ON URBAN RE- NEWAL, RE CHARLESTOWN URBAN RENEWAL PROJECT.

The problem before the City Council today is not at all as many state, "Is urban renewal good or necessary for Charlestown."

The problem is whether the specific plan put before the Council by Logue and his subservient and uncritical Board of the Boston Redevelopment Authority is good for Charlestown and good for Boston. The answer to both questions is a clear "No."

On my way to this hearing a mature gentleman asked me in a friendly way whether, really, urban renewal is not necessary for Charlestown. I told him that my fondest hope for him was that if he falls on the ice next winter and breaks his ankle, that some intern at the hospital not remove his liver, kidney, and spleen just for practice.

The truth is that this particular plan and project was not designed for Charlestown at all. It was designed to sustain and enhance Logue's national publicity image. Is it not ironical that Logue, during the course of the Council hearings, spent more time in Nassau, Bahama Islands, protecting his publicity connections with "Time," "Life," and "Fortune" than at the Council hearing?

Setting all but hard-nosed power politics aside, I can't say that I blame him. He knows where the strength lies.

In January, 1963, Logue and his works and ponies were rejected by the people of Charlestown at a public hearing in the district by more than 70 percent of those persons attending. His approach was unsound as it is basically everywhere and the resultant plan was bad.

He was faced with the choice of admitting error or frosting the cake.

Being Logue, he could, of course, never admit error, reminding one of Bill Klem, the baseball umpire, who said that in 35 years in the major leagues, he had never called one wrong, meaning, of course, that the way he called them, they stayed.

The cake frosting consisted of (1) "removing the El," and (2) Community College.

He then proceeded to marry the "El removal" to the project he wanted for purposes of display at national conventions.

After all, a man who keeps a packed bag under his bed at all times must have something to show the unsuspecting mayor of New York where he recently rather publicly applied for work, or the mayor of Los Angeles or Chicago or, if things get real tough, Boise, Idaho.

However, in the year 1964, to the surprise of informed observers the Federal Urban Mass Transportation Act was passed, and the Massachusetts Bay Transportation Authority Act was enacted by the General Court.

It is now, after the enactment of these pieces of legislation, a waste of at least 3 to 4 millions of dollars to marry the El removal to the urban renewal plan, and would cost the City of Boston unnecessarily many millions of dollars. But what's Boston's money compared to the preservation of Eddie Logue's national image for infallibility and invincibility?

It would probably be cheaper for us to buy "Time," "Life," or "Fortune," let Eddie write his own copy and let us have a sensible program.

As to locating the Community College in the Boston & Maine Railroad yard, I suggest that Professor Kermit Morrissey of Brandeis answered that educational question with his feet when he avoided attendance at our hearings, therefore, discussion of the matter. He thus holds clear title to the 1965 "Artful Dodger" Award.

The proposal before you breaks down naturally into the following parts:

- (A) Rehabilitation
- (B) El Relocation
- (C) 221 D 3 Construction
- (D) Community College
- (E) Public Housing

It is wrong on all scores. I propose to show you that this particular plan for Charlestown, not some other plan, not some other theoretical plan, but this particular plan for Charlestown is wrong.

(A)—REHABILITATION.

Rehabilitation has worked nowhere in the United States. This is pretty much admitted by proposals which President Johnson recently has made to the Congress for changes in the Housing Act. It was pretty much admitted by Logue when the day after the closing of our hearings he indicated how much has to be done to make rehabilitation work in Roxbury (Washington Park) after 30 months of trying.

Rehabilitation works only if you are willing to accept replacement of present occupants by persons much more affluent and successful. I am not.

The last day of the hearings, Logue himself testified that the standards for urban renewal and rehabilitation which will be enforced in Charlestown as part of this plan are the same standards as those imposed in Washington Park. The cost in Washington Park, according to Logue's subordinate, Drought, last fall, was running \$2,300 a unit. All national critics of this program, including the Dean of the Joint Center for Urban Studies of Harvard and Massachusetts Institute of Technology, indicate that the average cost of rehabilitation is running much higher. Even at this figure in Washington Park only 10 percent of the units have been rehabilitated in 30 months of a projected 96 months' execution period.

The 10 percent of the units which have been rehabilitated are those units which are owned on an investment basis, mostly by persons who do not live in Washington Park. The Redevelopment Authority is having practically no success in persuading resident owners to undertake the severe financial obligations entailed in rehabilitating residential property.

This situation Logue admitted in the newspapers the day after our hearings closed.

Now, the significance of the \$2,300 average should not be lost. Extrapolating from a number of statistical approaches used at these hearings, we may conclude that the median of the units would hit about \$2,300 as well as the average. This has been about so in all the statistical analyses developed at these hearings.

We may accept it, I suggest, for the sake of argument in Charlestown as well. Therefore, one may assume that 50 percent of the units in Charlestown will require an investment in excess of \$2,300. Surely, of this 50 percent many will be unable to assume the debt necessary to do what Logue wants them to do. They will have, of course, to be removed.

I would think there might be members of this Body who would blanch at a sudden requirement to expend an additional \$3,000 to \$5,000 on his house, and it is public knowledge that a Councillor has an income of \$7,500 at least, which is substantially above the Charlestown experience as related at the hearings concerning the families to be displaced.

Let no one in the future in this Body say that he voted for this project upon the understanding that clearance would be held to 10 percent.

Clearance cannot be held to 10 percent. When pressed Logue did not promise to hold it to 10 percent. This the record will sustain. On the Roxbury experience clearance cannot fail to run to at least a third if this foolish project is ever executed. You are, therefore, asked to vote to drive not just 1,500 people from their homes but rather a minimum of 5,000.

(B)—EL RELOCATION.

To remove and relocate the elevated Logue's way will cost Boston one third of \$12,500,000 plus 55 percent of \$17,500,000 totaling \$13,791,000.

For several years, this part of the project has been represented as the removal of the elevated structure. It was so represented to us until late the day of the first hearing when it was conceded the removal of the elevated structure would cost the city or cost somebody \$300,000, not \$12,530,000. I am more than willing to vote \$300,000 to take out the elevated as I am sure everyone else in this room is willing to do, even though that would be an unfair burden on the city.

But why does the city have to pay \$13,791,000 of its own money plus making available an additional \$8,000,000 of renewal funds to the MBTA for the purpose of running a high priority MBTA line out to Route 128?

To remove and relocate the elevated under the MBTA formula without the aid of the Federal Urban Mass Transportation Act (out of which \$46 million has been allotted to Massachusetts) would cost the city 55 percent of \$3,000,000 or \$1,650,000. The remaining \$27 million would come from the cigarette tax increase. Therefore the net loss is about \$12,000,000 to the taxpayers of the City of Boston. With the additional help from the Federal Urban Mass Transportation Act the city's charge would be reduced to a mere \$550,000.

I suggest that the Mayor's "get tough" policy be directed at the MBTA Board for a saving of a cool \$12,000,000.

It is proposed in the Charlestown plan to build 1,000 221 D 3 living units in Charlestown. Clearly, those units on the testimony of the Project Director are not for the people of Charlestown.

To make room for them, two lumber yards and a potential 40-acre industrial park must be eliminated. Why? Apparently to raise the population in Charlestown from 17,500 to about 20,000 people by importing into Charlestown people who never lived there, and because of its peripheral location probably non-Bostonians. At one stroke to reduce Boston's resources and increase the number of people to be served is municipal economic insanity. Previously symptoms of this disease have been visible in the case of Castle square, the waterfront project, and to some extent the Government Center project on the part of the Development Administrator.

(C)—COMMUNITY COLLEGE

Locating the Community College as here proposed would cost the city \$700,000 immediately out of the \$2,100,000 write off and \$200,000 a year thereafter in lost tax revenue, 200 jobs and 27 businesses.

It will cost the Community College \$8 to \$12,000,000 in parking garages which would not be necessary at other locations available.

Mighty expensive frosting for a very bad cake. It might be cheaper to hire a competent baker.

I can't imagine how this Mayor can ever again raise the plaintive cry about "40 percent non-taxable" when by his own deliberate act he recommends conversion of a 50-acre industrial park into a non-taxable college campus.

(E)—PUBLIC HOUSING

The plan should provide housing for large low-income families. Those are the persons to be displaced. It provides instead public housing for the elderly and private middle-income housing.

Space is opened up and then used not for those displaced but others. How can this make sense?

Size

This project is about nine times the size of the West End project area. I find in talking to people, this is not realized even by those whom one might expect to be informed on the subject of urban renewal. It is, as Bill Strickland, former employee of the Boston Redevelopment Authority, described the program elsewhere "grandiose." There is no need for a project anywhere this size.

The people of Charlestown have demonstrated their vigor and initiative at these hearings. They need no uplifting from the Project Staff which has nightly demonstrated its incompetence quite conclusively at these hearings. The proposal is to turn the 17,000 people of Charlestown over to Del Vecchio, Matt, and DeNisio upon which they shall learn their trade. If this be quackery, do not judge too harshly. Their only local example

now that all the competent people have left the Boston Redevelopment Authority is that Master Urban Renewal Quack in the United States, Edward J. Logue.

CONCLUSION

As to his Honor's part in all this, let me only say that he and I are in complete accord upon one matter at least, that is Let's Stop Power Politics.

MINORITY REPORT OF COUNCILLOR
KATHERINE CRAVEN, MEMBER OF
COMMITTEE ON URBAN RENEWAL.

Mr. President, I rise to submit a Minority Report to my fellow members of this Council. I, also, am a minority individual.

Let it be known that I disapprove thoroughly of this \$41,000,000 urban renewal program for Charlestown because in spite of the enormity of the money, it offers to the people of Charlestown, nothing, sir, nothing that has not already been inaugurated under other auspices.

Forty-one million dollars, gentlemen, let me remind you, \$41,000,000 in addition on the \$27,000,000 on the Washington Park area that you voted for, how much more on Castle square, I do not know, and if the people of Charlestown were going to garner a trifle from this program, I might not be so adamant in my concern.

Forty-one million dollars, gentlemen, and everything that has been gimmicked in this urban renewal program has been provided for under other auspices.

The School Department had already made reservations for what new schools are going to be put over there.

Housing for the aged is no province of Mr. Logue but belongs in the Federal Housing Program.

Urban renewal is only acceptable when the people of an area want it. It is my considered opinion the same as it should be of all you members of this Council by the very presentation it has been proven to you that the people of Charlestown don't want this urban renewal program.

Today we have the spectacle of upwards of 600 homes and 5,000 people being swept away at the instigation of the powers that be. We have this hallowed Chamber taking on the aspects of an armed camp protecting us against whom?

Coun. CRAVEN—Against our own people?

Today these people are from Charlestown. Yesterday they were from the West End, Whitney Street, and the Washington Park section of Roxbury. Tomorrow they will come from the South Cove, the South End, Mission Hill, West Roxbury, and according to Logue, the path of the Expressway through Jamaica Plain, Hyde Park, and Readville.

The people present here today truly move me with pity no matter what they do to the rest of you. True, they are from the town of my birth. True, they are in general in the same economic status such as myself. True, they are faced with the combined opposition of the Press, the Priests, and the Patronage.

There is, indeed, a tyranny road—the likeness between Hitler and Logue is striking. Hitler said, "Today it is Austria, Poland, Czechoslovakia. Tomorrow it is the world."

We know what havoc it raised when Logue says "Today Charlestown, South Cove and the South End. Tomorrow it is Jamaica Plain, Dorchester, East Boston, and West Roxbury," and, Yes, he is casting covetous eyes in the direction of South Boston.

Yesterday Logue was Development Administrator just coming into the city. Today, in truth he is Public Works Commissioner, the Park Commissioner, the Traffic Commissioner, and the entire Boston School Committee and the School Department, the Director of the Board of the MBTA, and he is the brains of the State Board of Education. Why the city and state should bear the burden of paying the salaries of men who have been heading those departments is beyond me.

Look around you in Roxbury, just look, gentlemen. You are truly seeing just as sure as there will be a tomorrow the death of the neighborhood concept as we know it. When these vultures

finish, there will be no City of Boston. Rise up in your manhood.

The old world charm of this city recognized through the country will be destroyed, when Logue gets through. We will truly be an All-American City, as "Look" magazine had it in conjunction with Walla Walla, Washington; Quincy, Illinois; Little Rock, Arkansas, and Dade County, Florida.

Have you no pride, any one of you?

The people of the Back Bay are strictly fighting a delaying action. Logue's group knows no aesthetic sense, nor has he any true sense of history. He only knows the power of the bulldozer. With all the eloquence at my command, I plead with you to stop this man now before he makes of this Body a travesty before the entire country.

We have read and heard in great detail over the last couple of months the cry of contentiousness of the people of Charlestown, but I recall an old Irish proverb which says, "Contention Is Better Than Loneliness."

You, my fellow members, went on a tour of Charlestown, you were cordially and warmly received by the people over there. Let me in a Minority Report ask: How can you, in the name of humanity, vote for this program of destruction or a specific program such as this that Logue asks, that gives to the people of Charlestown nothing. How can you vote to send poor people down into the rat-infested oily wharf? How can you drive industry out of our city on the supposition that you might gain more?

How can you vote in good conscience, you parents, to leave a barroom standing adjacent to the Community College while the homes around are being destroyed?

Yet, on the other hand, at a recent meeting of the South Cove urban renewal question, I read the newspapers publicize that many barrooms that will be swept out of the South Cove area, but not one word is mentioned about the 3,000 garment employees from Kneeland street and \$10,000,000 yearly payrolls immediately that are going to be driven out of the city, sir, from our garment industry.

You don't even see the newspapers publicizing the fact that with the Central Artery going through our city we lost 53.9 percent of our printing industry.

It is with a feeling of shame, gentlemen, that I find it necessary to make in this Minority Report what I consider a final appeal to your sense of honesty, but I, for one, have always believed in playing the string out. The judgment of necessity must be as to how you vote today, gentlemen. Don't go down in history as selling yourselves short.

Member of the Committee.

CITY OF BOSTON.

Proceedings of City Council.

Monday, June 14, 1965.

Regular meeting of the City Council held in the Council Chamber, at 2 P.M., President TIERNEY in the chair, and all the members present.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

Almighty God, our Father, Thy blessings are beyond our worthiness and our comprehension; humbly we stand together in this chamber of city government to offer this moment of adoration and to seek Thy benediction on the work we are to undertake. Take our hands in Thine and lead our faltering steps in the ways of righteousness and peace. May the fears and doubts which so often assail our souls be forever dispelled and supplanted by faith and courage.

On this Flag Day with renewed fervor and loyalty we salute the Red, White, and Blue. For 188 years it has been a symbol of peace, an emblem of justice, a standard of this nation, founded in the spirit of God and proclaiming to all men everywhere the new era of peace and justice.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments: Weighers of Goods for the term ending April 30, 1966:

John Hudson, 21 Abbott avenue, Everett; Paul Moore, 11 Keystone street, West Roxbury.

Referred to the Committee on Confirmations.

NAMING OF INTERSECTIONS IN HONOR OF DECEASED VETERANS.

The following was received:

City of Boston,
Office of the Mayor, June 14, 1965.

To the City Council.

Gentlemen:

I submit herewith four orders for the naming of certain intersections in the city in honor of deceased veterans of our country. The Committee to Memorialize Veterans, after due consideration, has recommended the naming of the sites as set forth in the accompanying orders.

In view of the fact that each site is to be named in memory of a veteran who sacrificed his life in the service of his country, I recommend that your Honorable Body give approval to the accompanying orders.

Respectfully,

JOHN F. COLLINS, Mayor.

Ordered, That the space at the junction of Veterans of Foreign Wars Parkway and Brucewood street, Ward 20, be named Michael Abraham Square, in honor of Michael Abraham, late veteran of World War II.

Ordered, That the space at the junction of Edison Green and Dorchester avenue, Ward 16, be named Edward J. Clark Square, in honor of Edward J. Clark, late veteran of World War II.

Ordered, That the space at the junction of Goodenough street and Faneuil street, Ward 22, be named Ernest W. Prussman Square, in honor of Ernest W. Prussman, late veteran of World War II.

Ordered, That the space at the junction of Washington street and Maplewood street, Ward 14, be named Peter C. Habib Square, in honor of Peter C. Habib, late veteran of World War II.

On motion of Councillor W. J. Foley, the rules were suspended and the orders were severally passed.

ORDINANCE AUTHORIZING CERTAIN PERSONNEL OF HOUSING INSPECTION DEPARTMENT TO SERVE CIVIL PROCESS.

The following was received:

City of Boston,
Office of the Mayor, June 9, 1965.

To the Honorable City Council.

Gentlemen:

I have been advised by Daniel J. Finn, Commissioner of the Housing Inspection De-

partment of the City of Boston, that since the enactment of the ordinance creating said department, new emphasis has been placed on the enforcement aspects of the State Sanitary Code. The present provisions of this code require that "legal notices" be served on violators by officials legally entitled to serve civil process.

In order that a high degree of flexibility be maintained within the Housing Inspection Department, the Commissioner has recommended that all environmental sanitary inspectors (now approximately 50 in number) be granted limited constable powers for the purpose of serving civil process as authorized by the State Sanitary Code in connection with their official duties as members of the Housing Inspection Department. The granting of this power will greatly increase the efficiency of the Housing Inspection Department in performing their duties in the enforcement of the code.

The granting of this power to the inspectors would in no way infringe on the prerogatives and duties of the constables appointed under chapter 2, section 2 of the Revised Ordinances of 1961, but would be expressly limited to services made in the performance of their official duties.

I am submitting herewith to your Honorable Body a proposed ordinance which would accomplish the purposes above set forth and respectfully recommend its adoption by your Honorable Body.

Respectfully,
JOHN F. COLLINS, Mayor.

City of Boston.

In the Year Nineteen Hundred and Sixty-Five. An Ordinance Authorizing Certain Personnel of the Housing Inspection Department To Serve Civil Process.

Be it ordained by the City Council of Boston, as follows:

Chapter 2 of the Revised Ordinances of 1961 be, and hereby is, amended by inserting after Section 2 of Chapter 2 the following:

SECTION 2A. In addition to the one hundred seventy-five constables authorized by Chapter 2, Section 2 of the Revised Ordinances of 1961, all environmental sanitation inspectors and their supervisory personnel in the Housing Inspection Department, shall, by virtue of their office, be constables of the City of Boston authorized to serve civil process and shall not be included in the number of constables as provided in Chapter 2, Section 2 of the Revised Ordinances of 1961. Such process shall be limited to the service of civil process as is required in the performance of their duties as such environmental inspectors.

SECTION 2. Anything in section 3 of chapter 1 of the Revised Ordinances of 1961 to the contrary notwithstanding, this ordinance shall be published by the action of the city council in passing the same.

Referred to the Committee on Ordinances.

SALE OF CERTAIN LAND IN DORCHESTER TO STURTEVANT COMPANY.

The following was received:

City of Boston,
Office of the Mayor, June 14, 1965.

To the City Council.

Gentlemen:

I transmit herewith communication received from William J. Devine, Commissioner of Parks and Recreation, recommending the sale of about 8,230 square feet of land between Park and Christopher streets in the Dorchester district of the City of Boston for the sum of \$2,100. The proposed purchaser, Sturtevant Mill Company, owns properties on either side of the land proposed to be sold, and the sale will permit the company to build an extension to its present building.

I transmit herewith an order which will permit the sale of this land to the Sturtevant Mill Company for a price of not less than \$2,100.

Respectfully,
JOHN F. COLLINS, Mayor.

City of Boston,
Parks and Recreation Department,
June 14, 1965.

To the Mayor and City Council.

Gentlemen:

At a meeting of the Parks and Recreation Commission held May 27, 1965, it was voted that approximately 8,230 square feet of land located between Park street and Christopher street in the Dorchester district is no longer required for public purposes. This parcel is part of a large tract of land in the custody of this Commission. This particular parcel consists of a narrow strip of land about 30 feet wide adjacent to the Sturtevant Mill property. The land has no value to the city, and its sale to the Sturtevant Company will permit the extension of the present building. I recommend that this property be sold to the Sturtevant Mill Company for the sum of \$2,100. The land has been appraised at 25 cents a foot.

Respectfully,
WILLIAM J. DEVINE,
Parks and Recreation Commissioner.

June 3, 1965.

At a meeting of the Parks and Recreation Commission held on Thursday, May 27, 1965, at which a quorum was present and voting, it was unanimously voted that 8,230 square feet of land located between Park street and Christopher street in the Dorchester district, is no longer required for public purposes.

ARTHUR J. O'KEEFE,
Executive Secretary.

Attest:

Whereas, The City of Boston is the owner in fee of approximately eight thousand two hundred thirty-four (8,234) square feet of land situated between Park street and Christopher street in the Dorchester district of the City of Boston in the control of the Parks and Recreation Commission of the City of Boston; and

Whereas, At a meeting of the Parks and Recreation Commission held May 27, 1965, it was voted that said parcel of land is no longer required for public purposes; and

Whereas, Sturtevant Mill Company, owner of land on either side of the City of Boston parcel, desires to acquire the same and has offered to pay the sum of twenty-one hundred (2,100) dollars; now therefore it is hereby

Ordered, That the Mayor of the City of Boston be, and he hereby is, authorized to sell and convey to Sturtevant Mill Company, subject to easement for sewerage purposes, at a minimum price of twenty-one hundred (2,100) dollars, all the City of Boston's right, title and interest in and to the following:

A certain parcel of land situated on the southerly side of Park street, Dorchester district of the City of Boston, bounded and described as follows:

Northerly by Park street, thirty-two and 30-100 (32.30) feet; easterly by lands of William V. Hickey, D. & F. Realty Trust, and land of Sturtevant Mill Company, two hundred ninety-five and 36-100 (295.36) feet; southerly by Christopher street, twenty-four and 27-100 (24.27) feet; westerly by land of Sturtevant Mill Company, two hundred ninety-two and 30-100 (292.30) feet, containing approximately eight thousand two hundred thirty-four (8,234) square feet of land.

The above-described parcel of land is shown on a plan marked "Plan of Land, Boston (Dorchester District), Massachusetts, May 15, 1965, Walter R. Luby, Surveyor."

Referred to the Committee on Public Lands.

TRANSFER OF CERTAIN LAND FOR
RECREATIONAL PURPOSES TO
PARKS AND RECREATION DEPART-
MENT.

The following was received.

City of Boston,
Office of the Mayor, June 14, 1965.
To the City Council.

Gentlemen:

I transmit herewith communication from William J. Devine, Commissioner of Parks and Recreation, requesting that two parcels of land at Woodcliff street and Howard avenue in the Dorchester district be transferred to the Parks and Recreation Department for the purpose of providing a play area for the children of the neighborhood, and I enclose herewith an order whereby this land may be transferred from the care, custody, control and management of the Commissioner of Real Property to the care, custody, control and management of the Parks and Recreation Department for playground purposes.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,
Parks and Recreation Department,
June 14, 1965.

To the Mayor and City Council.

Gentlemen:

The City of Boston owns two small parcels of land at Woodcliff street and Howard avenue in Dorchester district of the City of Boston acquired through foreclosure of tax titles. If arrangements can be made to transfer this property into the control of this department, the land can be put into a suitable condition for a play area for the young people of the neighborhood.

Respectfully,

WILLIAM J. DEVINE,
Parks and Recreation Department.

City of Boston,
Real Property Department,
June 11, 1965.

Mr. Joseph M. Dunlea,
City Clerk.

Dear Mr. Dunlea:

At a meeting of the Committee on Foreclosed Real Estate duly held on Thursday, June 10, 1965, it was unanimously

Voted, To notify William J. Devine, Commissioner, Parks and Recreation Department, that the Committee on Foreclosed Real Estate has no objection to the transfer by the City Council of the city-owned land located at 127-129 Howard avenue and 54 Woodcliff street, Dorchester, containing approximately 3,975 square feet, from the care, custody and control of the Commissioner of Real Property to the Parks and Recreation Department for recreational purposes.

Will you kindly take appropriate action for transmission to the City Council.

Very truly yours,

JOSEPH B. BURKE,
Executive Secretary.

Whereas, By a decree of the Land Court dated June 30, 1964, the City of Boston foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 7084, page 575, on about thirteen hundred sixty-four (1,364) square feet on the northeasterly side of Woodcliff street, Dorchester district of the City of Boston, bounded and described as follows:

Land on the northeasterly side of Woodcliff street, numbered 54 in the numbering of said Woodcliff street, between an estate now or formerly of Morris Keselman and another estate now or formerly of Gaines (numbered 127 Howard avenue); and

Whereas, By a decree of the Land Court dated June 29, 1961, the City of Boston foreclosed a right of redemption under a tax

RELEASE OF BOND OF SHELL OIL COM-
PANY AND UNITED STATES GUARAN-
TEE COMPANY.

The following was received:

City of Boston,
Office of the Mayor, June 10, 1965.
To the City Council.

Gentlemen:

I transmit herewith for the consideration of your Honorable Body a communication received by me this day from the Commissioner of Public Works concerning the release of Shell Oil Company and the United States Guarantee Company, respectively, of and from their liabilities on a so-called street permit bond in the sum of \$20,000, given to the city on February 3, 1942, to be effective as of March 22, 1942.

I also submit herewith, and recommend the adoption of, an order to effectuate the release of such liability accruing on and after March 23, 1964, when a new street permit bond in the same amount was given to the city in place of the original bond.

Respectfully,

JOHN F. COLLINS, Mayor.

Whereas, On February 3, 1942, the Shell Oil Company, Inc., a Virginia corporation, as principal, and the United States Guarantee Company, as surety, furnished a bond to the City of Boston for \$20,000, to be effective on March 22, 1942, the condition of said bond being:

"that if Shell Eastern Petroleum Products, Inc., or Shell Oil Corporation, or Shell Oil Company, Inc., has received or shall hereafter receive, any permit from the Commissioner of Public Works to occupy, or make an opening in, any public way, and shall faithfully discharge and perform every duty and requirement imposed by statute, ordinance or regulation upon persons occupying, or making openings in, public ways, conform to all directions of the Commission of Public Works relating to the work done under such permit, and pay all expenses and damages incurred by the city or recovered from it by reason of such occupation, opening or work, the obligation shall become of no effect; otherwise it shall continue in full force."

which bond was deemed satisfactory by George J. Hyland, Commissioner of Public Works; and

Whereas, On March 23, 1964, the Shell Oil Company, a Delaware corporation, successor to the aforesaid Shell Oil Company, Inc., as principal, and the Travelers Indemnity Company, as surety, furnished a bond to the City of Boston for \$20,000, the condition of said new bond corresponding to the condition of said bond furnished on February 3, 1942, to be effective on March 22, 1942, which new

bond was deemed satisfactory by James W. Haley, Commissioner of Public Works; now therefore it is hereby

Ordered, That the Shell Oil Company, as successor to the said Shell Oil Company, Inc., and the United States Guarantee Company be, and they hereby are, severally released from all liability on their part accruing on and after said March 23, 1964, on the aforesaid bond given on February 3, 1942, by the Shell Oil Company, Inc., and the United States Guarantee Company, as surety.

Referred to the Executive Committee.

ORDER FOR LOAN OF \$7,000,000 FOR CHARLESTOWN URBAN RENEWAL PROJECT.

The following was received:

City of Boston,
Office of the Mayor, June 14, 1965.

The Honorable City Council.

Gentlemen:

On June 7, 1965, the City Council approved the Charlestown Urban Renewal Plan.

On June 10, 1965, acting on behalf of the City of Boston and with the authorization of the City Council as provided for in its resolution approving the Urban Renewal Plan, I executed a cooperation agreement with the Boston Redevelopment Authority committing the City of Boston to assume at least one third of net project costs required to finance project execution activities. The city's share of net project costs is currently estimated at \$12,723,000. This share will be provided in part by the construction of project improvements and supporting public facilities.

Under the cooperation agreement between the city and the Authority, the city is committed to finance as local non-cash grants-in-aid, the construction of certain eligible project improvements, such as streets, parks, and public utilities in accordance with the Charlestown Urban Renewal Plan. The cost of such improvements is currently estimated at \$7,000,000. To finance these costs, the city may, under the provisions of Chapter 121, Section 26 CC, of the General Laws, issue Urban Renewal Bonds to meet its share of project costs.

It is appropriate and urgent that the city authorizes the issue of such bonds at this time in order to begin the preparation of final design, working drawings, specifications and related engineering studies required to commence construction of these improvements, and further, to assure the availability of financing, and thus permit the prompt commencement of construction. Beginning this work as soon as possible is especially important in connection with the improvements related to the Community College site and in rehabilitation areas necessary to encourage and justify the rehabilitation of individual properties by the residents.

I therefore respectfully submit for your consideration and action the attached loan order for the required amount of \$7,000,000.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston.

In City Council.

PROPOSED LOAN ORDER.

Whereas, On June 7, 1965, the City Council passed a resolution approving the Charlestown Urban Renewal Plan and such plan was subsequently approved by the Mayor on June 10, 1965;

Whereas, Pursuant to the resolution of the City Council, the Mayor, acting in behalf of the city, has entered into a cooperation agreement with the Boston Redevelopment Authority dated June 10, 1965;

Whereas, Under the terms of the cooperation agreement, the city is obligated to make local grants-in-aid to the Authority in a maximum amount of one third of the actual net project cost of the Charlestown Urban Re-

newal Project, which one third amount is currently estimated at \$12,723,000;

Whereas, Under the 1949 Housing Act, as amended, the local grants-in-aid may include the cost of certain public improvements constructed in the project area;

Whereas, The cost of such public improvements is currently estimated at seven million dollars (\$7,000,000);

Whereas, The city, under Chapter 121 of the General Laws, Section 26CC, may issue Urban Renewal Bonds to cover the cost of such public improvements, which will not be met by loans, contributions or grants from the federal government or otherwise; now therefore it is hereby

Ordered, (1) Under the provisions of Chapter 121 of the General Laws, Section 26CC, the sum of seven million dollars (\$7,000,000) be, and hereby is, appropriated to be expended upon the request of and with the approval of the Boston Redevelopment Authority for covering the cost of the public improvements to be constructed in accordance with the Charlestown Urban Renewal Plan and pursuant to the cooperation agreement between the City of Boston and the Boston Redevelopment Authority dated June 10, 1965, which costs are not met by loans, contributions or grants from the federal government or otherwise;

(2) To meet this appropriation, the Collector-Treasurer be, and hereby is, authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the city in an amount not to exceed seven million dollars (\$7,000,000).

Referred to the Committee on Appropriations and Finance.

PETITIONS REFERRED.

The following petitions were received and referred to the committee named, viz.:

Claims.

LEASE OF SPACE IN CITY HALL ANNEX BY BOSTON REDEVELOPMENT AUTHORITY.

The following was received:

City of Boston,
Office of the Mayor, June 14, 1965.

To the City Council.

Gentlemen:

Section 26EE of Chapter 121 of the General Laws empowers the City of Boston to "lease

any of its interest in any property" to aid and cooperate in the planning, construction or operation of projects of the Boston Redevelopment Authority.

On May 10, 1961, a lease of the tenth and eleventh floors of City Hall Annex was executed between the City of Boston and the Boston Redevelopment Authority. The lease expires July 1, 1965.

Pursuant to a communication from the Assistant Commissioner of Real Property, I submit herewith an order which will permit the city in the exercise of the power contained in the above-recited section of the General Laws to lease the tenth and eleventh floors of City Hall Annex to the Boston Redevelopment Authority for its corporate purposes. The lease would be for a term of four years and six months beginning with the first day of July, 1965, and ending on the 31st day of December, 1969, and would contain a provision that in the event the Boston Redevelopment Authority relocates into the New City Hall, this lease would terminate on the day of such relocation.

The rental for the proposed new lease will be in the amount of \$110,000 annually, the first payment to be made on the 31st day of December, 1965, and subsequent payments to be made on the 30th day of June and the 31st day of December during the remaining term of the lease. The \$110,000 rent would approximate \$5 a square foot which is comparable to rental prices of renovated space in downtown office buildings.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,
Real Property Department,
June 14, 1965.

Hon. John F. Collins,
Mayor of Boston.

Dear Mr. Mayor:

On May 10, 1961, the City of Boston and the Boston Redevelopment Authority executed a lease for the tenth and eleventh floors of City Hall Annex to be occupied by the Boston Redevelopment Authority. This lease expires on June 30, 1965.

The Boston Redevelopment Authority desires to enter into a new lease with the City of Boston for the same premises for the period July 1, 1965, and to expire on December 31, 1969.

I respectfully request your Honor to submit an order to the City Council seeking their approval of the new lease for these premises.

Respectfully,

ALBERT F. DONNELLY,
Assistant Commissioner of Real Property.

Ordered, That the Mayor be, and he hereby is, authorized to lease, in the name and behalf of the City of Boston (acting under Section 26EE of the General Laws), to the Boston Redevelopment Authority, by a writing approved as to form by the Corporation Counsel, for the term of four (4) years and six (6) months commencing with July 1, 1965, at an annual rental of not less than one hundred ten thousand (\$110,000) dollars, and upon such other terms as the Mayor shall consider proper, the tenth and eleventh floor of City Hall Annex with reasonable access thereto through the entrances, exists, corridors, stairways, and automatic elevators of said Annex, and with the city obligated to furnish heat, hot and cold water, electricity, automatic elevator service and janitorial service.

Summer Work Grant To Put Vacant Lots To Work As Much-Needed Play Space

There'll be less weeds, less debris-strewn empty lots in Roxbury, North Dorchester, the South End, and in the Washington and Highland Parks areas by the time the next few weeks roll off the calendar.

Conversely there'll be more off-the-street play spots in those areas.

That is expected to be one of the first community dividend payoffs of the recent Office of Economic Opportunity grant made through Action for Boston Community Development, Inc., permitting the expansion of its summer youth work program to 14- and 15-year-old boys and girls.

One of the most important assignments given to the 600 youngsters who'll be enrolled in the program will be the cleaning out of vacant lots large enough to provide for small-scale neighborhood play space. The weeds, the stubborn crabgrass, and the debris will go. The spaces will get undercoatings of gravel and black toppings, where practical.

Then they will be equipped with sturdy play equipment.

There'll be hopscotch courts, running water for sprays on hot days, shaded areas, and things to test the climbing ability of youngsters.

The equipment will be the handiwork of boys in the 16 to 22-year-old enrollee group of the Neighborhood Youth Corps at two workshops provided by the NYC.

Models for the equipment are both simple and imaginative. They have been made possible by the combined talents of architects, sociologists, and financial advisors of a Cambridge firm headed by James Duane Smith, Tufts College graduate. His firm specializes in advice to businessmen on building plans, scientific studies, and financial management.

At the request of ABCD's Manpower Director Arnold L. Schuchter, the firm came up with an

assist in providing attractive play space in crowded areas where vacant lots have become more or less accepted eyesores.

Economy and simplicity were watchwords when Mr. Smith's group sat down to come up with the designs. To provide a shady area, they suggested old, discarded oil drums. The drums are split in half from top to bottom, then placed on frames 6 feet above the ground. They are arranged to provide a sort of shelter. Gaily painted, they will offer a defy to anyone asked to guess the original purpose of their manufacture.

Other equipment is just as ingenuous, with pipes and angle iron serving most unusually appointed purposes.

Girls in the program will help in planting greenery and placing borders around existing shrubbery.

Walk Signs For Back Bay

"Walk" - "Don't Walk" electric traffic signals will be installed throughout the Back Bay area by November 1, Traffic Commissioner Thomas F. Carty announces.

The signs and their installation will cost \$210,574, and the commissioner says that the signs will be blinking their orders in time for the enforcement date of the anti-jaywalking laws. After November 1, jaywalkers will be fined \$1 to \$3.

The 6½-square mile area is bordered by Beacon and Arlington streets and Columbus and Massachusetts avenues.

Contracts for equipment and installation were awarded after competitive bidding to Automatic Signal Division, \$34,420 for modifying controls; Municipal Signal Supply Company, \$36,500 for the signs, and to the same firm \$139,654 for installation.

Outing for Seniors

A bus trip to Salem Willows, on July 20, was the first formal activity of the "D" Street Senior's group at the Broadway housing development in South Boston.

State Street Bank Skyscraper Near Completion, New Landmark Being Readied for Fall Opening

Here's the latest informal but highly interesting progress report on the State Street Bank Building construction:

IN A BUILDING's final construction stages, things go faster than in the early months when the basic structure is under way. Despite the surrounding rubble, the State Street Bank Building is now in the home stretch. According to the builders, progress is right on schedule. There's a lot going on inside that you can't see. Interior plastering is being done, floor tile is being laid, and the electricians are putting in wiring and outlets. The elevators serving floors 1 to 10 are receiving final adjustments of their sophisticated automatic controls. Visible on the outside: the last of the precast concrete window units are going into place at the top; glass is being installed, floor to ceiling, in the ground floor windows; and the sidewalk is being laid on all four sides.

SPECIAL WORK for individual tenants has to be done on schedule, too. For instance, the State Street Bank and Trust Company is installing a spiral staircase connecting the bank's basement level with the main banking hall on the lobby floor. Since the stairway is preassembled elsewhere, one entire window bay has been left open on the ground floor so the staircase can be moved in and installed. And a mail and parcel conveyor, serving all levels of Stone & Webster's multifloor tenancy, is nearing completion.

85 Percent Rental

EDITORS AND REPORTERS from newspapers, magazines, and broadcast media were guests at a reception on one of the topmost floors in June. Weather Bureau predictions of perfect visibility, cloudless skies, and balmy temperatures went a trifle awry when the appointed hour brought us rain, fog, and chilling gusts from the northeast. Nevertheless, intrepid journalists peered through our borrowed telescopes at views which several said are more spectacular than those from other tall buildings in the city.

THE BUILDING is now about 85 percent rented. Tenants to date: State Street Bank and Trust Company; Stone & Webster Engineering Corporation, Securities Corporation, and Realty Corporation; law firms—Ropes & Gray, Sullivan & Worcester, Ely Bartlett Brown & Proctor, Hill & Barlow, Sherburne Powers & Needham, Cargill Masterman Redmond & Cahill; investments—First Boston Corporation, G. H. Walker & Co., Harris Upham & Co., Laird & Co., Lee Higginson Corporation, Salomon Brothers & Hutzler, State Street Research and Management Company, Loomis, Sayles & Co. Others—S. D. Warren Company (paper manufacturers); Harvard University, Treasurer and Records;

Hunneman & Co., realtors; Ralph Harris Company (cameras, photo supplies); the Kendall Company (first-aid and hospital products); J. K. Lasser & Co. (C.P.A. firm); Kane Financial Corporation; Down Town Club (luncheon club); Federal Deposit Insurance Corporation, and the Summers Office of New England Life.

TENANTS ARE LISTED on signs hung in the building's windows on Pearl street and Oliver street; if you'd like to get aboard this free advertising, call Hunneman, and sign a lease.

AT THE REQUEST of the Boston Building Owners and Managers Association, the Greater Boston Real Estate Board arranged with us for a tour of the building on June 28. Led by then—President Robert A. Pihlerantz and President-elect Charles G. Turner of BOMA, members of the organization split into three groups for tours to the top of the 34-story skyscraper and to lower floors where interior work is under way. Tour guides were Richard R. Wood, vice-president, Hunneman & Co.; Lothrop M. Weld, Jr., rental manager, and Donald Jackson, who recently arrived from New York to become Hunneman's manager of the build-

ing itself. After the tour, members held a luncheon meeting and discussion.

TWO PIGEONS who built a nest on the lobby floor while it was still open have won the hearts of workmen, who have walled up everything but the nest. It's still there, and the boys have built the birds a perch. The pair will have to be evicted soon, however, unless they sign a lease and pay up the back rent on 2 square feet for the past six months.

Outing . . .

Godfrey, Georgie Gerrod, Nora Ridge, Edith Russell, and Edward Lee are looking forward to welcoming other elderly residents of the development at the temporary headquarters of the group at 37 Joyce-Hayes Way.

The Drop-In Centre, made available to the elderly residents of Broadway by the Boston Housing Authority through Edward Meehan, manager, is open from 9 A.M. to 5 P.M. daily. Formal meetings are held on Thursday afternoon.

Among the many activities planned for the months ahead are knitting, crocheting, and jewelry-making classes, card games, and social hours.

William J. Shepard

William J. "Buddy" Shepard, 74, one of the composers of the American classic "Melancholy Baby" and a former city greeter for Boston, died on July 24 at Winchester Hospital.

Mr. Shepard spent many years in vaudeville at the turn of the century composing numerous songs that were sung on stages across the nation.

He regarded "Melancholy Baby" as his greatest success and sang it repeatedly during his song-and-dance-man days.

Mr. Shepard and two friends wrote the song in a Denver Hotel room in 1911, and sold it to a song publishing house for \$2,000, according to his wife, Louise M. (Maynard) Shepard of 48 Lake avenue, Woburn, where they resided.

He was a talented athlete, too. He pitched in the majors for the old Boston Braves during the 1920s.

Former Mayor James Michael Curley appointed him city greeter for Boston. Shepard held the post from 1946 to 1950.

Born in Providence, he spent most of his life in the Boston area. He lived in Arlington before moving to Woburn.

He was past exalted ruler of the Boston Lodge of Elks and a member of the MacLaurin Lodge, A.F. & A.M.

FAIR BOSTON, IT IS TRULY SAID IS THE HOME OF THE BEAN AND THE COD WHERE STREETS ARE FOR JAYWALKING AND JAYWALKERS TALK ONLY TO GOD.

Dr. Vincent DiMento

A High Requiem Mass for Dr. Vincent J. DiMento, 71, of 34 Claymoss road, Brighton, physician for the Boston public schools for 20 years until his retirement a year ago, was sung on July 29 at St. Gabriel's Monastery Church. He died on July 24.

A native of Boston, Dr. DiMento was a graduate of English High School, Tufts Medical School, and served his internship at St. Elizabeth's Hospital, Brighton. After serving as a medical officer in France during World War I, he returned to the staff of St. Elizabeth's where he served until his death.

He was a member of the American Medical Association, the Massachusetts Medical Society, and the Middlesex County Medical Association. He was a member of the Knights of Columbus and was a past commander of the North End Legion Post.

Ida Allen Hibbard

Ida Allen Hibbard, 72, retired trustee clerk of the Treasury Department, died July 21 at her summer home in Sandwich, Cape Cod, Mass. Mrs. Hibbard had served the City of Boston for 43 years before her retirement in 1958.

She was a former secretary to the late Mayor Malcolm E. Nichols.

She was also a Past Grand Matron of the Order of the Eastern Star.

Mrs. Hibbard, widow of the late George Hibbard, resided at 81 Dent street, West Roxbury. She is survived by two sisters, Mrs. Carrie Partington of West Roxbury and Mrs. Ella Brown of St. Petersburg, Florida.

The funeral was held from the Russell Funeral Home, Saturday, July 24, followed by services at the First Congregational Church, Braintree, Mass.

POLICE DEPARTMENT ORDERS

July 13.

General Order No. 259.

The Rules and Regulations of the Boston Police Department are hereby amended, effective as of 7.45 A.M., Wednesday, July 14, 1965, as follows: On Page 21, Rule 15A, "Emergency or Disaster Control Plan"—

Section 1, Paragraph (e), strike out the second sentence and insert in place thereof the following new sentences:—

The Officer in Charge of each District will be directed to notify as many off-duty officers as are required, to report directly to the Station Houses in the Districts where they reside. Tactical Patrol Force and Headquarters personnel will be notified to report directly to their units.

Section 1, Subsection (f), strike out the second paragraph and insert in place thereof the following new paragraph:—

All off-duty officers will report at once to the Station Houses in the Districts in which they reside upon learning through official department notification or from any other source of an emergency or disaster requiring their services. All Tactical Patrol Force and Headquarters personnel shall report directly to their units.

July 14.

Personnel Order No. 756.

The following reassignment is hereby ordered, to take effect Wednesday, July 14, 1965, at 7.45 o'clock A.M.:

School Traffic Supervisor Janie E. Hurt, 107 Higherest road, Roslindale, from District 9 to District 5.

TAX ABATEMENT DECISIONS RENDERED BY THE BOARD OF ASSESSORS FOR THE WEEK ENDING JUNE 11—Continued.

POLICE DEPARTMENT ORDERS

July 19.

Personnel Order No. 757.

Sergt. Howard G. Kelly and Patrolmen William I. Cassell and Francis D. McLean, District 9, are hereby commended for meritorious police duty and each is granted three days' additional vacation.

About 1.40 p.m., Saturday, May 8, 1965, Patrolman Eugene O'Neill, District 9, responded to a radio call for a child struck by an auto at 65 Hutchings street, Roxbury, whereupon arrival he found one Valerie Wolcott, 3 years, of 166 Seaver street, Roxbury, lying on the ground adjacent to the curb at the above location. The child was removed to the Boston City Hospital, whereupon examination the child was pronounced dead.

As Patrolman O'Neill arrived at the scene, he observed one William D. Brown, 23 years, single, of 270 Quincy street, Roxbury, caring for the child. Brown informed the officer that the young girl had been struck by a brown 1959 Oldsmobile sedan, Massachusetts Registration unknown, that he could not give positive identification of the operator, and that the vehicle traveled toward Elm Hill avenue and disappeared from sight.

Sergeant Kelly responded to the scene and took charge of the investigation. He checked numerous streets in the vicinity of the accident and observed a brown 1959 Oldsmobile sedan, parked in front of 9 Ruthven street, Roxbury, bearing Mass. Reg. Plates G22-131, listed to a Beverly Brown of 5 Marshfield street, Roxbury. Upon checking it was found that the motor was still warm and after questioning residents in the vicinity, it was found that the car was not at this location at 1.25 p.m. Sergeant Kelly went back to the scene of the accident and brought the witness, William D. Brown, to view this car, and Brown stated that it was similar to the car that struck the child but was not the car involved. Examination by the Crime Laboratory disclosed bloodstains on the left front and rear bumpers, human hair and cloth fibers were found on the undercarriage of the car. The car was then towed to the garage at District 9 for further investigation.

About 2.45 p.m., Saturday, May 8, 1965, Beverly Brown reported her Brown Olds. sedan, Mass. Reg. G22-131, stolen. She was notified that the car was in custody of the Police Department, and at 6 p.m., the same date, Beverly Brown reported to District 9, where she was questioned by Sergeant Kelly and Patrolman Cassell. She stated that she suspected one William Isaac Miller, 27 Concord square, Boston, of stealing her car, and a teletype item was sent out giving full particulars. On Sunday, May 9, and Monday, May 10, 1965, Sergeant Kelly and Patrolman Cassell

conducted further investigations and interviewed witnesses to the accident. About 5:45 p.m., Monday, May 10, 1965, Patrolman Francis D. McLean informed Sergeant Kelly that he had information regarding a passenger in the above-mentioned case and as a result Patrolman McLean was assigned to work with Sergeant Kelly and Patrolman Cassell.

At 3 p.m., Tuesday, May 11, 1965, as the result of Patrolman McLean's investigations, they went to the Plymouth Rubber Company, Canton, Mass., where they spoke with one Virgil Brown, of 36 Whiting street, Roxbury, who denied being a passenger in the above car, and he stated that his brother, John Lee Brown (from whom Patrolman McLean originally obtained the information) was the passenger. In the meantime, Beverly Brown came to the station where she was questioned again by Sergeant Kelly and Patrolman Cassell and finally admitted that the car was not stolen; that she had received a telephone call from the operator of the vehicle to report it stolen as it had been involved in an accident but had no damage. She then stated that the operator of the car was William D. Brown, the person who was rendering aid to the child at the scene of the accident. As the result of the information received, John Lee Brown, William D. Brown, and Beverly Brown were arrested, tried in the Roxbury District Court and found guilty of various charges.

The Police Commissioner is pleased to recognize the devotion to duty displayed by these officers, who not only worked on their days of relief, but through their persistent, intelligent, and resourceful investigation, brought about the successful solution of this confusing incident, reflecting great credit to the department.

CONTRACTS AWARDED WITHOUT ADVERTISING

DEPARTMENT OF SCHOOL BUILDINGS.

DEAR MR. MAYOR:

The enclosed schedule of bids was received as a result of informal invitation at the request of the Boston School Department because of the lack of sufficient time for public advertised bidding.

Alternate bids on certain items were received as equivalent to the material specified. Those which were acceptable for educational purposes have been approved for purchase by the Director of the Industrial Arts Program, Mr. Thomas Roache. Other alternate prices on items were received, but the material is not acceptable to the Boston School Department for educational purposes.

An asterisk on the enclosed schedule beside the bid price, indicates the firm to which the award is to be made.

I have been informed that subject to your Honor's approval the State Department of Education as a result of an agreement made with the Boston School Department will deposit funds with the City Treasurer to cover the entire cost of this equipment.

Therefore, I respectfully request your Honor's approval to award a contract, without advertising, on the basis of informal bids received, for furnishing and delivering in accordance with specifications various items of beauty culture equipment to certain schools, as per attached list, to Edward E. Tower Company, 44 Ripley road, Cohasset, in the amount of six thousand six hundred and thirty-six dollars and fifty cents (\$6,636.50).

Respectfully yours,

WM. A. MCPHERSON,
Superintendent of Construction.

CITY OF BOSTON.

PARKS AND RECREATION DEPARTMENT AND MASSACHUSETTS BAY TRANSPORTATION AUTHORITY.

INVITATION FOR GENERAL BIDS FOR CONSTRUCTION OF A SUBWAY ENTRANCE AND INFORMATION KIOSK, BOSTON COMMON, BOSTON, MASS.

The City of Boston, acting by its Commissioner of Parks and Recreation, 33 Beacon street, Boston, Mass., and the Massachusetts Bay Transportation Authority, acting by its General Manager, 500 Arborway, Boston, Mass., acting jointly, hereinafter referred to as the Awarding Authority, invites sealed general bids for construction of a subway entrance and information kiosk, Boston Common, Boston, Massachusetts. General bids will be received until two o'clock P.M. (Eastern Daylight Saving Time), Tuesday, August 24, 1965, at the Engineer's Office of the Parks and Recreation Department, fourth floor, 33 Beacon street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained at the Engineer's Office of the Parks and Recreation Department, fourth floor, 33 Beacon street, Boston, Mass. Each copy of the general bid shall be properly filled out, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the Engineer's Office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company made payable as follows: "City of Boston—Massachusetts Bay Transportation Authority," in the amount of \$3,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid

to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which appears in the specifications. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the Engineer's Office of the Parks and Recreation Department, fourth floor, 33 Beacon street, Boston, Mass., and bidders will act at their own risk if any variance exists between the aforesaid signed set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority at the Engineer's Office of the Parks and Recreation Department, fourth floor, 33 Beacon street, Boston, Mass., before twelve o'clock noon (Eastern Daylight Saving Time), Tuesday, August 17, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope, with the following plainly marked on the outside: title of work; subtrade for which subbid submitted; subbidder's name; subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company made payable as follows: "City of Boston—Massachusetts Bay Transportation Authority," in the amount as submitted by each subbidder with his subbid as filed with the Awarding Authority:

Masonry	\$100
Caulking, Dampproofing, and Water-proofing	\$100
Roofing and Flashing.....	\$100
Glass and Glazing.....	\$500
Electrical	\$200

No subbid may be withdrawn after the time limit for the filing of subbids, and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids, and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Bid forms, plans and specifications, and other contract documents may be obtained at the Engineer's Office of the Parks and Recreation Department, fourth floor, 33 Beacon street, Boston, Mass., on or after 9 A.M. (Eastern Daylight Saving Time), on Monday, August 2, 1965, upon deposit of a certified check made payable as follows: "City of Boston—Massachusetts Bay Transportation Authority," in the amount of \$25 per set of plans and specifications. The amount of the deposit, per set of plans and specifications will be refunded upon return of the same in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to the Engineer's Office designated above not later than 30 days after the

opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

DEPARTMENT OF SCHOOL BUILDINGS.

INVITATION FOR GENERAL BIDS FOR REPAIRING AND REFINISHING FURNITURE IN VARIOUS SCHOOLS IN DISTRICT NO. 4.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for repairing and refinishing furniture in various schools in District No. 4.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, August 9, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the form for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of specifications for the project on file at the office of the Superintendent of Construction of the Department

of School Buildings designated above and bidders will act at their own risk if any variance exists between the aforesaid specifications and the specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the specifications furnished to the bidder is a true and complete copy of the specifications on file as aforesaid.

Specifications and other documents may be obtained at the office of the Awarding Authority.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, chapter 149, of the General Laws, as amended.

Proposals for Repairs to Sidewalks in All Areas in the City of Boston.

The Commissioner of Public Works of the City of Boston, Room 511 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least

over one half thereof is owned by a citizen or citizens of the United States for repairs to sidewalks in all areas in the City of Boston. A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the sum of 100 percent of the contract price, less the amount of \$5,000, will be required of the successful contractor. Forms of proposals may be obtained at Room 511 (Contract Office), City Hall Annex. The proposal should be signed, enclosed in an envelope, sealed, marked "Proposal for Repairs to Sidewalks in All Areas in the City of Boston," and left at Room 511 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. (Eastern Daylight Saving Time) of THURSDAY, AUGUST 12, 1965, with a certified check for FIVE THOUSAND (\$5,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 702 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 511, City Hall Annex. There will be a charge of two dollars (\$2), NOT REFUNDABLE, for each set of contract documents taken out. If the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract, shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law, so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract.

ATTENTION IS CALLED TO CHAPTER 370 OF THE ACTS OF 1963, WHICH MUST BE STRICTLY COMPLIED WITH. The Commissioner reserves the right to reject any and all proposals or any item or items of the proposal should he deem it to be for the best interest of the city so to do.

Regular meeting of the City Council held in the Council Chamber, at 2 P.M., President TIERNEY in the chair. Absent, Councillor Hines.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

Infinite and Eternal God, Thy graces are adequate for all our needs, we pray that we shall have a new sense of Thy greatness and Thy goodness. Inspire us with new and lofty aspirations, glorious visions, mighty hopes. Grant us the will and the courage to bring them to fulfillment for the benefit of this city.

We pledge ourselves to unite our wills and our purposes with Thy divine will. May it be the constant and controlling thought of our minds as we seek to bring richer blessings of peace and prosperity to the people we have come here to serve.

The meeting was opened with the salute to the Flag.

LOAN IN ANTICIPATION OF REVENUE

The following was received:

City of Boston,
Office of the Mayor, June 21, 1965.

To the City Council.

Gentlemen:

In accordance with the attached recommendation of the City Auditor, I submit herewith an order authorizing the issuance of additional temporary loans in anticipation of revenue in the amount of \$30,000,000 to meet the city's financial requirements for the balance of the fiscal year. Such action is necessary as outlined in the letter of the City Auditor.

I respectfully recommend adoption of this order by your Honorable Body.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,
Auditing Department, June 21, 1965.

Hon. John F. Collins,
Mayor of Boston.

Dear Sir:

Under date of January 18, 1965, I recommended to you that an order be submitted to the City Council for authorization of temporary loans in anticipation of revenue in the amount of \$40,000,000 and such order was adopted by the City Council on February 1, 1965. It is now quite certain that this authorization will not be sufficient for the financial requirements of the city for the remainder of the fiscal year and that an additional authorization of \$30,000,000 will be necessary.

This situation has been brought about by three major factors: (1) a decline in anticipated payments by the state which could not have been foreseen at the time of the original order; (2) a proposition now before the General Court which would in effect appropriate reimbursements to the city for a six-month period only; and (3) increased operating expenses as a result of the larger 1965

appropriations. Total appropriations and charges for the fiscal year 1965 to date are \$237,139,461.18, an increase of \$16,342,977.17 over the 1964 total of \$220,796,484.01.

By authority of section 4 of chapter 44 of the General Laws, the city could issue in 1965 in anticipation of revenue receipts, temporary loans which would not exceed, in the aggregate, the total tax levy of the fiscal year 1964 together with the corporation and income tax distributions received from the Commonwealth in the same year. This would approximate \$166,830,767. In 1965 we have or will have issued by next Tuesday \$35,000,000 of the authorization of \$40,000,000. It is now quite certain that an additional authorization of \$30,000,000 should be made for the financial requirements of the city for the remainder of the fiscal year.

Immediate action is necessary, and I respectfully recommend that an order be submitted to the City Council for consideration and adoption.

Respectfully,

JOHN T. LEONARD,
City Auditor.

Ordered, That to provide temporarily money to meet the appropriations for the financial year 1965, the Collector-Treasurer be, and hereby is, authorized to issue and sell, at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston, an additional \$30,000,000 making the total for the fiscal year 1965 not exceeding \$70,000,000, in anticipation of the revenue of the financial year that all such notes or certificates of indebtedness be made payable with the interest thereon within one year of their date and bear interest from their date until the same are made payable at such rate as the Collector-Treasurer and Mayor may determine. The said Collector-Treasurer is hereby further authorized to renew or refund any such notes issued for a shorter period than one year, under the provisions of section 17 of chapter 44 of the General Laws.

Referred to the Executive Committee.

RECESS.

On motion of Councillor Iannella, the Council voted to take a recess at 3 P.M., subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President TIERNEY at 5.42 P.M.

REPORT OF EXECUTIVE COMMITTEE.

Coun. IANNELLA, for the Executive Committee, submitted the following:

1. Report on message of the Mayor and order (referred today) for loan of \$30,000,000 in anticipation of revenue—recommending that the order ought to pass.

The report was accepted, the order was given its first reading and passage, yeas 8, nays 0:

Yeas—Councillors Craven, G. F. Foley, W. J. Foley, Hynes, Iannella, Kerrigan, Langone, Tierney—8.

Nays—0.

The order was assigned to the next meeting for final action.

2. Report on message of the Mayor and orders (referred today) for construction of Public Ways—recommending passage of the orders in the accompanying amended drafts:

Ordered, That the sum of two million dollars (\$2,000,000) be, and hereby is, appropriated for the construction of public ways under the provisions of clause 5 of section 7 of chapter 44 of the General Laws, as amended, to be expended under the direction of the Commissioner of Public Works. To meet said appropriation the Collector-Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

The provisions of paragraph 1 of section 7 of chapter 44 of the General Laws are met in an accompanying appropriation order submitted herewith.

Ordered, That to meet the requirements of the first paragraph of section 7, chapter 44 of the General Laws, as amended by chapter 206 of the Acts of 1965, the sum of one hundred thousand dollars (\$100,000) be, and it hereby is, appropriated from available revenue in the City Treasury, for the construction of public ways under the provisions of clause 5 of section 7 of chapter 44 of the General Laws, to be expended under the direction of the Commissioner of Public Works.

On motion of Councillor W. J. Foley, the orders were severally referred to the Executive Committee.

REPORT FROM CORPORATION COUNSEL RE CURRENT APPROPRIATION ORDERS.

Coun. LANGONE offered the following:

Ordered, That the City Council request the Corporation Counsel to examine all the current appropriation orders before the Committee on Appropriations and Finance relative to the correctness and validity and form thereto, and to report back to the committee prior to the public hearing which is to be held this Thursday morning.

Passed under suspension of the rules.

Adjourned at 5.59 P.M., on motion of Councillor Langone, to meet on Monday, June 28, 1965, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

St. Stephen's Church Adds Inspiring Historical Jewel to Freedom Trail

(Because of the historic significance of the restoration of St. Stephen's Church in the North End, a truly remarkable work made possible by Cardinal Cushing:

Because the edifice represents one of the finest examples of the work of Charles Bulfinch:

Because the church now becomes an integral part of the city's famed Freedom Trail:

The "City Record" herewith reprints an article appearing in the Boston "Record American," written by the gifted Gordon Hillman. Mr. Hillman's research in depth, not only traces the history of St. Stephen's but of the impact of the gifted Bulfinch on the Old Boston and the New Boston as well.)

The reopening of St. Stephen's Church in the North End after 15 months of painstaking restoration work sharply recalls the fact that it is the only surviving church in Boston built by Charles Bulfinch, first native born architect, first city planner, and the man who completed the Capitol Building in Washington.

The restoration, which included delicately lowering the 2,400-ton church almost 7 feet to a new foundation, cost \$700,000. Nearly the entire burden was borne by Cardinal Cushing, whose idea it had been to bring back to the church the beauty Bulfinch gave it when it was built in 1804.

For years not too many Bostonians knew that St. Stephen's was a Bulfinch church or where the master architect had left his mark in the rest of the city.

Today there are precisely 14 examples of Bulfinch architecture left in Boston.

The easiest ones to recognize are, of course, the red brick structure of the golden domed State House and the sturdy stretch of Faneuil Hall.

Built in 1798

It was in 1798 that he built the State House and his remodeling of Faneuil Hall was complete by 1805. Before those years, between them and afterward he had scattered handsome houses, mansions, cathedrals, churches, schools, wharves, hospital buildings and markets not only across the city but from Hartford to Augusta in New England.

He was a self-taught architect, who had seen from the rooftop of his father's house the Battle of Bunker Hill.

In 1781 he was graduated from Harvard College. But trade was appallingly bad in Boston. Its population had dropped from 20,000 to half that amount during the Revolution. Its seaborne commerce had almost entirely gone.

So the counting house where Bulfinch was employed had no business at all and as he dryly remarked, "That left me at leisure to cultivate a taste for architecture."

By 1796 he was building on Cambridge street in the West End a huge house for Harrison Gray Otis, that wealthy Boston lawyer, who apparently had a passion for

Driving Habits

Motorists using Boston's streets will have to change their driving habits after November 1, 1965, the Safety Director of the Massachusetts Division, American Automobile Association, warns members in a newsletter.

"When the educational phase of the new anti-jaywalking law ends on October 31, 1965, the regulations will be enforced by police. Tickets will be issued to both jaywalkers and motorists who violate the law," Richard W. Hoover, AAA official said.

"However, motorists must still look out for pedestrians in case they forget to obey signal lights and traffic officers.

"You must stop for a pedestrian crossing the street within a marked crosswalk at a location where there is no light or police officer directing traffic.

"You must not pass a stopped vehicle which has stopped to allow a pedestrian to cross. And, when leaving a stopped vehicle you must alight on the curb side or proceed at once to the curb—then follow the pedestrian rules for crossing.

"In other words," he pointed out, "don't park your car and become a jaywalker by walking across the street in mid-block—go to the nearest marked intersection.

"New pedestrian regulations like those in Boston also apply in other cities and towns which have adopted them. They are simple, common sense rules for safe walking and safe driving," he said.

having one mansion built for him and then moving into another.

Bulfinch built three houses for him and all three of them are still standing today.

First Mansion

The first, at Cambridge and Lynde streets, is now headquarters for the Society for the Preservation of New England Antiquities and is open to the public.

The second Bulfinch house was built at 85 Mt. Vernon street on Beacon Hill and is still there, dreaming behind its long green lawn; more of a country mansion than a city dwelling.

But by 1804, the restless Otis was feeling the urge to move once more though his beautiful wife was more concerned with introducing to a startled city a scandalous new Viennese dance called The Waltz. Bulfinch built him his third dwelling in 11 years, this time at 45 Beacon street.

It still is elegant and serves as the national headquarters of the American Meteorological Society.

It is not surprising that there are many Bulfinch houses on Beacon Hill, since before 1795, the architect had turned city planner and mapped out many of the streets as they are now on a tract of land then known as "Copley's Cow Pasture."

In 1799, it was decided by the indignant citizens that Boston's old Almshouse was quite out of place staring at the new State House from Park and Beacon streets.

So it was torn down and in 1804 Thomas Amory commissioned Bulfinch to build him an enormous four-story town house on the site. Amory held an elaborate housewarming and the next day he was declared bankrupt.

Lafayette There

Nevertheless, Lafayette stayed in the big red brick house with its magnificent staircase and iron balconies when he came to Boston in 1825 for the dedication of Bunker Hill Monument.

In 1804 Bulfinch was also busily building four houses for lawyer Jonathan Mason at Mt. Vernon and Walnut streets. Two of them at 55 and 57 Mt. Vernon still remain. Mason was so pleased by the view of the Charles River from his windows that he had an act passed by the Legislature to prevent anyone ever blocking that view. That is why all houses on that side of a whole block of Mt. Vernon street are set back 30 feet.

In 1805, Bulfinch bought a lot on Mt. Vernon street and built two tall brick houses set on a circular driveway. One at N. 87 still stands and is the property of The Colonial Society.

A strong-minded lady named Mrs. Hepsibah Swan had him design three adjoining houses at 13, 15, and 17 Chestnut street. Then she gave one to each of her three daughters for wedding presents. The almost identical four-story houses are still the handsomest on Chestnut street and are sometimes known as The Three Sisters.

Half a dozen blocks away is the last structure Bulfinch built in Boston. It is the Bulfinch Building of Massachusetts General Hospital and is still in active use after 140 years.

BHA Paint Work

The Boston Housing Authority, announced on July 28, that the Authority is receiving sealed bids for painting at the federally aided East Boston housing development.

The general contract calls for exterior painting of the apartment buildings, interior painting of apartment building stairhalls, exterior painting of the building containing the administration offices, maintenance section, boiler room, and garage, and the interior painting of the boiler room.

Closing date for all bids, accompanied by a performance bid deposit of \$2,900, is noon of August 13. Plans and specifications are on file and available at the offices of the Boston Housing Authority, 230 Congress street, Boston.

Scouts N.H. Camp

Boy Scout Troops 31 and 131 of the Mission Hill housing development will have a week's camping experience at Adams Pond Camp in Barnstead, N. H., starting August 8.

This is the fourteenth consecutive year that a large contingent of boy scouts from Mission Hill have attended summer camp under the supervision of their scout leaders.

State Building O.K.

The State Office Building Commission plans to advertise for bids soon for the contracts for three buildings in the \$34 million State Service Center complex of the Government Center.

Suffolk Superior Court Judge Cornelius J. Moynihan, on July 30, cleared the way for the action after ruling that the Commission acted within its authority in throwing out initial bids for construction of a \$9 million Division of Employment Security building.

ABCD Offers Attractive Taste of Real Farm Life to 17 to 22-Year-Old City Boys

A working force of boys from the Boston area—many of whom have never seen an apple tree—is being enrolled by Action for Boston Community Development, Inc., in a recruitment drive to help save and harvest one of New England's most valuable crops—the apple.

During the harvest they'll live a he-man's outdoor life in three of New England's most beautiful rural centers. They'll be paid \$1.30 an hour for their harvest work and have an opportunity to better that on a piecework basis. They'll eat meals you can get only at a New England farm table. They'll live on the farm.

ABCD Executive Director Joseph S. Slavet announced the recruitment drive last night after receiving notification from the U. S. Department of Labor of approval of a grant of \$35,000 to put the program into action.

The harvesters, they'll be known as work trainees, will come from the ranks of the unemployed disadvantaged. Age for eligibility will be 17 to 22.

Applications may be obtained at the Youth Opportunity Center, Division of Employment Security, 225 Huntington avenue, Back Bay; Norfolk House Center, 14 John Eliot square, Roxbury, and the South End House, Rutland street, South End.

Enrollees will be assigned to major orchards at Harvard and Haydenville (in Hampshire County) Mass., and Derry, N. H., conducted respectively by William G. Doe, William Wilkins, and William Levine. The orchards of these prominent growers were approved after an investigation by the U. S. government to determine that they were properly equipped for housing, feeding, and meeting strict federal regulations for sanitation, etc.

The program will start on or about August 15, and terminate 10 weeks later in October.

About 90 applicants will be screened for the work through ABCD. Out of these about 65 will be selected for actual work in the orchards.

Enrollees will be given physical examinations and a period of training in Boston up to three weeks, followed by a week of training at the orchards. During this time they will be paid a training allowance.

The apple harvest will be for a period of four to five weeks. During the actual harvest work the trainee will be paid by the orchard owners at a rate of \$1.30 an hour or, if the pickers prove extra proficient, they may choose a piece work rate at 25 cents per bushel.

At the end of the harvest the enrollees will be returned to Boston for one to two weeks while efforts will be made to place them in new jobs or to aid them in further job training.

Transportation from Boston will be provided to and from the work sites. Wholesome meals will be provided at a cost to the enrollees of \$2.25 per day. All housing will be provided free by the orchardists. Counselors and work crew chiefs will be assigned on a 24-hour basis under a project director. Meals for the counseling staff will be paid from the federal grant.

Insurance coverage for the enrollees and the staff will be arranged.

ABCD plans to provide athletic equipment, TV, and the transportation for trips for the trainees to beaches, etc., during their leisure periods.

BHA Contract

The Boston Housing Authority, on August 3, signed a contract for painting at the state-aided Gallivan Boulevard housing development in Dorchester.

Modern Decorators, Inc., of Winthrop, was the low bidder with a bid figure of \$27,300.

The scope of the work to be performed calls for the exterior painting of 121 two-family and nine single-family dwellings located on the grounds of the development as well as the Administration Building with attached maintenance section and garage.

The 200 Club

During August, the youngsters on Boston's playgrounds will have an opportunity to become members of the select "Mayor John F. Collins 200 Club" by doing daily push-ups and sit-ups.

In an effort to help Boston's youngsters to keep physically fit, Mayor Collins announced that as a part of the playground program all youngsters under 14 who accumulate 200 each, of the five exercise movements, during the month, will receive an engraved certificate, as members of his select 200 Club.

The five exercise movements include sit-ups, push-ups, squat thrusts, and ham string stretches. Each day on the playgrounds, the youngsters will be given the opportunity to be measured, however, the exercises must be done in sequence, and only one measurement will be recorded each day. In the 20 playground days from August 2 to August 27, a youngster must average 10 of each of the exercises daily. In the event of absence, this 10 would be added to the remaining number to be accomplished.

On the closing day of playground activities, August 29, the score cards will be tallied and all those who have accumulated their 200 score will be awarded their membership certificates.

BCH Accreditation

President William H. Ellis, Jr., of the Board of Trustees, City Hospital, and Dr. James V. Sacchetti, Acting Superintendent of Boston City Hospital, announced on July 29 that the Board of Commissioners of the Joint Commission on Accreditation of Hospitals, Chicago, had approved the recommendation that the hospital be accredited for a period of three years.

FIRE DEPARTMENT ORDERS

July 14.

General Order No. 27.

WELFARE COSTS FOR JUNE

Following is a summary of the Welfare Department for June:

A contributing factor in holding this month's total outlay of \$4,880,636 to a rather modest gain of \$5,445 above last month, was a combined reduction of 8.4 percent in the cost of the Old Age and Disability Assistance Programs. The caseload rise of 243 to 33,749 was the second highest month to month gain for the year. Activity in this area showed 1,480 approvals offsetting 1,237 closings with an additional 318 applications being rejected or withdrawn.

Old Age Assistance: A caseload figure of 11,063 represents a decline of 26 below last month's count and a reduction since the beginning of the year of 228 cases. Of the 170 applications approved, 85.8 percent (146) were for persons applying for the first time to the department. Death and transfer of clients to the Medical Assistance Program accounted for 72.9 percent of the 196 cases which were closed. Program cost for the month was \$1,087,130, \$27,657 below last month.

Medical Assistance for Aged: An appropriation of \$1,201,546, 24.6 percent of the total budget was diverted to the operation of this program during June. This provided needed services for 5,314 recipients, 71.1 percent of the 7,466 persons eligible. Caseload activity included 362 applications approved and 225 cases closed, for a net increase of 137 cases. An additional 131 applications were rejected or withdrawn.

Aid to Families with Dependent Children: As an interesting sidelight of this program some statistics on families eligible because of an unemployed father are highlighted. These families accounted for 17.4 percent of the 534 applications taken, absorbed 5.3 percent of a \$1,746,444 budget and comprised 4.5 percent of the 8,868 cases receiving assistance. Of the 347 cases closed during the month, 78 (22.5 percent) were families originally eligible because of an unemployed father.

Disability Assistance: During the month, 206 applications were received, 117 were approved, 61 rejected or withdrawn, and 101 cases were closed. The principal reason for approvals was loss of employment due to illness; closings were based chiefly on death (22) and excessive resources (22). A total \$621,354 was spent in behalf of 3,931 clients.

General Relief: This category showed an increase in both costs and caseload. Of the 403 applications taken during the month, 230 (57 percent) represented new clients. The 394 approvals given dwarfed the 28 rejections and withdrawals. An expenditure of \$224,162 which serviced 2,421 clients was a 16.1 percent increase of \$31,116 above last month.

POLICE DEPARTMENT ORDERS

July 19.

Personnel Order No. 758.

Sergt. Paul F. Power, Detective First Grade Francis D. Powers, and Detective Second Grade Joseph F. Gibbons, Criminal Investigation Division, are hereby commended for meritorious police duty and each is granted three days' additional vacation.

About the latter part of March and early April, 1965, bogus checks in the name of "Tufts University," Medford, Mass., drawn on the First National Bank of Boston, appeared in banks in the Greater Boston area. In the latter part of April, 1965, photo-offset type bogus checks, bearing the heading of the Comm. of Mass., Division of Employment Security, drawn on the First National Bank of Boston, began to appear in banks. Investigation by the above-named officers disclosed that they were being passed in the area by an unknown male and female.

On May 7, 1965, an unknown male, using the name of Bernard Berman, entered the First National Bank, 1610 Tremont street, Roxbury, and cashed a bogus Comm. of Mass. Employment check, using a counterfeit Mass. operator's license as identification. The officers went to this bank with a number of photographs and the teller that had cashed this check picked from the photographs the photo of James Gallarelli as the one who had tendered the bogus check.

As a result of this information, Gallarelli was arrested, charged with uttering and larceny, found guilty and sentenced to the House of Correction for two years. Gallarelli appealed and was released on bail for appearance in the Superior Court at a later date. The officers continued their investigation, watching the activities of Gallarelli and also one Paul Johnson and a Carol Moore, suspected of being implicated in these crimes.

About the middle of June, 1965, counterfeit currency began appearing in Boston. Investigation by the officers revealed that Johnson and Gallarelli had recently taken a trip to New York and were suspected of returning to Boston with a large amount of counterfeit currency. About 11:55 P.M., June 21, 1965, the officers had Paul Johnson under surveillance in the vicinity of Washington and Essex streets, Boston, when they observed Johnson being approached by an unknown male, the two had conversation, and Johnson opened his coat, removed his wallet and handed the unknown male what appeared to be currency. As Johnson removed the wallet, the officers observed a butt of a firearm protruding from his right rear pants pocket, whereupon the officers placed Johnson under arrest as an S. P., suspicion of unlawful possession of a firearm. A search of his person revealed a 7.65 German automatic, fully loaded,

with a round in the chamber. Johnson was removed to Police Headquarters, where a further search of his person disclosed two counterfeit Mass. Operators' Licenses.

As a result of their long investigation, the officers went to Brookline District Court, applied for and were granted a search warrant for the apartment of Paul Johnson, 1063 Beacon street, Brookline. By virtue of the warrant they seized the following counterfeit articles: \$45,000 in U.S. currency of various denominations, 1,500 Mass. Operators' Licenses, 1,000 Mass. Registration Certificates, 760 Social Security Cards, 45 Sheraton Hotel Guest Cards, 336 Blue Cross and Blue Shield Cards, 61 Suffolk Downs Admission Cards, 30 Selective Service Cards, IBM punches and passports believed to have been stolen and used in the counterfeit operation.

Information received by the officers in their investigation led to officers of the Robbery Squad, and Agents of the Secret Service obtaining search warrants for 21 Joy street, Boston, where search revealed about \$13,000 in counterfeit currency and counterfeit identifications. In the apartment at the time of the search were Gallarelli and Carol Moore.

All three have been arraigned and held for court appearance at a later date.

The Police Commissioner is pleased to recognize the devotion to duty displayed by these officers, who by their untiring efforts and patience in this investigation, removed from society persons who would have continued in their way of crime, causing great losses to innocent victims.

July 22.

Personnel Order No. 759.

Detective Third Grade John J. Dennehy, Detective Bureau, detailed to District 2, is hereby commended for meritorious police duty and is granted three days' additional vacation.

At about 10:51 A.M., Wednesday, July 7, 1965, an ADT alarm was sounded from the Warren Institution for Savings branch office located on the concourse of the South Station Terminal and officers of District 2 in the 2-3 patrol car were directed, by radio, to respond.

About this time Detective Third Grade John J. Dennehy, who was on an assigned "bank patrol" and had just previously checked that area, was proceeding down Summer street towards Dewey square when his attention was drawn to a group of persons who appeared to be pursuing an unidentified man in the direction of Kneeland street; he immediately joined in the pursuit to Hudson street where the man suddenly stopped, fired one shot in the direction of his pursuers then ran into Hudson street. Detective Dennehy proceeded alone into Hudson street, drew his revolver and approached to within 10 feet of the hokup man, announced his office, displayed his badge, and or-

dered him to halt. When the man failed to do so, Detective Dennehy fired a warning shot into the air. The subject came to an abrupt stop and attempted to withdraw what appeared to be a nickelplated revolver from his trouser pocket. Detective Dennehy grappled with the man and successfully gained possession of the revolver. He then restrained the prisoner until the arrival of other officers. In addition to the revolver wrested from the criminal by Detective Dennehy, a body search of the prisoner disclosed an undetermined amount of money in his right trouser pocket; nearby was a paper bag the prisoner had been carrying which contained a gray cap, tan jacket, and a pair of sunglasses which the prisoner had removed from his person while being pursued.

The prisoner was brought to District 2, identified as one Charles F. Dalton, 32 years of age, single, last known address 39 Woodward street, Roxbury, and booked on charge of robbery while armed. The prisoner's record dated back to 1954 and revealed he had served time in the Massachusetts Reformatory at Walpole. At the present time he was wanted for violation of his parole as of March 31, 1965.

Dalton was arraigned in Boston Municipal Court before Judge Elijah Adlow the following morning for armed robbery, two counts of assault by means of a dangerous weapon, and unlawful possession of a firearm and was held for the grand jury in \$10,000 bail, double surety. Judge Adlow, in court, commended Detective Dennehy for his courageous and decisive action in effecting this arrest.

The Police Commissioner is pleased to recognize the outstanding courage, alertness, and devotion to duty displayed by Detective Dennehy in the arrest of this dangerous criminal. This type of service reflects creditably not only on himself but on the entire department as well.

July 27.

Personnel Order No. 760.

Effective as of Monday, July 5, 1965, the records of this department shall be amended so that the name of Priscilla J. Ingalls, temporary principal clerk and stenographer, Central Services Division, shall appear as Priscilla J. Miller.

July 30.

CIVIL SERVICE LEGISLATION AND INSTRUCTIONS

July 27, 1965.

To All Department Heads.

Please be advised of the following legislation enacted by Chapter 397, Acts of 1965, which becomes effective August 1, 1965, and, in the main, prohibits discrimination in employment because of sex.

The Director of Civil Service, Mr. W. Henry Finnegan, has issued the following instructions concerning this legislation:—

"Therefore, on and after August 1, 1965, in filling vacancies, names of eligible male and female applicants will be intersorted and certified according to percentage and in accordance with the Civil Service Law and Rules, recognizing preference to disabled veterans, veterans, widows and widowed mothers, wherever applicable.

"However, if you are of the opinion that the duties of a position require that it be filled by a person of a particular sex, before such request may be granted in those positions where there are male and female eligibles, it will be necessary for you to forward to this office with your requisition an exemption certificate permitting such process from the Massachusetts Commission on Discrimination. Unless such an exemption certificate is attached to the requisition or is on file in the Division of Civil Service, names will be certified from existing eligible lists on a combined basis. No provisional authorization, temporary transfer or emergency employment will be approved on requisitions indicating that certification of names of applicants of a particular sex is desired until such exemption certificate is filed."

In order that personnel transactions with the Division of Civil Service may be carried out in a most efficient manner, it is the obligation of each city department to comply with the above instructions.

DUNCAN T. FOLEY,
Supervisor of Personnel.

CONTRACTS AWARDED WITHOUT ADVERTISING

ADMINISTRATIVE SERVICES DEPARTMENT. TYPEWRITER ACCOUNTING MACHINE.

DEAR MR. MAYOR: This office is in receipt of a requisition from the Auditing Department for one Model F1401 typewriter accounting machine. Burroughs Corporation, Boston Central Branch, has submitted an informal written quotation for this equipment.

This machine is being purchased to replace a similar machine which has been in use for eleven years. Since Burroughs Corporation is the sole manufacturer of the equipment requested, permission is requested to dispense with publicly advertising for bids and award a contract, without public advertisement, to the Burroughs Corporation, Boston Central Branch. It is my opinion that by awarding the contract in this manner the best interests of the city will be served.

Approximate total amount of contract will be \$4,998, net, 30 days.

Respectfully yours,

MICHAEL A. DESIMONE,
Purchasing Agent.

DEPARTMENT OF SCHOOL BUILDINGS. VARIOUS MACHINERY AND EQUIPMENT, VARIOUS SCHOOLS.

DEAR MR. MAYOR: The enclosed schedule of bids was received as a result of informal invitation at the request of the Boston School Department because of the lack of sufficient time for public advertised bidding.

Alternate bids on certain items were received as equivalent to the material specified. Those bids which were acceptable for educational purposes have been approved for purchase by the Director of the Industrial Arts Program, Mr. Thomas Roache. Other alternate prices on items were received, but the material is not acceptable to the Boston School Department for educational purposes.

An asterisk on the enclosed schedule beside the bid price indicates the firm to which the award is to be made.

I have been informed that subject to your Honor's approval the State Department of Education as a result of an agreement made with the Boston School Department will deposit funds with the City Treasurer to cover the entire cost of this equipment.

Therefore, I respectfully request your Honor's approval, to award a contract, without advertising, on the basis of informal bids received, for furnishing and delivering in accordance with specifications various items of

cafeteria equipment to certain schools, as per attached list, to Central Restaurant Equipment and Supply Company, Inc., 31 Union street, Boston, Mass., in the amount of four thousand three hundred thirty-eight dollars and fifty cents (\$4,338.50).

Respectfully yours,
WM. A. MCPHERSON,
Superintendent of Construction.

Therefore, I respectfully request your Honor's approval to award a contract, without advertising, on the basis of informal bids received, for furnishing and delivering in accordance with specifications various items of automotive equipment to certain schools, as per attached list, to Hunt-Marquardt, Division of Standard Auto Gear Company, Inc., 236 Brighton avenue, Allston, Mass., in the amount of twelve thousand one hundred and six dollars and sixty-nine cents (\$12,106.69).

Respectfully yours,
WM. A. MCPHERSON,
Superintendent of Construction.

FIRE DEPARTMENT.

ALTERATIONS, ENGINE 29, LADDER 11.

DEAR SIR:

It is respectfully requested that your Honor approve of my selection of Commonwealth Architectural Associates, Inc., 177 State street, Boston, Mass., as architect for the preparation of plans and specifications for, and the supervision of, the construction of proposed alterations to Engine 29, Ladder 11, fire station, located at 138 Chestnut Hill avenue, Brighton, Mass. The total estimated cost of the construction is \$75,000.

I also request your Honor's authorization to dispense with public advertising in the award of this contract. The architect's preliminary basic fee taken from the "B" rate of the American Institute of Architects 1951 recommended schedule of minimum rates, and based upon an estimated cost of construction of \$75,000, shall be at 11 percent of said estimated cost of construction. The architect's final basic fee, however, shall be founded upon the actual total construction cost of the work and the fee percent applicable thereto as determined by the A. I. A. schedule of fees which shall be set forth in the contract, provided nevertheless, that in no event shall the maximum liability of the city under the terms of the proposed contract, as of the date of its execution, including presently estimated expenditures of \$1,000, for supplementary services by the architect, exceed in the aggregate the sum of \$9,250.

In my opinion, since the proposed contract is to be one for the performance of professional services, a public solicitation for bids therefor would serve no useful purpose.

Respectfully yours,
THOMAS J. GRIFFIN,
Fire Commissioner.

CONTRACTS AWARDED WITHOUT ADVERTISING

BUILDING DEPARTMENT. BUILDINGS RAZED

DEAR MR. MAYOR:

The following houses have been condemned by me as being in an unsafe and dangerous condition. Notices have been sent to the owners, but they have taken no steps to abate the dangerous condition. These buildings are a menace to the neighborhood. The locations follow: 14 Watson street, Ward 9.

Accordingly, in conformity with the provisions of chapter 479, Acts of 1938 as amended, particularly section 116(d) thereof, I have asked and have received your Honor's permission to enter these various premises and to raze the structure.

Bidders were requested to submit an aggregate bid for the entire lot of houses, but to break down their bids to show the charge against each separate address. This breakdown is necessary for later departmental use in billing demolition costs insured against the individual property owner of each house.

We have solicited invitation bids, award to be made to the lowest qualified bidder, and have received the following:

14 Watson street, Ward 9: Central, \$7,900; Berardi, \$7,997; Polcari, \$8,175.

Central Building Wrecking Company, 141 Boston street, Everett, Mass., has submitted the lowest aggregate bid. This company is thoroughly familiar with this work, it carries all necessary insurance and it has done satisfactory work for this department in the past.

Bids for the demolition of individual houses were not requested because it would be a practical physical impossibility for several different wreckers to conduct efficient wrecking operations simultaneously in individual houses. Under such conditions, there would be much mutual interference, and each wrecker would be exposed to severe hazards not under his control, by the operations of adjacent wreckers. I also believe that the aggregate cost of individual bids would be much higher than the cost of one bid for the lot, and that handling the houses as one unit results in lower administrative costs to the city than would result from handling the houses as separate bids and contracts. Unit handling results, however, in this case, in a contract price \$2,000 or over the statutory limitation upon awards that can be made without advertising, unless your Honor approves the transaction.

Accordingly, the general public safety so requiring, I ask your Honor's approval for the awarding, without advertising, as required in the city charter, of a contract in the sum of \$7,900 to Central Building Wrecking Company, 141 Boston street, Everett, Mass.

Very truly yours,

THOMAS L. FLYNN,
Building Commissioner.

WELFARE DEPARTMENT. BUILDING REFACED

DEAR MAYOR COLLINS:

With the demolition and reclaiming of the area surrounding the Welfare building at 43 Hawkins street, two adjacent buildings were demolished leaving bare walls exposed on the Welfare building. This was due to construction abutting our structure which prevented the building of a finished surface. The weather has taken its toll of the interior of the Welfare building and we are now beginning to feel the effects of the weather and I should like very much to have the building refaced.

It is the intention of the Welfare Department, with your approval, to retain the services of Jackson & Moreland to submit engineering proposals as to what will be required. They have agreed to prepare the necessary design drawings and a preliminary draft of the specification and to provide periodic inspection during the performance of the work, at a cost to this department of 9 per cent of the total construction cost, with the total of their billing not to exceed \$2,750. Copy of their proposal is attached.

Because of the nature of the work to be performed and because of the known capability of Jackson & Moreland, it is respectfully requested that your approval be given for the performance of this work, this expenditure to be reimbursed by both the federal and state governments in the amount of 75 per cent.

Very truly yours,

WILLIAM F. LALLY,
Director.

PUBLIC WORKS DEPARTMENT. ENGINEERING SERVICES

DEAR MR. MAYOR:

On February 8, 1965, with the approval of your Honor, a contract for engineering services for the preparation of plans for reconditioning, by means of cleaning and cement lining, certain cast-iron water mains in the West Roxbury area of the City of Boston, was awarded to Whitman and Howard, Inc., 89 Broad street, Boston, Mass.

At the time of the preparation of the above contract, provision was not made for the performance of supplementary services by the engineer in the form of furnishing a resident engineer, who would constantly supervise construction of the work, as distinguished from normal supervision, because it was not deemed essential. However, upon further consideration, I believe that personal supervision by a resident engineer of the work to be performed is prudent and imperative, inasmuch as the Water Division does not have available, at the present time, an engineer with the experience required for proper and constant supervision of such work. The hourly rate for such supervisory services is \$7.50 per hour.

Therefore, your Honor's approval is respectfully requested to amend the above-referenced contract, without public advertising, in an amount not to exceed \$5,400, to provide for the payment of the subject services. As a result of the proposed amendment, the aggregate expenditure authorized under the contract, will be increased from \$6,930 to \$12,330.

Very truly yours,

JOHN F. FLAHERTY,
Commissioner of Public Works.

DALTON STREET BRIDGE

DEAR MR. MAYOR:

On October 20, 1959, with the approval of Mayor Hines, a contract for the design and supervision of construction of the Dalton Street Bridge and approaches in the vicinity of the Prudential project area was awarded to the engineering consultant firm of Metcalf & Eddy, Inc.

At the time that this contract was written, preliminary estimates indicated that the construction cost of the project would be approximately \$700,000 and upon the basis of this estimate the fee to be paid the consultant was set at 5 1/4 percent of the actual construction costs. Since the estimated fee at this percentage would be \$36,750, this ceiling was set as the maximum amount to be paid to the consultant under the contract.

For some time thereafter progress on other aspects of the Prudential project faltered, so little work was, nor could be, done relative to the design of the Dalton Street Bridge and approaches.

Upon the resumption of progress on construction work in the Prudential area, Metcalf & Eddy, Inc., submitted, and former Commissioner Haley approved, a detailed estimate of the cost of construction of the Dalton Street Bridge and approaches, including a portion of the Ring Road in front of the Auditorium. With a complete quantity survey and tabulation of unit prices for the various items of work called for by the working drawings and detailed specifications, the detailed estimate amounted to \$451,000, rather than the \$700,000 originally estimated.

The 5 1/4 percent consultant's fee originally provided for in the Metcalf & Eddy, Inc., contract was based upon the standard curve for consultant fees for projects of "average complexity" as recommended by the American Society of Civil Engineers standards.

Metcalf & Eddy, Inc., has come up with a good design which will only cost the city a little more than one half what was originally estimated for the project and they feel, and I agree, that the 5 1/4 percent factor is unrealistic and unfair because the same reference curve for this type of work (as recommended by the American Society of Civil Engineers) based upon the lower estimate of construction cost indicates a consultant's fee of 6 1/4 percent rather than the 5 1/4 percent provided for in the original contract.

Accordingly, your permission is requested to dispense with public advertising and to amend the present contract we have with Metcalf & Eddy, Inc., by striking out the 5 1/4 percent fee referred to in Article 10 and substituting six and twenty-five hundredths (6.25) percent in its place. With this change we then would have a percentage consultant's fee established which would be fair and equitable for the estimated cost of construction for this project.

Finally, I should like to point out that the proposed 6 1/4 percent fee applied to the detailed estimated construction cost of \$451,000 fixes a ceiling of \$28,187.50 on the consultant's fee, or \$8,562.50 less the maximum originally expected to be paid to the consultant for this work under the earlier cost estimate.

Respectfully,
JOHN F. FLAHERTY,
Commissioner of Public Works.

CONSTRUCTION WORK

The Commissioner of Public Works has declared his intention to construct the following work:

A 10-inch pipe sanitary sewer in Fairmount avenue, between Prospect street and Milton line, in the Hyde Park district, at an estimated cost of \$1,650.

A 10-inch pipe sanitary sewer, 10-inch pipe surface drain, and two catch basins and connection in Carol Circle, between Washington street and end, in the West Roxbury district, at an estimated cost of \$14,600.

A 10-inch sanitary sewer, 10-inch pipe surface drain in Clarendon park, between Whitford street and Metropolitan avenue in the West Roxbury district, at an estimated cost of \$6,700.

A 10-inch pipe sanitary sewer in Coleman street, between 300 feet northeast of Cleveland street and end, in the Hyde Park district, at an estimated cost of \$2,600.

A 10-inch pipe sanitary sewer, 10-inch pipe surface drain in Sefton street, between Greenfield street and Mariposa street, in the Hyde Park district, at an estimated cost of \$6,230.

A 21-inch and 18-inch pipe surface drain, also 15-inch and 12-inch surface drain, 10-inch pipe sanitary sewer, and five catch basins in Cedarcrest road, between Cedarcrest Circle and West Boundary road, in the West Roxbury district, at an estimated cost of \$41,820.

A 12-inch pipe surface drain, 10-inch pipe sanitary sewer in Cedarcrest Lane, between Cedarcrest road and West Boundary road, in the West Roxbury district, at an estimated cost of \$8,040.

A 10-inch pipe sanitary sewer, 10-inch pipe surface drain, and two catch basins in Cedarcrest terrace, between Cedarcrest road and to end, in the West Roxbury district, at an estimated cost of \$6,640.

A 10-inch pipe sanitary sewer, 12-inch pipe surface drain, and four catch basins in Crest street, between Houston street and 500 feet southeasterly, in the West Roxbury district, at an estimated cost of \$10,930.

INVITATION FOR GENERAL BIDS FOR NEW DISHWASHING ROOM AT THE PATRICK T. CAMPBELL SCHOOL, LAWRENCE AVENUE, ROXBURY, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for new dishwashing room at the Patrick T. Campbell School, Lawrence avenue, Roxbury, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Thursday, August 26, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$300. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Thursday, August 19, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Plumbing and Gasfitting..... \$100

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

INVITATION FOR BIDS FOR INSTALLING A DIORAMA ROOM IN A SPACE ADJACENT TO THE WIGGIN GALLERY, CENTRAL LIBRARY BUILDING, COLEY SQUARE, BOSTON, MASS.

The Trustees of the Public Library of the City of Boston, a corporation duly organized and existing under the laws of the Commonwealth of Massachusetts (see St. 1873, c. 114), hereinafter referred to as the Awarding Authority, invite sealed general bids for installing a diorama room in a space adjacent to the Wiggin Gallery, Central Library Building, Copley square, Boston, Mass.

Bids will be received until twelve o'clock noon (Eastern Daylight Saving Time), Tuesday, August 24, 1965, at the office of the Awarding Authority (Trustees' Office), Central Library building, Copley square, Boston, Mass., at which hour and place they will be publicly opened and read aloud.

Bids must be submitted on forms obtained from the Awarding Authority. The bids shall be completely filled in, signed and enclosed in an envelope, sealed and plainly marked with the name of the bidder and the description of the work bid upon.

A bid deposit in the form of a certified check issued by a responsible bank or trust company, payable to the Trustees of the Public Library of the City of Boston, in the sum of five hundred dollars (\$500), shall be submitted with the bid. The bid deposit shall be in a separate envelope plainly marked.

No bid may be withdrawn within two (2) days (Saturdays, Sundays and legal holidays excluded) after the opening of the bids. In addition, no bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made within thirty (30) days after the opening of the bids.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of the General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law,

General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The bids will be deemed to relate to that signed set of plans and specifications for the project on file at the Business Office, Boston Public Library, Copley square, Boston, Mass. Bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the signed set of plans and specifications on file as aforesaid.

Plans and specifications, a proposal form, and other documents may be obtained on and after 9 A.M. (Eastern Daylight Saving Time), Monday, August 9, 1965, at the Business Office, Central Library building, Copley square, Boston, Mass. A deposit of twenty-five dollars (\$25) in cash will be required for each set of plans and specifications taken out, said deposit to be refunded on the return of the plans and specifications in good condition within thirty days after the opening of bids.

A performance bond and payment bond, each of a surety company qualified to do business under the laws of the Commonwealth of Massachusetts, and satisfactory to the Awarding Authority, and each in the sum of 100 percent of the contract price, will be required of the successful bidder.

The Awarding Authority also reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

Jaywalk Law Aimed at Safety of All; Pedestrian-Motorists Lives at Stake

(Because of the impact of the new anti-jaywalking regulations which will become effective in Boston on November 1, the "City Record" prints this informative bulletin prepared by the staff of the Boston Police Academy. It is of value not only to the members of the Police Department but to every one using the streets not alone as a pedestrian but as a motorist as well.)

Under the authority granted by Chapter 409 of the Acts of 1962 (G.L., Chapter 90, Section 18A), the Boston Traffic and Parking Commission has established rules regulating the use of ways and roadways by pedestrians and a period of education for police and public has been under way during the past several months. Enforcement will commence November 1, 1965.

It is important that all officers be aware of their duties and responsibilities in this program which is dedicated to the saving of lives.

Our pedestrian death and injury rate is much higher than the national average.

It has been estimated that eventually 20 lives can be saved and 500 injuries prevented annually in Boston with proper pedestrian safety controls.

With the November 1st target date fast approaching, all officers, particularly those officers assigned regularly to traffic duty, should be stepping up their courtesy warnings to pedestrians in the vicinity of their posts. Education is the key to the success of this program which is designed to improve pedestrian safety and protection in our city.

After actual enforcement begins, if a police officer takes cognizance of a violation of the Pedestrian Control Law he shall forthwith give to the offender a written notice to be returned to the Clerk of the District Court having jurisdiction, within 21 days, together with the required fine. The notice is to be made out in triplicate, one copy given in hand to the offending pedestrian and two copies delivered to the Commanding Officer at the completion of the officer's tour of duty. One copy will be retained in the Station House files and one delivered to the Clerk of Court not later than the next court day.

The officer may request an offending pedestrian to state his name and address. Whoever refuses or whoever gives a false name and address shall be punished by a fine of \$20 to \$50. Any offender who refuses upon the request of a police officer to state his name and address may be arrested without a warrant. This right of arrest is limited to this particular purpose and does not extend to any other violation of the Pedestrian Control Law.

Here's a Day No One Will Want to Miss

Whether you're a duffer or convinced that given a bit more practice you could take Jack Nicklaus, you won't want to miss Mayor Collins' annual polio golf tournament at the George Wright Course in Hyde Park, Thursday, August 19.

It's an all-day affair. Plenty of golf, plenty of laughs, and plenty of good clean fun are guaranteed by Chairman Bill Devine and his assistant, Waldo Pisco.

First tee off will be at 8.30 A.M. Sure there are lots of folks up and ready to go at that time. Bill Taylor is the official starter. There'll be refreshments awaiting all club swingers on the 10th green. There'll be door prizes and on top of that prizes for top and low scores as well as one called the "booby" prize.

In the late afternoon there'll be an entertainment program with Chet French at the organ and William Dolan, Francis X. Dennehy, and Thomas Adams on hand to offer something tops in the vocal rendition of new favorites and old.

Cocktails will be in order from 5 to 7 P.M.

Piece de resistance of the mouth-watering dinner will be hot roast tenderloin of beef.

These proceedings are deemed noncriminal if the offender mails or delivers the notice to the court within the 21-day period with the required fine. If the offender fails to comply, criminal process shall be applied for in the usual manner.

A violation of any provision of the Pedestrian Control Law shall not be admissible in a civil proceeding to show negligence nor shall any such conviction be shown to affect the credibility of a witness in any future proceeding.

The following excerpts are taken from the Pedestrian Control Regulations as established by Article VI-A of the Traffic Rules and Regulations of the City of Boston:

PEDESTRIANS' CROSSINGS

Section 1 — Pedestrians shall obey the directions of police officers directing traffic and whenever there is an officer directing traffic, a traffic control signal or a marked crosswalk within three hundred feet of a pedestrian, no such pedestrian shall cross a way or a roadway except within the limits of a marked crosswalk and as hereinafter provided in these regulations.

PUSH=BUTTON LIGHTS

Section 2 — Where traffic lights are controlled by push button, no pedestrian shall cross a roadway until the push button has been actuated and then cross only on the proper signal. Where no pedestrian signals are available, pedestrian shall cross only on a green light.

Pedestrians shall yield right of way to funeral vehicles or emergency vehicles regardless of signal light indication.

OBEDIENCE TO SIGNAL LIGHTS

Section 3 — Every pedestrian shall comply with the following traffic control signals, except when otherwise directed by a police officer:

(1) **RED and YELLOW or "WALK"** — Pedestrians may proceed across roadway in direction of such signal.

(2) **RED ALONE or "DON'T WALK"** — Pedestrians facing such indication shall wait on the sidewalk and shall not enter upon or cross the roadway until the proper signal is indicated. Any pedestrian who has partially completed crossing on proper signal shall proceed or return to the nearest sidewalk when the light changes to red, yellow or to a flashing "Don't Walk."

(3) **GREEN ALONE** — Pedestrians may proceed across roadway in direction of such signal.

(4) **YELLOW ALONE, RED ALONE or FLASHING "DON'T WALK"** — Pedestrians facing such indication shall not cross until proper signal is indicated.

(5) **FLASHING RED, FLASHING YELLOW or FLASHING GREEN** — Pedestrians facing such indication shall actuate, where provided, the pedestrian push button and wait for the red-yellow or "Walk" light before crossing. If no pedestrian signal is provided at such location, pedestrians shall cross within crosswalk with due care.

VEHICLE OPERATION

Section 4 — When a pedestrian is crossing a roadway within a marked crosswalk at a place where there are no signal lights in operation, the driver of a vehicle shall yield the right of way, slowing down or stopping if necessary for the pedestrian, when the pedestrian is upon that half of the roadway upon which the vehicle is traveling or when the pedestrian approaches from the opposite side to within five feet of that half of the roadway upon which the vehicle is traveling.

Jaywalk Law . . . (Continued from previous page)

No operator of a vehicle shall pass any other vehicle which has been stopped at a marked crosswalk to permit a pedestrian to cross nor shall any operator enter a marked crosswalk until there is sufficient space on the other side of the crosswalk to accommodate his vehicle notwithstanding any traffic control signal to proceed.

PEDESTRIAN CROSSINGS

Section 5 — (1) No pedestrian shall suddenly leave a sidewalk or safety island and walk or run into the path of a vehicle which is so close that it is impossible for the driver to yield the right of way.

(2) Pedestrians shall at all times attempt to cross a roadway using the right half of crosswalks.

(3) Where sidewalks are provided, it shall be unlawful for any pedestrian to walk along and upon an adjacent roadway whenever the sidewalk is open to pedestrian use.

(4) Where sidewalks are not provided, any pedestrian walking along and upon a highway shall, when practicable, walk only on the left side of the roadway on its unfinished shoulder facing traffic which may approach from the opposite direction.

(5) Persons alighting from the roadway side of any vehicle parked at the curb or edge of roadway shall proceed immediately to the sidewalk or edge of roadway adjacent to vehicle and shall cross the roadway only as authorized by these regulations.

(6) It shall be unlawful for any person to actuate a pedestrian control signal or to enter a marked crosswalk unless a crossing of the roadway is intended.

NONSIGNALIZED LOCATIONS

Section 6 — Pedestrians crossing a roadway other than at a marked crosswalk shall yield the right of way to all vehicles. Where tunnels and overpasses are provided they should be utilized for pedestrian travel.

DUE CARE

Section 7 — Notwithstanding these regulations every vehicle operator shall exercise due care, give suitable warning by sounding horn when necessary and exercise every precaution for the safety of pedestrians in the roadway.

NO SOLICITING

Section 8 — No person shall stand in a roadway for the purpose of soliciting a ride, employment or business from the operator or occupant of any vehicle.

ENFORCEMENT BY POLICE

Section 9 — Pedestrian control regulations to be enforced by all Boston officers on and after November 1, 1965.

EXEMPTIONS

Section 10 — These regulations shall not apply to pedestrians engaged in road repair, to municipal, state, federal or public service corporation employees in the performance of their duties or to pedestrians acting in an emergency.

PENALTIES

Section 11 — Any person who violates any of these provisions which deal with the proper use of ways by pedestrians shall be punished as provided by Chapter 409 of the Acts of 1962. (The first three violations

during a calendar year are punishable by a fine of one dollar for each offense and for the fourth or subsequent offense during any calendar year a fine of two dollars is provided.)

Any person convicted of a violation of any of these regulations relative to the operation of vehicles shall be punished by a fine of not more than fifty dollars for each offense.

The issuance of verbal warnings to pedestrians who gamble with their lives by crossing against traffic signal lights and by crossing between intersections should be a part of a police officer's everyday duties. He must also warn those motorists who fail to respect the basic rights of pedestrians to cross the streets in a lawful manner. Motorists must take every precaution to avoid pedestrian accidents.

An officer must be firm but courteous in admonishing all persons observed in violation of these new pedestrian control regulations. He should: (a) speak as privately as possible to those persons who break these regulations; (b) direct his remarks to the dangers involved in their careless actions; (c) alert them concerning the new pedestrian control law; and (d) request their assistance and cooperation.

A police officer who performs this community service in a professional manner can create a genuine feeling of appreciation for his concern for the individual safety of every pedestrian.

Circular Letter No. 14

To All Department Heads.

GENTLEMEN:

You are hereby authorized to grant leave of absence, without loss of pay, to employees of your department who are duly accredited delegates of the Improved Benevolent Protective Order of the Elks of the World, so that they may attend their Grand Lodge convention to be held in Philadelphia, Pennsylvania, on August 14-20, 1965, provided that such leave of absence will not impair departmental operation to such an extent that it will be necessary to incur overtime expense or the employment of temporary personnel to perform the duties of said delegate(s) during the permitted absence.

If overtime expense or employment of substitute personnel will be required due to such absence, then said delegate(s) may be granted leave of absence only *with loss of pay*. Travel time allowed.

Very truly yours,

JOHN F. COLLINS,
Mayor.

Strong July

Metropolitan Boston's business activity in July this year did not experience as significant a seasonal decline as in past years, according to the Greater Boston Chamber of Commerce.

Executive Vice-President James G. Kelso of the Chamber said banking activity and increased department store sales offset the normal seasonal declines in the categories of employment and production hours worked. The Greater Boston business index, he said, was down only 1 percent from June.

In the past few months, the Chamber reported rising department store sales, sharp gains in banking and increased employment, particularly in manufacturing, have contributed to Greater Boston's sound economy.

Mr. Kelso, however, pointed out weaknesses which are appearing in the area's economic environment. He said there is a growing scarcity of suitable acreage and facilities for expanding or relocating industries. Also, increasing requirements for professional, skilled, and semi-skilled employees have significantly depleted the supply.

The mobility of people, he emphasized, is still being impaired by the uncompleted Master Highway system in Greater Boston. Solutions of these problems, he added, will introduce a new era of economic potential for Boston and its metropolitan area.

Allston Overhaul

Allston's Ringer Playground received a complete overhauling as the Boston Department of Parks and Recreation had crews out cleaning the expansive grounds.

The operation included the resurfacing of two baseball diamonds, repairing of wooden benches scattered throughout the area and replacement of an old water fountain.

The project was undertaken at the request of Commissioner William J. Devine, who noticed that the park was in unsatisfactory condition for use by children in the summer park program and other residents of the area.

Ford Foundation Lists New Grants for ABCD's Charlestown-Roxbury Multi-Service Centers

Action for Boston Community Development, Inc., has received a new grant totaling \$300,000 for use in advancing important community programs already established in Roxbury and Charlestown.

Announcement of the grant was made by the Ford Foundation and Executive Director Joseph S. Slavet of the ABCD. The cash will be used to support and expand comprehensive action programs dealing with the problems of poorer areas of the city through the John F. Kennedy Family Service Center, Inc., at 27 Winthrop street, Charlestown, and the Roxbury Multi-Service Center at 317 Blue Hill avenue.

The grants reflect the Ford Foundation's continuing interest in and strong support of the ABCD work in Boston. They are part of \$2 million set aside by the Ford Foundation to provide support for programs in Detroit, Washington, and New York's Lower East Side.

Both the Kennedy and Roxbury multi-service centers have attracted attention of other cities in their operation of many-phased programs.

Both centers are concerned with families and individuals facing problems of unemployment and underemployment, physical and mental health, court involvements, child rearing, home management, and other difficulties.

The Kennedy Center in addition is developing a program for the provision of day care for prekindergarten children and a program to aid the elderly residents of housing projects. Both centers are active in the promotion of in-school and out-of-school work programs through the Neighborhood Youth Corps.

The problems to which each of the centers address themselves were found by ABCD, when it came into being as an independent agency in 1961, to be beyond the existing resources of the community itself to meet and remedy.

ABCD, which has since been appointed by Mayor Collins to coordinate the over-all anti-poverty programs in Boston, has worked with existing agencies while at the same time enlisting assistance on community and neighborhood levels.

The record-breaking 1965 show, the first held in the Hub Auditorium, attracted 23,000 members of the industry from throughout the New England states and from other parts of the country. There were 392 booths featuring the products, services and ideas of 271 different firms.

The second floor of the Auditorium, which is accessible by escalators leading directly from the main floor lobby, will house the Culinary Arts Salon, sponsored each year by the Epicurean Club of Boston, along with about 112 new exhibit booths.

Show) is scheduled to run Tuesday through Thursday, May 3-5, 1966.

The increased space was made necessary by the unprecedented interest shown in the exposition by both regional and national suppliers to the food and lodging industries, Mr. Dolby declared.

Moccia G.B.C.C. Director

Thomas J. Moccia of 14 Wells-mere road, Roslindale, has been named Director of the Government Department of the Greater Boston Chamber of Commerce by James G. Kelso, Executive Vice President.

Mr. Moccia was a member of the Chamber staff from 1958 to 1964 when he left to join the staff of the newly created Metropolitan Area Planning Council.

Prior service with the Chamber included work in its Urban Development Department, Administrative Assistant to the Executive Vice-President, and Director of the Community Development Department.

Mr. Moccia received his education at Suffolk University where he majored in government and economics and at the Graduate School of Public Administration, Wayne State University in Detroit. In addition, he attended institutes for organization management at Syracuse University and at the University of North Carolina.

He is a member of the Board of Directors of the Citizens for the Boston Public Schools; American Society of Planning Officials; Urban Land Institute; Government Research Association; and the National Municipal League.

As Director of the Government Department, Mr. Moccia's responsibilities will include the operations of the State and National Affairs Committees, Labor-Management Committee, the Special Committee on Taxation, and legislative research on national and state measures. His office also maintains liaison with other Chambers throughout the state on legislative matters as well as with the Executive and Legislative Branches of the State Government.

Star-struck man, coming out of Planetarium show at Boston Museum of Science, admitted he enjoyed it immensely but could he please have the money back for one ticket? Explains: "I bought the tickets for myself and my wife—and just remembered my wife didn't come with me!"

They Like Auditorium

The 1966 New England Hotel, Motel and Restaurant Show will occupy more than half of the second floor of Boston's War Memorial Auditorium, in addition to the entire main floor area, it was announced by Farold R. Dolby of Hotel Service, Inc., general manager of the show.

Mayor Seeks \$450,000 Federal Grant for Copley Square Municipal Beautification Program

Boston is seeking a \$450,000 federal grant to beautify Copley Square under the Urban Beautification Program of the 1965 Housing Bill, Mayor Collins announced on August 10. The bill, which provides for demonstration grants, was signed into law by President Johnson.

Total cost of the beautification program would be \$500,000 with the federal government providing 90 percent.

Boston became the first city to apply for a grant under the bill as announcement of the project was made by Mayor Collins shortly after the bill was signed.

Grant was available to aid urban beautification projects which demonstrate new and improved methods and materials.

First step in the major face-lifting operation will be a national design competition which will be open to any architect or landscaping architect in the country.

The area to be refurbished is bounded by Dartmouth, Boylston, and Clarendon streets and St. James avenue, except for the wedge of land occupied by historic Trinity Church.

Mayor Collins made the announcement of the project and the competition at a meeting in his office attended by more than 70 representatives of the Back Bay section.

"The beautification of Copley Square," he said, "is a long-sought objective here in Boston and can become a model for the beautification of other squares in cities throughout the nation. I am very pleased that the federal government, which has long had concern about the wilderness, is turning its attention to cities, squares, and parks."

The Mayor said he had asked Boston Redevelopment Authority Administrator Edward J. Logue to file the application immediately.

Depending on the winning design, the competition will permit new landscaping, pools, tree plantings, and fountains, with the total not to exceed \$500,000.

Winner of the competition will receive a \$5,000 prize, with \$2,000 for

second and \$1,000 for third, underwritten by the Back Bay Planning and Development Corporation. Cosponsors are the City of Boston, the BRA, and the Back Bay Council.

The contest, which is expected to draw hundreds of entries, will close February 5, 1966, and the winners will be announced in March. It is expected that work could start by early 1967.

A. L. in 1968?

The Greater Boston Hotel and Motor Inn Association is taking the lead in a drive to obtain the 1968 national convention of the American Legion.

At a meeting held last week with representatives of the American Legion Corporation, the group was advised that the conventioners would require 5,000 rooms.

Martin P. Kelly

Funeral services for Martin P. Kelly, retired Boston Police sergeant who died on August 5 in Coral Gables, Florida, were held on August 9.

Sergeant Kelly retired in 1955 after 35 years on the Police Force. He did detective work at West Roxbury and headquarters and while a sergeant at District 15 in Charlestown, received the Boston Police Medal of Honor for the capture of two prisoners who had escaped from Charlestown State Prison.

Sergeant Kelly saw the prisoners on Bunker Hill street in the early morning hours and became suspicious of their actions. When he arrested them, he noticed they were wearing prison clothing. When he telephoned the State Prison, their escape had not yet been noticed.

He leaves a son, James F. of North Reading, a daughter, Mrs. Marguerite Westwater of West Newton, and three brothers: James of Ayer, Mass., Terrence of Matapan, and William Kelly of Boston.

William J. Killeen

William J. Killeen, 69, a retired sergeant with the Boston Police Department, died suddenly at his home on Lafayette street.

A native of Boston, he retired from the department in 1945.

He leaves a daughter, Mrs. Earl Lerner of Elmhurst, N.Y.; a sister, Mrs. Elinor Cahill of Danvers, and a brother, John A., of North Bergen, N.J.

A Solemn High Mass was sung in Annunciation Church, Danvers. Burial was in St. Joseph's Cemetery, West Roxbury.

FIRE DEPARTMENT ORDERS

August 10.

General Order No. 30.

I. WILLIAM J. CAREY.

It is with deep regret that the Fire Commissioner announces the death, on July 30, 1965, of Fire Fighter William J. Carey of Ladder Company 30. Fire Fighter Carey was appointed to the department on October 25, 1950.

The funeral was held from the William J. Gormley Funeral Home, 2055 Centre street, West Roxbury, at 8 A.M., Monday, August 2, 1965, followed by a Solemn High Mass in the Holy Name Church, West Roxbury, at 9 A.M.

The Chief of Department made the customary detail to act as a funeral escort and members of Engine Company 42 and Ladder Company 30 were excused from duty in order to attend the funeral services.

August 4.

Personnel Order No. 763.

Notice having been received that First Grade Detective Edward T. Weiler, Criminal Investigation Division, detailed to District 5, died on Sunday, August 1, 1965, it is hereby ordered that the records of this department be so amended.

August 5.

Personnel Order No. 764.

Patrolmen Francis J. Murphy, Jr., and Martin J. Manning, District 7, are hereby commended for meritorious police duty and each is granted three days' additional vacation.

During the several months following April 15, 1965, eight armed robberies occurred on District 7. In each case, the descriptions given by the victims were similar. A revolver was pointed at the victim, varying sums of money seized and the culprit fled on foot. A description of the robber and a composite picture assembled from the descriptions given by the victims was circulated throughout the city.

About 9.50 P.M., Wednesday, June 30, 1965, the above-named officers, in uniform and assigned in an unmarked police car observed a man fitting the description of the above. At the time, he was pacing up and down in front of a liquor store, peering furtively into the same and glancing up and down the street. As the police car approached, the unknown man observed the patrolmen and fled into Saratoga street. The officers gave chase and observed, on a flight of cement stairs, leading to the basement of the Central Bowling Alleys, the unknown man crouched down in a corner, and a black revolver beside his hand on the stairway. He was placed under arrest as a suspicious person, to wit: armed robbery at Vesce's Liquor Store, 1 Boardman street, East Boston. He was identified as Joseph Leonard Cordeau, 26 years, single, of 42 Tilson road, Winthrop, and was presently out

on parole from the Massachusetts Correctional Institution at Walpole. At the lineup at Police Headquarters on July 1, 1965, Cordeau was identified as the person responsible for several of the armed robberies on this district.

The Police Commissioner is pleased to recognize the courage and devotion to duty displayed by these officers, who through their alertness, brought about the arrest of this dangerous felon and brought to an end a series of armed robberies.

August 5.

Personnel Order No. 765.

Detective Third Grade Kenneth Ellis and Patrolman Christy F. Guerriero, District 13, are hereby commended for meritorious police duty and each is granted three days' additional vacation.

At 7.45 P.M., Sunday, June 27, 1965, Patrolman Marshall McLeod, assigned to radio patrol car, and Patrolman Christy F. Guerriero, assigned to special duty on District 13, responded to a citizen's alarm, located at the boathouse, Jamaica Pond. Upon their arrival they were informed by one Mrs. Louise Beris, 72 years, married, of 27 Spring Park avenue, Jamaica Plain, that her handbag had been snatched by four unknown boys all riding bicycles. The pocketbook contained \$600 in U. S. currency, keys, and personal papers.

Detective Ellis, Juvenile Officer, who was on a day of relief was notified of the incident, and he returned to duty and with Patrolman Guerriero started an immediate investigation. A youth apprehended in the vicinity of the handbag snatch denied being involved in this incident, but did admit being involved in other handbag snatchings in other districts. As a result of an intensive investigation during the early hours after the incidents, they arrested three youths at their homes and they were arraigned before the Juvenile Court.

On July 7, 1965, the boys appeared before Judge Daniel W. Casey in the West Roxbury Juvenile Court; the three youths were adjudicated delinquents and remanded to the Youth Service Board,

sentences suspended, and restitution in the amount of \$600 was ordered.

As the result of the above investigation, twenty-three (23) handbag snatchings on various districts were cleared.

The Police Commissioner is pleased to recognize the devotion to duty and the thoroughness of the investigation that brought about a quick arrest and the solution of many previous handbag incidents.

August 6.

Personnel Order No. 766.

Detective Third Grade Aristedes N. Manos and Patrolman Willis D. Saunders, Jr., Vice Control Unit of the Criminal Investigation Division, and Patrolman Martin Smith, of District 13, are hereby commended for meritorious duty and each is granted two days' additional vacation.

About 10.55 P.M., Wednesday, July 28, 1965, Detective Manos and Patrolman Saunders while on a continued investigation for vice conditions in the Roxbury area, were attracted by a congregation of taxis at Blue Hill avenue and Ellington street, Roxbury. The officers were informed by Alan Rudnisky, 28 years, married, of 44 Havelock street, Dorchester, operator of an I.T.O.A. taxicab, that he had just been robbed of \$36 in bills and \$4 in silver by four males who were passengers in his taxicab and had left the scene in various directions.

Detective Manos and Patrolman Saunders made a thorough search of the area and spotted one male running down Ellington street where he was apprehended in the rear of 23 Ellington street hiding in the bushes. He was arrested on suspicion of armed robbery, identified as one Raymond Carrington, 19 years, single, 19 Maple street, Roxbury, and booked at District 3 for appearance in court the following morning.

A short time later the above officers, with Motorcycle Officer Martin Smith of District 13, while in the vicinity of White Stadium, arrested on suspicion of armed robbery, James Jordon, also known as James Ricker, 24 years, married, of 620 Warren street, Roxbury. The subject was also booked at District 3 for appearance in court the following morning. Both of these subjects were identified by the victim, Alan Rudnisky, and after lengthy interrogation, admitted their part in the robbery.

On Thursday morning, July 29, 1965, both subjects Carrington and Jordon were brought before Judge Sadie Shulman in Dorchester Municipal Court who held them in \$10,000 bail for further appearance on August 12, 1965.

The Police Commissioner is pleased to recognize the alertness and fine police work performed by these officers in this case which resulted in the arrest of two individuals who would have continued to harass taxicab drivers if not taken into custody at this time.

POLICE DEPARTMENT ORDERS

July 29.

General Order No. 261.

The Rules and Regulations of the Boston Police Department are hereby amended, effective as of 7.45 A.M., Monday, August 2, 1965.

RULE 36—PAY AND ALLOWANCES.

On page 54, strike out in its entirety Section 10 of Rule 36, including all amendments thereto, and insert in place thereof the following new section:

Section 10. No pay will be allowed from accumulated sick leave or for an injury in line of duty if the sickness or injury is simulated or exaggerated, or arises from carelessness or improper conduct; or if the sick or injured officer shall purposely, by false statement or otherwise, seek to deceive or mislead the attending physician or surgeon in relation to his case; or if the officer shall not remain at his residence, unless permitted by the Commissioner to go elsewhere; or if he refuses or neglects to conform to the instructions of the attending physician or surgeon.

In reporting injuries sustained in line of duty it will be the responsibility of District or Unit Commanders to make recommendations for examination at the Police Clinic, Boston City Hospital, in those cases where they believe medical evaluation is necessary. When directed to do so, members of the force will report for examination at the Police Clinic, Boston City Hospital, 745 Massachusetts Avenue, Boston. Appointments will be arranged by the Personnel Records Unit, Personnel and Training Division, and notifications will be made by the District or Unit Commander of the officer concerned. Officers so notified will report promptly at the date and time specified and will bring with them any medical records they may have obtained from private physicians relative to their case. Department medical and other pertinent records will be furnished to the Police Clinic in each case. All cases of officers who fail to report as directed will be subject to immediate investigation and report by the Commanding Officer concerned. Department personnel will not apply directly at the Police Clinic for medical attention as all appointments will be arranged through police channels.

Whenever an officer is absent from duty on account of sickness or injury for more than seven consecutive days, his Commanding Officer shall arrange for unannounced visits, at least once each week, to the home of the officer by a superior officer from his Bureau, Division, District or Unit. A report of such visits shall be forwarded to the Police Commissioner on the regulation form provided for that purpose.

A member of the force absent for more than ten working days on account of illness or injury not incurred in the per-

formance of police duty shall not be restored to duty until he presents a certificate of this attending physician to the Personnel and Records Unit, Room 507, Police Headquarters. This certificate will contain a statement as to the nature of the officer's illness or injury and his fitness to return to duty. At that time an immediate appointment will be made for the officer to report to the Police Clinic for certification as to his fitness to resume police duty.

In any case of protracted absence for ordinary disability or injury in line of duty, it shall be the responsibility of a Commanding Officer to request in writing whenever he deems it necessary that an officer under his command be examined at the Police Clinic to determine his availability for duty.

RULE 38—ABSENCE FROM DUTY.

On page 58, strike out Sections 4 and 5 and insert in place thereof the following new section:

Section 4. Whenever a member of the force is unable to report for duty because of sickness or injury he shall immediately report to his Commanding Officer. Should he be unable, on account of such disability, to report in person, he shall send word to his Commanding Officer as soon as possible. The Commanding Officer, whenever he deems it necessary, shall detail a superior officer to investigate the cause of such absence and a complete report forwarded to the Office of the Police Commissioner on Department Form 225.

Superintendent's order dated December 19, 1957, relative to absence from duty on account of sickness, injury or disability is hereby rescinded.

August 3.

General Order No. 262.

The following changes are hereby made relating to Public Taxicab Stands:

Abolish.

DEPARTMENT OF SCHOOL BUILDINGS.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR ERECTING AND COMPLETING AN ADDITION TO JAMES A. GARFIELD SCHOOL, BRIGHTON, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for erecting and completing an addition to James A. Garfield School, Brighton, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Tuesday, September 7, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$33,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Friday, August 27, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

INVITATION FOR PROPOSALS FOR INTERIOR AND EXTERIOR PAINTING AT THE ROGER CLAP SCHOOL, 35 HARVEST STREET, DORCHESTER, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for interior and exterior painting at the Roger Clap School, 35 Harvest street, Dorchester, Mass.

Proposals will be received until 12 o'clock noon (Eastern Daylight Saving Time), Thursday, August 26, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$200, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

INVITATION FOR GENERAL BIDS FOR MODERNIZATION OF PLUMBING FACILITIES AT THE JOHN B. O'REILLY SCHOOL, 347 DORCHESTER STREET, SOUTH BOSTON, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for modernization of plumbing facilities at the John B. O'Reilly School, 347 Dorchester street, South Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Tuesday, September 7, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time thereafter.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Friday, August 27, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Plumbing and Gasfitting.....\$200

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 143, of the General Laws, as amended.

CITY COUNCIL

133

CITY OF BOSTON.

Proceedings of City Council.

Monday, June 28, 1965.

Regular meeting of the City Council held in the Council Chamber, at 2 P.M., President TIERNEY in the chair, and all the members present.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

Merciful and gracious God, lest we walk in darkness and despair, grant us an eager and ready response to the call and the command of Thy holy will. Through the hours of this day, grant us the guidance that we may have the wisdom and the power to meet worthily and courageously the stern duties and demands of this high office of public service. Free us from every taint of selfish ambition as we labor for the promotion and preservation of the common good. Inspire us daily with the urge, the faith, and the courage to follow the promptings of Thy holy spirit.

May Thy benedictions rest on the Mayor, the Officials, and Citizens of this city.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

The meeting was opened with the salute to the Flag.

Referred to the Committee on Confirmations.

CONFERENCE WITH COLLEGE AND UNIVERSITY REPRESENTATIVES RE TAX-EXEMPT DORMITORIES.

The following was received:

City of Boston,
Office of the Mayor, June 23, 1965.

To the City Council.

Gentlemen:

I am forwarding the attached letter from the Director of Administrative Services concerning the request contained in your order of February 8, 1965.

I can add only the fact that personnel of the Mayor's Office, as well as personnel associated with the Department of Administrative Services, have been instructed to pursue every avenue open to us with the objective of securing agreements from tax-exempt institutions which would effect contributions to the city's cost of operations. Not only has contact been made with institutions such as colleges and universities, but we have also been in negotiation with agencies of the Commonwealth which require services from the City of Boston, and which presently make no contributions to our financial problem.

Your Honorable Body may rest assured that no stone will be left unturned in our efforts to alleviate this problem which is so peculiar to and so serious for the City of Boston.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,

Administrative Services Department,

June 18, 1965.

Mayor John F. Collins,

Office of the Mayor.

Dear Mr. Mayor:

This letter is in reply to a request by the City Council that the Mayor call a conference of all major universities and colleges in Boston, for the purpose of discussing voluntary contributions by these institutions for police and fire protection and other services rendered by the City of Boston.

A number of steps have been taken with reference to the subject of the City Council's request. Formal and informal contacts have been made at various times over the past few years with colleges and universities, and other tax-exempt organizations and institutions in the City of Boston, with the specific objective of securing voluntary agreements for payments to the city in lieu of taxes. Since a foremost requirement is that individual institutions voluntarily agree to the principle of contributing to the city's costs of operation, there appears to be nothing which can be accomplished by large-scale group meeting with such institutions.

Our efforts to persuade the authorities of tax-exempt institutions of their financial obligations to the City of Boston will continue, as you have instructed. As of this moment, however, we can only report a general reluctance on the part of all such institutions to recognize any financial responsibility to the City of Boston.

Sincerely yours,

HENRY A. SCAGNOLI,

Director of Administrative Services.

Coun. CRAVEN in the chair.

President TIERNEY in the chair.

In connection with the foregoing, Councillor Iannella offered the following order:

Ordered, That his Honor the Mayor call a conference of all private schools in the Back Bay section of the City of Boston for the purpose of ascertaining their expansion program, if any, and to urge them to stop shrinking the tax base.

On motion of Councillor G. F. Foley, the message and the order were referred to the Executive Committee.

APPROPRIATION FOR "PARKING METER SUPERVISORS."

The following was received:

City of Boston,
Office of the Mayor, June 24, 1965.
To the City Council.

Gentlemen:

I submit herewith an appropriation order for the sum of thirty thousand dollars (\$30,000) from "Parking Meter Fees" and a communication from the Commissioner of Traffic and Parking explaining the reasons therefor.

I respectfully recommend adoption of the accompanying order by your Honorable Body.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,
Traffic and Parking Department,
June 22, 1965.

Hon. John F. Collins,
Mayor of Boston.

Dear Sir:

Chapter 365 of the Acts of 1955 provides for the employment of "Parking Meter Supervisors" commonly known as "Meter Maids."

Such "Parking Meter Supervisors" have been employed in other municipalities including: New York City; Portland, Oregon; Pittsburgh, Pennsylvania; Seattle, Washington; Baltimore, Maryland; and many others. It is our considered judgment that they should be tried in Boston.

In order to permit such a trial employment it is respectfully requested that the sum of thirty thousand dollars (\$30,000) be appropriated from "Parking Meter Fees" for the employment of "Parking Meter Supervisors" in the Traffic and Parking Department.

Respectfully submitted,

THOMAS F. CARTY,
Commissioner of Traffic and Parking.

Ordered, That the sum of thirty thousand dollars (\$30,000) be, and the same hereby is, appropriated from the revenue received from Parking Meter Fees, to be expended by the Traffic and Parking Commissioner, for the employment of "Parking Meter Supervisors" in the Traffic and Parking Department.

Referred to the Committee on Appropriations and Finance.

VARIOUS ORDERS RE CONSTRUCTION OF PUBLIC WAYS.

The following was received:

City of Boston,
Office of the Mayor, June 28, 1965.
To the City Council.

Gentlemen:

On May 17, 1965, I submitted to your Honorable Body, with appropriate message, several appropriation and loan orders respecting capital improvements in the current year. One of these orders read as follows:

"Ordered, That under the provisions of chapter 44, section 7 (5) of the General Laws, the sum of two million one hundred thousand dollars (\$2,100,000) be, and it hereby is, appropriated to the Public Works Department for the construction, extension or widening of public ways throughout the city; and be it further

"Ordered, That to meet said appropriation, the sum of one hundred thousand dollars (\$100,000) be, and it hereby is, transferred from available revenue in the city treasury in conformity with the provisions of section 7, chapter 44 of the General Laws, as amended by chapter 206 of the Acts of 1965; and be it further

"Ordered, That to meet the remaining portion of said appropriation in the amount of two million dollars (\$2,000,000) the Collector-Treasurer be, and he hereby is, authorized to issue, from time to time, on request of the Mayor, under the provisions

of chapter 44, section 7 of the General Laws, bonds or certificates of indebtedness of the city to said amount of two million dollars (\$2,000,000)."

It has been brought to my attention that the composite order just quoted did not follow the established precedent of an appropriation order accompanied by a separate and distinct loan order, and consequently is a potential source of difficulty with bond counsel.

Accordingly, I am withdrawing the above-quoted order insofar as it is still pending before your Honorable Body, and I am also recommending adoption by your Honorable Body of the order transmitted herewith for the purpose of rescinding the order which, upon the basis of the above-quoted order, your Honorable Body passed on June 7 and I approved on June 10.

I also submit herewith, and recommend your early adoption of, a \$100,000 appropriation order and a \$2,000,000 loan order for the construction, extension or widening of public ways throughout the city in substitution for the above-mentioned orders.

Respectfully,

JOHN F. COLLINS, Mayor.

Ordered, That the order passed by the City Council on June 7, 1965, and approved by the Mayor on June 10, 1965, reciting that

"to meet said appropriation, the sum of one hundred thousand dollars (\$100,000) be, and it hereby is, transferred from available revenue in the city treasury in conformity with the provisions of section 7, chapter 44 of the General Laws, as amended by chapter 206 of the Acts of 1965"

be, and the same hereby is, rescinded.

On motion of Councillor W. J. Foley the rules were suspended, the order was passed, yeas 9.

Ordered, That to meet the requirements of the first paragraph of section 7, chapter 44 of the General Laws, as amended by chapter 206 of the Acts of 1965, the sum of one hundred thousand dollars (\$100,000) be, and it hereby is, appropriated from available revenue in the City Treasury, for the construction, extension or widening of public ways under the provisions of clause 5 of section 7 of chapter 44 of the General Laws to be expended under the direction of the Commissioner of Public Works.

On motion of Councillor W. J. Foley the rules were suspended, the order was passed, yeas 9.

Ordered, That the sum of two million dollars (\$2,000,000) be, and hereby is, appropriated for the construction, extension or widening of public ways under the provisions of clause 5 of section 7 of chapter 44 of the General Laws, as amended, to be expended under the direction of the Commissioner of Public Works; and that to meet said appropriation, the Collector-Treasurer be, and he hereby is, authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On motion of Councillor W. J. Foley the rules were suspended.

The order was given its first reading and passage, yeas 9.

The order was assigned for 14 days for final action.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Louis Arnesano, for compensation for injuries caused by defective elevator in City Hall.

No. 34

Mayor Hails South Station Acquisition As Major Downtown Investment

The Boston Redevelopment Authority and the Boston Terminal Company have reached agreement on the sale of the South Station railroad terminal for \$6.9 million, Mayor Collins announced recently.

The sale is subject to the approval of Federal Judge Robert Anderson of New Haven, who has been presiding over bankruptcy proceedings of the terminal company, which is jointly owned by the New York Central and New Haven Railroads. The New Haven is also bankrupt.

Mayor Collins said that the proposal "opens the door to major new investment and development for downtown Boston." The Mayor foresees a potential \$50 million redevelopment of the 23-acre site.

The agreement provides that the Redevelopment Authority will pay \$4.2 million in cash, with a mortgage of \$2.7 million.

Payment to City

The city will receive \$1 million of the purchase price as a settlement for back taxes since 1959. Mayor Collins said this represented about one half of the taxes owed.

Trustees of the bankrupt property, who were present in the Mayor's office, confirmed their support of the proposal. Other agencies whose approval is required have also indicated their support.

These include the Housing and Home Finance Agency, the state and city governments, and the various regulatory agencies.

The South Station served as the terminus of the New Haven, the New York Central, and the Boston & Albany Railroads. All three will be allowed to continue using the station.

Situated near the Boston waterfront, the terminal is in a strategic position under the planned redevelopment of the core city and of the waterfront.

Development Plans

It is also situated at the terminus of the Massachusetts Turnpike, an express toll road that connects with the New York State Thruway.

Mayor Collins said the development might provide for a 4,000- to 5,000-car garage, to be built over the tracks, a commercial complex, a bus terminal and a possible trade center with other facilities, including a heliport. The Logan International Airport is about 2 miles east, across Boston Harbor.

The Massachusetts Bay Transportation Authority, a state agency that operates commuter transportation, would use the South Station site as the terminus of rapid transit service to southeastern Massachusetts.

This is contingent on Judge Anderson's approval of a Transit Authority proposal to buy the abandoned New Haven trackage to the South Shore.

In the heyday of eastern railroading, the South Station was once known to handle more passengers each day than most other terminals in the country.

MBTA Police

The Massachusetts Bay Transportation Authority will seek legislation giving its new 40-man police force the same powers within its area as held now by the Metropolitan District Police.

The proposed legislation would give MBTA police equal status with other law enforcement officers throughout the Commonwealth.

It would also give them the right of search and seizure and pursuit to or through any city or town within the territorial limits of the transit system's 78 communities.

A vote authorizing General Counsel Edward F. McLaughlin to file the special legislation was taken by the MBTA directors at a regular board meeting.

The bill specifically states that the MBTA police "shall not engage in the administrative activities of the Authority with reference to other employees."

"M.D." Plates

Massachusetts will offer "MD" license plates to certified physicians, Motor Vehicles Registrar Richard E. McLaughlin announced Tuesday.

A thousand plates will be distributed to doctors this year, and effective January 1 they will be available to all physicians, McLaughlin said.

Mayor Leads Hub Delegations For "Boston Day" Visit To World's Fair in N. Y.

There will be plenty of entertainment in store for those Bay Staters who journey down to the New York World's Fair to observe "Boston Day" this Saturday, August 21.

Plans range from a parade and concert by the Boston Firemen's Band to a fashion show featuring beautiful Indian maidens modeling authentic tribal dress of early colonial Massachusetts.

Mayor Collins, the honorary chairman, and his family will be there. Entertainers Ray Bolger and Frank Fontaine are expected to be on hand to honor their native city. Members of the Bruins,

Patriots, and Red Sox will also be present.

The festivities will begin at noon on the Village Green in front of the Massachusetts Pavilion. Gerard Hayes, vice-president of the National Shawmut Bank, is chairman for the day.

Three models from the Carol Nashe Agency will participate in fashion shows under the direction of Mildred Albert. Their authentic Indian costumes are from the private collection of the Shawmut Bank. Angelo Picardi, popular singer from the North End, will also participate.

Dr. Hamlin To New Post

Dr. Robert H. Hamlin, author of a plan to streamline Boston's health services, will leave the Harvard School of Public Health on October 1 to join Booz, Allen and Hamilton, a national consulting firm.

The Legislature has passed, contingent on City Council acceptance, Dr. Hamlin's health plan for Boston.

Dr. Hamlin, a physician and lawyer, is leaving one of the nation's most prized public health posts.

He will be a vice-president in the New York office. He will be responsible for management surveys of health and medical institutions.

The advent of Medicare is expected to increase the need for medical facilities, better management practices, and modifications of existing institutions. Dr. Hamlin's new post will put him in the forefront of such work.

DIRECTIVE NO. 19

August 11, 1965.

To All Department Heads.

The Postmaster has directed our attention to the Nationwide Improved Mail Service (NIMS) Program, launched in July, 1961, which represents a massive joint venture by private industry and the Post Office Department and is designed to end the great surge of mail which inundates most of the larger post offices during the evening hours.

In the past four years, through the interest and cooperation of banks, insurance firms, utilities, department stores, etc., substantial progress has been made in reducing the heavy mail loads which pour into post offices after 3 P.M. Depositing mail earlier in the day contributes to faster service for the mailer and provides for a more economical and efficient postal operation.

The Postmaster has requested the cooperation of the City of Boston in further promoting the NIMS Program in the Boston Postal District. In this connection, he has requested that all city departments located in the Hall and Annex arrange to have all available mail in the Central Mailing Room by 2 P.M. daily. This will allow for a pickup of this mail by a post office truck to meet a 2:30 P.M. dispatch to the South Postal Annex.

As the Administration is anxious to comply with the Postmaster's wishes and to cooperate in every way, I am therefore requesting that each department head to whom this directive is being forwarded, arrange to have delivered all available mail to the Central Mailing Room on or before 2 P.M. daily on and after Monday, August 16.

Department heads and division heads involved should so arrange their schedules so that important mail will be processed in the forenoon and delivered to the Mail Room on or before 2 P.M. Routine mail processed during the afternoon may be delivered to the Mail Room up to 4 P.M., but it must be remembered that this particular mail will not reach the Post Office until the following day.

Your cooperation in this matter is necessary to insure speedy and prompt processing of all future mail.

HENRY A. SCAGNOLI.

Long Island Approved

President William H. Ellis, Jr., of the Boston City Hospital Board of Trustees, announced on August 12 receipt from the commissioners of the Joint Commission on Accreditation of Hospitals of approval of the Boston Long Island Hospital for a period of three years or until a subsequent survey is conducted by the board.

DIRECTIVE NO. 20 WATER EMERGENCY BAN

August 16, 1965.

To All Department Heads.

The following appeared in all Boston daily newspapers on Saturday, August 14, 1965. All department heads are requested to read and comply:

"By authority of Chapter 40, Section 41A of the General Laws, and every other power, hereto enabling, the Commonwealth of Massachusetts, Department of Public Health, having deemed an emergency to exist within the meaning of the law, I hereby ban, within the City of Boston, the use of hoses for washing motor vehicles, watering lawns and gardens, washing down driveways, sidewalks, and highways; the use of all automatic lawn sprinkling systems; the use of water-cooled air-conditioning equipment, swimming pools, bathing pools, wading pools, and fountains any of which are not equipped with water recirculating devices.

Failure of compliance with the above regulation will result in curtailment of water service to the violators' premises as provided under the above stated law.

This ban shall remain in force until the present emergency has passed, as determined by the Commonwealth of Massachusetts, Department of Public Health.

Residents are requested to further cooperate by avoiding excessive use of water for household purposes and by checking faucets and other plumbing fixtures for leaks.

Businessmen are requested to take every precaution to avoid unnecessary use or waste of water on their premises.

JOHN F. FLAHERTY,
Commissioner of Public Works."

Any questions relative to the above should be directed to Public Works Commissioner Flaherty.

HENRY A. SCAGNOLI.

POLICE DEPARTMENT ORDERS

August 9.

Personnel Order No. 767.

Notice having been received that Patrolman John R. Sheedy, District 14, died on Friday, August 6, 1965, it is hereby ordered that the records of this department be so amended.

August 10.

Personnel Order No. 768.

Lieut. Albert J. Connelly, Bureau of Inspectional Services, is hereby detailed to report to the commanding officer of District 13, at 7:45 o'clock A.M., Wednesday, August 11, 1965, for duty until further orders.

August 11.

Personnel Order No. 769.

Patrolmen Vincenzo Maraio and James J. Powers of the Emergency Service Unit

are hereby commended for meritorious duty and each is granted two days' additional vacation.

At 2:50 P.M., Tuesday, July 27, 1965, the Emergency Service Unit with Patrolmen Maraio, Powers and Madden responded to a radio call for a woman threatening to jump off the roof of a building at 63 Westland avenue, Back Bay.

Upon arrival at the scene, Patrolman James Keough of District 4 pointed out a woman sitting on the ledge of the roof of a five-story building with her feet and legs hanging over the side.

Patrolmen Maraio and Powers went to the roof, put on life belts, secured a line between the two belts and worked their way slowly to a position behind the woman and when close enough seized the struggling woman and removed her from her precarious position. The woman, Ernestine Leahy, 33 years, married, of 85 Westland avenue, was placed in the ambulance of District 4 and removed to the Boston City Hospital.

The Police Commissioner is pleased to recognize the courage and efficiency displayed by these officers in effecting this rescue without regard for their own safety and being directly responsible for saving the life of this woman.

August 12.

Personnel Order No. 770.

Detective Kenneth Ellis and Patrolman Christy F. Guerriero of District 13 are hereby commended for meritorious duty and each is granted two days' additional vacation.

On Friday, July 30, 1965, Detective Kenneth Ellis reported that on or about July 17, 1965, according to information received by him, traffic in narcotic drugs was being carried on somewhere in the vicinity of Rockvale Circle, Jamaica Plain. Assisted by Patrolman Christy F. Guerriero a periodic undercover surveillance of Rockvale Circle was maintained. As a result, information was received that a youth, an escapee from Shirley Youth Service Board Detention Center, wanted for breaking, entering, and larceny from a dwelling house on District 13, was secreting himself in a three-story dwelling house at 51 Rockvale Circle. Only Suite 3 at this location was occupied, occupants being John W. Swyers, 31 years, his wife and two minor children.

Detective Ellis obtained a warrant for the arrest of this youth on a charge of being a delinquent child. At 10 P.M. Thursday, July 29, 1965, the youth was arrested. At the time of booking he was observed to have many marks and impressions on both arms consistent with marks made by a syringe. Due to these observations and prior knowledge gained from the investigation, Detective Ellis obtained a warrant for search of the entire building, all floors, suites and cellar at 51 Rockvale Circle, Jamaica Plain.

Detective Ellis and Patrolman Guerriero, accompanied by Detectives Arthur Linsky and Aristedes N. Manos and Patrolmen Dennis F. Casey and Willis D. Saunders, Jr., all of the Vice Control Unit, went to 51 Rockvale Circle at 2:40 A.M., Friday, July 30, 1965, and searched the building. During the search of Suite 3, syringe, needle, dolophine and morphine tablets were found. On a rear piazza hypodermic needles were found in a trash barrel. On information received from John W. Swyers, in the apartment at the time, Detectives Ellis and Linsky and Patrolman Guerriero went to an abandoned, abutting, three-story building at 49 Rockvale Circle, entered through an open cellar door, searched, found, and seized, under an accumulation of trash, a large brown paper bag containing various and sundry narcotic and harmful drugs, needles and syringes believed to have been stolen during a break at Warrendale Drug Store, 12 Warren street, Waltham, on or about July 26, 1965, as reported by Waltham police. The Waltham police were notified.

John W. Swyers was arrested for violation of General Laws, chapter 94, section 205, possession of a quantity of narcotic drugs. He was taken to District 13, booked and transported to headquarters where he was fingerprinted and photographed and returned to District 13 to await arraignment.

At 9 A.M., Friday, July 30, 1965, John W. Swyers was arraigned in Municipal Court, West Roxbury District, before Judge Andrew Macdonnell for: 1, violation, chapter 94, section 205, possession of morphine; 2, violation, chapter 94, section 211, possession of hypodermic needle; 3, violation, chapter 94, section 211, possession of hypodermic syringe; 4, violation, chapter 94, section 205, possession of dolophine.

The defendant was not represented by counsel and this case was continued and bail set at \$1,000 on charge No. 1, and \$1,000 personal recognizance on each of the other charges.

The Police Commissioner is pleased to recognize the intelligent and persevering efforts of these officers performing voluntary extra duty without compensation on several occasions. The perpetrators of several felonious crimes have been arrested and a person involved in the illicit traffic of Narcotic Drugs has been removed from a most nefarious criminal activity.

New York State, with the World's Fair in its last year, is already planning to capitalize on the World's Fair Exposition in Montreal in 1967.

The state has signed a contract for a multimillion dollar pavilion to be erected at the Canadian Fair.

Steel vs. Aluminum in \$8 Billion Showdown for Construction of Tomorrow's Subway Trains

The United States Steel Corporation has joined battle with the Aluminum Corporation of America for its share of the \$8 billion market expected through the construction of rapid transit systems throughout the United States.

In an elaborate presentation of engineering designs, shown at the Coliseum to about 600 transit planners from cities on the northeastern seaboard, the steel company unveiled a prototype of a light-weight steel car nicknamed the New Scot—the New Steel Car of Tomorrow.

"This car is our calling card to the transit authorities," Robert L. Hardin, Jr., United States Steel's general manager of transportation marketing, said.

Adaptable for use on subways, monorails and railroads and also as a bus, the new car would weigh 64,700 pounds, or about the same as aluminum cars now in service.

The light weight is said to have been achieved by using all-steel sandwich panels for structural side framing and for floor supports. Another feature of the car is the extensive use of glass—"more glass," a company spokesman said "than anyone has ever put into a transit vehicle before."

Competitive Project

In offering its prototype for the rapid transit car of the future, United States Steel entered into direct competition with Alcoa, which is cooperating with the Westinghouse Corporation in an experimental "skybus" project in Pittsburgh.

The Alcoa-Westinghouse project, which would use cars built of aluminum, aims at developing an automatic, unmanned rapid transit system.

The increasing needs for urban and suburban transportation in the next fifteen years will provide a tremendous market for transit construction and equipment, according to Richard F. Sentner, United States Steel's executive vice-president.

"In the 12 cities taking an early lead in transit projects," he said, "we estimate that 2 million tons of steel could be needed for construction, and another 71,000 tons for transit vehicles. The 30 other communities actively planning systems could account for another 4 million tons of steel and large quantities of allied products such as cement. Together, the 42 systems offer a potential market for steel of about 6 million tons over the next 15 years."

He said that construction cost of building the systems has been estimated at slightly more than \$8 billion over the same period. He also said that United States Steel was keenly aware of competition for transit business.

The steel company got its own competitive drive under way before an audience of key transit officials from Boston, New York, Philadelphia, Baltimore and Washington, the main stops along the Boston-Washington transit corridor. The exhibit will be shown in other transit centers, including Pittsburgh, Atlanta, Chicago, San Francisco, and Los Angeles.

In addition to the New Scot, with its gray-tinted windows, fluorescent lighting, armrests and seat dividers, United States Steel's presentation demonstrated the potential use of steel in construction of railway stations, underground tunnels, serial roadways and power stations that can double as restaurants.

Joseph T. O'Grady, chairman of the New York City Transit Authority, commented afterwards: "What we have seen here shows a lot of imagination and is the sort of thing the Transit Authority has been urging industry to do for quite some time."

CONTRACTS AWARDED WITHOUT ADVERTISING

HOSPITAL DEPARTMENT.

PUBLIC RELATIONS SERVICE.

DEAR MR. MAYOR:

We respectfully request your permission to dispense with publicly advertising for bids, and to award a contract to Charles E. Forrester, 11 Parker street, Lexington, Mass., for public relations services, especially in the area of scientific information, Boston City Hospital, for the period beginning May 17, 1965, and ending April 30, 1966, at a cost of \$600 per month, the total contract price not to exceed the sum of \$7,500.

The need for these expert services is one of a recurrent nature, and this contract for the subject services is proposed for that reason, and also because it appears to be the more certain way of having such expert assistance readily available. These services are to be carried out in cooperation with and under the supervision of the department's Director of Hospitals.

In view of the professional nature of the services to be provided, it is not felt that a public solicitation of proposals would be of any avail or serve any useful purpose of the city. Therefore, the trustees respectfully request permission to award a contract, without advertising, to Charles E. Forrester, for public relations services, especially in the area of scientific information, Boston City Hospital, for the period beginning May 17, 1965, and ending April 30, 1966, at a cost of \$600 per month, the total contract price not to exceed the sum of \$7,500.

Respectfully yours,

WILLIAM H. ELLIS, JR.,
President.

POLICE DEPARTMENT.

ALTERATIONS, REPAIRS, ETC., POLICE DISTRICT 4.

DEAR MR. MAYOR:

I respectfully request your Honor's written authorization to dispense with public solicitation for proposals and to enter into a written agreement with John T. Yunits, doing business as Yunits Engineering Company, an engineering firm with offices at 11 Technical Drive, Holbrook, Mass., for complete engineering services in connection with proposed alterations, repairs, and renovations in order to effect modernization of Police District 4, located at 7 Warren avenue, Boston.

The engineer's preliminary basic fee taken from the "B" rate of the American Society of Civil Engineers of 1959 recommended schedule of minimum rates and based upon the estimated cost of construction of \$44,000, shall be at nine and five tenths percent (9.5%) of said estimated cost of construction. The engineer's final basic fee, however, shall be founded upon the actual total construction cost of the work and the fee percent applicable thereto as determined by the aforesaid designated A.S.C.E. schedule of fees which shall be set forth in the contract, provided nevertheless that in no event shall the maximum liability of the city under the terms of the proposed contract as of the date of its execution exceed, in the aggregate, the sum of \$4,180.

Because of the technical nature of the services involved, it is my opinion that a public solicitation for bids therefor would serve no useful purpose.

Respectfully submitted,

EDMUND L. McNAMARA,
Police Commissioner.

SHERIFF'S OFFICE.

DUNCAN T. FOLEY,

Supervisor of Personnel.

DEAR SIR:

As provided in Rule 15F of the Classification and Compensation Plan, I wish to request an extraordinary step-rate increment for Mr. Roosevelt Watson, Jr., as he has been appointed institution nurse, Grade R-12, at the Suffolk County Jail.

Mr. Watson has been employed at the Boston State Hospital as a licensed practical nurse for 10½ years. We need a practical nurse to give medication at night.

In view of Mr. Watson's previous experience and outstanding qualifications for the position, it is requested that his ½ year of service step-rate be approved, effective August 18, 1965, at a salary of \$94 per week.

Very truly yours,

FREDERICK R. SULLIVAN,
Sheriff of Suffolk County.

CLAIMS APPROVED

Mayor Collins has approved the following votes of the City Council Committee on Claims on recommendation of the Corporation Counsel:

Joseph B. Kelly, 6 Story street, South Boston, to be reimbursed as the result of an accident on December 25, 1964, while in the performance of his duty as an employee of the Police Department, assigned to the Bureau of Field Operations, he was operating a city-owned vehicle at the intersection of Gallivan Boulevard and Granite avenue, Dorchester, when he negligently struck a car owned by George D. Davidson, M.D., causing damage to said car, by payment of \$67.25.

Joseph Korff, 333 Central street, Saugus, to be reimbursed for damage to his car on February 13, 1965, who, while operating a motor vehicle at the intersection of Commonwealth and Brighton avenues, Brighton, struck a defect in the road causing damage to said vehicle, by payment of \$22.45.

William Doyle, 45 Richwood street, West Roxbury, to be reimbursed for damages to his car on February 4, 1965, who, while operating a motor vehicle on Washington street, Jamaica Plain, struck a defect in the road causing damage to said vehicle, by payment of \$298.87.

Thomas G. Sullivan, 903 Adams street, Dorchester, to be reimbursed as the result of an accident on April 23, 1965, while in the performance of his duty as an employee of the Fire Department, assigned to Engine Company 16, he was operating a city-owned vehicle on Bushnell street, Dorchester, when he negligently struck a parked car owned by Barbara C. Brownell, causing damage to said car, by payment of \$125.

Grace Trabulsia, 13 James street, Boston, for personal injuries sustained as the result of the petitioner falling on a defect in the street at Washington and Northampton streets, on March 28, 1965, by payment of \$375.

Wilfred Guilbault, 43 Edgemere road, West Roxbury, to be compensated for property

damage to his fence on May 5, 1964, caused by a falling tree located adjacent to the above premises, by payment of \$200.

John M. Kelly, 35 Clifton street, Roxbury, for personal injuries sustained as the result of the petitioner falling on a defective crosswalk in front of 207 Washington street, Boston, on March 25, 1965, by payment of \$280.

Kevin C. Moore, 17 Ravenna road, West Roxbury, to be reimbursed for damage to his property at the above address during reconstruction of the above-mentioned street, by payment of \$304.

Pauline L. Cundari, 1808 Columbia road, South Boston, to be reimbursed for expenses incurred as the result of the Water Division shutting off the water at 12 Douglas street, South Boston, on February 24, 1964, to connect and install a new meter causing damage to the property at the above address, by payment of \$300.

HERSEY METER PARTS.

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Water Division of the Public Works Department for Hersey meter parts. An informal written quotation has been received from Hersey-Sparling Meter Company.

Inasmuch as Hersey-Sparling Meter Company is the manufacturer of the parts requested, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to this company. It is my opinion that by awarding the contract in this manner the best interests of the city will be served.

Approximate total amount of contract will be \$5,202.57, net, 30 days.

Respectfully yours,

MICHAEL A. DESIMONE,
Purchasing Agent.

BUILDING DEPARTMENT.

BUILDINGS RAZED.

DEAR MR. MAYOR:

The following houses have been condemned by me as being in an unsafe and dangerous condition. Notices have been sent to the owners, but they have taken no steps to abate the dangerous condition. These buildings are a menace to the neighborhood. The locations follow:

38 Braddock park, Ward 4; 40 Braddock park, Ward 4.

Accordingly, in conformity with the provisions of chapter 479, Acts of 1938, as amended, particularly section 116(d) thereof, I have asked and have received your Honor's permission to enter these various premises and to raze the structure.

Bidders were requested to submit an aggregate bid for the entire lot of houses, but to break down their bids to show the charge against each separate address. This breakdown is necessary for later departmental use in billing demolition costs insured against the individual property owner of each house.

We have solicited invitation bids, award to be made to the lowest qualified bidder, and have received the following:

Polcari.—38 Braddock park, Ward 4, \$1,200; 40 Braddock park, Ward 4, \$1,200; total, \$2,400.
Allstate.—38 Braddock park, Ward 4, \$1,680; 40 Braddock park, Ward 4, \$1,680; total, \$3,360.
Berardi.—38 Braddock park, Ward 4, \$1,285; 40 Braddock park, Ward 4, \$1,284; total \$2,569.
Central.—38 Braddock park, Ward 4, \$1,820; 40 Braddock park, Ward 4, \$1,820; total \$3,640.
Mystic.—38 Braddock park, Ward 4, \$1,987; 40 Braddock park, Ward 4, \$1,988; total, \$3,975.

R. Polcari & Son, 97 Boston street, Everett, Mass., has submitted the lowest aggregate bid. This company is thoroughly familiar with this work, it carries all necessary insurance and it has done satisfactory work for this department in the past.

Bids for the demolition of individual houses were not requested because it would be a practical physical impossibility for several different wreckers to conduct efficient wrecking operations simultaneously in individual houses. Under such conditions, there would be much mutual interference, and each wrecker would be exposed to severe hazards not under his control, by the operations of adjacent wreckers. I also believe that the aggregate cost of individual bids would be much higher than the cost of one bid for the lot, and that handling the houses as one unit results in lower administrative costs to the city than would result from handling the houses as separate bids and contracts. Unit handling results, however, in this case, in a contract price \$2,000 or over the statutory limitation upon awards that can be made without advertising, unless your Honor approves the transaction.

Accordingly, the general public safety so requiring, I ask your Honor's approval for

the awarding, without advertising, as required in the city charter, of a contract in the sum of \$2,400 to R. Polcari & Son, 97 Boston street, Everett, Mass.

Very truly yours,

R. E. YORK,
Building Commissioner.

HOSPITAL DEPARTMENT.

PUBLIC RELATIONS SERVICES.

DEAR MR. MAYOR:

We respectfully request your permission to dispense with publicly advertising for bids, and to award a contract to Lemuel M. Wells, 18 Claremont park, Boston, Mass., for Public Relations Services, Boston City Hospital, for the period beginning June 1, 1965, and ending March 31, 1966, at a cost of \$625 per month, the total contract price not to exceed the sum of \$6,250.

The need for these expert services is one of a recurrent nature, and this contract for the subject services is proposed for that reason, and also because it appears to be the more certain way of having such expert assistance readily available. These services are to be carried out in cooperation with and under the supervision of the department's Director of Hospitals and the Board of Trustees.

In view of the professional nature of the services to be provided, it is not felt that a public solicitation of proposals would be of any avail or serve any useful purpose of the city. Therefore, the Trustees respectfully request permission to award a contract, without advertising, to Lemuel M. Wells, for Public Relations Services, Boston City Hospital, for the period beginning June 1, 1965, and ending March 31, 1966, at a cost of \$625 per month, the total contract price not to exceed the sum of \$6,250.

Respectfully yours,

WILLIAM H. ELLIS, JR.,
President.

DEPARTMENT OF SCHOOL BUILDINGS.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR REPAIR WORK AT VARIOUS SCHOOLS, INCLUDING REPAIRING AND RETUBING BOILERS, IN BOSTON, MASS., IN DISTRICT A.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for repair work at various schools, including repairing and retubing boilers, in Boston, Mass., in District A.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Tuesday, September 7, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Monday, August 30, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Heating—Repairing and Retubing Boilers\$900

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 143, of the General Laws, as amended.

NOTICE OF PUBLIC HEARING.

SOUTH END URBAN RENEWAL PROJECT.

BOSTON REDEVELOPMENT AUTHORITY.

Notice is hereby given that the Boston Redevelopment Authority a public body politic and corporate with offices in the City of Boston, Suffolk County, Commonwealth of Massachusetts, will hold a public hearing with respect to the South End Urban Renewal Project, which project is proposed to be undertaken by said Authority, pursuant to the provisions of the Housing Act of 1949, as amended, and Chapter 121, as amended, of the General Laws of said Commonwealth, at the Mackey School, 90 Warren avenue, in said city, on Monday, August 23, 1965, at 6.45 P.M.

ANY ELDERLY OR INFIRM PERSONS RESIDING IN THE PROJECT AREA WHO DESIRE TO TESTIFY EARLY EITHER FOR OR AGAINST THE PROJECT ARE INVITED TO WRITE TO KANE SIMONIAN, SECRETARY, BOSTON REDEVELOPMENT AUTHORITY, 73 TREMONT STREET, BOSTON, MASS., 02108, GIVING THEIR NAME AND ADDRESS, SO THAT ARRANGEMENTS WILL BE MADE FOR THEM TO TESTIFY EARLY.

PURPOSES OF THE PUBLIC HEARING

The purposes of the public hearing are the following:

1. To consider a proposal for the undertaking of an Urban Renewal Project in the South End area of the City of Boston in accordance with the proposed Urban Renewal Plan for the Project Area under Title 1 of the Federal Housing Act of 1949, as amended, and in accordance with Chapter 121 of the Massachusetts General Laws, as amended, with federal, state, and city financial assistance;
2. To consider the plans for a program of repair and rehabilitation of buildings or other property in the Project Area;
3. To consider the plans for the acquisition of land and the demolition or removal of buildings and improvements in the Project Area;
4. To describe the public improvements proposed to be undertaken, including streets, utilities, parks, playgrounds, library, schools, and other public facilities, and the development of medical facilities and institutions;
5. To consider the plans for making land available for development or redevelopment by private enterprises or public agencies as authorized by law;
6. To consider the Authority's Relocation Program, which is available for examination and will be open for discussion at the hearing; and
7. To afford a reasonable opportunity to all persons, including representatives of organizations, to appear and to present their views with respect to the Project.

INFORMATION AVAILABLE FOR PUBLIC EXAMINATION.

The Urban Renewal Plan containing maps of the Project Area, the Relocation Program, and other Project information are on display and available at the offices of the Authority at 73 Tremont street, Boston, Massachusetts, and at the Authority's South End Site Office at 72 Warren avenue, Boston, Massachusetts.

PROJECT AREA DESCRIPTION

The South End Urban Renewal Project Area is described below. It is within this area that the public improvements and other developments proposed under the Urban Renewal Plan would be undertaken.

DEPARTMENT OF SCHOOL BUILDINGS.

INVITATION FOR GENERAL BIDS FOR FURNISHING AND INSTALLING NEW WINDOW SCREENS IN VARIOUS SCHOOLS IN DISTRICT 2.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for furnishing and installing new window screens in various schools in District 2.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Thursday, September 9, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, inclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

Proposals for Sewerage and Water Works in Lake Shore Court and Lake Shore Road in Public Works District 4, Brighton.

The Commissioner of Public Works of the City of Boston, Room 511 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage and water works in Lake Shore court and Lake Shore road in Public Works District 4, Brighton. A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the sum of 100 percent of the contract price, less the amount of \$3,000, will be required of the successful contractor. Forms of proposals may be obtained at Room 511 (Contract Office), City Hall Annex. The proposal should be signed, enclosed in an envelope, sealed, marked "Proposal for Sewerage and Water Works in Lake Shore Court and Lake

Shore Road in Public Works District 4, Brighton," and left at Room 511 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. (Eastern Daylight Saving Time) of THURSDAY, SEPTEMBER 2, 1965, with a certified check for FOUR THOUSAND FIVE HUNDRED (4,500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 702 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 511, City Hall Annex. There will be a charge of two dollars (\$2) NOT REFUNDABLE, for each set of contract documents taken out. If the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract, shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law, so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract.

ATTENTION IS CALLED TO CHAPTER 370 OF THE ACTS OF 1963, WHICH MUST BE STRICTLY COMPLIED WITH. The Commissioner reserves the right to reject any and all proposals or any item or items of the proposal should he deem it to be for the best interest of the city so to do.

CITY OF BOSTON.

Proceedings of City Council.

Monday, July 12, 1965.

Regular meeting of the City Council held in the Council Chamber, at 2 P.M., President TIERNEY in the chair, and all the members present.

The Reverend John Richardson of the Diocese of Raleigh, North Carolina, was escorted to the rostrum.

INVOCATION BY REVEREND JOHN RICHARDSON.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

Infinite and eternal God, compelled by our needs and constrained by Your love we turn to You in this moment of prayer.

On this beautiful twelfth day in the month of July we rededicate ourselves to the fulfillment of our purpose in life—to know You, to love You, to serve You, that we might attain the reward of eternal life with You.

In this spirit of loyal dedication and devotion hear us as we pray in the name of Him who said "I come not to do My will, but the will of Him who sent me." Amen.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

The meeting was opened with the salute to the Flag.

Ordered, That the City Clerk be hereby directed when the Jury List is filed with him by the Election Commission, to cause the names on said list to be written each on a separate ballot and said ballots to be properly folded as provided in section 7 of chapter 234 of the General Laws and placed in the box provided for the purpose.

Passed under suspension of the rules.

INFORMATION ON CERTAIN LIQUOR ESTABLISHMENTS AND RESTAURANTS.

Coun. LANGONE offered the following:

Ordered, That the Boston City Council request his Honor the Mayor to order the Police Commissioner to make a survey of all the liquor establishments and restaurants which serve primarily those persons who are known to be, or known to have homosexual tendencies; further

That the Police Commissioner order a closer surveillance of these licensed establishments and to detect any violation of the law; further

Said Police Commissioner make known to the Boston Licensing Board the names of said licensed establishments; further

That the Police Commissioner make a report to the Boston City Council of the conditions found in the City of Boston relative to the licensed establishments which primarily serve this group of persons.

Coun. CRAVEN in the chair.

President TIERNEY in the chair.

The foregoing order was passed under suspension of the rules.

APPROVING LEGISLATION FOR RELIEF AND ASSISTANCE IN MOVING EXPENSES.

Coun. IANNELLA and HYNES offered the following:

Whereas, The Federal Government's program for the payment of relocation expenses is insufficient for business concerns whose actual moving expenses exceed \$25,000; and

Whereas, Legislation is now pending before the Senate Ways and Means Committee of the General Court, being Senate Bill 1028, providing for relief and assistance for such moving expenses; he it

Resolved, That the Boston City Council support Senate Bill 1028 and that copies of this resolution be forwarded to the Speaker of the House of Representatives, President of the Senate, and Chairman of the Senate and House Ways and Means Committees.

The resolution was adopted under suspension of the rules.

PUBLIC HEARINGS RE PROPOSED URBAN RENEWAL PROJECTS.

Coun. CRAVEN offered the following:

Ordered, That the Committee on Urban Renewal of the Boston City Council is hereby ordered to hold publicly advertised hearings in the municipal buildings of South Boston, East Boston, and Jamaica Plain to inform the people of these areas as to the proposals contained in the recent presentation by the Redevelopment Administrator Edward J. Logue to the Board of the Boston Redevelopment Authority relative to these areas; be it further

Resolved, That the Boston Redevelopment Authority be required to demonstrate all maps and material relative to these areas at these hearings.

Referred to the Committee on Urban Renewal.

BON VOYAGE TO JOSEPH A. KEBLINSKY.

Coun. W. J. Foley, for all the Councillors, offered the following:

Whereas, On July 19, 1965, Joseph A. Kebinlsky, Boston reporter assigned to Boston City Hall and senior reporter among the members of the press assigned to Boston City Hall (therefore holding the informal title of "Dean" of the Boston City Hall press corps), will begin a month-long thousand-mile journey on the Mississippi River from Minneapolis to New Orleans;

Whereas, This epic journey will be accomplished in an outboard cruiser 24 feet in length powered by two 90 horse power outboard motors;

Whereas, The said Joseph A. Kebinlsky will be accompanied on this journey by his wife, Veronica, his children, Andrew, Joseph, Christine, and Peter, and his dog Sparky;

Whereas, The said Joseph A. Kebinlsky has been a lifelong student of the works of Samuel Clemens who wrote under the nom de plume of Mark Twain;

Whereas, In the course of this long journey many scenes from "Huckleberry Finn" and other works of Mark Twain will be visited;

Whereas, Joseph A. Kebinlsky is the Commodore of the Worcester Flotilla of the U. S. Coast Guard Auxiliary Flotilla; be it

Resolved, That the City Council at this ancient seafaring port wishes bon voyage, fair seas, and quartering winds to Commodore Kebinlsky, first mate Veronica, crew Andrew, Joseph, Christine, and Peter, and ship's dog Sparky upon their intrepid "Mark Twain" cruise on the "Father of Waters."

The resolution was adopted under suspension of the rules.

APPROVING LEGISLATION FOR RETIREMENT OF CERTAIN LIQUOR LICENSES.

Coun. HINES offered the following:

Resolved, That the Boston City Council urges passage by the General Court of Senate Bill No. 1642, the validity of which has been enunciated by the Supreme Judicial Court, the purpose of which is to retire a number of liquor licenses by the City of Boston; be it further

Resolved, That the City Clerk shall forward a copy of this resolve to the President of the Senate, Hon. Maurice Donahue, and the Speaker of the House, Hon. John Davoren.

The resolution was adopted under suspension of the rules.

Coun. CRAVEN requested that the record show she voted "no" on the foregoing resolution.

RETIREMENT OF LIQUOR LICENSES.

Coun. W. J. FOLEY offered the following:

Whereas, A recent advisory opinion of the Supreme Judicial Court of the Commonwealth has indicated that a payment of money to

holders of liquor licenses willing to voluntarily retire them is a proper public expenditure;

Whereas, There seems to be a general feeling that Boston is serviced by too many liquor establishments with a roughly estimated excess of approximately 200;

Whereas, The Urban Renewal Program is reducing the number of licenses by accident of urban renewal takings for other purposes;

Whereas, The reduction of licenses should be a rational orderly process whereby the licensees with the worst records are eliminated, licensees in poorest financial straits are retired with compensation scaled to the value of the individual licenses, said compensation to be established by a fair, representative and informed board;

Whereas, The proposed legislation upon this matter does not seem to exhaust the constitutional flexibility which the Supreme Judicial Court has declared in the Advisory Opinion;

Whereas, The problem is essentially a Boston problem; be it

Resolved, That the problem should be considered a city-wide problem and responsibility for this matter should be in the Corporation Counsel, the Boston Licensing Board, and the Police Department and not the Boston Redevelopment Authority.

Referred to the Committee on Licenses.

REQUEST FOR MAPS AND PROPOSALS RE SOUTH BOSTON, EAST BOSTON, AND JAMAICA PLAIN RENEWAL AREAS.

Coun. CRAVEN offered the following:

Ordered, That the Redevelopment Administrator be requested to furnish the Boston City Council maps and proposals in connection with the recent presentation of the Development Administrator concerning future plans for the South Boston, East Boston, and Jamaica Plain areas.

Passed under suspension of the rules.

APPROVING RESOLUTION FOR APPLICATION OF ADVANCE OF \$175,000 FROM UNITED STATES OF AMERICA RE "BOSTON WATER DISTRIBUTING SYSTEM."

The following was received:

City of Boston,

Office of the Mayor, July 12, 1965.

To the City Council,

Gentlemen:

I submit herewith an application of the City of Boston to the Housing and Home Finance Agency, Community Facilities Administration, for an advancement of \$175,000, under Public Law 560, 83d Congress as most recently amended, to aid in financing the cost of plan preparation of the Boston Water Distributing System.

The rapidly developing urban renewal projects, and radical shifts in domestic and commercial land use makes it imperative to have a comprehensive plan of improvements for the water distribution system. There are distinct deficiencies in pressures producing inadequate flows for fire fighting purposes, which is a definite hazard to public safety.

The proposed study will result in a construction and reconstruction program which will revitalize a system that will assure an adequate amount of water (including that required for fighting fires) for all sections of the city for many years to come.

I cannot too strongly urge prompt action to initiate this vitally needed project.

Respectfully,

JOHN F. COLLINS,

Mayor of Boston.

Referred to the Committee on Appropriations and Finance.

(Annexed hereto are plans and data in connection with the foregoing application.)

APPROVING RESOLUTION FOR APPLICATION OF ADVANCE OF \$240,000 FROM UNITED STATES OF AMERICA RE "BOSTON MAIN DRAINAGE SYSTEM."

The following was received:

City of Boston,

Office of the Mayor, July 12, 1965.

To the City Council.

Gentlemen:

I transmit herewith application of the City of Boston to the Housing and Home Finance Agency, Community Facilities Administration, for an advancement of \$240,000 for planning of "Improvements to the Boston Main Drainage System, Including Intercepting Sewers, Relief Sewers, and Outlet Works," together with a resolution as required under Public Law 560, 83d Congress of the United States, as amended, for your consideration and authorization.

The necessity and urgency is seen in the report by the Commissioner of Public Works to your Honorable Body dated February 10, 1965, in response to your order of October 26, 1964. The proposed planning will supplement and not conflict with present Boston Redevelopment Authority's 1963/1975 General Plan for the City of Boston, which states: "Not enough is known about the over-all condition of Boston's water and sewer systems to make specific proposals for repairs or new construction. Some systems may be described as being in good condition, while others are very poor. However, pending the outcome of further studies, the city should spend approximately \$4,000,000 annually on combined water and sewer system repairs over the next 11 years." The State Department of Public Health in endorsing this application said, "The Department is of the opinion that the proposed project is needed at the present time for the elimination or abatement of pollution

of the bathing and shellfish areas in Boston Harbor, the protection of the public health, and the future development of the City of Boston."

In submitting this application for the above interest-free loan, I feel that the time is opportune to lay out a comprehensive plan to meet present and future needs, and to coincide with requirements of the New Boston, now under construction.

Respectfully,

JOHN F. COLLINS,
Mayor of Boston.

Referred to the Committee on Appropriations and Finance.

(Attached hereto are plans and data in connection with the foregoing application.)

THE NEXT MEETING.

On motion of Councillor Hines, the Council voted that when it adjourn, it be to meet on Monday, July 26, 1965, at 2 P.M.

Adjourned at 4.07 P.M., on motion of Councillor Hines, to meet on Monday, July 26, 1965, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

First Half of '65 Sets Record for Private Business Development in Greater Hub

During the first six months of 1965, the Boston metropolitan area reached an unprecedented high level of private new business development totaling \$128.9 million, it was announced by Executive Vice-President James G. Kelso of the Greater Boston Chamber of Commerce.

Mr. Kelso said a survey made by the Chamber's Research and Development Department showed that a total of 108 projects were announced ranging in costs from \$100 thousand to \$22 million. The announced projects accounted for \$95.9 million while the remainder of \$33 million was formalized by the issuance of building permits.

The Chamber study compared the semi-annual results during the past six years:

Jan.-June	Volume (Millions)	Annual Total
1960	\$46.2	\$96.6
1961	43.9	142.0
1962	102.9	174.9
1963	49.0	162.6
1964	94.6	207.1
1965	128.9	257.8 (est.)

The report does not include residential, hospital, or school construction and other types of public works projects.

While new and expanding industrial developments continued almost exclusively in suburban areas, the City of Boston dominated the commercial new business development dollar volume in announced new office building construction. Boston led with a dollar volume of \$78 million, followed by Natick, \$10.1 million; Lynn, \$7.6 million; Cambridge, \$4.1 million; Waltham, \$3.9 million, and Braintree, \$3.8 million.

Leading the new business development list were Cabot, Cabot & Forbes with three major office building projects, the First National Bank of Boston with its announced new office building, a new major terminal for Eastern Airlines, Inc., a new motel for Howard Johnson, and a plant expansion by Sylvania Electric Products, Inc. The distribution of the new business investment total was 50.4 percent for office buildings, 18.8 percent for new plants and plant expansions, 16.4 percent for new warehouse combinations, 6.5 percent for shopping centers, 4.1 percent for new amusement facilities with the remaining 2.6 and 1.2 percents devoted to new motels and retail stores respectively.

Philip McNiff Named Public Library Director

Mayor John F. Collins on August 18, announced appointment of a Boston College graduate as Director and Librarian of the Boston Public Library.

Philip J. McNiff, 53, replaces Milton E. Lord who becomes Special Assistant for Library Regional Development.

Both appointments become effective October 1.

Mr. McNiff is currently associate librarian for resources and acquisitions in the Harvard College Library.

The new director, who graduated from Boston College in 1933, also is Archibald Cary Coolidge Bibliographer in the Harvard University Library and a member of the Harvard Faculty of Arts and Sciences.

In announcing the appointment, Mayor Collins said "he was confident of a lively continuation of the tradition of able and devoted service to the community that has characterized the heads of the Boston Public Library over 113 years since its founding in 1852."

His salary will be \$22,000 annually. Mr. Lord's salary will be \$22,200.

Following his graduation from B.C., Mr. McNiff served in the Public Library system of both Brookline and Newton and was a Public Library consultant for numerous Massachusetts communities.

Campus Achievement

Five of the 60 students who participated in the Boston College—Youth Activities On-Campus Tutoring program, partially financed by Action for Boston Community Development, have received prizes for outstanding progress in the program, Mayor Collins announced.

The winners were selected by the Boston College students who tutored them during the school year. The tutoring program was conducted at the Boston College School of Education under the direction of Dean Vincent Nuccio and faculty members.

The program was a cooperative venture of ABCD, Boston College, the Youth Activities Commission, and Youth Educational Assistance, Inc.

The prize winners were:

Howard Bailey, 38 Annunciation road, and Eva Smith, 928 Parker street, Roxbury, and James Walsh, 367 Arborway, Betty Thomas, 34 Heath street, and Fred Fandel, 42 Walton street, Jamaica Plain.

A gift book certificate was given to each winner.

4 New Job Corps Enrollees Announced by ABCD Training Program Offers Many Advantages

Two boys from Roxbury and one each from Dorchester and Jamaica Plain, are at Job Corps Centers after being given send-offs at the Norfolk House Center, 14 Eliot square, Roxbury.

The quartet of latest enrollees are Charles A. Rheume of Dorchester, James Stewart, Jr., and Kelly E. McLean, Jr., of Roxbury, all of whom have been assigned to Fort Rodman at New Bedford, and Charles H. Hummel of Jamaica Plain who is at Mexican Springs, N.M.

Action for Boston Community Development is accepting enrollments for the Corps. Information concerning applications, etc., may be obtained by telephoning 445-1010 at the Job Corps Screening Center, 9 A.M. to 5 P.M., five days a week.

Membership in the Job Corps is open to young men and women whose lack of secondary education, inability to secure satisfactory work, and substandard reading and arithmetic levels prevent them from entering the job market.

Corpsmen are given a chance to learn work skills and receive remedial education which will provide them with greater job opportunities when they leave the Corps.

Vocational training opportunities include reforestation, surveying, botanical investigation, heavy equipment operation, auto mechanics, clerical and sales duties, data machine processing, electronics, and other rural, industrial, and business skills.

Corpsmen are furnished with all necessary clothing, equipment, room and board. In addition, they receive a monthly allowance of \$30 plus a termination payment of \$50 per month which is set aside for them until they leave the Corps.

An allotment plan is available to qualified Corpsmen whereby a portion of termination funds up to \$25 may be sent home each month. The portion sent home will be matched by federal funds. This will enable Corpsmen to contribute to the financial support of their families and, at the same time, accumulate funds to help give them a start when they leave the Corps.

Enrollment in the Job Corps may range from three months to two years. The average period of service, however, is expected to be one year.

Corps members are not committed to any specific time of service. They may leave anytime.

Action to Aid Home Owner Needed Now

The following Page One editorial appeared in the August 21 issue of "Banker and Tradesman":

Year after year the hopes of Massachusetts owners of homes and other real estate for relief from the ever-growing burden of real estate taxes have been raised by early legislative proposals, only to see these early hopes go down the drain.

It has been, and still is, so easy for the Legislature to spend lavishly, knowing that the long-suffering property owners will only "squawk" and then meekly submit to the mounting burden.

Realtor Boards and other organized groups annually sound the

alarm, and are listened to and then ignored when final action impends.

The only force which can really get action—and now is the time of times—is the force of public opinion as voiced by thousands of individual home owners, demanding tax relief for real estate.

The attack must be directed person-to-person to every member of the Legislature by his constituents. It must be loud, long, and persistent, and now is the time of times.

Stop making the patient home owner the patsy.

Boys From City Offered Chance for Good Paid Work Saving Apple Crop — ABCD Backs Project

The first delegation of Boston boys enlisted by Action for Boston Community Development to help pick this year's apple crop in Nashoba Valley and other Massachusetts and New England orchards left Norfolk House, Roxbury, the other day.

The trainees from Allston, Dorchester, Roxbury, and Jamaica Plain were Jonathan Best, Henry Cochran, Charles Conley, William Day, Richard Gelzer, Ellis Maxwell, James McLaughlin, Richard Parkman, Jerrold Shulman, George Washington, William Washington and William Butts.

This week the boys were at work in the beautiful Nashoba Valley apple country at the orchard of William G. Doe, one of New England's top growers.

They found the transition from hot city streets to the peaceful orchards delightful. They are guaranteed \$1.30 an hour and can make considerably more than that on a piecework basis.

Real New England farm cooking is the order each day, with trucks bringing around soft drinks and milk to the working sites during the mid-morning and mid-afternoon. They have the advantage of a nearby "swimminghole" when the day's work is done. Plans are in the making for sports and trips during their leisure hours.

The boys are paid during the picking season by the orchardists. They pay for their meals at the rate of \$2.25 a day. Prior to going to the orchards they were given a period training, physical examinations, and prepared for the impact between city life and that of the farm.

More boys are needed. Not alone for the Doe farm at Harvard

but those of William Wilkins in the village of Haydenville and that of William Lievens at Derry, N. H. These orchards were approved by U. S. Department of Labor officials because they met strict government regulations governing living conditions, food and all-around healthy appeal for outdoor workers.

During the training period boys enrolling for the work are paid a training allowance. When the picking season is ended they will be given assistance during a phase-out period to place them in new jobs and counseling designed to help them find a permanent place in the job market.

Applications are being received daily at the Norfolk House, 14 John Eliot square, Roxbury; the South End House, Rutland street, South End; and the Youth Opportunity Center, Division of Employment Security, 225 Huntington avenue, Back Bay.

Library . . .

(Continued from front page)

At Harvard he served first as reference librarian, then as Superintendent of the Widener Reading Room, and thereafter as the First Librarian of the Lamont Undergraduate Library. Since 1956 he has had over-all responsibility for the development of the extensive collections of the Harvard College Library.

"His experience in both the public library and the university library field brings much to Boston, since the Boston Public Library

system is not only a public library in the usual sense but also a great reference and research library of the college and university type," the Mayor said.

Director Lord, Librarian since February 1, 1932, will relinquish responsibility for the daily administration of the Library on that date. This will make it possible for him to devote his attention from that time on to serving as special assistant for library and regional development. In this capacity he will supervise the continuing development and implementation of the Regional

Library Program which the Boston Public Library is about to undertake for Eastern Massachusetts under a contract with the Commonwealth of Massachusetts. He will advise and assist in the planning of the enlargement of the Central Library building. He will serve also in such other ways as may prove fruitful from his long experience as Director. The Trustees have designated him as Director and Librarian, Emeritus, as of October 1.

Deputy Scagnoli Leads Colorful Boston Invasion of World's Fair; N. E.'s Big Day

It was Boston's Day at the New York World's Fair on August 21, complete with baked beans, franks, brown bread, the Boston Fire Department Band, Deputy Mayor Henry A. Scagnoli, Indian maidens, and hundreds of Boston residents who made the trip from the Hub to swell one of the largest crowds of the year at the New England site.

The delegation received proclamation of the day from the World's Fair and the city of New York and special greetings from New York Governor Nelson A. Rockefeller through his military aide.

The ceremony began at noon, when the Fire Department Band and a detachment of World Fair Boy Scouts from Kansas led the parade from the New Amsterdam gate to the New England exhibition. Also in the line were three Indian maiden-models from Carol Nashe Agency.

In addition to Deputy Scagnoli, the Boston delegation included Gerard E. Hayes, chairman of the day; Rev. Laurence M. Brock, S.J.,

chaplain of City Hospital; Peter J. Cloherty, executive director of Massachusetts' World Fair Commission; Tom Johnson and Ron Schrock of the Boston Bruins; Deputy Commissioner Flynn of the Massachusetts Department of Commerce and Development, and David D. Munsell, manager of the New England States Exhibition.

Mayor Collins was expected to head the delegation but was obliged to change his plans because of the press of official business.

More than 1,500 were present in front of the New England exhibition.

The Indian girls—Sheila Feener of Saugus and Monica Sands and Diane Pibert of Norwood—also appeared in the New England fashion show. Another highlight was the appearance of vocalist Angelo Picardi from Boston's North End.

The day saw one of the largest crowds of the 1965 Fair year at the New England exhibition.

Special Election

Secretary of State Kevin H. White has announced the political calendar for the special election for State Representative of the Tenth Suffolk District.

On November 2 and 9 Registrars of Voters and Election Commissioners are required to hold meetings for certifying names on nomination papers. November 9 is the last day to file nomination papers with Election Commissioners and November 16 is the last day for filing nomination papers with the Secretary of the Commonwealth. November 16 is also the last day for filing certificates of enrollment.

November 19 is the last day for filing withdrawals of or objections to all nomination papers with the Secretary of the Commonwealth. November 22 is the last day for filing vacancies caused by withdrawals.

The Primary will be held on December 7. December 13 is the last day for filing written acceptance by candidates to be voted for whose names were not on the Primary ballot, and it is also the last day for filing withdrawals of or objections to nominations at the Primary.

December 16 is the last day for filing vacancies caused by withdrawals at the Primary.

December 28 is the day of the final election.

Nomination papers for this election will be available on September 22.

Explosion?

The U. S. birth rate continued to decline in June, with 310,000 babies estimated to have been born as compared with 331,000 in June, 1964, the Public Health Service reports.

The rate was 19.4 births for each 1,000 population, down from a rate of 21.1 a year earlier.

For the 12 months ended June 30 there were estimated to have been 3,908,000 births, compared with 4,081,000 in the year ended June 30, 1964.

It now appears certain this will be the first year since 1953 in which the number of births will not have exceeded 4 million. Births in the first six months this year totaled 1,832,000, down from 1,978,000 in the comparable period of 1964.

The service also reported that the marriage rate in June dropped to 14.2 per 1,000 population.

Traffic Engineers

"A World Traffic Engineering Conference," the 35th annual meeting of the Institute of Traffic Engineers, will be held October 17-23 at the Statler-Hilton.

General manager of the conference is Dwight M. McCracken, vice-president of Liberty Mutual Insurance Company.

Some 1,500 delegates from 20 countries will attend the meeting, which will be followed by a nine-day tour through eight states and one Canadian province.

Speakers at the conference will include Rex M. Whitton, federal highway administrator; Professor Harmer E. Davis, director of the Institute of Transportation and Traffic Engineering, University of California, and Wilbur S. Smith, winner of the 1965 Theodore M. Matson Memorial Award for traffic engineering.

How Good Is It?

How good is the Boston Fire Department Band?

Who knows?

Everyone knows it can bring everything to a standstill in stores and offices when it swings down Tremont street giving forth with "For Boston."

Then the other day it made an appearance at the New York World's Fair on "Boston Day." It stole the show. The band is not a scene-stealer at heart but when it went into action at the fair the Mexican pavilion across the way just happened to lose its crowd.

Track Ability Unneeded To Obey Jaywalking Law

(This letter to "Joe" of the "Traveler's" "Tell It to Joe" column and his answer clears many unnecessary misgivings concerning Boston's anti-jaywalking law which goes into effect on November 1.):

DEAR JOE:

Since the anti-jaywalking law is about to become effective I'd like to bring up some disturbing points.

Since the original purpose of the law is to allow pedestrians to cross streets at one time for their own safety and the convenience of drivers, it seems these signals are set for track stars.

A pedestrian who wants to cross two streets in an intersection has to wait for four light changes, of three to four minutes. This is ridiculous. No wonder people jay-walk!

If all four corners say "Walk" why can't a pedestrian cross diagonally? That's the purpose of the four-corner signals. Other cities with similar traffic signals permit diagonal crossing.

R.E.G., Boston

DEAR R.E.G.:

I have had a raft of letters, mostly asking what the new anti-jaywalk law is all about. So this seems a good time to wind up and chew the rag a bit about this law, which will be enforced beginning November 1.

Here's the lowdown—including the points you raise—as supplied by the expert, Traffic and Parking Commissioner Tom Carty:

"All traffic lights in Boston under jurisdiction of this department are timed in accordance with the width of the roadway, flow of vehicular traffic, and peak loads which occur during various periods.

"It is an exact science ably performed by highly competent traffic engineers.

"The new 'Walk-Don't Walk' lights are precisely timed so that the white 'Walk' segment allows an average person walking at the rate of 4 feet per second sufficient time to get off the curb and under way into the intersection.

"The red flashing 'Don't Walk' light is timed so that it allows a person already under way to complete the crossing of the street. And it informs the person on the curb: 'Don't Walk' as there will be insufficient time before the green sequence goes on, for that person to safely complete crossing of the intersection.

"During the flashing red 'Don't Walk' sequence, no traffic moves. In all cases, the new lights allow a greater period of pedestrian crossing time than was allotted by the old red and yellow lights.

"Pedestrians may not cross a street diagonally because the new Pedestrian Control Law states a person must remain within the white crosswalks.

"All crosswalks in the city are painted at street corners, and in special cases in front of churches, temples, or schools where traffic officers are assigned.

"Boston presently is undergoing a major transformation in pedestrian traffic control and conformity with Bureau of Public Roads standards.

"We do ask all—citizens and visitors alike—to be a bit patient while we try to help all to understand and observe safe walking habits."

It is generally expected Boston police will use their own good judgment, in the beginning, as to when to issue verbal warnings and when to lower the boom.

The first three violations during a calendar year are punishable by a fine of \$1 for each offense, and for the fourth or subsequent offense during any calendar year, a fine of \$2. And any person convicted of violation of any of these regulations relative to the operation of vehicles shall be punished by a fine of not more than \$50 for each offense.

Juvenile Officers Meet

More than 200 Massachusetts juvenile police officers will attend an all-day conference at the opening of the 1965-66 season of the Massachusetts Juvenile Police Officers Association to be held on September 9 at the Veterans of Foreign Wars Police Post, 500 Morton street, Dorchester.

Invited guests will be Police Commissioner Edmund L. McNamara of Boston; Judge Francis G. Poitras, Boston Juvenile Court; Joseph P. Connolly, Assistant Chief Probation Officer, Boston Juvenile Court, and Carmen Pizzuto of the Youth Service Board.

The host will be the Boston Police Juvenile Aid Division with Lieut. Lawrence A. Quinlan as conference chairman.

John J. McCarthy

A Solemn Requiem Mass for John J. McCarthy, 48, of Birchwood street, West Roxbury, senior assistant registrar of voters for the City of Boston, was offered on August 23 at St. Mary's Church, Dedham.

Mr. McCarthy died on August 20 at the Massachusetts General Hospital after a short illness. He was born in Boston and lived most of his life in West Roxbury. He attended Boston College and Suffolk University.

He was a vice-president of the Toastmasters of the Hub and a member of the Nocturnal Adoration Society, the Holy Name Society, and the Fathers' Club of Catholic Memorial School.

He leaves a wife, Mary E. (Murray); two sons, John, Jr., and Lawrence, and a daughter, Maureen, all of West Roxbury; three brothers, Lawrence of Medford, Jeremiah of Hyde Park, and Charles of Billerica; also a sister, Mrs. Ellen Tracey of Roslindale.

Fall Auto Inspection

Registrar of Motor Vehicles Richard E. McLaughlin has issued a reminder to the more than 2.3 million Massachusetts motor vehicle owners that the fall semi-annual inspection will begin Wednesday, September 1.

Motorists will have until midnight, October 15, to secure a green inspection sticker from one of the 3,160 gasoline stations and garages which have been licensed by the state to perform this year's inspection.

A major feature of this fall's inspections will be the inclusion of 3,300 school buses in the category of those vehicles which must be inspected. Formerly, school buses, which are inspected five times yearly by Registry of Motor Vehicles inspectors, did not have to be checked during the two inspection periods.

As in the past few inspections, those vehicles not in proper mechanical order will receive the red rejection sticker. Any vehicle receiving one of these stickers must be repaired with all reasonable speed.

In his announcement Registrar McLaughlin urged all motorists to have their inspections performed as early as possible to avoid the long lines that appear toward the end of an inspection period.

The equipment to be inspected includes: brakes, stoplights, lights, horn, exhaust system, steering gear, windshield, windshield cleaner, number plates, rear windows, tires, fenders, bumpers, external sheet metal, reflectors, splash guards, and chock blocks.

Peace Corps Test

The Peace Corps Placement Test for the Boston area will be held at 9 A.M., Saturday, September 11, at Brighton High School, 25 Warren street, Brighton.

The test measures general aptitude and the ability to learn a language. If test scores indicate limited language ability, the Peace Corps tries to place the applicant in an English-speaking area. The

test is used by the corps only as a tool in the matching of volunteers and jobs.

The Peace Corps application, the most important indicator of suitability for service, must be filled out and brought to the examination unless previously submitted. The test requires one and a half hours at the center. Applicants wishing to take the Spanish or French achievement test should plan on an additional hour.

DIRECTIVE NO. 21

DAILY ATTENDANCE RECORDS, MEETING, AUGUST 30, 1965

August 24, 1965.

To Department Heads.

During the past few weeks the Administrative Services Department has been conducting a pilot-program prior to inaugurating throughout the city a new type of "Daily Attendance Record" form which will serve a triple purpose, namely:

A. To provide correct and uniform recording for payroll purposes.

B. To identify leaves of absence in a more efficient and methodical manner.

C. To report on-the-job and off-the-job accidents with a view to reducing the number of same through educational programs which will be initiated in the not too distant future.

On and after September 8, 1965, time sheets presently in use in the various city departments will be discontinued and a new General Form No. 71 shall be substituted. Adequate supplies of these new forms are now available at the Printing Plant. Instructions concerning the filling out of these forms are contained on the reverse side of the initial printing. Special attention should be paid to these instructions as uniformity in reporting is a necessity if the results are to be beneficial. Attendance records presently in use throughout the various city departments shall be continued to be utilized for recording purposes.

Monthly reports shall be submitted by each city department as soon as possible after the last payroll week of each month to Theodore J. Hoppe, In-Service Training Coordinator, 3 South Market street, indicating:

1. Number of accidents.
2. Code number and area of accidents.
3. Total days lost by code number and area (accident-type only).

At a later date it is planned to incorporate this system into an electronic data processing operation which should be a major improvement in systems which vary from department to department throughout our city organization at the present time.

For the time being, names shall be typed alphabetically from current payrolls, including all names listed thereon. This listing should include the names of all employees within your department or division of a department appearing on a payroll, including provisional and emergency employees. A current week's requirements can be typed at one time by the use of carbons. All employees with the exception of department heads, division heads and board members whose salaries are established by ordinance shall be required to sign in and sign out with the time of arrival and departure designated.

Department heads upon signing and approving payrolls should insist upon submission of "Daily Attendance Records"

corresponding with the work week for which payrolls are authorized. A review of these records will acquaint the department head with many facts of which he is probably unaware at the present time. I consider this policy good administration and a source of information that serves a dual purpose, namely, to protect the department head in his approving of payrolls and to keep him informed as to which employees under his jurisdiction are complying with or not complying with existing rules and regulations.

It has become apparent from my personal observation that the normal working procedures of employees need to be restated. The regular working day for the majority of employees is 9 A.M. to 5 P.M. but during the summer months, up to and including September 3, a 4:30 P.M. departure time is permitted. These hours must and should be strictly enforced. It is not fair to the conscientious and devoted employee to see other employees leaving the office for home prior to the official departure time.

Attendance sheets should be collected by a division head or supervisor each morning no later than 9:10 A.M. and employees arriving later should report to this individual for "signing-in" purposes. For "signing-out" purposes, attendance sheets should not be available until 4:30 P.M. and, after September 3, they should not be available for signatures until 4:50 P.M.

A tightening up of employees' attendance has been long overdue and the new system of reporting of accident-type and non-accident type classifications through one operation will be an important step in improving our control over absenteeism and in preventing and minimizing costly accidents that occur on and off the job.

In order to clarify instructions for efficient posting and recording of these records, a meeting is hereby called for Monday, August 30, at Room 43, City Hall, at 10:30 A.M., of all employees in each department who will be charged with the responsibility of keeping and recording the same. Payroll clerks should also be present.

I request your whole-hearted cooperation in the development of this new system by designating competent and trustworthy individuals to handle the recording and reporting phases of the program.

HENRY A. SCAGNOLI.

POLICE DEPARTMENT ORDERS

August 20.

Personnel Order No. 775.

Patrolman Vinson Weaver assigned to juvenile work and detailed to District 9 is hereby commended for meritorious duty and is granted three days' additional vacation.

About 1.05 P.M., Friday, June 11, 1965, William Ewald, 22 years, single, of 53 Bingham avenue, Dedham, a teller at the Boston Five Cents Savings Bank, 385 Washington street, Boston, was approached by a white man, later identified as Jacob E. Orciuck, 20 years, single, 12 Alpine street, Worcester, who handed him a printed note, "Be quiet, be quick or you're dead." The teller placed \$1,534 in United States currency, including \$100 in marked \$5 bills, into a manila envelope and handed the envelope to the holdup man. The manager of the bank had been alerted, sounded an ADT holdup alarm and proceeded to the front door which he held to prevent the holdup man from escaping.

At this point, Patrolman Vinson Weaver, District 9, assigned to juvenile work and in plainclothes, was passing said bank on his way from Superior Court when he noted the gathering in front of the bank and a man holding the revolving door. Patrolman Weaver displayed his badge and was admitted to the bank by another door. After a struggle, he overcame the resistance of the holdup man and took him into custody on SP Robbery, Unarmed.

At District 2, the prisoner was questioned at length. He admitted to five other robberies and one attempted bank robbery in Boston, and four outside the Commonwealth, the latter to be investigated and prosecuted by the FBI.

On June 12, 1965, the prisoner was arraigned in Boston Municipal Court before Judge Elijah Adlow and held in \$25,000 bail.

The Police Commissioner is pleased to recognize the alertness and devotion to duty demonstrated by Patrolman Weaver in this case, which concluded, for the time being at least, other bank robberies by this long-sought felon.

DEPARTMENT OF SCHOOL BUILDINGS.

INVITATION FOR GENERAL BIDS FOR FURNISHING AND INSTALLING NEW WINDOW SHADES IN VARIOUS SCHOOLS IN DISTRICT 2.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for furnishing and installing new window shades in various schools in District 2.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 20, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, inclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$200. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

CITY OF BOSTON,
W. A. MCPHERSON,
Superintendent of Construction.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR INSTALLATIONS OF SERVICES FOR SCIENCE EQUIPMENT AT THE BOSTON LATIN SCHOOL, 78 AVENUE LOUIS PASTEUR, BOSTON, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for installations of services for science equipment at the Boston Latin School, 78 Avenue Louis Pasteur, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 20, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,400. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 13, 1965, at which hour and place they will be publicly opened and read. Every such sub-

bid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Lathing and Plastering.....	\$100
Painting	\$100
Plumbing and Gasfitting.....	\$500
Heating and Ventilating.....	\$150
Electric	\$200

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

HOSPITAL DEPARTMENT.

INVITATION FOR GENERAL BIDS FOR ADDITION AND ALTERATIONS TO THE MALLORY BUILDING AT THE BOSTON CITY HOSPITAL, 818 HARRISON AVENUE, BOSTON, MASS.

The City of Boston, acting by the Board of Trustees in charge of its Hospital Department, hereinafter referred to as the Awarding Authority, invites sealed general bids for addition and alterations to the Mallory Building at the Boston City Hospital, 818 Harrison Avenue, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), on Wednesday, September 29, 1965, at the office of the Director of Hospitals, Administration Building, fifth floor, Boston City Hospital, 818 Harrison Avenue, Boston, Mass., forthwith after which time limit for the filing thereof, the general bids shall be publicly opened and read aloud at the office of Deputy Superintendent-Physical Facilities, fifth floor, of the Administration Building, Boston City Hospital, 818 Harrison Avenue, Boston, Mass.

General bids must be submitted in duplicate on the forms for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority at the office first designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by a responsible bank or trust company, payable to the City of Boston, in the sum of \$50,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids and the subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the office first designated above, before twelve o'clock noon (Eastern Daylight Saving Time) on Wednesday, September 22, 1965, forthwith after which time limit for the filing thereof, the subbids will be publicly opened and read aloud at the office of Deputy Superintendent-Physical Facilities, fifth floor of the Administration Building, Boston City Hospital, 818 Harrison Avenue, Boston, Mass. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All subbids must be submitted on the form for subbid furnished by the Awarding Authority through the architect, Whitney, Atwood, Norcross Associates, Inc., 256 Boylston Street, Boston, Mass., and any subbid not filed on the form for subbid so furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified for the respective subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Masonry	\$8,000
Roofing and Flashing.....	\$300
Metal Windows.....	\$250
Waterproofing, Dampproofing, and Caulking	\$450
Glass and Glazing.....	\$225

Furring, Lathing, and Plastering	\$600
Acoustical Tile.....	\$500
Ceramic Tile Work.....	\$100
Resilient Flooring.....	\$400
Painting	\$500
Plumbing	\$6,500
Heating, Ventilating, and Air Conditioning	\$7,000
Electrical	\$5,000
Elevators	\$2,250
Sterilizing Equipment.....	\$2,000
Temperature Controlled Rooms.....	\$3,250
Laboratory Equipment.....	\$2,000
Polyester Terrazzo.....	\$500

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the date fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade, by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the architect, Whitney, Atwood, Norcross Associates, Inc., 256 Boylston Street, Boston, Mass., on or after 9 A.M. (Eastern Daylight Saving Time), Monday, August 30, 1965, upon deposit of a certified check payable to the City of Boston in the amount of \$100 per set of plans and specifications. The amount of the deposit, per set of plans and specifications, will be refunded upon return of the same in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to Whitney, Atwood, Norcross Associates, Inc., 256 Boylston Street, Boston, Mass., not later than 30 days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of one hundred percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any

or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

CITY OF BOSTON.

Proceedings of City Council.

Monday, July 26, 1965.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President TIERNEY in the chair, and all the members present.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

God of our fathers, in whose spirit this nation was born and in whose spirit it has continued we invoke Thy benediction upon all gathered in this chamber of city government. May all here be blessed in the knowledge and sanctified in the observance of Thy holy law. These councillors are commissioned by the people of Boston to serve in this Body to formulate the policies and administer the affairs of this city. Give them wisdom to their minds and courage for their hearts and great capacity for leadership as they labor faithfully and conscientiously to enrich and strengthen the life of our venerable city. May the assurance of Thy providence and the memory of Thy goodness follow us all the hours of this day.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen.

REPORT OF COMMITTEE ON URBAN RENEWAL.

Coun. G. F. FOLEY, for the Committee on Urban Renewal submitted the following:

Report on message of the Mayor and resolution (referred June 14) approving South Cove urban renewal project.

REPORT OF THE COMMITTEE ON URBAN RENEWAL SOUTH COVE PROJECT.

Hearings: June 29, 30, July 1, 1965—proponents and opponents were heard.

Supplemental hearing on July 7, 1965, concerning the liquor question was conducted.

Location: The South Cove lies between Stuart street and the Turnpike Extension and out as far as Clarendon street. It contains theaters, medical center, residential areas which are all well-known features of the City of Boston. Ninety acres constitute the project area. More than 36 acres of this area are occupied by streets and rights of way.

Housing: The South Cove plan strongly emphasizes better housing both in the Chinese community and Bay Village, which will be entirely preserved. The people of the Chinese community have endorsed the plan and stand ready to build new low-income housing. The plan will go a long way in helping clean up a very run-down part of the so-called Combat Zone. This area as a whole is heavily lighted and has lacked serious new improvement. The plan calls for 125 units of D3 housing, 250 prospective housing units, and 500 units in the Tremont Street and existing Broadway area.

Institutions: Don Bosco School and Tufts New England Medical Center strongly supported the plan. It provides the necessary and needed means of marshaling the land area to provide for the limited expansion. The plan also provides for a new elementary school, street and utility improvements, a new public park and fire station. The New England Medical Center will expand from 10 to 12 acres. The Don Bosco School from 1.5 acres to 2.5 acres.

Relocation: There are 133 families and 402 individuals in this category. There are 109 businesses and there are 30 liquor licenses.

Taxes: There will be a net gain to the city of between \$250,000 and \$400,000.

The committee urges acceptance of this program.

For the Committee,
GEORGE F. FOLEY, JR., Chairman.

The report was accepted.

MINORITY REPORT ON SOUTH COVE URBAN RENEWAL PROJECT.

By WILLIAM J. FOLEY, JR.,
Member of the Committee.

The South Cove Project could have been a landmark project and a proper use of urban renewal. It could have been the first project in Boston developing techniques whereby hospitals and institutions of higher learning might cooperate with the City of Boston for the mutual benefit of these institutions and the city.

In the breakdown of the categories of private tax-exempt institutions in Boston, hospitals and institutions of higher learning are tax-exempt basically because they serve (in Boston) a regional, national, and even a world-wide function. Other private tax-exempt institutions here serve a more restricted group of people geographically, and on the average, many more of their clients, patients, or whatever those who are serviced by these other institutions are called in a given case, are likely to live in the City of Boston and, therefore, the City of Boston is likely to be relieved fiscally of the burden of providing the service.

Working out a modus vivendi between institutions of higher learning and hospitals on the one hand, and the City of Boston on the other hand, is a crucial question and one upon which more has happened quietly than is the general impression.

The South Cove Project could have been a project where techniques already applied even though in earliest forms, could have been used in an urban renewal project financed with federal funds. Instead of that, the Development Administrator has made a colossal blunder of the project from beginning to end, specifically.

(1) From the beginning, the cavalier treatment of the Chinese community rips the mask of liberalism from the face of the Development Administrator. His liberalism has no humane content. It is an instrument with which Logue plays the game of national politics in this country. The Chinese community is a valuable and a distinct community in the City of Boston. It should be saved. The whole shabby record from the beginning of Logue's dealings with the Chinese community was documented two years ago in the transcripts of the Committee on Urban Renewal on the occasion of the resolutions concerning preliminary plans for this project and, were further proof to be needed, the simple fact is, here, that the Chinese community is to be crowded fifty families to an acre on three acres of ground while seven and one-half acres of ground are easily to be found for the New England Medical Center. The pathetic inadequacy of 150 units for 5,000 people ought to be proof enough. The Chinese community has no political power, and New England Medical Center has political power. The choice for Logue and men of his like under those circumstances is easy.

(2) The Don Bosco School is a technical and vocational institution. It is much needed and fills a critical and indispensable role in the total picture of Roman Catholic education in this area. This I say as one who was educated in Roman Catholic schools for 15 years. The Don Bosco School will on cold figures save the City of Boston at least one-half million dollars annually. This, therefore, benefits Boston twice as much annually as

the Travelers Building less the new addition. Simply stated the Don Bosco School will be worth twice as much to Boston as the Travelers Building, in dollars and cents.

The standards applied by the State Department of Education for a state assisted high school would call for a minimum of three and one-half acres of outside play area, for a school the size of the Don Bosco School were it constructed publicly and assisted by the state. Logue's plan for the South Cove contemplates assigning to the Don Bosco School not one square foot of outside play space. If the space were not there, it would be one thing, but across the street from the Don Bosco School, Logue has been able to find four and one-half acres upon which to put tower-like apartment buildings which will, surely, be occupied by some of the 4,000 employees of the New England Medical Center. The site is bounded on the reuse map by Frontage street, Oak street, Tremont avenue, and Charles Street Extension. It is my position that at least some of this space ought in decency to be assigned to the Don Bosco School.

I shall say at this point that I am sick and tired of being told ever so indirectly that it is impolite for me in some mysterious way to mention how much money these parochial schools save the City of Boston. I say here and now that I shall not observe any such limitation.

(3) The hospital will go from 10 acres to 12.9 acres for hospital purposes plus another 4½ acres to house its employees. Therefore the hospital will have 17 acres when all this is done. There are not 96 acres in the project, there are about 46 acres after you subtract acreage in streets, parks, and playgrounds.

(4) It is my observation that the New England Medical Center here is giving up nothing and getting everything. I would vote for an urban renewal project here if the New England Medical Center had treated the City of Boston fairly. It has not. The City of Boston goes to enormous expense to assemble land through the renewal (i.e. eminent domain) process for the hospital, yet the hospital is not legally bound to confine itself within the space thus provided for one day. There should be a legally binding agreement here that the New England Medical Center will for a period of at least 20 years and probably 40 years confine itself to these 12.9 acres or else there is no sense in doing the project. There is no such agreement.

There should be an additional agreement that the 400 doctors and 200 dentists at the New England Medical Center who practice medicine and dentistry there, treating patients for a full professional fee, that these professional men should treat their patients in office space which is as fully taxable by the City of Boston as the space in which those of my colleagues who practice law is taxable, more particularly and perhaps more to the point, as the doctors' office building in the Massachusetts General Hospital complex is taxable (i.e. the Warren Building).

The agreements about keeping the Music Hall open and the Wilbur Theatre open are meaningless. Vague representations that the first floor in the front of certain medical buildings will be used as stores and, therefore, taxable, are again meaningless. In this project, which is the first one designed to try to rationalize the presence in Boston of nontaxable real estate used for higher education and hospital purposes, the New England Medical Center has not dealt fairly with us. It has not treated the City of Boston justly, and I can't for the life of me see why the directors and trustees of the next institutions which will come to us, and there will be others, should be any more generous with us than the New England Medical Center. Now is the time to draw the line. The project does not draw it. On that alone it is a total and miserable failure, and a disastrous precedent.

(5) There is a garment industry here in which thousands are employed. It is likely a much larger percentage of those employed in this particular industry are Bostonians than in many other economic activities in Boston. The evidence in the record is that the garment industry has been pretty much ignored. A pathetic 19,000 feet is allotted to the garment industry and the Chinese upon which to park automobiles and house Chinese in some sort of tower-like apartment building on top of a garage. Such a rattletrap arrangement planningwise insults at one fell swoop the intelligence of the Chinese community, the garment industry, and the City Council. It is not often planners can achieve such an effect all at once.

(6) Under the Housing Act of 1964, provision was made in urban renewal projects to write into the project cost the cost of a platform for the use of air rights for low and moderate income residential use over certain facilities which include turnpikes. It is obvious that here some of the pressing demands for space for the Chinese community might possibly be met by a serious exploration of this provision of the 1964 law. My impression is (this is all in the transcript), that the idea was given short shrift by the Project Director. I suspect that the Authority had little time to spend trying to solve the problems of the Chinese. It is obvious from the transcript that little or no thought has been given this problem. It should be explored. The answer repeatedly was, it costs too much to build over a turnpike. The law takes out that cost by writing it into the project cost. Further exploration of this is clearly in order.

(7) On June 22, the Public Improvement Commission voted certain major streets in the project area were not to be discontinued as the plan required. The Council hearings were held as the majority report indicates on June 29, 30, and July 1. Of course, no mention was made of this prior vote of the Public Improvement Commission to the Council, and it was necessary to learn of it by reading it in the Boston "Traveler." I cannot truly say I am surprised. This is the same pattern of contempt for the governing body of this community which Logue demonstrated in June, 1961, when he just neglected to tell us what was going on among Blakely, the Merchants Bank, and Logue concerning what we now know as Parcel 8. In the same pattern, Logue neglected to inform the Council of the unavailability of land in South Boston for the relocation of the produce merchants displaced by the Waterfront Project. Here there is even less defense than before, yet the June 22, 1965, vote of the Public Improvement Commission was not mentioned. I want to put it on the record that we bitterly resent this deception. I hope others in this body resent this deception, and I should think that out of self-respect, if nothing else, the Development Administrator ought to be so informed.

It seems to me also that to vote a resolution which states that this plan is in accord with the General Plan and that it is in the best interest of the city and that it is the best plan for the area in the face of a determination by the responsible municipal agency that certain important through streets should not be discontinued is to substitute the judgment of the City Council for the judgment of the Public Improvement Commission in a matter where the P.I.C. is clearly better informed. I should think that the very least that would be required would be a hearing and taking evidence on this subject matter.

(8) There is a proposal here for medical student housing complex immediately north of Oak street and bounded to the east by Harrison avenue and to the west by the present roadbed of the Metropolitan Bay Transit Authority. It was testified that this student housing complex was to be nontaxable. Harvard has constructed in the City of Boston a medical student housing complex which is taxable. It seems to me that if we

are going to rationalize land use and the presence in this city of these institutions, we should be careful to treat them equally. We are, clearly, not doing so here. The plan should be amended. There should be an agreement that in consideration of the execution of this project by the City of Boston that this medical student housing complex will be taxable as is a similar one associated with Harvard Medical School.

(9) There is proposed in the plan on Stuart street at three locations new reuse commercial space to the extent of a million square feet. In view of the fact that it has been found necessary in the Government Center to move the Boston Housing Authority from an existing building on Congress street into One Center Plaza to prop up that structure economically to achieve construction of the first 150,000 of two million square feet in the Government Center, that plans for an additional million square feet in the Park Square area are, to say the least, optimistic. When pressed, and he was pressed, the Project Director seemed to have hardly any idea as to what sort of economic activity would take place in these buildings containing an additional million square feet except that some of the space might be used for parking. This location across the street from the Motor Mart Garage, a few hundred feet from the Under Common Garage, a few feet from the Eliot Street Garage, to have suddenly an additional 2,000 to 4,000 car spaces added would seem to me to be creating traffic problems to which, at least, some thought ought to be given.

I mentioned that McGrath, Logue's traffic engineer, imported from New Haven, should testify at the hearings. Like Professor Morrissey at the Charlestown hearings, he did not appear. I suggest that the addition of thousands of new parking spaces in an area already serviced by many parking spaces (Park square) is a matter which just might create a traffic problem to which some heed ought to be given. For the record, such attention was not given in the course of these hearings.

CONCLUSION.

The Boston City Council in the year 1957, refused to proceed with a project which was ill-conceived and which would have done fatal damage to the Chinese community. It was a truly proud moment for this Body. This project will be just as fatal and will do damage in this city beyond anything which Logue's predecessor or predecessors could imagine. It will create a precedent bearing upon the relationships between tax-exempt institutions of higher learning and hospitals on the one hand and the City of Boston on the other, which will haunt us. This need not be so. It is not unreasonable if the City of Boston does this project basically for the benefit of the New England Medical Center to expect the New England Medical Center to treat the City of Boston decently, reasonably, and fairly.

Sometimes one must allude to a work of fiction to make a point. In my mind, this project is the project of John Marquand's "The Late George Apley." The Late George Apley, a fictional character but drawn from life, I assure you, and I repeat, I assure you, was a Bostonian of ancient lineage and great wealth, who puttered about all his days as a trustee of this or that private institution. Such Bostonians are very often treated with more deference and consideration than is good for the City of Boston. I believe there is such a person involved here or more than one. There is nothing wrong with hospitals, colleges, and universities, and no one has defended them more often than I. But right is right, and this project is wrong. It should not be approved and it should be returned to the Redevelopment Authority for massive revision then perhaps returned here for our further scrutiny.

WILLIAM J. FOLEY, JR.,
Member of the Committee.

Placed on file.

Coun. W. J. FOLEY offered the following motion:

Moved, That the South Cove Project be remanded to the Boston Redevelopment Authority for the purpose of negotiation and execution between the Boston Redevelopment Authority on behalf of the City of Boston, and the New England Medical Center of a formal legally binding contract providing:

1. That the New England Medical Center will contain its expansion to the proposed 12.9 acres, and thereafter contain itself and not expand further in the City of Boston for the period of no less than 20 years, and preferably 40 years.

2. That the professional activities of doctors and dentists practicing in the New England Medical Center complex and not related to charitable services be carried on upon premises which are fully taxable by the City of Boston.

3. That the proposed housing complex for medical students to be located north of Oak street, between Harrison avenue and the MBTA right-of-way, be taxable as are other such complexes in the City of Boston.

4. That it be agreed that Music Hall and the Wilbur Theatre remain as they are (that is, functioning as theaters) for a period of at least ten years.

The motion was lost, yeas 2, nays 7:

Yeas—Councillors Craven, W. J. Foley—2.

Nays—Councillors G. F. Foley, Hines, Hynes, Iannella, Kerrigan, Langone, Tierney—7.

Coun. W. J. FOLEY offered the following motion:

Moved, That the South Cove project be remanded to the Boston Redevelopment Authority for the purpose of hearing evidence on the question of the discontinuance of the streets in the South Cove area with specific relation to the policy statement and vote of the Public Improvement Commission on June 22, 1965, disapproving certain major street discontinuances in the South Cove area.

The motion was lost, yeas 2, nays 7:

Yeas—Councillors Craven, W. J. Foley—2.

Nays—Councillors G. F. Foley, Hines, Hynes, Iannella, Kerrigan, Langone, Tierney—7.

Coun. W. J. FOLEY offered the following motion:

Moved, That the project reuse plan for the South Cove be amended by striking therefrom the proposed use of the quadrilateral plan bounded by Oak street, Tremont avenue, Frontage road, and Charles Street Extension, and to insert in place thereof as a reuse of this quadrangle a minimum of 3.5 acres for open-air play space for the Don Bosco School.

The motion was lost, yeas 2, nays 7:

Yeas—Councillors Craven, W. J. Foley—2.

Nays—Councillors G. F. Foley, Hines, Hynes, Iannella, Kerrigan, Langone, Tierney—7.

The question came on the adoption of the foregoing resolution, and the resolution was adopted, yeas 7, nays 2:

Yeas—Councillors G. F. Foley, Hines, Hynes, Iannella, Kerrigan, Langone, Tierney—7.

Nays—Councillors Craven, W. J. Foley—2.

THE NEXT MEETING.

On motion of Councillor Hynes, the Council voted that when it adjourn it be to meet on Monday, August 9, 1965, at 2 P.M.

Adjourned at 5.20 P.M., on motion of Councillor G. F. Foley, to meet on Monday, August 9, 1965, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

Finance Commission Offers Plan for Planning Aid on Small Block Basis

The following is a report issued by the Boston Finance Commission on September 1:

An extraordinary opportunity for improved municipal administration in Boston lies at hand. It consists in the adoption of a basic management tool, revolutionary in concept and offering unlimited potential for interdepartmental cooperation and enhancement of departmental administration. It simply means the adoption of a plan of administrative planning and reporting on a geographical-area basis. It is a tool which could add immeasurably to the effectiveness of municipal administration in the City.

Reference is here made to maps of the City that have been prepared by two agencies—the Federal Bureau of the Census and the Boston Redevelopment Authority.

The Federal Decennial Census of population and housing in Boston contains census tracts and city blocks. Census tracts are areas into which the City is divided for statistical purposes, generally designed to achieve some uniformity of population characteristics, economic status, and living conditions. These numbered tracts are in turn divided into numbered city blocks as the units on which to base statistics on housing characteristics.

Although the Federal Census' maps would be adequate for the purpose recommended by the Finance Commission, the BRA's maps now being produced are even more valuable and practical. The latter show street lines, individual lot lines and lot areas, outlines of the buildings on the lots, with a number for the city block and a number for each parcel in the block.

The primary purpose of the BRA mapping project is to provide a complete picture of all the physical, structural, and topographical features of the City for the information of such departments as the Assessing, Public Works, as well as for planning for the BRA.

The Finance Commission believes, and this is the central theme of this report, that these maps, although devised for presentation of physical features offer a golden opportunity for the improvement of departmental administration.

The special value of these geographical area units for municipal administrative purposes lies in the fact that here is an unchanging,

ready-made system of standard units that municipal departments could use in administering their respective functions and reporting on their respective operations.

If this new and simple concept were adopted generally with city blocks, and combinations of city blocks, as the basis for administrative planning and reporting, the following advantages would follow:

1. It would be possible, for example, to know immediately the Welfare, Health, Fire, Police, Housing Inspection, and other municipal aspects of every block or small geographical area.

2. This synthesis of meaningful data would facilitate interdepartmental exchange of information and add a new dimension to administration. For example, in the case of school districts, such data would provide a picture of every part of the district in terms of people and housing.

3. An interdepartmental language, as it were, would be developed and ready points of reference would be established for any discussion of municipal problems in any part of the City.

4. It would pinpoint problem areas calling for special emphasis in terms of specific municipal functions by block number.

5. It would facilitate year-to-year comparisons in measuring change in an area.

6. It would provide a definite unit in setting up administrative districts within departments; not that all districts would be co-terminus, but they would be composed of and expressed in the same kind of numbered area units which would comprise a given district.

7. It often happens that one municipal department is unaware of the data obtainable from another department. The synthesis of information from all departments on a standard geographical basis would supplement the knowledge and, therefore, the administrative effectiveness of many departments.

8. It would prepare the ground for the eventual establishment of electronic data processing data banks. These banks would be centralized storehouses of information on people and property throughout the City.

In effect, if departmental data were brought together on a block basis—the result would be a kind of continuing or up-to-date census of people, property and local conditions.

Such up-to-date data would be of valuable assistance to City (and State) in planning, hospital and school construction, law enforcement, highway construction, water

and sewerage systems, and zoning. Business and industry, moreover, would like current figures in market research and analysis and other planning.

The feeling is growing that a decade, the period between censuses of population and housing, is too long to wait to learn what changes are taking place in a fast-moving urban society.

INTEREST OF THE FINANCE COMMISSION IN THE USE OF STANDARD GEOGRAPHICAL UNITS FOR ADMINISTRATIVE PURPOSES.

The interest of the Finance Commission in this matter was first stimulated by observation of the plans of the Police Department in this area. The latter department is using Census Tracts in setting up the size of service districts or divisions and endeavoring to make such Police Divisions co-terminus with the current boundaries of the areas served by district courts. The working relationship of these two functions is so close that it would be advantageous to have the boundaries co-terminus. It is interesting to note that the district court boundaries were established along the existing ward lines that prevailed before 1890.

Although it was found that it isn't practical to set up co-terminus administrative districts for all departments, further inquiry revealed a greater potentiality in this field, viz., the use of standard numbered geographical areas for administration and reporting by municipal departments.

HOW VARIOUS DEPARTMENTS COULD BENEFIT BY USING GEOGRAPHICAL AREAS IN TERMS OF CITY BLOCKS.

BUILDING DEPARTMENT

If this department set up administrative districts for assignment of personnel and did its reporting on the basis of the block maps prepared by the BRA building violations would be pinpointed, a systematic basis for personnel assignment would develop aimed at covering as much territory as possible and communicating with other departments that are concerned

Residential Development for Beacon Hill Ready for Occupancy this Fall

The first residential development on historic Beacon Hill in more than 25 years, will be ready for occupancy by this fall.

Three separate, but interrelated buildings, in the heart of the Beacon Hill Historic District, will retain their original structures and exteriors. Entirely rebuilt from within by the owner-architect Eduard H. Bullerjahn of Hepburn & Bullerjahn, the buildings will offer 30 unique apartment-residences.

The buildings located at 27-29 Chestnut street, 70-72 Mt. Vernon street surround a central garden court and include multi-level apartments, several duplex apartments, cathedral ceilings, and a squash court, playroom-party room for residents. The many apartments overlook much of the City of Boston from their varying elevations on the two streets, taking advantage of the most expansive vistas available.

The structure at 70-72 Mt. Vernon street, formerly owned by the New England College of Pharmacy, was originally built in 1846 and is attributed to the English architect Upjohn. 27-29 Chestnut street was built for the Boston University School of Theology and provided classrooms, gymnasium, and chapel facilities.

The Beacon Hill Architectural Commission ruled in 1963 that the buildings could not be razed because they were located in the Beacon Hill Historic District. Since that time, and in order to remain within the restrictions of the commission, architect-owner Bullerjahn and his firm designed and planned a unit of structures, at a cost of more than \$1 million, that would retain the exteriors of all the buildings, with only slight modifications, while gutting the interiors completely and building from within the most modern apartments and facilities possible today.

It is believed that this is the first time such a building procedure has been undertaken for a residential building in this country. All requirements of the Beacon Hill Historic District were adhered to and met within the demands of economic feasibility.

"This kind of property-preservation and development is widespread in the Scandinavian countries" Mr. Bullerjahn pointed out, "and it could well be a means for us in this country to retain what is of architectural distinction and still allow for the improvement of neighborhoods, rather than resort to com-

plete demolition or allow a property to become a financial burden to a community." Mr. Bullerjahn received considerable architectural training in Sweden and was the recipient of a Gold Medal from King Gustav V for his studies on urban living.

Other features of the Beacon Hill apartment-group include a "micro-climate" system which provides individually controlled filtered ventilation, heating and cooling. The buildings at 70-72 Mt. Vernon street and 27-29 Chestnut street will be the first in the country to be provided with this system of constant air circulation. Audioprivacy for each apartment-residence is assured by the spacious and heavy structural shell and a landscaped courtyard. The interiors of the buildings will reflect in a contemporary manner the gracious living that has long been associated with Beacon Hill.

Rental and managing agents for this new Beacon Hill enterprise are Hunneman & Co., Inc.

TOUGH UNDERLING

During World War II, Field Marshal Sir Bernard Montgomery was summoned to Algiers for conference following his substantial change of plans for the invasion of Sicily. On arrival he said to Bedell Smith, General Eisenhower's chief of staff, "I expect I am a bit unpopular here!"

Bedell Smith replied, "General, to serve under you would be a great privilege for anyone; to serve alongside you wouldn't be too bad. But, General, to serve *over* you is hell!"

LEGAL NOTICE HEARING

Notice of Hearing under Chapter 121A of the General Laws as amended, and Chapter 652 of the Acts of 1960.

Notice is hereby given by the Boston Redevelopment Authority, hereinafter called "the Authority" that an application has been filed with it by Ernest Henderson, Robert M. Morgan, William J. Furlong, Carleton Hunneman, and Richard P. Chapman hereinafter called the "Applicants" for authorization and approval by the Authority of a project, hereinafter called the "Project," to be constructed, maintained, and managed on the premises in Boston hereinafter described in accordance with the provisions of (1) Chapter 121A of the General Laws of the Commonwealth of Massachusetts, as amended, (2) Chapter 652 of the Acts of 1960, (3) applicable rules and regulations of the Authority, and (4) said application and accompanying addenda, and for the consent by the Authority to the formation of a corporation, to be organized by the Applicants under said Chapter 121A for the purpose of undertaking and carrying out the Project, hereinafter called the "121A Corporation." The Project will involve the acquisition by purchase and/or taking by eminent domain by the 121A Corporation of said premises and the construction, maintenance and management of said premises by the 121A Corporation of approximately 200 garden apartments and appurtenant facilities all in accordance with the forms of a proposed contract between the Authority and the 121A Corporation, a copy of which with all schedules and amendments thereto has been filed with the Authority with said Application.

The premises on which the Project is to be constructed, maintained and managed is generally bounded by Warren street, Dale street, Sherman street, Rockland street, Walnut avenue, Circuit street, Fountain street, Regent street, St. James street and Warren street as shown on maps prepared by Fay, Spofford and Thorndike, Inc., dated July 16, 1965, and filed as Exhibit A-1 of the Application.

Said Application contains a request that the Authority grant certain permissions specified in the Application for the Project to deviate from zoning, building and fire laws, codes, ordinances and regulations in effect in Boston.

A public hearing upon said Application will be held by the Authority on September 16, 1965, at 2 P.M., at its offices at 73 Tremont street, Boston, Massachusetts. Said Application and all exhibits and other accompanying addenda filed therewith may be examined by interested persons at the office of the Authority at 73 Tremont street, Boston, Massachusetts, during the regular business hours of the Authority.

with building structures (such as the Fire Department, Housing Inspection Department, and the Health Department) would be facilitated through this system of ready identification.

PARKS AND RECREATION DEPARTMENT

This department would benefit if such departments as Health, School, Police, and Welfare did their reporting on a city block basis.

For example, this department is continually besieged with requests for tot lots and other recreational facilities. How to make a decision among these competing requests is the problem. Data of various municipal departments concerned with health, housing, welfare, traffic, *et al.*, would help materially in documenting degrees of need in a particular area.

FIRE DEPARTMENT

The Fire Prevention Division would have access to the inspectional reports of many other departments concerned with buildings. If the data were kept on a block basis, the Fire Department's inspectional work would be effectively focused, and inspectional manpower would be saved.

In fact, these city block maps might find a use in the deployment of apparatus in responding to an alarm for fire.

HOUSING INSPECTION

This new department uses ward and precinct boundaries for administrative purposes. It would benefit greatly, however, from the adoption of the numbered city block maps as the basis for setting up work areas and for reporting on work done and conditions found. In fact, these maps which show lot lines and structures would form a natural and ready-made framework for this department's operations. In addition, the housing data found in the 1960 Federal housing census, also set up on a block basis, would supply valuable data on housing conditions as of that year.

The data compiled by this department would be of special interest to Health, Fire, and Building Departments.

WELFARE

This department divides the City into administrative districts which are related to caseloads. This is probably adequate for the administration of the department's programs and the servicing of clients, but it would be more meaningful and valuable to top level municipal administration, if, in addition, welfare conditions could be pinpointed and reported on a small and standard geographical basis. The welfare picture presented on such a basis would be the source of valuable data which would be available and of interest to Health, School, Parks and Recreation and other departments.

HEALTH

This department does use a standard geographical area (the census tracts adopted in the Federal population census of 1960) in reporting certain health data, but not all the statistics in their reports are presented on such a basis. Here, again, the keeping of all meaningful statistics on a standard geographical basis would make possible a correlation with other departments and contribute to the kind of well-rounded picture of conditions in a given part of the City which alone can make high-level municipal decisions realistic.

TRAFFIC

The "block" maps offer a practical application in this department in the recording of collections of parking fees from parking meters. A single canister, into which meter coins are poured for eventual counting, would be marked with the block numbers of certain designated city blocks where the meters are located.

This would constitute a control. A significant diminution in the amount of collection from a given area would stimulate inquiry into the reason therefor (mechanical failure, lack of enforcement, or whatever the reason might be).

In other phases of traffic administration the geographical area of the block, or a combination of blocks, could conceivably be useful. Discussions of traffic problems would, under this plan, make reference to the numbered blocks involved, thus pinpointing the problem area as well as moving into a common inter-departmental communication system.

PUBLIC WORKS DEPARTMENT

This department divides the City into ten service districts in the department's several functions of refuse collection, snowplowing and removal, highway repairs, construction and reconstruction of highways, sewer, water, sanitary (street cleaning), bridge and street lighting operations.

Here, again, it would seem that the department could efficiently use the block maps for administering the several functions of this department.

For example, it would be advantageous to express contracts for collection of refuse and for snow removal in terms of numbered city blocks and combination of blocks. The administration and control of the other functions of this department here listed would also seem to be especially amenable to identification by block. This department, moreover, has working relationships with such departments as Fire and Traffic; the numbered block plan would facilitate communications with such departments by furnishing ready points of reference.

POLICE

The value to the Police Department of such maps is obvious. By using the numbers of blocks from a standard area map within a police district (division) this department would be greatly aided in pinpointing problem areas of crime and delinquency, traffic danger and other police problems. If the data of other departments were available to the Police Department on this basis, the latter's knowledge of a particular area would be deepened and Police administration facilitated.

(Continued on next page)

SCHOOLS

The advantages of the use of these standard block maps in the planning of school districts and in school administration is no less obvious. School district planning today in Boston has become a complex business. All possible data about a particular area should be available to school officials for the most informed and sophisticated planning and administration.

Availability of the various kinds of data that would be forthcoming from other departments and listed in this report (Housing, Welfare, Delinquency, Traffic, etc.) would furnish information never before available but highly useful to school administration and planning. This can be accomplished if all departments adopt this standard geographical area unit.

The above illustrations do not begin to exhaust the possibilities of this concept and proposal. Many more could be cited.

THE ULTIMATE OBJECTIVE

The proposal discussed in this report is actually the first of several stages in a long-term plan. The immediate step calls for the general adoption of block plans for administrative and reporting purposes. The next step would provide that all such data would be entered on punched cards and used by municipal management. The ultimate plan and future target, however, looks to the eventual adoption of electronic data processing, for which the first stages would be a preparation and conditioning.

**CONCLUSIONS AND
RECOMMENDATIONS**

The Finance Commission believes that any step which makes for closer interdepartmental cooperation, standardization of procedure, and more effective achievement of the purposes of a particular municipal operation is a step in the right direction. The Commission further believes that the general use by all departments of a standard geographical unit for administrative planning, reporting, and identifica-

tion would be a simple but effective device in bringing as much knowledge as possible to bear on the solution of municipal problems. It would be a systematic approach, of great potential, to municipal decision-making at the top level. It would develop a common language between departments and stimulate interdepartmental communication.

Almost the only method of geographical area reference heretofore has been to state the ward or district of the City. This is too general and inexact for effective administration. The Finance Commission therefore recommends that there be a break with tradition and that, besides the usual general reference to a district of the City, numbered blocks be used as reference.

Many departmental officials with whom this was discussed were enthusiastic about its potential. The Finance Commission suggests that a meeting of department heads be called to explore the value of the proposal which is the theme of this report and make plans for its implementation, and that a Directive be prepared setting out the features of this proposal as the basis for such conference and implementation.

Labor Day Threat

"For Labor Day weekend—traditionally, the last weekend of the summer—we expect huge amounts of traffic everywhere in Massachusetts," Registrar of Motor Vehicles Richard E. McLaughlin declared in a strong call for caution over the weekend.

"The usual traffic hazards will be compounded," he said, "if, as in past years, people overload their vehicles or take out their frustrations from traffic jams by driving too fast."

In his announcement, Registrar McLaughlin called particular attention to the need for keeping children seated in vehicles, strapped in with seat belts wherever possible.

Since so many cars returning from summer resorts will be loaded down with baggage, he also warned of the possible dangers in leaving objects lying loose in cars on the shelf by the rear window.

According to the National Safety Council, nearly 600 victims of automobile accidents are expected during the 78 hours of the weekend—6 P.M., Friday, September 3, to midnight, Monday, September 6.

More than 300 uniformed men of the Registry of Motor Vehicles will be among the 10,000 law enforcement officers patrolling Massachusetts' roads throughout the weekend.

"As to the actual number of vehicles on the road," Registrar McLaughlin concluded, "it will obviously be the largest number we have yet experienced due to the better than 3 percent annual rise in registrations as well as the influx of summer tourists."

Kennedy Film Okay

Both Houses of Congress have passed resolutions to allow a United States Information Agency (USIA) documentary film on the late President John F. Kennedy to be shown publicly in this country.

The Senate acted on a resolution authorizing USIA to sell copies to the John F. Kennedy Center for the Performing Arts, which would profit from any commercial showing. The previously passed House resolution takes a somewhat different approach.

The first public showing of the film was in Boston during the dedication of the Boston War Memorial Auditorium.

HISTORICAL SHOCK

Vice President Nixon's daughter Julie was poring over a history book and came across the statement that Abraham Lincoln was the first Republican President.

"Mama!" she gasped in shocked incredulity. "Was George Washington a Democrat?"

Hotels to Aid Poverty War's Job Training

The hotel-motel and restaurant industry has joined hands with the federal government in the "war on poverty."

The Hotel and Restaurant Advisory Council to the Job Corps, formed during an all-day meeting held recently at The Mayflower in Washington, D.C., will help in the training and placement of Job Corps graduates.

President Roger P. Sonnabend of Hotel Corporation of America has been named permanent chairman of the Council, one of the first groups organized by any industry for this purpose.

Three major subcommittees have been set up: the Curriculum Subcommittee will assist in the development of job descriptions and training programs; the General Affairs Subcommittee will advise the Job Corps centers on opportunities available within the industry, and counsel individual trainees, as well as create an awareness within the industry of the desirability of employing Job Corps graduates; and the Subcommittee on Job Placement, will help match graduates with job vacancies.

The Job Corps, an activity of the Office of Economic Opportunity, provides residential centers for young men and women, ages 16 through 21, and a coordinated program of education, training and work experience. It is specifically geared for youth who lack the schooling and skills which "prevent them from assuming a productive role in society."

BUILDING DEPARTMENT.

DUNCAN T. FOLEY.

Supervisor of Personnel.

DEAR SIR:

On July 7, 1965, Leonard Onorato was appointed Building Inspector in this department after certification for permanent employment by the Division of Civil Service with compensation in Grade R-10 of the Compensation Plan at the rate of \$81.50 per week.

Mr. Onorato's immediate prior employment was in a temporary capacity with the City of Boston Office of Neighborhood Improvement as Inspector/technician from June, 1963, to June, 1965, the Director of said agency being highly commendatory of his services. It is my opinion, because of this prior satisfactory service representing the City of Boston in an allied field of code enforcement, that the experience thus gained makes his individual services more valuable to this department as a Building Inspector.

I therefore request that his 1/2 and 1 1/2 year step-rate increments in the position of Building Inspector be determined under the provisions of Rule 9 (f) of the Compensation Plan, to be effective July 7, 1965, at the rate of \$90 per week.

Very truly yours,

R. E. YORK,
Building Commissioner.

CONTRACTS AWARDED WITHOUT ADVERTISING

PUBLIC WORKS DEPARTMENT.

DISPOSAL OF REFUSE

DEAR MR. MAYOR:

A one-year contract with the M. DeMatteo Construction Company, owner and operator of the Saugus Dump, which expired on March 31, 1965, provided for the disposal of refuse from East Boston, and contained provisions for three yearly option renewal contracts at the election of the city.

On February 26, 1965, your Honor approved the award of a one-year renewal contract in the amount of \$32,000. Subsequently, contract documents sent to the DeMatteo Company prior to April 1, were not executed by said company and the DeMatteo Company sent a letter dated May 6, 1965, to this department requesting, pursuant to provisions of paragraph 7 of the original contract, that the yearly contract price be revised to \$61,600, in order to compensate the contractor for increased operating costs.

After several meetings, attended also by a representative of the Corporation Counsel, in an attempt to determine what amount of additional payment was due the contractor to compensate for added operating costs, and failing to agree, the contractor closed the dump to the disposal of refuse from East Boston on June 14, 1965.

Loss of this dump severely taxes our present disposal facilities and increases our annual collection and operating costs in the amount of \$61,000 per year. Because of these two factors, still further meetings were held on Friday, July 16, 1965, when a contract price of \$42,000 was arrived at, for a one-year period, with no provision for option renewals. This price is \$19,000 less than the cost to the city for using other available disposal sites and thus in my judgment, it would be prudent to enter into formal written arrangements with M. DeMatteo Construction Company in order that the city may have available to it for refuse disposal the contractor's Saugus disposal site at a twelve months' cost of \$42,000.

Therefore, I respectfully request your written authorization to dispense with public advertising in the *City Record* and enter into a lease agreement with the M. DeMatteo Construction Company for the use of land owned by said corporation and located adjacent to the Salem Turnpike in Saugus, and licensed by said town. The agreement shall specifically

provide, among other things, that all the refuse (including street sweepings) from the East Boston district may be deposited on said land for a one-year period from April 1, 1965, to March 31, 1966, and that the M. DeMatteo Company shall operate the dump in a manner as shall be specified in the agreement for the amount of \$3,500 per month, the total cost not to exceed \$42,000 for the full twelve-month period.

Very truly yours,
JOHN F. FLAHERTY,
Commissioner of Public Works.

DEPARTMENT OF SCHOOL BUILDINGS.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR ADDITIONS AND ALTERATIONS TO HEATING SYSTEMS IN VARIOUS SCHOOLS, BOSTON, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for additions and alterations to heating systems in various schools, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 27, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$200. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide for insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 20, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Heating\$200

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of the subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

DEPARTMENT OF SCHOOL BUILDINGS.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR PLUMBING ALTERATIONS AT VARIOUS SCHOOLS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for plumbing alterations at various schools.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 27, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefore.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of specifications and plans for the project on file at the office of the Awarding Authority designated above, and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and plans and the set (or sets) of specifications and plans furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of specifications and plans furnished to the bidder is a true and complete copy of the set of specifications and plans on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 20, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Plumbing and Gasfitting.....\$300

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 143, of the General Laws, as amended.

GOVERNMENT CENTER COMMISSION.

INVITATION FOR PROPOSALS TO THE GENERAL CONTRACTOR FOR WORK CALLED FOR BY PROPOSED SPECIFICATIONS SECTION 10B, PROPOSED FINISH HARDWARE SCHEDULE AND PROPOSED DRAWINGS H-1, H-2, AND H-3, TO BE PREPARED IN FULL COMPLIANCE WITH THE GENERAL CONTRACT SPECIFICATIONS AND DRAWINGS FOR CONSTRUCTION OF A NEW CITY HALL, WITHIN THE PERIMETER OF THE CITY OF BOSTON, GOVERNMENT CENTER AREA, BOSTON, MASSACHUSETTS.

The City of Boston, acting by its Government Center Commission, hereinafter referred to as the Awarding Authority, invites sealed proposals for performing the work described by proposed specification section 10B, Proposed Finish Hardware Schedule and Proposed Drawings H-1, H-2, and H-3, to be done in conjunction with the general construction work on Boston's new City Hall under the general contract therefor between the City of Boston and J. W. Bateson Company, Inc., dated August 14, 1964, and the plans and specifications prepared by Architects and Engineers for the Boston City Hall, 711 Boylston street, Boston 16, Massachusetts, and constituting a part of said contract, as the same is to be modified by proposed specification section 10B, Proposed Finish Hardware Schedule and Proposed Drawings H-1, H-2, and H-3.

Proposals shall be submitted on the form obtained from the Architects and Engineers for the Boston City Hall, 711 Boylston street, Boston 16, Massachusetts. The proposal shall be properly filled out, signed, enclosed in an envelope, sealed and plainly marked with the description of the materials to be furnished and the work to be done, and shall be filed with the Awarding Authority at Room 62, 1 Court street, Boston, Massachusetts, before 12 o'clock noon (Eastern Daylight Saving Time), Tuesday, September 21, 1965, at which time and place they will be publicly opened and read aloud.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company payable to the City of Boston, in the amount of \$7,500, shall accompany the proposal when filed with the Awarding Authority. This bid deposit is to become and be the property of the City of Boston as liquidated damages if, after the selection of the successful bidder he shall fail to enter into the required subcontract with the General Contractor, and, if requested to do so by the General Contractor who shall pay the premium therefor, furnish a performance and payment bond, all as provided by the terms of the proposal.

The Awarding Authority reserves the right to reject any and all proposals.

All bid deposits except such deposit(s) as may become the property of the City of Boston as liquidated damages will be returned upon the execution and delivery of the subcontract with the General Contractor, together with any payment and performance bond requested by the General Contractor who shall pay the premium therefor, or, if no bidder is selected as the successful bidder, then, at the expiration of 30 days after the opening of bids, exclusive of Saturdays, Sundays, and legal holidays.

Before submitting his proposal, the bidder shall visit the site, examine its conditions, thoroughly acquaint himself with its obstacles and advantages for furnishing and delivering the material, and compare the general contract specifications and drawings, including proposed drawings H-1, H-2 and H-3 and accompanying specifications, with the conditions found.

A copy of the general contract for the new City Hall and accompanying drawings and specifications and all clarifications and change orders issued thereto, are available for inspection at the office of the Architects and Engineers for the Boston City Hall, 711 Boylston street, Boston 16, Massachusetts.

The proposed specification section 10B, Proposed Finish Hardware Schedule and Proposed Drawings H-1, H-2 and H-3 of the new City Hall, may be obtained at the office of the Architects and Engineers for the Boston City Hall after 9 A.M. (Eastern Daylight Saving Time), Tuesday, September 7, 1965, upon deposit of \$50 which will be refunded provided all drawings and specifications are returned in good condition to the office of the Architects and Engineers for the Boston City Hall within 30 days of the bid opening date, Saturdays, Sundays, and holidays excluded.

General bids must be submitted in duplicate on the form for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$100. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of specifications for the project on file at the office of the Superintendent of Construction of the Department of School Buildings designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

Specifications and other documents may be obtained at the office of the Awarding Authority.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, chapter 149, of the General Laws, as amended.

CITY OF BOSTON,
W. A. McPHERSON,
Superintendent of Construction.

Mayor Lists Causes For Tax Rise — Urges Adequate Legislative Action

(The following is Mayor Collins' statement following his announcement of this year's tax rate):

I have been informed today, September 3, by the Supervisor of Budgets that the 1965 tax rate will have to be set at a figure of \$115 per \$1,000. I have authorized him and the Commissioner of Assessing to take the necessary official steps.

Although I have spoken to the people of Boston and to the members of the General Court many times this year, warning all who would listen that this city was facing a fiscal crisis, along with all other cities and towns in Massachusetts, we do not as yet have any relief for the property taxpayer.

I have repeatedly said that Boston was facing a \$15 tax rate increase over last year and I have done everything in my power to stop it.

The good citizens of this city are entitled to a full explanation of what is happening to Boston, the city we are all working so hard and sacrificing so much to make a new and pleasant place in which to live and work.

On February 1 of this year, I sent the 1965 City Budget to the Boston City Council. I said at that time that we might be faced with uncontrollable increases in costs of 20 million dollars or more. I said then, some seven months ago, that we might be faced with a tax rate of as much as \$115.

The harsh truth of the matter is that the situation has grown even worse than we thought at that time. The state Legislature has failed to appropriate the money we normally get from the state. Other actions also have further reduced our income from state sources while at the same time increasing our expenses.

To be more specific, we are receiving in 1965 some 4 million dollars less from state corporation taxes than we received in 1964.

Action by the Legislature last year resulted in increased abatements, which must be made up in this year's tax rate.

A number of other factors, which are almost completely beyond my

control have resulted in increased costs, not of 20 million dollars, which I predicted in February, but more than 30 million dollars.

Let me spell out just what has happened:

The cost of welfare and veterans services, which we have been urging the state to assume as its proper burden, has increased 7½ million dollars more than the cost last year. Because these programs are set by federal and state laws, I, as mayor, cannot exercise any substantial control over these costs.

The state Legislature over my opposition permitted the citizens of Boston to vote increases in salaries, particularly to the Police Department, which will cost us an additional 4 million dollars this year.

The cost of pensions and retirement, over which I have no control whatever, will rise \$1.5 million this year.

The cost of reserves against tax abatements, which are returned by

AFL-CIO Aid Fund

Organized labor has thrown its complete support to the new Massachusetts Bay United Fund, according to Salvatore T. Camelio, president of the Massachusetts State Labor Council AFL-CIO and head of the United Fund Labor Committee.

All segments of organized labor are represented on the 42-member Labor Committee, which issued the following statement in support of the new concept of regional fund raising:

"The Labor Committee, representing all segments of organized labor in this area, fully endorses and pledges active support for the new Massachusetts Bay United Fund. The committee endorses the principles of the United Fund Chapter Plan, and urges all members of labor to pledge their Fair Share of One Hour's Pay per Month while employed on a payroll deduction basis at their place of employment."

No Skateboarding

Park Commissioner William J. Devine has barred skateboarding from the paved paths of Boston Common.

Calling the practice dangerous to both participants and pedestrians, Commissioner Devine noted that it is punishable under department rules with a \$20 fine.

Tax Rise . . .

(Continued from front page)

state law and over which I have no control, will rise \$1,200,000 this year.

The cost of Boston schools has increased this year over last year by 2½ million dollars although I have done everything in my power to require good financial management from the Boston School Committee.

Finally, we must raise some \$8,000,000 this year which was required to finance uncontrollable increases last year.

To these uncontrollable increases must be added those increases in the city and county budgets over which I do exercise control and for which I am willing to accept full responsibility. These total \$2,600,000.

When all of these increases are added to the loss of revenues from the state, it means simply that we must raise an additional \$31,600,000 in 1965.

If we did nothing, this alone would mean we would have to increase the tax rate by \$22 instead of \$15.

Fortunately, we have worked hard to find ways of increasing our income without raising property taxes any more than necessary, thus the rate will go up only \$15 and not \$22.

First, we have managed to increase the income collected by city departments by some 2½ million dollars. This represents, of course, 2½ million that will not have to be raised on the tax rate.

Secondly, and more important, the renewal of the city has now progressed to the point where the tax base is increasing rather than decreasing.

We definitely have passed the point of declining property values, and henceforth new construction will result in greater and more rapid increases in the property tax base.

In 1965, valuations have increased by some 30 million dollars. When translated into city receipts, this means some 3½ million dollars which will not have to be raised on the tax rate.

Finally, because of a recent change in the law, the part of the MBTA deficit which must be paid by Boston has decreased in 1965 by some \$3,500,000. This is \$3,500,000 that does not have to be raised on the tax rate. I must warn you, however, that this same change in the law may well result in an enormously increased deficit assessment on Boston next year unless action is taken by the General Court in this session.

Summarizing the situation, although expenses have increased by some \$31,600,000, we have managed to offset these increases by some 9½ million dollars if increased valuations are included.

Unfortunately, this is all we can do at the present time, and we must live with a tax rate of \$115 per thousand for the remainder of this fiscal year.

This does not mean, however, that we will simply give up in our efforts to stop these spiralling costs.

You, the citizens of Boston, and I, must now redouble your efforts, as I will redouble mine, to impress upon the members of the

General Court the urgency of giving Massachusetts property taxpayers the relief which they must have.

For this reason, I want to direct a very personal message to every Boston resident!

As you know, the Legislature has been considering for seven months various plans which would have provided relief to our property taxpayers.

It is my honest conviction that if either one of the plans before the Legislature had been adopted in time, we could have had a 1965 tax rate even lower than our present rate. But no plan was adopted and it is now almost too late to expect any relief from the General Court to affect the 1965 rate.

Do we give up?

No.

There is, I believe, an excellent possibility that a plan can still be adopted in 1965 which will give us relief next year.

I urge you to work with me in making known to your state senator or representative immediately your desire that a tax program be adopted this year which will give immediate relief to the property taxpayers in all the cities and towns of the Commonwealth, including Boston.

Employment Up

The number of Massachusetts nonfarm jobs in July jumped some 50,000 above last year's summer record of 1,977,900, the largest year-to-year gain for any July since the recovery period following the 1957-58 recession, J. William Belanger, director of the Massachusetts Division of Employment Security, announced.

Mr. Belanger reported that the unemployment rate for July was 5.2 percent of the state's work force, lower than in any comparable month since 1959.

The 50,000 increase was widely distributed between manufacturing and nonmanufacturing employment. Trade, service and government employment showed an increase of more than 33,000 jobs.

Tax Rise . . .

(Continued from page 646)

Let me remind you that most states outside Massachusetts now pay all the welfare costs, which Massachusetts cities and towns must pay.

In Boston, this amounts to about 16 million dollars.

Let me remind you once again that Massachusetts ranks as the last state in the union in the amount of aid it gives to cities and towns for schools. If Massachusetts followed the pattern set by progressive states, Boston could expect perhaps as much as another 15 million dollars in state aid for education.

And finally, if Massachusetts would follow the pattern of other New England states in transferring the costs of county government to the state, it would mean an additional savings to Boston residents of as much as 10 million dollars.

Both of the major tax plans before the General Court contain provisions which would make approximately these amounts of money available to Boston. If one of these plans is enacted as a result of our efforts, we can bring Massachusetts up to the level of other progressive states and at the same time give as much as 40 million dollars worth of relief to the overburdened property taxpayers of the City of Boston.

CITY REGISTRAR'S REPORT FOR AUGUST

City Registrar William J. Kane announced the monthly figures on Boston births, marriages, and deaths for August as follows:

	1965	1964
Births.....	1,876	1,871
Marriages.....	800	729
Deaths.....	929	908

Totals for eight months, January to August, are as follows:

	1965	1964
Births.....	14,024	14,928
Marriages.....	4,660	4,609
Deaths.....	8,573	8,237

The above figures refer to births, marriages, and deaths which occurred in Boston, regardless of official places of residence.

Mayor Labels School Committee Plan Deficient on Two Counts

(Following is the statement by Mayor John F. Collins regarding his August 31 meeting with the Boston School Committee):

The direct responsibility for providing the best possible quality of education lies with the Boston School Committee.

I have repeatedly made clear that the city administration will do all it can to expedite school construction to replace antiquated structures and relieve overcrowding.

Insofar as new construction is concerned, I should point out that the School Committee did not submit approved new school projects to the School Buildings Commission until last month. The School Buildings Commission acted within days to vote its approval of the program.

If the \$29,000,000 for new schools, which I approved in 1963, is being spent too slowly, the fault clearly does not lie with the School Buildings Commission.

Regarding the immediate problem, the best temporary solution to overcrowding in the Gibson and Endicott Districts is the one of limited, voluntary transportation originally recommended by Superintendent Ohrenberger and endorsed by State Education Commissioner Owen B. Kiernan. The School Committee regrettably has not seen fit to endorse that plan, even though the School Department has been busing hundreds of pupils annually for many years.

The use of the Beth El School would not solve the overcrowding problem in the school districts concerned. Only slightly more than half the pupils concerned could be accommodated—the others would remain in overcrowded classrooms in Gibson and Endicott.

The committee's proposal is no solution for it very clearly poses the threat of jeopardizing vital state and federal aid funds. However, limited transportation of pupils on a voluntary basis from Gibson and Endicott will relieve the present overcrowding and meets with the State Education Commissioner's approval, thereby preserving state aid.

The committee's stand thus is deficient in two ways. First, hundreds of students face double sessions or overcrowding. Secondly, under existing law, there can be no doubt that the city is being asked to face the potential risk of denial of vital state and federal aid funds.

We cannot tolerate such double jeopardy and I have advised the School Committee most strongly that they must immediately provide an educationally sound solution for these school districts or risk the very serious consequences which can result. In this connection I have urged them to seek immediately, technical assistance from the State Department of Education as provided in Chapter 641.

Registration Off

Boston's list of eligible voters for the September 21 preliminary election shows a drop of 24,834 from the total in the presidential election last fall.

The figures, compiled at the registration deadline for this month's ballots, also showed an 8,000 drop since the comparable municipal election two years ago.

This year's total of 291,865 reflects the city's trend downward in the number of eligible voters, but there may be levelling off soon.

Election Commission Chairman George Greene saw the lesser-than-usual decline as a sign the voter strength may soon be stabilizing, and then starting to climb again for the first time since after World War II.

The current registration figures compare with 316,581 in September, 1961, with 300,687 as of the preliminary election two years ago, and 316,699 in last November's presidential election.

City Hospital Awards 47 Diplomas at 87th Commencement Exercises

Nursing diplomas were presented to 47 members of the Boston City Hospital School of Nursing at the school's 87th commencement at John Hancock Hall, September 10.

One of the young nurses honored was Miss Sylvia Sacchetti, daughter of Dr. James V. Sacchetti, the hospital's acting superintendent. The school is one of the nation's oldest.

Presiding at the exercises was President William H. Ellis, Jr., of the board of trustees. Commencement speaker was Miss Helen J. Keliher, instructor in the Pediatric Department of BCH and a member of the clinical faculty at Boston University Medical School. She is an alumna of the City Hospital School.

Miss Margaret B. Welch, R.N., nursing school director, presented the graduates to President Ellis and Dr. Sacchetti for the award of diplomas and commencement prizes.

The graduating class members were guests of the school faculty at the traditional Commencement

Week faculty dinner in the Vose House Library, September 8.

Baccalaureate services were held on September 9 at Immaculate Conception Church with the Very Rev. Francis J. Gilday, S.J., pastor and former City Hospital chaplain, delivering the sermon.

Members of the graduating class were:

Joyce Augenstern, Judith Bickford, Marilyn Bishop, Roberta Bonaccorso, Sheila Brennan, Catherine Bright, Clare Burke, Edith Carrigan, Catherine Creedon, Susan DaCorta, Maureen DaSilva, Mary Delaney, Patricia Doherty, Judith Donovan, Julie Downie, Eileen Duff, Carole Fitzgibbon, Patricia Ford, Joanne Frawley, Mary Garrity, Rita Gibbons, Frances Green, Emily Henck, Ann Hickey, Marilyn Jordan, Kathleen Kean, Christine Landroche, Mary Lavery, Mary Loughlin, Carol Marshall, Barbara McLean, Diana O'Leary, Mary Procanik, Marita Pyne, Anne Rossi, Andrea Rubin, Eileen Russell, Maureen Ryan, Sylvia Sacchetti, Sheila Schwartz, Katherine Shea, Catherine Smith, Bea Sweatt, Joan Teska, Mary VanDriel, Irene Vaughn, Kathryn Yorke.

Miss Fuoco Honored

A reception was tendered, September 5, to Diane Rose Fuoco of 19 Franklin street, Hyde Park. She is the daughter of Supervisor Henry Fuoco of the Parks and Recreation Department. Diane will enter the Newton Convent of the Franciscan Order. She is a 1965 graduate of St. Clare's High School, Roslindale; a member of the C.Y.O.; and former instructor for the Park Department.

Dimes Aid BCH Clinic

The March of Dimes Foundation has established a volunteer prenatal care service at the prenatal clinic at Boston City Hospital.

Volunteers for the clinic, scheduled to start 10 A.M., September 13, will be directed by Mrs. Jean W. Blake, hospital director of volunteers.

Mrs. John F. Collins, wife of Mayor Collins and Women's Activities chairman of the Massachusetts Bay Chapter March of Dimes, will inaugurate the service.

Poland Spring A.A.

The 3d annual reunion of the Poland Spring Caddy Camp Alumni Association has been scheduled for September 17 to 19, at the Poland Spring Hotel, according to word from John E. Hurley, of Dorchester, group president.

"They'll come from eight states," Mr. Hurley said, "to play in the annual Alumni golf tournament, to meet old pals, to talk about the good old days, and in many cases to recapture memories left behind in their youth."

The annual golf tournament is the convention highlight. This year a new trophy is offered. The "Thomas J. Turley Memorial Trophy," to perpetuate the memory of

Tom Turley, a former camp director and first president of the group, will be unveiled. Tourney winner receives a miniature, and his name is engraved on the master memorial to be given a spot of honor at Poland Spring Inn. Former winners, Dan McMorro of Dorchester, and Walter W. Parmalee of Portland, have both filed entries and will be gunning for the Turley Memorial.

Annual election of officers is scheduled for Sunday morning, September 19, following the Memorial Mass for all departed members. Homecoming banquet, and awarding of prizes will be held Saturday evening, the 18th.

James Leo Trayers of Hyde Park, Mass., is convention chairman.

VETERANS' RETIREMENTS

The Boston Retirement Board has approved the following veterans' applications for retirement:

Daniel W. Sheeran, 105 Charles street, bindery forwarder, Library Department.

Thomas DiReeno, 171 Bowen street, South Boston, junior building custodian, Health Department.

Winifred Leamon, 1165 Dorchester avenue, Dorchester, head clerk, Welfare Department.

Guy (Gaetano) E. Leone, 61 Hiawatha road, Mattapan, assistant executive secretary and assistant registrar of voters, Election Department.

James DeBello (also known as Vincenzo DiBello), 16 Dartmouth place, working foreman-maintenance mechanic (painter), Maintenance Division, Fire Department.

Harry C. Lambrecht, 4 Lorette street, West Roxbury, working foreman-apparatus repairman, Maintenance Division, Fire Department.

Edward H. Cardoza, 180 Stimson street, West Roxbury, senior custodian, Washington Allston School.

Leo R. Howe, 69 Hooker street, Allston, senior building custodian, John F. Kennedy School.

Various unions have also individually expressed their endorsement of the new Massachusetts Bay United Fund.

Another cooperative arrangement between labor and the United Fund is the union counselor program, whereby union members are trained to provide information on health, welfare, and youth-related services available to union people as well as the general public.

Contributors to the Massachusetts Bay United Fund help finance the operation of 332 health, welfare, and youth-related services that assisted 600,000 persons in the past year.

Dennis A. O'Neil

Dennis A. O'Neil, 81, of 249 Foster street, Brighton, former Boston City Councillor and 35-year city employee, died on August 25 in St. Elizabeth's Hospital following a one-week illness.

Born in East Boston, he was once associated with his father in the coal business. He resided for more than 40 years in Brighton.

He was elected to the old Common Council in 1908 and to the Legislature in 1910.

He was a member of the Massachusetts Legislators Association.

Mr. O'Neil served as city paymaster in the treasurer's office from 1915 to 1950.

He leaves three sisters, Genevieve, Loretta, and Melda O'Neil, with whom he resided, and two brothers, Frank and Edmund, also of Brighton.

LOTS OF ICE

Senator E. L. Bartlett of Alaska was twitting House Speaker Sam Rayburn of Texas about the fact that Alaskan statehood has reduced Texas to second rank in size.

"If you don't keep quiet," Rayburn warned, "a few Texans will come to your state and throw a cocktail party. When they get through using your ice, you'll be smaller than Rhode Island."

WELFARE COSTS FOR JULY

Following is a summary of the Welfare Department for July:

Although the Old Age Assistance caseload continued its downward trend, the outlay for this category rose slightly above last month due to increased medical expenditures. The opposite was true of the other categories. Here, reduced medical payments lowered over-all costs in spite of a caseload increase. During the month 1,388 applications were approved, offsetting 1,067 closings for a net increase of 321 cases. A total cost of \$4,785,767 represented a 1.9 percent decrease of \$94,869 below last month.

Old Age Assistance: Illness and depletion of resources combined to form the principal reasons underlying the approval of 139 applications, a drop from the 170 of last month. However, the number of closings also lessened from 196 to 163 for a net caseload reduction of 24 compared to 26 in June and an over-all total of 11,039 cases. Expenditures rose by \$2,350 to \$1,089,480 as noted above.

Medical Assistance for Aged: Of the 257 approvals given during July, 95.7 percent (246) were new applications. Of these more than a quarter (68—26.4 percent) were transfers from other categories. Death was the major factor in 214 closings, accounting for 126 or 58.9 percent. Although an increase of 43 cases occurred, due to reduced medical payments, an outlay of \$1,147,446 was \$54,100 below last month.

Aid to Families with Dependent Children: Activity in this category saw 490 applications taken, 453 approvals, 31 denials, and 316 closings. Of the approvals given, 20.5 percent involved applications filed by unemployed fathers. Return to employment was a factor in more than one third of the closings. An expenditure of \$1,734,635 represented 36.2 percent of the total budget.

Disability Assistance: Of the 100 new and 24 reapplications approved, nearly three quarters were on the basis of unemployment following illness. Death was the primary cause of 93 closings. A caseload of 3,962 represents an increase of 31 above last month and called for an expenditure of \$618,066, a decrease of \$3,288 below June's costs, fewer medical payments being the influencing factor.

General Relief: A caseload increase of 134 resulted from the combination of 415 approvals and 281 closings. Loss of employment due to illness or discharge accounted for 84.3 percent of the approvals, return to employment for slightly more than one quarter of the closings. The largest expenditure decrease occurred in this category, the \$196,130 spent representing a drop of \$28,032, 12.5 percent below last month.

New Look Coming

The MBTA, now called the "T" will begin its massive \$9 million program of modernizing the system's 40 stations next month.

The first station to be revamped will be Arlington Street Station, which for several years has been earmarked as the experimental station of the line.

The modernization is expected to take months.

"When it is finished, it certainly will be something to see according to our plans and something in which the riding public can be proud," said Gen. James McCormack, chairman of the "T."

Cost of the program is being shared by the federal government which has allocated \$6 million for the project.

"The face-lifting program will also be the first tangible improvement since Government Center Station, that the riding public will see," a "T" spokesman said.

Months and months of planning have been put into it by the "T's" own planning staff, headed by Robert Keith, and the Cambridge Seven Associates.

When finished, Arlington Street Station, although structurally the same, will be almost unrecognizable.

New lighting will replace the present antiquated drop lights and the colors in the new ceramic tile will accentuate the modern look.

New styled turnstiles will also be installed and the heavy exit turnstyle will be replaced with one of aluminum.

New benches will be placed on the platforms and added to the new look will be the first closed circuit TV monitors, for added security on the system and protection for the system's riders.

Hot Dogs, Too

Congressman Emmanuel Celler of Brooklyn told this story on the floor of Congress on August 25:

A man goes into a Chinese restaurant, and there, to his amazement, he sees a Negro waiter—a Negro waiter in a Chinese restaurant. And he says to the waiter, "What is the specialty of the house?" And the Negro waiter says, "Pizza pie."

"Pizza pie in a Chinese restaurant?"

And he said, "Yes, this is the Yiddish neighborhood."

That gives you some idea of what is happening in this country and what is happening is good for the land because all those races are amalgamated and they are here for a good, common purpose, the weal and the welfare of our nation, to which all these diverse races make contribution.

Francis A. Berrigan

Francis A. Berrigan, 73, of 53 Collins street, Hyde Park, chief of the Bureau of Sanitation for the City of Boston, died on August 25 in Carney Hospital after a long illness.

He served in an executive capacity with the city for more than 57 years.

A graduate of South Boston High School, he took extensive courses at Harvard University and Massachusetts Institute of Technology and was considered an expert in the field of sanitation.

He leaves a daughter, Mrs. Doris A. Cunniffe of Hyde Park; two brothers, Harold and David Berrigan; two sisters, Mrs. Loretta O'Neil and Mrs. Annie Sullivan, and three grandchildren.

ELECTION DAY SPECIAL

A Nevada ranch girl, casting her ballot on a voting machine for the first time, stayed behind the curtain so long that an election official called out to ask if she was having trouble.

"Well, I've got the doojiggers all pointed at the names I want to vote for all right," she replied in a tone of considerable anxiety, "but I'll be darned if I can find where **you** put in the quarter."

CONTRACTS AWARDED WITHOUT ADVERTISING

BUILDING DEPARTMENT. CONSULTANT SERVICES

DEAR MAYOR COLLINS:

On April 2, 1965, your Honor authorized the award of a contract between the city, acting through its Building Commissioner, and Charles M. Evans, doing business as Charles M. Evans & Associates, consultants in Public Administration and Finance, with offices at 73 Tremont street, Boston, Mass., to act as a consultant in connection with and to assist in the implementation, within the City of Boston Building Department, of those recommendations as were contained in and/or consistent with, the general plan for the department, as proposed by Edward N. Hay & Associates in the year 1961, following an administrative study of the Building Department. The contract then proposed was to encompass the period from April 1, 1964 to December 31, 1964, inclusive, at a cost to the city of not to exceed \$10,000 for such services as might be performed during the contract period, at the hourly rates therefor to be prescribed in the contract. On May 14, 1964, your Honor approved the proposed contract, and on December 30, 1964, your Honor approved an amendment to the said contract extending the time for completion of the services at no increase in the maximum cost to the city. The contract, as amended, was canceled by mutual agreement as of February 18, 1965.

The services provided under the aforesaid contract have been carried on in a satisfactory manner and, I believe, will prove to be of considerable benefit to the City of Boston. It is apparent, however, that we will need to utilize the services of the consultant for the remainder of 1965 in order to reach final accomplishment of the goal of the aforementioned Edward N. Hay & Associates' study.

Your Honor will recall that in my letter to your Honor dated March 25, 1964, it was stated that it might be necessary to utilize the services of the consultant for a substantial part of 1965 in order that the goals of the aforementioned study might be fully achieved and that, in such event, your Honor's written permission to enter into a second contract with the consultant, the outside cost of which could not then be known, would be requested.

Accordingly, your Honor's authority is respectfully requested to dispense with public advertising in the *City Record* and to enter into a second contract with the said Charles M. Evans, doing business as Charles M. Evans & Associates, consultants in Public Administration and Finance, to encompass the period from April 1, 1965, to December 31, 1965, inclusive, at a cost to the City of Boston of not to exceed \$10,000, which cost would be based upon hourly rates identical with the rates prescribed in the earlier contract previously mentioned.

Since the services involved here are of a distinctly professional nature which Charles M. Evans has, in the past, carried out in a successful and efficient manner, public advertising procedures would, in my opinion, serve no useful purpose to the city.

Respectfully,

R. E. YORK,
Building Commissioner.

ELECTION DEPARTMENT. BALLOTS

DEAR SIR:

The Board of Election Commissioners respectfully requests that permission be given them to award the contract for printing the Preliminary Municipal Election Ballots to the firm of Wright & Potter Printing Company of 32 Dene street, Boston, without advertising for bids, at the following prices:

For 27,500 "Challenged" ballots (100 for each of the 275 voting machine precincts) printed "Challenged Ballot" in red ink across filing, \$489.35.

For voting machine cards and specimen ballots for 275 precincts (718 Shoup and 745 Automatic Voting Machines) with 10 specimen

ballots for each precinct, \$6,080.40.

Total, \$6,569.75.

The ballots for the Preliminary Election will contain 275 precinct changes and 22 ward changes in the makeup. Great care will be required on the part of the printer, as the time for printing such ballots and ballot labels and making a delivery to this office is very limited.

The Wright & Potter Printing Company is the only printing concern especially equipped to do this work, having printed the State and City of Boston ballots for a long period of years. For this reason, and to safeguard the voters of the city as far as possible against error, this request is made.

Respectfully yours,

GEORGE H. GREENE, *Chairman.*

GOVERNMENT CENTER COMMISSION. TESTING AND CONTROL SERVICES

DEAR MR. MAYOR:

On October 20, 1964, your Honor authorized the award of a contract between the city, acting through this commission, and Herman G. Protze of 36 Jaconnet street, Newton Highlands, Mass., for certain testing and control services to be carried out in connection with the second and final stage of construction of the new City Hall, for a sum not to exceed \$85,000. The various services, as enumerated in the contract, relate to the cast in place concrete, precast concrete, structural steel fabrication and erection, welding of reinforcement, and soils testing and inspection. The services are to be carried out thereunder in accordance with the requirements of the specifications and the relevant sections of the Boston Building Code, at the rates per hour for the particular services as set forth in the contract.

We have been assured by the results of the testing and control services being carried out under the aforementioned contract that the portions of the new City Hall thus far constructed apparently conform satisfactorily to the structural requirements of the project specifications. It is apparent, however, that the construction work is proceeding at a considerably slower pace than the commission had reason to expect at the time of your Honor's approval of the aforementioned contract, so that the actual total volume of the required testing and control services will greatly exceed that which was anticipated at the outset, and it appears that the overall cost will as a result exceed our October 13, 1964, estimates.

Your Honor will recall that in the letter from the Chairman of this commission to your Honor dated October 13, 1964, the possibility of the total cost exceeding the then estimate of \$85,000 was expressed, and it was stated that your Honor's authorization might at some future date be requested for permission to amend the proposed contract to such amount as might later seem necessary.

The commission therefore respectfully requests your Honor's authority to dispense with public advertising in the *City Record* and to amend the contract executed October 29, 1964, with Herman G. Protze in the additional amount of not to exceed \$90,000. Since the services involved here are of a distinctly professional character, public advertising procedures in amending the aforementioned contract would, in our opinion, serve no useful purpose to the city.

For your Honor's further information, although time has not permitted the commission to arrive at a final conclusion, we are presently in the process of trying to establish whether or not the need for the subject additional testing and control services has come about in part, at least, due to a lack of diligence and efficiency on the part of others. There is being prepared for submission to the commission a detailed report through which we hope to identify the cause, or causes, of the increase in the volume of the required testing and control services, including the dates and times during which any such factors may have existed. If the commission finds that others were in fact at fault, damages would be assessed against them accordingly.

Respectfully,

ROBERT M. MORGAN, *Chairman.*

POLICE DEPARTMENT ORDERS

August 16.

Personnel Order No. 773.

Sergt. Edward R. McGrath, Bureau of Field Operations, is hereby detailed to report to the commanding officer of the Criminal Investigation Division, effective Monday, August 16, 1965, at 7:45 o'clock A.M. for duty until further orders.

August 16.

Personnel Order No. 774.

David L. Brody, 80 Davidson road, Framingham, was appointed a provisional assistant biological chemist in this department, Criminal Investigation Division, effective Monday, August 16, 1965, at a salary of \$90 per week.

August 20.

Personnel Order No. 776.

Detective William J. Roe and Patrolman Lawrence J. McNamara of the Vice Control Unit of Criminal Investigation Division are hereby commended for meritorious police duty and each is granted two days' additional vacation.

Detective Roe and Patrolman McNamara with the cooperation of Sergt. John Reagan of the Massachusetts State Police and Patrolman John Egan of the Brookline Police Department conducted an extensive investigation for a period of six weeks in illicit narcotic traffic. On July 27, 1965, these officers armed with a search warrant issued in the Roxbury Municipal Court for narcotic drugs at 22 Buswell street, Apartment 5, in Boston, occupied by one David L. Monosson, 21 years of age, single, went to this location and gained entrance to the apartment. They seized 30 kilos (2 pounds, two ounces to a kilo) of marihuana, a small quantity of hashish, a byproduct of marihuana, a scale and sieve used for processing, a pipe to smoke hashish, and a .25 caliber Italian Beretta automatic pistol, which had been received in the shipment of marihuana.

At the time of the search the occupant, Monosson, was not in the apartment. The officers secreted themselves and upon Monosson's return, he was placed under arrest for unlawful possession of marihuana. He was booked at District 4, then fingerprinted and photographed. He was bailed for his appearance in the Roxbury District Court on Wednesday, July 28, 1965.

On that date, he was arraigned before Judge McKenney and charged with unlawful possession of marihuana and unlawful possession of marihuana with intent to sell. His case was continued to August 17, 1965, and bail set at \$25,000. Experienced narcotic officers estimated this seizure in the illicit narcotic market to be approximately \$250,000.

POLICE DEPARTMENT ORDERS

(Continued from previous page)

United States Customs and Narcotic Bureaus were notified and given all pertinent data of the arrest. The pistol was turned over to the department ballisticsian.

The Police Commissioner is pleased to recognize the devotion to duty and excellent manner in which Detective Roe and Patrolman McNamara handled this most difficult of investigations. This type of police service reflects credit on the entire department.

August 26.

Personnel Order No. 778.

The following reassignments are hereby ordered to take effect Friday, August 27, 1965, at 7.45 A.M.

Patrolman Donald P. Riley, from District 3 to District 14.

Patrolman William J. Haskins, from District 5 to District 10.

Patrolman Frederick W. Bleiler, from District 8 to District 10.

Patrolman Thomas J. Brennan, from District 10 to District 15.

Patrolman Robert W. Dufault, from District 10 to District 9.

Patrolman Vincent J. Costa, from District 14 to District 10.

Patrolman John L. Ridlon, from Criminal Investigation Division to District 5.

August 30.

General Order No. 268.

The Rules and Regulations of the Boston Police Department are hereby amended, effective as of Wednesday, September 1, 1965, at 7.45 o'clock A.M.

RULE 36—PAY AND ALLOWANCES.

On page 54, strike out section 9 and insert in place thereof the following new section:

Section 9. In an emergency, when a member of the force is seriously injured in the performance of duty, he shall be taken at once to the nearest hospital. In other instances, when a member of the force is injured in the performance of duty to the extent that medical or surgical treatment is necessary, he will go or be taken to the Boston City Hospital or to any hospital of his choice within the City of Boston, or he may be treated by any physician of his preference. In applying for treatment he shall notify the hospital or the physician that his injury was sustained in the performance of police duty and is in the nature of an industrial accident.

The Police Commissioner shall determine whether it is appropriate under all circumstances for the City of Boston to indemnify such police officer for his reasonable hospital, medical,

surgical, nursing, pharmaceutical, prosthetic and related expenses incurred as the natural and proximate result of an accident occurring, or of undergoing a hazard peculiar to his employment, while acting in the performance and within the scope of his duty without fault of his own. Applications for indemnification will be submitted to the Police Commissioner in duplicate on forms provided for this purpose, accompanied by an itemized bill for each expense.

An Indemnification Advisory Board consisting of three members, one of whom shall be designated as Secretary, will review each application for indemnification and will recommend to the Police Commissioner whether such payment or payments are appropriate. On each such application the approval by the Corporation Counsel for the City of Boston will be obtained before a final determination is made by the Police Commissioner.

In reporting any injury sustained in line of duty requiring medical or surgical treatment, the Commanding Officer concerned will include this information in his report and will recommend that the injured officer be examined at the Police Clinic, Boston City Hospital, as soon as possible.

August 30.

General Order No. 266.

The Rules and Regulations of the Boston Police Department are hereby amended effective as of Wednesday, September 1, 1965, at 7.45 o'clock A.M.

RULE 36—PAY AND ALLOWANCES

On page 54, strike out the first paragraph of section 16 as most recently amended and insert in place thereof the following new paragraph:

"If a member of the police force of the Police Department of the City of Boston is required to serve a tour of duty during the twenty-four-hour period commencing at 7.45 o'clock in the morning of January first, February twenty-second, April nineteenth, May thirtieth, July fourth, the first Monday of September, October twelfth, November eleventh, Thanksgiving Day or Christmas Day, or the day following when any of the five days first mentioned, or October twelfth, November eleventh or Christmas Day, occurs on Sunday, he shall be given an additional day off, or, if such additional day off cannot be given because of personnel shortage or other cause, he shall be entitled to an additional day's pay; provided, that any such member who, through a rotation of shifts, works different days in successive weeks shall be granted, in each year in which the number of holidays falling on his regular days off is in excess of the number of holidays in such year falling on

Saturday, additional days off equal to the excess, and, if any such additional day off cannot be given because of personnel shortage or other cause, an additional day's pay shall be allowed in lieu thereof."

August 30.

General Order No. 267.

The Rules and Regulations of the Boston Police Department are hereby amended effective as of Wednesday, September 1, 1965, at 7.45 o'clock A.M.

RULE 18A—AUXILIARY SCHOOL PATROL.

On page 27, strike out section 11 and insert in place thereof the following new section:

Section 11. School Traffic Supervisors will be compensated at the rate of \$25.00 per week for each full week while so employed during the regular school year. Pay will be allowed for all holidays and school vacation periods which occur during the regular school year and for any day when school sessions are officially cancelled due to inclement weather. Whenever a School Traffic Supervisor is absent from duty because of illness or other personal reason, deduction will be made at the rate of \$5.00 per day for such absence.

August 30.

Personnel Order No. 779.

The Boston Retirement Board having approved of same, the following-named police officers are retired from active duty under the provisions of the State-Boston Retirement System, effective at the close of business, Tuesday, August 31, 1965:

Sergeant-Detective John V. Miller, Criminal Investigation Division (detail to District 3).

Patrolman John J. Doyle, District 4.
Patrolman George L. Kenney, District 15.

Patrolman Francis A. Sullivan, District 5.

CONTRACTS AWARDED WITHOUT ADVERTISING

CLUTCHES, CYLINDER HEADS, ETC.

DEAR MR. MAYOR:

On Thursday, August 5, 1965, after public advertising in the *City Record* on July 24, 1965, bids were received for repairing clutches, cylinder heads, brake shoes, brake cylinders, flywheels, transmissions, etc.

The following proposals were received:

Boston Clutch Works, Inc., \$3,600; Arcand Sales & Service, \$4,072.50.

The low bidder failed to complete his bid in that he did not file the complete contract but filed only the proposal section.

As nothing would be accomplished by re-advertising the contract, I ask your permission to reject all bids and to dispense with further advertising and award a contract to Boston Clutch Works, Inc., 791 Tremont street, Boston, Mass., in an amount not to exceed \$3,600.

Very truly yours,
JOHN F. FLAHERTY,
Commissioner of Public Works.

WIDE VISTAS

A Texan, visiting in San Francisco, was taken by a friend to the top of the Mark Hopkins Hotel to marvel at the view. "Over there," said the friend, "is the Golden Gate Bridge. A marvelous sight—too bad the fog's so bad we can't see it. To your right is Alcatraz, which also is quite a sight from here if the fog wasn't so thick." The friend went on, rattling off one sight after another that wasn't visible because of the overcast.

"Down in Texas," the visitor said finally, "we ain't got much scenery, but you shore can see it all!"

FIRE DEPARTMENT ORDERS

August 27.

General Order No. 32.

EMERGENCY SIGNAL.

Effective immediately, Emergency Signal 10-18 is established within this department and shall be added to Card Q of the Instruction Cards.

When this signal is received over Fire Department tapper, it indicates that a "Riot Condition" exists. In most cases this signal will be followed by the nearest fire alarm box to the scene of the incident. When this signal is received followed by the box, it indicates that the first alarm apparatus will respond in the usual manner to the location and will also alert the entire department that a "Riot Condition" exists. ("Riot Conditions" defined as three or more persons assembled together in doing some lawful or unlawful act in a violent or tumultuous manner causing great terror to the public.)

If, upon arrival at the scene, a fire is in progress, the department will go to work in the usual manner to contain the fire. The officer in charge will seek necessary assistance from the police for the protection of department personnel.

If no fire exists upon arrival, the officer in charge will report to the superior officer in charge of the police at the location and be governed by his instructions as to the deployment of Fire Department personnel. In the event that more assistance is needed at a location as outlined above, multiple alarms will be sounded in a similar manner as first alarms with the necessary prefix denoting the multiple alarm, and apparatus response will be in accordance with the regular running card assignment. The deputy chief on duty as well as the assistant fire chief assigned to respond during that period will respond to the scene and coordinate the operations of the department.

The lighting plant shall respond in each instance during the hours of darkness when this emergency signal is struck.

There may be instances where a still alarm of apparatus is requested by the Police Department to handle minor incidents or to assist the police in some manner. In these instances, the Fire Alarm Office, in addition to notifying the still alarm companies, will transmit this information to the district fire chief.

In addition, the Fire Commissioner and chief of department will be notified when any of the above conditions exist.

Additional instructions will follow.

September 1.

BOBBY AGREED

While still a U. S. Senator, John F. Kennedy received a letter from a West Coast lawyer suggesting that he get out of politics so that his younger brother Robert, the former counsel of the Senate rackets committee, could replace him in the Senate and run for the Presidency.

"I am taking your recommendation under advisement," Jack Kennedy wrote the lawyer. "I have consulted Bobby about it and, to my dismay, your idea appealed to him."

INVITATION FOR PROPOSALS FOR GRADING, PAVING, CONCRETE CURBS, AND CHAIN LINK FENCE AT THE ELLEN H. RICHARDS SCHOOL, 80 BEAUMONT STREET, DORCHESTER, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, with offices at 480 Boylston street, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least one half thereof is owned by a citizen of the United States, for grading, paving, concrete curbs, and chain link fence at the Ellen H. Richards School, 80 Beaumont street, Dorchester, Mass.

Proposals will be received until 12 o'clock noon (Eastern Daylight Saving Time), Thursday, September 23, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of a certified check, on a responsible bank or trust company, payable to the City of Boston, in the sum of \$500, shall be submitted with the copy of the proposal filed with the Awarding Authority.

No bidder may withdraw his bid within thirty days (Saturdays, Sundays, and legal holidays excluded), after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond and also a payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR ROOFING AND SHEET METAL WORK AT THE MINOT SCHOOL, DORCHESTER, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for roofing and sheet metal work at the Minot School, Dorchester, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 27, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$450. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 20, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

(Continued on next page)

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Roofing and Sheet Metal Work.....\$350

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of the subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon (Eastern Daylight Saving Time), Thursday, September 23, 1965, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Plumbing\$150

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 143, of the General Laws, as amended.

Proceedings of City Council.

ADDENDA TO CITY COUNCIL
PROCEEDINGS OF JUNE 14,
1965.RESOLUTION APPROVING SOUTH COVE
URBAN RENEWAL PLAN.

City of Boston,
Office of the Mayor, June 14, 1965.
The Honorable City Council,
City of Boston.

Gentlemen:

On June 10, 1965, the Boston Redevelopment Authority approved the South Cove Urban Renewal Plan. This approval, together with other findings and determinations required under Chapter 121 of the General Laws was made by the Authority after consideration of statements, views and opinions expressed at a public hearing held by the Authority on June 3, 1965, in the Project Area to consider the Plan.

Under the provisions of Chapter 121 of the General Laws and Title I of the Federal Housing Act, the Authority must secure approval of the plan by the Mayor with the approval of the City Council. This approval must include certain findings and is to be made after due notice and a public hearing. Federal requirements specify that such notice should be published at least once a week for two successive weeks with the first notice to be published not less than ten days prior to the date of the hearing. The attached list indicates the documents which are herewith submitted for your consideration.

I have been urged by the citizens of the South Cove area and by the Boston Redevelopment Authority to recommend favorable action on this plan to you at the earliest opportunity. I do so with the conviction that this plan is in the best interests of the City of Boston and the people of the South Cove. They are entitled to timely action on it. I fully recommend it to you and request your approval.

Respectfully,

JOHN F. COLLINS, Mayor.

RESOLUTION OF BOSTON CITY COUNCIL
APPROVING URBAN RENEWAL PLAN
AND THE FEASIBILITY OF RELOCA-
TION FOR THE SOUTH COVE URBAN
RENEWAL PROJECT, NO. MASS. R-92.

WHEREAS, Under the provisions of Title I of the Housing Act of 1949, as amended, the Housing and Home Finance Agency (hereinafter called the "HHFA") is authorized to provide financial assistance to Local Public Agencies for undertaking and carrying out urban renewal projects;

WHEREAS, It is provided in such Act that contracts for financial aid thereunder shall require that the Urban Renewal Plan for the respective Project Area be approved by the governing body of the locality in which the Project is situated and that such approval include findings by the governing body that: (1) the financial aid to be provided in the contract is necessary to enable the Project to be undertaken in accordance with the Urban Renewal Plan; (2) the Urban Renewal Plan will afford maximum opportunity, consistent with the sound needs of the locality as a whole, for the rehabilitation or redevelopment of the Urban Renewal Area by private enterprise; (3) the Urban Renewal Plan conforms to a general plan for the development

of the locality as a whole; (4) the Urban Renewal Plan gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the general vicinity of the site covered by the Plan and (5) the objectives of the Urban Renewal Plan cannot be achieved through more extensive rehabilitation of the Project Area;

WHEREAS, The Boston Redevelopment Authority (hereinafter called the "Authority") has entered into a planning contract for financial assistance under such Act with the HHFA, acting by and through its Administrator, pursuant to which Federal funds were approved for the Urban Renewal Project (hereinafter called the "Project") identified as "South Cove Urban Renewal Project—No. Mass. R-92" and encompassing the area (hereinafter called the "Project Area") described in Section 102, which is a part of the South Cove Urban Renewal Plan hereinafter referred to;

WHEREAS, Hospital, and educational institutions are located in the Project Area;

WHEREAS, The Authority has applied for additional financial assistance under such Act and proposes to enter into an additional contract or contracts with the HHFA for the undertaking of, and for making available additional financial assistance for, the Project;

WHEREAS, The Authority has made detailed studies of the location, physical condition of the structures, land use, environmental influences, and social, cultural and economic conditions of the Project Area and has found and determined that the character and conditions of the Project Area as described in the Project Area Report submitted herewith do exist that the Project Area is at present a decadent area in that it is an area which is detrimental to the safety, health, welfare and sound growth of the community because of the existence of buildings which are out of repair, physically deteriorated, unfit for human habitation, obsolete, in need of major maintenance or repair, because of much of the real estate in recent years has been sold for non-payment of taxes or upon foreclosure of mortgages, because buildings have been torn down and not replaced and which, under existing conditions, it is improbable that the buildings will be replaced, because of a substantial change in business and economic conditions, because of inadequate light, air and open space, because of excessive land coverage, and because diversity of ownership, irregular lot sizes, and obsolete street patterns make it improbable that the area will be redeveloped by the ordinary operations of private enterprise; and further, that the Project Area is at present a substandard area, wherein dwellings predominate, which, by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitation facilities, and a combination of these factors, are detrimental to the safety, health, welfare and sound growth of the community;

WHEREAS, There has been prepared and referred to the City Council for review and approval an Urban Renewal Plan for the Project Area, dated June 8, 1965, entitled "Boston Redevelopment Authority—Urban Renewal Plan—South Cove Urban Renewal Area—Project No. Mass. R-92," consisting of 34 pages of text and 4 maps, duly approved by the Authority on June 10, 1965, and submitted to the City Council by his Honor the Mayor;

WHEREAS, The Mayor has submitted to the City Council with the Urban Renewal Plan, but not as a part thereof, the following documentation:

(1) Resolution of the Authority authorizing submission of Urban Renewal Plan and supporting documentation to Mayor of the City of Boston, City Council and the State Division of Urban Renewal;

(2) A resolution of the Authority finding the Project Area to be an eligible urban

renewal area and the Project to be an eligible hospital and educational project;

(3) A resolution of the Authority approving the Urban Renewal Plan and approving the Relocation Program;

(4) Relocation Program

(5) Proposed Cooperation Agreement between the City of Boston and the Authority, together with attached resolution authorizing execution of the Agreement by the Authority; and

(6) South Cove Urban Renewal Project Area Report.

WHEREAS, A general plan entitled "1965-1975 General Plan for the City of Boston and the Regional Core" (hereinafter called the "General Plan") has been prepared and was duly approved by the Authority on March 11, 1965, and is recognized and used as a guide for the general development of the City of Boston as a whole;

WHEREAS, The Authority, pursuant to Chapter 652 of the Acts of 1960, has been granted the powers and shall perform the duties conferred on planning boards of cities in Massachusetts by general laws applicable to Boston, including Section 70 of Chapter 41 of the Massachusetts General Laws, and has also been granted the powers and shall perform the duties conferred by statute or ordinance on the former City of Boston Planning Board, and in such capacity, has found that the Urban Renewal Plan conforms to the General Plan, and the City Council has duly considered said findings;

WHEREAS, The Urban Renewal Plan for the Project Area prescribes certain land uses for the Project Area and will require, among other things, changes in zoning, the vacating and removal of streets, alleys, and other public ways, the establishment of new street patterns, the location and relocation of sewer and water mains and other public facilities, and other public action;

WHEREAS, Under Section 104 of Title I of the Housing Act of 1949, as amended, the City must make local grants-in-aid, as defined in Section 110(d) of said Title I, equal at least to one third of the actual net project cost for the Project Area as finally determined and approved by HHFA in accordance with said Title I, and the Loan and Grant Contract to be entered into between the Authority and HHFA;

WHEREAS, A proposed Cooperation Agreement between the Authority and the City has been presented to the City Council providing for the making of the local grants-in-aid by the City;

WHEREAS, The Authority has prepared and submitted a program for the relocation of individuals and families that may be displaced as a result of carrying out the Project in accordance with the Urban Renewal Plan (referred to as the Relocation Program and is contained in the documentation submitted herewith);

WHEREAS, As part of such Relocation Program there is additional supporting information and data respecting said program which has been prepared by the Authority as a result of studies, surveys and inspections;

WHEREAS, The members of the City Council have general knowledge of the conditions prevailing in the Project Area and of the availability of proper housing in the City for the relocation of individuals and families that may be displaced from the Project Area and, in the light of such knowledge of local housing conditions, have carefully considered and reviewed such proposals for relocation;

WHEREAS, It is necessary that the Boston City Council take appropriate official action respecting the Relocation Program and the Urban Renewal Plan for the Project, in conformity with the contract for financial assistance between the Authority and the HHFA;

WHEREAS, Title VI of the Civil Rights Act of 1964, and the regulations of HHFA effectuating that Title, provide that no person shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to

discrimination in the undertaking and carrying out of urban renewal projects assisted under Title I of the Housing Act of 1949, as amended;

WHEREAS, A public hearing on the Urban Renewal Plan was held, after due notice thereof, at which time the City Council received evidence and heard extensive opinions from residents of the Project Area and other persons with respect thereto, and all persons desiring to be heard on the Urban Renewal Plan were so heard; and

WHEREAS, The members of the City Council have carefully considered and reviewed the Urban Renewal Plan in the light of (1) the supporting documentation submitted herewith as aforesaid; (2) the proceedings at the aforesaid public hearing; and (3) the general knowledge of the City Councilors with respect to conditions prevailing in the Project Area and in the City of Boston as a whole; now, therefore, it is hereby

RESOLVED, (1) That it is hereby found and determined that the Project Area is a decadent and substandard area and qualifies as an eligible Project Area under Chapter 121 of the Massachusetts General Laws, as amended;

(2) That the Urban Renewal Plan is hereby approved and the City Clerk is hereby directed to file a copy of the Urban Renewal Plan with the minutes of this meeting;

(3) That it is hereby found and determined that the financial aid provided and to be provided pursuant to the contracts for Federal financial assistance pertaining to the Project is necessary to enable the Project to be undertaken in accordance with the Urban Renewal Plan;

(4) That it is hereby found and determined that the Urban Renewal Plan will afford maximum opportunity, consistent with the sound needs of the City as a whole, for the urban renewal of the area by private enterprise;

(5) That it is hereby found and determined that the Urban Renewal Plan conforms to the General Plan of the City of Boston;

(6) That it is hereby found and determined that the Urban Renewal Plan gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the Project Area;

(7) That it is hereby found and determined that the objectives of the Urban Renewal Plan cannot be achieved through more extensive rehabilitation of the Project Area;

(8) That it is hereby found and determined that, in addition to the elimination of slums and blight from the Urban Renewal Area, the undertaking of the Project in such area will further promote the public welfare and the proper development of the community (a) by making land in such area available for disposition, for uses in accordance with the Urban Renewal Plan, to hospital and educational institutions for redevelopment in accordance with the use or uses specified in the Plan; and (b) by providing, through the redevelopment of the Project Area in accordance with the Plan, a cohesive neighborhood environment compatible with the functions and needs of hospital and educational institutions;

(9) That it is hereby found and determined that the extent of hospital and educational uses proposed under the Urban Renewal Plan is compatible with the functions and needs of the residential community and businesses located in the Project Area;

(10) That it is hereby found and determined that the program for the proper relocation of the individuals and families displaced in carrying out the Project in decent, safe, and sanitary dwellings in conformity with acceptable standards is feasible and can be reasonably and timely effected to permit the proper prosecution and completion of the Project; and that such dwellings or dwelling units available or to be made available to such displaced individuals and families

are at least equal in number to the number of displaced individuals and families, are not generally less desirable in regard to public utilities and public and commercial facilities than the dwellings of the displaced individuals and families in the Project Area, are available at rents or prices within the financial means of the displaced individuals and families, and are reasonably accessible to their places of employment;

(11) That in order to implement and facilitate the effectuation of the Urban Renewal Plan hereby approved, it is found and determined that certain official action must be taken by the City Council with reference to said Plan, and accordingly, the City Council hereby (a) pledges its cooperation in helping to carry out the Urban Renewal Plan; (b) requests the various officials, departments, boards and agencies of the City having administrative responsibilities in the premises likewise to cooperate to such end and to exercise their respective functions and powers in a manner consistent with the Urban Renewal Plan; (c) stands ready to consider and take appropriate action upon proposals and measures designed to effectuate the Urban Renewal Plan; and (d) authorizes the Mayor of the City of Boston to execute and deliver in the name of and on behalf of the

City, a Cooperation Agreement substantially in the form of the one presented to this meeting;

(12) That additional financial assistance under the provisions of Title I of the Housing Act of 1949, as amended, is necessary to enable the land in the Project Area to be renewed in accordance with the Urban Renewal Plan and accordingly, the filing by the Authority of an application or applications for such financial assistance under said Title I, is hereby approved;

(13) That the United States of America and the Housing and Home Finance Administrator be, and they hereby are, assured of full compliance by the City Council with regulations of HHFA effectuating Title VI of the Civil Rights Act of 1964.

(The documents referred to in the foregoing communication are annexed hereto.)

Referred to the Committee on Urban Renewal.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

Mayor Discusses City's Complex School and Tax Problems in Radio-TV Talk

(Following is the text of Mayor John F. Collins' television talk on Channels 4, 5, and 7, at 6 p.m., September 8):

At the outset I would like to thank the television stations of Boston for giving me this opportunity to talk with you. I had intended to use a prepared script but the rapidly changing events of the last few days and the last few hours have caused me to discard that script, and I am going to chat with you largely extemporaneously in an endeavor to explore two twin problems.

Problems are no strangers to cities. Problems beset cities across our nation, and Boston, at the moment, is confronted with what I might describe as twin problems.

First we have the overriding financial problem. The question of our tax rate and our relationship with the Commonwealth.

Secondly, of course, we have the problem of fair educational opportunity affording all of our children an equal opportunity to obtain an education.

My purpose is to discuss these twin problems whose roots are largely intertwined and to suggest a course of procedure to you, my fellow citizens. Let's remember tomorrow, Thursday, September 9, is the day on which our children return to school. It has traditionally been a day of new dresses, new trousers, books, pencils, and school bags, and tomorrow we trust all of your children will be healthy and able to go to school.

In most schools perhaps there will be more desks and chairs than pupils. In a few schools it had appeared up until a few months ago, and even in some cases up until a few hours ago that there would be more pupils than seats. You remember that this dilemma has confronted the School Committee over a period of several months ever since last June. You remember, too, that your superintendent, Superintendent Obrenberger, recommended an educationally sound plan which followed the precedent which had already been established by the School Committee which has been busing, as you know, about a thousand pupils each year for the last several years.

Superintendent Obrenberger recommended that the five or six hundred additional children who were in need of busing be bused from these overcrowded schools to schools which had available seats.

You remember then, that shortly thereafter the majority of the School Committee saw fit not to follow Superintendent Obrenberger's suggestion. You remember, too, at one time double sessions were discussed — that plan was discarded.

At one time there was contemplated that the Beth El School be used. And then it was pointed out, perhaps by Commissioner Kiernan, as well as by lawyers who were concerned with this problem that taking

children from three racially imbalanced schools, and creating a fourth racially imbalanced school would not only be educationally improper but might also jeopardize

BRA Man At Yale

A fellowship for graduate study in traffic engineering at Yale University was awarded to Robert H. Murphy of 16 Nathaniel road, Winchester, by the Insurance Institute for Highway Safety, Washington.

Mr. Murphy, principal transportation planner in the Boston Redevelopment Authority, will begin one academic year of study in the Yale Bureau of Highway Traffic early this month. The bureau has graduated more than 600 professional traffic engineers.

Mr. Murphy was awarded one of five fellowships given by the committee on transportation of Yale University.

The award was presented to Mr. Murphy by Joseph P. Hegarty, Jr., counsel and manager of the New England office, American Mutual Insurance Alliance of Boston, at the BRA office in City Hall Annex.

Atty. Gen. Rules Wood Island Logan Property

The Massachusetts Port Authority has title to Wood Island Park, East Boston, and could use the land for extending Logan Airport runways, Attorney General Brooke ruled this week.

Governor Volpe had asked the Attorney General to determine whether the park was under the control of the Port Authority or the

federal and state funds under the recently enacted state law which pertains to racial imbalance, and under the federal legislation that covers this subject.

Now I am informed, after last night's School Committee meeting, that Superintendent Ohrenberger, who has endeavored to deal with this matter courageously and directly, has devised a plan which has been announced within the last hour or so and which I trust will be in your late evening papers and certainly in tomorrow's papers.

It has to do with children who attend the Christopher Gibson School, the Sarah Greenwood and the William Endicott Schools, the Norcross School and the Hyde-Everett District. Superintendent Ohrenberger has suggested that the children report as directed to those schools or to those schools or locations in the immediate environs of those schools and that the pupil-teacher ratio which will result will satisfy parents who are seeking proper educational opportunity for other children.

Now I want to make it plain that all of us understand the concern of parents for educational opportunity

for their children, and I think that most parents recognize that Superintendent Ohrenberger is a professionally competent dedicated man who is endeavoring to provide just that kind of opportunity for your children.

Tomorrow calls for restraint and patience on the part of everyone concerned with this problem, on the part of parents whom I trust will follow Superintendent Ohrenberger's suggestion, and as you send your children to the schools they are assigned, no matter how they get there, by voluntary short-term busing or whether they walk to schools in the immediate area, they will be in schools with better pupil ratios perhaps than last year.

In any event, Superintendent Ohrenberger stands ready tomorrow, the next day, and each day thereafter to consult with representatives of parents groups and to make whatever improvements are possible in the general situation.

Your Mayor does business at City Hall every day and I am ready to consult and serve as intermediary between Superintendent Ohrenberger and the School Committee, and the parents who are affected.

But while we are resolving this short-term problem by intelligent dialogue and by continuing discussions and by legal methods, we must also concern ourselves with the second of those twin problems which I mentioned earlier.

You remember that Boston's tax rate and the tax rate of all of the older cities and indeed many of the towns of our state went up this year to an alarming degree. We in Boston have been able for five years by economizing and reorganizing to hold our tax rate. This year it went up \$15.

Everyone discusses the tax rate, just as everyone discusses the weather, but very little progress has been made at rectifying the relationship between the state and the cities and towns. I want to make it plain that this is a historic dilemma which has brought us to the brink of crisis tonight.

The present-day legislators are merely the heirs to this situation. Traditionally, Massachusetts has

considered that its cities and towns are creatures of the Commonwealth and only those rights which are specifically delegated to them may be exercised by cities and towns.

In Massachusetts, Boston and all the other cities are required to pay a considerable amount of money. For example: for welfare costs, this cost Boston 16 million dollars last year for this item alone. Most other enlightened and progressive states long since decided that the factors and causes which create a welfare load do not originate in Boston, Chelsea or Worcester or Springfield or New Bedford. But, indeed, they are either national or regional in origin. Therefore, these costs are borne between the federal and state government and the local taxpayer and rent payer has to pay nothing for these purposes.

Again, regrettably, aid to veterans is another item which is usually paid for by the federal and state government. Here in Massachusetts the cities and towns pay a considerable amount.

We have a court system here, we call it a state court system, and yet your City of Boston has been required to spend some 6 million dollars for court costs last year and about 9 million dollars for over-all county operations.

Regrettably, also here in Massachusetts, in which the first public school was created, our proud state is almost last in the roll call of states when it comes to state aid to local education.

This problem has been studied interminably by experts. The most recent and most outstanding of which are the dedicated members of the Kiernan Commission and the Willis Commission. And they have recommended that a massive infusion of state-collected revenue is required to rectify the roller coaster pattern of educational opportunity in this state. Because, really, when you boil it down, what it comes to is this: A child who is born and reared in Boston or in one of the older cities, or one of the less fortunate areas in our state, in fact, that child is not

given an opportunity for the same kind of education that a child born in the more favored, affluent location is accorded.

This has nothing to do with creed or color or race. This applies equally to all children in these older areas. And this is why the experts of the Kiernan Commission and the Willis Commission have said that this money which is collected by the Commonwealth should be distributed to cities and towns in inverse ratio to their ability to pay.

In other words, the poorer cities and towns, the cities and towns with the problems, with the welfare load, with the public hospitals, with the problem of urbanization get more per capita than the lucky towns which have few of these problems. And, therefore, what is required, and what everyone has long since recognized, is that not less than two hundred million dollars should be collected by the Commonwealth and about 150 to 160 million dollars of this be distributed back to the cities and towns to take over by the Commonwealth, the burden of welfare and to give the cities more money for education, and take over the responsibilities of court costs.

Now let's all of us just admit this problem exists. And the time for pointing fingers and arguing as to who has been to blame should end—this is silly and it is nonsensical. We can't afford it anymore. There's enough credit to go around if this problem is resolved.

Now, as your Mayor I seek no quarrel nor partisan advantage but I must point out to all of you as citizens that these twin problems are here. This problem of school overcrowding—we're going to resolve in Boston by intelligence and restraint, following the educational advice of our professional educator, Superintendent Ohrenberger.

There may be a few moments or hours of discontent while the

details are being straightened out, but I think if you will follow Superintendent Ohrenberger you will not have any difficulty tomorrow and if all of you who love this old city, and I know that everyone listening to me does, then you will tell your legislator that you understand the need for a 200-million-dollar tax program which the Governor has advocated, which most legislative leaders have advocated.

These legislators are human beings, they need your cooperation and assistance. Tell them to enact this legislation so that your children will have an opportunity for improved education with better schools and better facilities.

So, let us together, ladies and gentlemen, and all of you citizens of Boston, who together with your Mayor love this old city, let no

inconsiderate action, let no mistake, let no chance action or chance word, strike a spark to ignite the cauldron of unrest.

Tomorrow have your children report to the school that Superintendent Ohrenberger has designated.

There is time for discussion—this is the time for intelligent action—and I know that intelligent action will be taken. And as your Mayor I am ready, after I return from Washington tomorrow, where I'm going at 7.15 and I'll be back in town about two o'clock to meet with anyone.

Follow your Superintendent of Schools, Superintendent Ohrenberger, and we'll resolve this problem and our city will become what you want it to be, a city which you can love and have faith in.

Thank you very much.

B. U. Med. Center Plans Cancer Research Lab.

A major step forward in the treatment of cancer will be made with the establishment of the country's first combined cancer research and teaching laboratory at the Boston University Medical Center. Plans for the laboratory were announced on September 15 by Dr. William A. Meissner, president of the American Cancer Society's Massachusetts Division. The new laboratory, made possible by an initial \$20,000 grant from the Society, will be located in the Center's University Hospital in Boston's South End.

Dr. Peter J. Mozden, cancer coordinator at the Medical Center, said the new laboratory will permit studies of patients, cancer research, and cancer teaching, to be blended and coordinated in a far more effective and meaningful way.

Dr. Mozden said, "It is our hope that such a facility will not only attract young physicians to the cancer field and contribute to the knowledge of cancer through research, but also in the end permit the rapid and direct application of new findings and techniques to the cancer patient."

The immediate goal of the laboratory is to make available facilities for cancer teaching and research aimed primarily at the young physician in training.

Dr. Mozden and his associates have observed that medical students, interns, residents, nurses, and others turn to the cancer section for information regarding cancer management and the application of new cancer techniques. The opportunity to stimulate these people to pursue their interest in cancer is not fully realized, primarily because of the lack of facilities in which teaching of this type can be carried out. Dr. Mozden's group felt that some thought and planning must occur to develop the proper environment and provide up-to-date facilities and teaching media so that these young people will be encouraged to pursue this interest.

The new laboratory will be provided with modern up-to-date learning materials including a selected library, visual aid materials, microscopes, and a gradually increasing slide collection. One facet of this would be to establish a selected "case history" system whereby actual case histories, selected to

(Continued on next page)

(Continued from page 671)

display the varying biology of a given tumor system, would be kept on file as a single unit, complete with medical history, laboratory data, photographs, slides, etc., to offer the young physician a unique and complete learning experience as regards that particular tumor. Usually this data is scattered among the several departments that participate in the total care of the patient.

The investigative work to be pursued in this unit will largely revolve around patient studies, involving both in-patients and out-patients. Of particular interest to the Center doctors is the relation of hormone patterns to breast cancer. Investigations will also include the administration of anti-cancer drugs to patients on a long-term basis.

Dr. Mozden stated that it was the belief of his cancer team that with supporting laboratory facilities immediately available, such studies, usually requiring the admission of a patient to the hospital, can be carried out on an ambulatory basis; thus saving sorely needed hospital beds for the more acute cases.

"If experience shows this to be true," Dr. Mozden said, "then a broader and more practical approach to cancer therapy will be feasible, perhaps laying the groundwork for the use of new drugs and other treatments yet to be developed. This aspect of the proposed cancer facility will enable us to provide a broader range of therapeutic approaches to the patients with cancer than is ordinarily available. It will not only make feasible the objective study and gathering of data that should be part of all new clinical investigations, but also permit the rapid and direct application of new findings and new techniques to the cancer patient."

VETERANS' SERVICES DEPARTMENT

Expenditures for veterans' benefits for June, 1965, show an increase of \$108,917.24 in comparison with expenditures for the corresponding period of 1964.

The 1,785 cases aided during the month of June, 1965, represented a total of 3,712 individuals benefited through the facilities of the Veterans' Services Department.

There were 165 cases closed during the month of June, 1965, because of obtaining employment, having been awarded unemployment compensation, receiving social security, and becoming eligible to receive financial assistance for miscellaneous reasons.

Metropolitan District Commission, which now operates the park as a recreation area.

There has been confusion and controversy over the Port Authority's proposed extension of the runways at Logan Airport. Residents have objected bitterly and appealed to legislators.

Attorney General Brooke said that residents and homeowners might bring suit in equity to prevent runway lengthening, as was done recently in California.

He described the issue as highly controversial and said he had spoken to legislators from the district and various citizens' groups.

The park has been managed "de facto" by the MDC with the approval of the Port Authority. Attorney General Brooke said, but that does not affect "de jure control" of the property.

President Ellis Hails Boston City's Nursing School as One of Best in World

Boston City Hospital's Nursing School is not only one of the nation's oldest but one of the best in the world, President William H. Ellis, Jr., of the hospital board of directors, told members of the 1965 graduating class on their commencement night on September 10.

"It has been my privilege," said President Ellis, "to stand in this hall on a number of Boston City Hospital graduations and in my lifetime I have attended many commencements. I've listened to many brilliant scholars and educators explain the meaning of the word 'commencement' when it applied to graduation exercises.

"I am still unable to comprehend what it means. I know only that it is a most meaningful dividing line between a stage in life when one begins to consider the future and what it holds and that period when one begins to assume the responsibilities of a worth-while role in this complex world.

"Presently, you will be receiving your diplomas.

"You will have achieved a status in life. You will be the holder of a nursing diploma—and if you will permit me to say so the diploma comes not alone from one of the oldest nursing schools in the world—it comes from one of the world's best.

"One of the most overworked words in the English language today is—'status.' That's another word which I don't fully understand.

"But for each of you it should mean much.

"For there is no profession in the world today more important than that of nursing. There is no higher praise than that contained in the observation we hear so often—'she's a good nurse.'

"In the years ahead your service to mankind will call for hard work and very often difficult sacrifice. During the professional careers that lie ahead you will know again and again the satisfaction that comes only to those who have dedicated their lives to serving their fellowman.

"In my talks with hospital administrators and others concerned with the operation of hospitals I find that there is one cause for basic agreement. No matter how we may differ on any other matter there is one fact that is echoed at every meeting—'we need more nurses.'

"Hospitals need more nurses. The nation needs more nurses. There are some 7,000 hospitals in this country. A reliable authority told me the other day that one of every five nursing positions in those 7,000-odd hospitals remains unfilled today.

"The world, and particularly our own nation, is more concerned with human health needs today than at any time in our history. Within the next decade the demand for qualified nurses may well be tripled and quadrupled over what it is now.

"You are about to become full-fledged members of a proud profession. I believe there is no human being who does not know the hunger for feeling wanted and being needed.

"As long as you live you will be a nurse. That is something no one can take from you.

"As long as you live you will be wanted. You will be needed.

"I was requested by Mayor Collins today to express to you his deep regret that he could not be with you tonight. He has asked me to extend to each of you his warmest congratulations and his hopes that you will know happy, successful careers.

"He has also asked me to speak a word of gratitude to your proud families, especially your parents. And, to his message I most earnestly add my own.

"Without the steady counsel of your loved ones, without their unstinting help, without their encouragement to go on when things seemed rough, not many of you would be here tonight.

"The three years just behind you have not been easy years. There were times when they seemed to drag.

"Tonight as you look back you'll start to realize they went by all too quickly. They have been the most momentous years of your lives.

"Consider them an investment—the most important investment you will ever make."

CIRCULAR LETTER NO. 16

To All Department Heads.

GENTLEMEN:

You are hereby directed to grant leave of absence, without loss of pay, to all employees of the city who are of the Jewish Faith, for the observance of Rosh Hashanah, beginning on September 26, 1965, sundown, and ending on September 28, 1965, at sundown, also on Yom Kippur beginning at sundown on October 5, 1965, and ending on October 6, 1965, at sundown.

Respectfully,

JOHN F. COLLINS, Mayor.

CONTRACTS AWARDED WITHOUT ADVERTISING

PUBLIC WORKS DEPARTMENT.
ENGINEERING SERVICES

DEAR MR. MAYOR:

On January 25, 1965, your Honor authorized the award of a contract for the carrying out of certain engineering services in connection with the construction or reconstruction of streets within the Washington Park Urban Renewal Area, Project No. Mass. R-24, to Fay, Spofford & Thorndike, Inc., 11 Beacon street, Boston, during the period ending January 25, 1966.

On the basis of work completed under a previous contract of similar nature and for an equal length of time, the total compensation payable was established with reference to stated hourly rates for technical personnel engaged in rendering the services, with a total amount to be paid under this contract not to exceed \$75,000.

It was estimated that the \$75,000 provided for the anticipated engineering requirements would result in the maximum sum payable to Fay, Spofford & Thorndike, Inc., being reached on or about January 25, 1966. However, the engineer, at the urging of both the Boston Redevelopment Authority and ourselves, increased its volume of engineering output to keep pace with the expanding scope of BRA plans. At this date, it is clear that the \$75,000 limit will be exhausted on or about October 15, 1965, and that an additional \$35,000 is needed to insure continuous services at the present rate of engineering output through to January 25, 1966.

Accordingly, in order to be sure that the Washington Park Urban Renewal Project engineering requirements suffer no delay, your Honor's authorization is respectfully requested in connection with the subject, Fay, Spofford & Thorndike, Inc., contract for engineering services as follows:

To dispense with public advertising in the *City Record* and to amend the contract in an amount not to exceed \$35,000, so that the maximum amount payable by the city under the contract may be increased to \$110,000. In view of the satisfactory performance already provided and the professional character of the additional services to be performed, public advertising procedures would in my opinion serve no useful purpose to the city.

Respectfully,

JOHN F. FLAHERTY,
Commissioner of Public Works.

TREASURY DEPARTMENT.

DUNCAN T. FOLEY,

Supervisor of Personnel.

DEAR SIR:

On August 18, 1965, Mary J. Gavin was appointed permanent clerk and typist in the Treasury Division of the Treasury Department. Mrs. Gavin was permanently employed in the clerical services in the Suffolk County Superior Criminal Court from May 7, 1923, to May 19, 1932, a period of nine years. In my opinion this prior experience makes her services more valuable to this department as a clerk and typist. I therefore request that her $\frac{1}{2}$ -, $1\frac{1}{2}$ -, $2\frac{1}{2}$ -, and $3\frac{1}{2}$ -year step-rate increments in the position of clerk and typist be determined under the provisions of Rule 9 (f) of the Compensation Plan to become effective September 22, 1965.

Very truly yours,

EDMUND W. HOLMES,
Temporary Collector-Treasurer.

Bridge Closings

The outbound half of the Summer Street Bridge will be closed to traffic for about one month to allow repairs, Boston Traffic Commissioner Thomas F. Carty announced on September 13.

Two-way traffic will be handled at reduced speeds on the remaining half, which spans the Reserved Channel adjacent to the Army Base.

Commissioner Carty also said Walworth street, between Belgrade avenue and Tyndale street, Roslindale, was closed on September 15 for about two weeks to permit repairs to the bridge over the New Haven Railroad tracks.

Coming Soon

You probably won't be up to greet it, but autumn begins this year at exactly 2.06 in the morning, Eastern Daylight Saving Time, on Thursday, September 23.

This is the moment, says John Patterson, director of the Charles Hayden Planetarium at Boston's

Museum of Science, when the sun crosses the equator from south to north, ushering in the autumnal equinox.

All over the world at this time day and night are equal, with twelve hours of sunlight and twelve of darkness. But while autumn begins in the northern hemisphere it's spring that will be blooming out all over in the southern hemisphere. And as our days shorten—working towards the first day of winter and the shortest day of the year—theirs will lengthen. C'est la vie on Planet Earth!

Blue Ribbon Panel

Mayor Collins appointed a blue ribbon panel of experts to decide on the development of a seven-acre renewal project on North Harvard street, Allston, on September 14.

The seven members of the panel are:

Charles W. Bartlett, president of the Boston Bar Association; Erwin D. Canham, editor, *Christian Science Monitor*; Gilbert H. Hood, president, H. P. Hood & Sons; Rev. Thomas Keane, St. Anthony's Church, Allston; Francis B. Sewell, secretary of the Boston Society of Architects; Joseph M. Smith, chairman of the Allston Civil Association, and Richard R. Wood, vice-president of Hummelen & Co., Inc., real estate.

Mayor Collins, in announcing the appointments said local studies which were reexamined by the Federal Urban Renewal Administration had shown the area was not feasible for rehabilitation.

The panel, he said, will decide whether relocation housing should be put on the site, "or whether the new federal rent supplement program should be used to permit lower rents for occupants who wish to return, or whether we should explore the possibility of cooperative and condominiums."

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the award of contracts, without advertising, based on the following communications:

BUILDING DEPARTMENT, BUILDING RAZED

DEAR MR. MAYOR:

The following houses have been condemned by me as being in an unsafe and dangerous condition. Notices have been sent to the owners, but they have taken no steps to abate the dangerous condition. These buildings are a menace to the neighborhood. The locations follow:

7 Princeton street, Ward 1.

Accordingly, in conformity with the provisions of chapter 479, Acts of 1938, as amended, particularly section 116(d) thereof, I have asked and have received your Honor's permission to enter these various premises and to raze the structure.

Bidders were requested to submit an aggregate bid for the entire lot of houses, but to break down their bids to show the charge against each separate address. This breakdown is necessary for later departmental use in billing demolition costs incurred against the individual property owner of each house.

We have solicited invitation bids, award to be made to the lowest qualified bidder, and have received the following:

Allstate.—7 Princeton street, Ward 1, \$2,475.
Mystic—7 Princeton street, Ward 1, \$3,500.

Allstate Building Wrecking Company, 6 Bonwood street, Newton, Mass., has submitted the lowest aggregate bid. This company is thoroughly familiar with this work, it carries all necessary insurance and it has done satisfactory work for this department in the past.

Bids for the demolition of individual houses were not requested because it would be a practical physical impossibility for several different wreckers to conduct efficient wrecking operations simultaneously in individual houses. Under such conditions, there would be much mutual interference, and each wrecker would be exposed to severe hazards not under his control, by the operations of adjacent wreckers. I also believe that the aggregate cost of individual bids would be much higher than the cost of one bid for the lot, and that handling the houses as one unit results in lower administrative costs to the city than would result from handling the houses as separate bids and contracts. Unit handling results, however, in this case, in a contract price \$2,000 or over the statutory limitation upon awards that can be made without advertising, unless your Honor approves the transaction.

Accordingly, the general public safety so requiring, I ask your Honor's approval for the awarding, without advertising, as required in the city charter, of a contract in the sum of \$2,475 to Allstate Building Wrecking Company, 6 Bonwood street, Newton, Mass.

Very truly yours,

R. E. YORK,
Building Commissioner.

DEPARTMENT OF SCHOOL BUILDINGS. PURCHASE OF EQUIPMENT, NOTRE DAME ACADEMY

DEAR MR. MAYOR:

As the Boston School Committee has voted to lease for school use from the Boston Redevelopment Authority the building and adjoining lands now occupied by the Notre Dame Academy located on 2893 Washington street, Roxbury, I respectfully request permission to enter into a written contract with the aforesaid Notre Dame Academy without advertising for bids for the purchase of certain cafeteria equipment, sound equipment, and other miscellaneous materials and apparatus which were exempt from the BRA taking, for the sum of \$11,937.

The purchase of the present cafeteria apparatus and fixtures now in place, with the auxiliary piping, wiring, etc., will result in

a great reduction in cost to the city by obtaining it from the present owners.

The cost of the cafeteria equipment, which constitutes about two thirds of the total price being paid, was arrived at in the following manner: The present owners obtained Jones, McDuffee and Stratton, Inc., of 221 North Beacon street, Brighton, to appraise said equipment. Said company returned a figure of \$8,807.50.

The Department of School Buildings retained H. A. Johnson Company of 155 North Beacon street, Brighton, to make an appraisal. Their figure was \$7,490. The Notre Dame Academy has agreed to accept the lower figure of the Department of School Buildings' appraiser.

The sound system and equipment, with forty-five stations, were installed only a few years ago at a cost of \$7,000. The city's purchase price is \$1,200.

In addition, 400 lockers are being purchased at a cost of \$2,000, and other miscellaneous items of furniture, stage curtains, school clocks, master clock, etc., at a cost of \$1,247.

Because of the nature of the purchase involved, no useful purpose would be served by advertising for bids.

Respectfully yours,

WILLIAM A. MCPHERSON,
Superintendent of Construction.

BRITISH LOGIC

My first liberty day in Portsmouth, England, fell on the Fourth of July, and I signed up for a tour of the local countryside. Our guide and host was a Royal Navy lieutenant commander who had volunteered to escort a group of officers from our ship. While we were eating dinner one very junior officer asked why the British were not celebrating our national holiday, the Fourth of July. Without a second's hesitation the British officer replied, "We celebrate the sailing of the *Mayflower* instead."

INVITATION FOR GENERAL BIDS FOR RAZING OF BUILDINGS AT 15, 17, 19, AND 21 CHARLES STREET, 1 AND 2 ARCADIA TERRACE, 10 TOLEDO PLACE, DORCHESTER, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for razing buildings at 15, 17, 19, and 21 Charles street, 1 and 2 Arcadia terrace, 10 Toledo place, Dorchester, Mass.

General bids will be received up until twelve o'clock noon (Eastern Daylight Saving Time), Monday, October 4, 1965, at the office of the Awarding Authority, fourth floor, 480 Boylston street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the form for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of specifications for the project on file at the office of the Superintendent of Construction of the Department of School Buildings designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

Specifications and other documents may be obtained at the office of the Awarding Authority.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 percent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, chapter 149, of the General Laws, as amended.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays and legal holidays excluded) from the opening of the general bid. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D inclusive, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the office of the Director of Hospitals, Administration Building, fifth floor, Boston City Hospital, 818 Harrison avenue, Boston, Mass., before twelve o'clock noon (Eastern Daylight Saving Time), Monday, September 27, 1965, forthwith, after which time limit for the filing thereof, the subbids shall be publicly opened and read aloud at the office of the Deputy Superintendent-Physical Facilities, Administration Building, fifth floor, Boston City Hospital, 818 Harrison avenue, Boston, Mass. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following list for the respective subtrades, shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Concrete	\$150
Electrical	\$6,850

No subbid may be withdrawn after the time for the filing of subbids and for five days (Saturdays, Sundays and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five days (Saturdays, Sundays and legal holidays excluded) after presentation of a subcontract to the subbidder selected for for that subtrade, by the general bidder selected as the general contractor.

The general bids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority as designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the signed set of plans and specifications on file as aforesaid.

Plans and specifications and other contract documents may be obtained at the office of the engineer, Jackson & Moreland, Division of United Engineers and Constructors, Inc., 600 Park Square Building, Boston, Mass., 02116, on or after 9 A.M. (Eastern Daylight Saving Time), Monday, September 20, 1965, upon deposit of a certified check payable to the City of Boston in the amount of twenty-five dollars (\$25) per set of plans and specifications. The amount of the deposit per set of plans and specifications will be refunded upon return thereof in good condition to the Awarding Authority with the general bid or upon return thereof in good condition to Jackson & Moreland, 600 Park Square Building, Boston 16, Mass., not later than thirty (30) days after the opening of general bids (Saturdays, Sundays and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of one hundred percent (100%) of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

Tenth Conferama To Be Held at War Memorial Auditorium November 18-19

Conferama Coordinator Lawrence W. Costello announced plans for the 10th annual conferama meetings. This year's series will be held at the War Memorial Auditorium, November 18 and 19.

Mr. Costello, who has served as coordinator for all previous conferamas, has sent the following communication to conferees:

As you are aware, a large segment of our municipal organization will be moving to new quarters within the next year and one half. This move necessitates a review of our present operations and a preview of future plans. As it would be impossible to cover each aspect of the transpositional process in the short period of a day and a half, we have endeavored to develop a program that will include some of the major issues that are being and will be considered prior to our moving. Our 1966 program will probably include several other issues that will be subject to scrutiny at that time.

The theme of our program will be "New Boston—Government Center Complex" and subjects to be discussed will feature the following:

- The New City Hall
- The Old City Hall
- The Government Center Complex
- Records Retention and Microfilming
- Data Processing Operations
- Courtesy and Service

Concerning the subject of the Old City Hall, we will be looking forward to hearing from as many conferees as possible during the course of this discussion to ascertain the feeling of the majority present as to what disposition should be made of this facility. Many ideas have been submitted concerning this issue but his Honor the Mayor is anxious to secure the reaction of employees to some of the suggestions offered before making a definite recommendation.

Although this program might appear to be of interest only to those employees involved in the transfer to the new building, I would like to point out that several of the subjects outlined will apply to all municipal employees regardless of whether or not they are numbered among those presently being considered for relocation.

Many of the operations in the new building will be either directly or indirectly connected with operations in locations far removed from the central operation and, if you desire to familiarize yourselves with some of these innovations or changes, it is your duty and obligation to be present throughout the entire program. This announcement is being forwarded at this early date to afford everyone an opportunity to give some thought to the subjects to be discussed and to be prepared to offer a suggestion or two that may be considered for inclusion in future plans.

We are looking forward to another successful meeting this year and, with your continued cooperation, we are certain that the results of our endeavors will prove beneficial not only to the members of our municipal organization but to the taxpayer as well.

Walter Baker Plant Sold to Clothing Firm

The Walter Baker Chocolate plant in Dorchester Lower Mills has been sold to Harry Cohen of Newton, treasurer of several clothing manufacturing firms in Roxbury. The sale was made before a planned Absolute Auction which was held by the Joe Day Company of New York.

Mr. Cohen stated that he expects the former chocolate plant would be used for clothing manufacturing with areas of the plant available for lease to other manufacturers. Papers will be passed November 1.

Included in the sale was four parcels on the Dorchester side of the Neponset River, number one: a group of brick manufacturing buildings from one to six floors; number two: a two-story wood frame with basement store and office building; number three: office building; number four: main manufacturing plants from one to six floors with three rail sidings along with 18 concrete silos for storage along with parking areas.

The buildings involved contain 523,000 square feet of floor space on 8.7 acres of land. The purchase price was not disclosed. Meredith & Grew of Boston acted as the exclusive agent.

BHA Names Cole

Chairman Jacob I. Brier of the Boston Housing Authority has announced the appointment of Malcolm Cole as Assistant Director of the Department of Tenant and Community Relations.

Ceremonies To Mark Roxbury Multi-Service Center's Dedication on Sunday, October 3.

Formal dedication and open house of the Roxbury Multi-Service Center, at 317 Blue Hill avenue, Roxbury, will take place Sunday, October 3, from 3 to 6 P.M.

The dedication will be held in the Patrick T. Campbell School, 77 Lawrence avenue, at 3 P.M. It will be followed by a ribbon-cutting ceremony and tour of the center, beginning at 4 P.M.

What Is It — The Roxbury Multi-Service Center is a new community center developed by Action for Boston Community Development, Inc. Under one roof it offers direct services to the residents of Roxbury and North Dorchester; providing legal employment, health, neighborhood, home help, and casework services for persons in need of them.

The Multi-Service Center, located in the heart of Roxbury, occupies a large, four-story brick apartment now converted into an attractive office building. In addition to office space, provision has been made for a reception and waiting room area, large rooms for community and board meetings, plus a two-room apartment used for home management training.

It's Purpose

Why Is It—This center, often described as the "house with a heart," has been established to provide accessible services to community residents that will strengthen family life and the neighborhoods of Roxbury, North Dorchester. It pro-

vides multiple services which many residents have been deprived of by a traditionally limited social welfare system.

A prime goal is to serve people with multiple problems in such a manner so as not to fragment them among a variety of helping agencies or to "lose" them between the functions of agencies. A definite responsibility is to integrate and coordinate services offered to families and individuals in a way not previously attempted by most community agencies.

Management of the center is by a board of directors composed primarily of residents from the Roxbury-North Dorchester Community. The Board is responsible for formulation of the center's policies and practices. It also selects personnel for the implementation of these policies into community services.

Staff members include: Gertrude Cuthbert, Executive Director, a graduate of Norwood High School, Simmons College, and the University of Pittsburgh School of Social Work. Mrs. Cuthbert was formerly employed in the Urban Leagues of Pennsylvania, New York, and Rhode Island. She is on a leave of absence from ABCD.

Assisting Mrs. Cuthbert is Hubert E. Jones, a graduate of Morris High School, New York; City College, New York, and Boston University School of Social Work. He has been formerly employed at the Boston Children's Service Association and Judge Baker Guidance Center.

Other staff members are: Jacqueline Arkord, Home Development Assistant; Mildred Carey, Informa-

tion Clerk; Letitia Divirgilio, Service Coordinator; Frances J. Hill, Child Welfare Worker; June G. Hopps, Neighborhood Worker; Melanie R. Houchins, Assistant to the Supervisor of Social Services; Regina E. Keating, File Clerk; Jacqueline L. Langham, Stenographer, and Roland E. Latham, Employment Counselor.

Also Pearl E. Lee, Home Development Assistant; Jeanne M. McHallam, Receptionist; Robert D. Montjoy, Controller; William L. Nunnally, Clerk; Joy B. Rabinowitz, Caseworker; Margaret M. Rose, Stenographer; Willis N. Rose, Building Superintendent; Doris W. Tatum, Receptionist; Richard H. Walker, Supervisor of Employment Services; Justin C. Williams, Supervisor of Social Services; Hazel W. Weston, Office Manager; Sheila I. Yarde, Administrative Secretary; Attorney Gertrude K. Weiner, Supervisor of Legal Services; Attorney Charles O. Hicks, Lawyer, and Gail C. Harris, Secretary.

Snow Removal Contracts for Winter 1965 - 66 Awarded to 14 Firms; Cost \$649,000

The Public Works Department reports that snow removal contracts totalling \$648,835 have been assigned to 14 firms, mostly by competitive bids.

"This is the first time arrangements have been completed so early," said Department of Public Works Deputy Commissioner Edward G. Powers.

Some sections of the city such as Charlestown do not attract many bids because of the terrain difficulties. This year a bid of \$55,820 by the Banfield Corporation was rejected.

"However, we did negotiate a contract with the same firm which calls for \$36,460 to be paid by the city for snow removal in that district," Robert Mehegan said. He is senior administrative assistant to Commissioner John F. Flaherty.

Annual Christmas Festival To Open Nov. 26

Mayor Predicts It Will Be "Most Colorful"

The 16th Annual City of Boston Christmas Festival will open this year on Friday, November 26, and run through the Feast of the Epiphany, January 6, it was announced by Mayor John F. Collins.

"I hope this year," said the Mayor, "to have the biggest and most colorful festival. All of the past Christmas festivals have been superb, but I expect this one to be the best yet."

"The public little realizes what an economic boon the annual Christmas Festival has been to Boston. Ever since it was inaugurated in 1950, Boston business has shown a substantial growth each year over the preceding year. Last year the retail trade enjoyed a 5 percent increase in dollar sales over the 1953 Christmas season."

"In view of the fact that the festival was started primarily to give the community a spiritual uplift during the holiday season, the material results have not only been surprising but astounding."

"During the festival season this year I expect that more than 1,000,000 persons will come here from all sections of New England to not only view the beautiful Yuletide displays on the Common, but to shop and otherwise entertain themselves at the theaters, hotels, restaurants, etc."

The festival this year will be again held under the direction of Colonel Paul Hines. It was he who created it in 1950 and has been its director annually ever since.

Mr. Hines, a former Boston newspaperman, says that if the Mayor's plans materialize, there will be more religious figures, lights, and other seasonal paraphernalia at the Common this year than during any previous festival. One of its outstanding features will be a priceless exhibition of hand carved creches, or nativity scenes, the likes of which has never before been publicly displayed.

Mr. Hines has a noted record of civic and military achievements. On the civic side he was chairman of promotion and publicity for the first two Boston Emergency Relief Campaigns, the forerunner of the present United Fund; the promotion director of World War II Emergency Red Cross fund-raising campaign and during the Mayor Hynes regime was director of the city-wide rehabilitation program.

During World War I he was one of the nation's few winners of four medals on the field of battle. He holds the Distinguished Service Cross, Silver Star, French War Cross with Palm, and the Verdun Medal.

IMPROVEMENTS VOTED

The Mayor and Public Improvement Commission have approved the following:

That this commission, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published June 26 and June 28, 1965, in the *Boston American* and the *Boston Herald*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made in Half Moon street, Dorchester district, consisting of increasing the curb radii at the southwesterly corner of Magnolia street, as shown on a plan marked "City of Boston, Public Works Department, Engineering Division, Half Moon Street, Dorchester, September 7, 1965, Frederick L. During the month of July, 1965, the department collected \$6,592.11 which represents refunds by former beneficiaries of veterans' benefits who were found to have drawn aid under circumstances which warranted its return to the City of Boston.

EDMUND F. HOHMANN, *Commissioner*.

Dr. William Brickley

Dr. William J. Brickley, 91, former medical examiner for Suffolk County and one of the nation's outstanding pathologists, died on September 20 at New England Deaconess Hospital.

He was appointed associate medical examiner in 1920 by the then Governor Calvin Coolidge and was named medical examiner in 1935.

Dr. Brickley was graduated from M.I.T. and then attended Harvard Medical School.

Up to his retirement in 1957, he had ruled on some 30,000 problem deaths in the county.

Dr. Brickley lived at the Hotel Eliot, 370 Commonwealth avenue.

In 1915, while he was in charge of the Haymarket Relief Station, Dr. Brickley broke into the public limelight when he restored a heart beat to a forger who had apparently committed suicide by poison.

Dr. Brickley gained national prominence through his treatment of the burned victims of the Coconut Grove fire in 1942.

For several years prior to the holocaust, Dr. Brickley was one of a team of doctors from the Harvard Medical School and the Massachusetts General Hospital who did research perfecting the treatment that was eventually to be used on the Grove fire victims.

A Solemn Requiem Mass was sung on September 23 at St. Cecilia's Church, Back Bay.

He leaves two nieces, Mary Ney and Kathryn Marawski, both of Dorchester.

IMPROVEMENTS VOTED

The Mayor and Public Improvement Commission have approved the following:

That this commission, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published June 26 and June 28, 1965, in the *Boston American* and the *Boston Herald*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made in Clayton street, Dorchester district, consisting of the increasing of the curb radii at the northwesterly corner of Feinton street, and the northerly corner of Leonard street, as shown on a plan marked "City of Boston, Public Works Department, Engineering Division, Clayton Street, Dorchester, September 7, 1965, Frederick L. Garvin, Division Engineer," and on file in the office of said department.

FIRE DEPARTMENT ORDERS

September 10.

General Order No. 34.

I. FIRE ALARM BOXES INSTALLED.

The following fire alarm boxes which were established in General Order No. 31, dated August 20, 1965, have been installed and connected in Circuit 33.

12-7414, Marian Villa, 4 Old Harbor street.

13-7414, Marian Manor, 40 Old Harbor street.

Company commanders will add these boxes to Circuit Card 33.

The designation of Box 13-7414 will be corrected to read as given above to correct error as given in General Order No. 31. Company commanders will correct "Marion" to "Marian" on assignment cards.

II. FIRE ALARM BOXES ESTABLISHED.

In the near future the following fire alarm boxes will be installed:

13-347, Walter Baker & Co., Inc., Pierce square, yard entrance. (Add to assignment card for Box 317.)

13-1519, University of Massachusetts, Boston, 100 Arlington street. (Add to assignment card for Box 1519.)

2333, Hemenway street, opposite Forsyth. (Assignment of apparatus same as for Box 2332.)

3258, Neponset avenue, opposite Chickatawbut street. (Assignment of apparatus same as for Box 3257.)

Circuit numbers for these boxes will be announced when boxes are installed.

III. FIRE ALARM BOXES DISCONTINUED.

The following fire alarm boxes have been removed from service and discontinued permanently:

12-4251, Navy Yard, Pier No. 5, head of pier, east side.

13-4251, Navy Yard, Pier No. 5, midway of pier, east side.

Company commanders will delete above boxes from assignment cards and from Circuit Card 93.

IV. CHANGE IN DESIGNATION OF FIRE ALARM BOX.

Due to change in name of street, the designation of Fire Alarm Box 2159 will be changed to read:

2159, Humboldt avenue and Washington Park Boulevard.

Company commanders will make above change on Assignment Card 2159.

V. BOSTON AUTOMATIC DATA.

Notice has been received from the Boston Automatic Company that the following signal has been discontinued:

Signal 1557, 371 West Fourth street. (AERO.) Laboure Center School, front section.

Company commanders shall add the following signal numbers to running cards of the Boston Automatic Company in this department:

Signal 1557, 29 Rita road, St. Brendan School, basement only. (Sprinkler.)

Apparatus to respond: Engine 20, Ladder 27, District 8. Nearest box is 3266.

Signal 1561, 371 West Fourth street, Laboure Center School, front section. (AERO.) Apparatus to respond: Engine 1, Ladder 19, District 6. Nearest box is 7221.

Signal 1562, 205 Gold street, Laboure Center School. Apparatus to respond: Engine 1, Ladder 19, District 6. Nearest box is 7225.

VI. CALL'S ASSIGNMENTS.

Company commanders shall add the following signal numbers to Call's running cards in this department:

Signal 394, Supreme Market (only), 500 Geneva avenue. (1 wet waterflow.)

Signal 398, Bradlee's Inc. (only), 500 Geneva avenue. (1 wet waterflow.)

Signal 399, all shopping area except Bradlee's and Supreme Market, 500 Geneva avenue. Apparatus to respond: Engine 17, Ladder 7, District 7. Nearest box is 3155.

Signal 411, Supreme Market, 4 Alger street. (Waterflow-wet.) Apparatus to respond: Engine 43, Ladder 20, District 6. Nearest box is 723.

VII. HIGH COMMENDATION.

At 147 A.M., August 31, 1965, the department responded to an alarm from Box 2132 for a fire in the dwelling house at 19 Greenville street, Roxbury, for which subsequently two alarms were sounded.

Upon arrival of Ladder Company 4, two occupants of the building were seen on a second-floor porch roof. A 20-foot ladder was raised, and Fire Fighter Arthur Glover removed the persons from the roof. They notified him that another man was still trapped in the building.

Fire Fighter Glover again ascended the ladder and entered the building which by now was heavily charged with heat and smoke. He groped through two rooms on his hands and knees and found an unconscious man whom he dragged back to the window with considerable difficulty. During this rescue, Fire Fighter Glover suffered severely from smoke inhalation. He passed the victim to Fire Fighter Fleming of Ladder Company 4 who carried him to the ground.

The rescue work was completed by Fire Fighter Glover without the use of a gas mask and before ventilation had been effected or before hose lines were run.

Inasmuch as Fire Fighter Glover performed the foregoing rescue work without thought of his own safety and at great risk to his person, the Fire Commissioner is pleased to commend him highly, and his case is referred to the Board of Merit for further consideration.

VIII. LETTER OF COMMENDATION.

The Fire Commissioner is pleased to publish the following letter for the information of the department:

"September 2, 1965.

MR. THOMAS J. GRIFFIN, *Commissioner*,
Boston Fire Department, 115 South-
ampton Street, Roxbury, Mass.

DEAR MR. GRIFFIN:

Last evening, September 1st, at approximately 5.15 P.M., I was summoned to administer the last rites of the Catholic Church to the occupant of an automobile involved in a serious accident in front of the Archbishop's Residence on Commonwealth avenue. It was a fatal accident, the worst I have ever witnessed.

My purpose in writing to you is to commend most highly the men of Engine Squad 29 under Capt. Raymond Frazel and the men of Ladder 11 of the Boston Fire Department, who responded to this emergency. These men worked feverishly, yet most efficiently to extricate the victims of this accident. Their work enabled me to administer the sacraments to the victims and to offer them spiritual consolation.

Certainly your men manifest the highest ideals and fulfilled the noble traditions of the Boston Fire Department. I trust that you will find it possible to convey to each of them my deep admiration and my heartfelt blessing.

With every best wish, I am,

Sincerely yours,

RICHARD CARDINAL CUSHING,
Archbishop of Boston."

SUFFOLK COUNTY.

COURT HOUSE.

HEATING SYSTEMS

DEAR MR. MAYOR:

On July 29, 1965, a general inspection of the heating system at the Suffolk County Court House was performed by the Royal Globe Insurance Company of Boston. Their report, a copy of which is enclosed, stated that a serious condition exists in the fire brick work in the boilers. The report further stated that this repair work demands immediate attention.

Upon notice from the Royal Globe Insurance Company of this condition, the Court House Commission authorized the Hufarelli General Contracting Company of Brighton, to conduct a survey of this work, a copy of which is also enclosed, outlining the necessary costs for both labor and materials to remedy this condition.

Since the above project is of an emergency nature and time is the prime factor with the heating season fast approaching, the Court House Commission respectfully requests your Honor's permission to dispense with the usual practice of publicly advertising and to award a contract to the Hufarelli General Contracting Company of 6 Academy Hill road, Brighton, for the necessary repairs to boilers 1, 2, 3, and 4, at the Suffolk County Court House, in the amount of \$19,500.

Respectfully yours,

ANGUS GRIFFIN,
Chairman.

CONTRACTS AWARDED WITHOUT ADVERTISING

POLICE DEPARTMENT. COMMUNICATION SYSTEMS

DEAR MR. MAYOR:

On January 28, 1965, you approved a contract between the City of Boston and Lake Systems Corporation (Lake) under which Lake for \$133,500 was to furnish, install and service microwave communication systems respectively linking up the citizen alarm and call boxes in former Police Districts 16 and 17 with the Police Department communications network. The contract called for the completion of the work within one hundred and eighty calendar days. On July 26, 1965, when it was obvious that Lake was not going to complete the work within said time, I notified Lake to discontinue work. This notice was acknowledged in a letter to me from Lake's attorney asserting that as the delay was due to slowness on the part of public authorities issuing necessary licenses and permits for the work, the notice to discontinue constituted a breach of contract on the city's part causing \$121,700 damage to Lake for which the city would be sued.

Extended negotiations since then have resulted in an offer by Lake, acceptable to me, to compromise the matter, now that the necessary licenses and permits have finally been issued, by amending the contract in the following respects:

A. By changing the completion date to "on or before September 17, 1965, which date is of the essence of this contract"; and making it clear that the work shall not be considered to have been finished until the systems furnished have been demonstrated to operate successfully.

B. By adding paragraphs to the effect that, if the work to be done by the Police Department or others to enable a system to be interconnected with the Police Department's communication network has before 7 A.M. on Tuesday, September 7, 1965, progressed sufficiently to allow such interconnection, the successful operation of such system shall be demonstrated by its successful operation interconnected. Otherwise such successful operation shall be demonstrated by so-called on-site after-installation proof of performance tests.

C. To mitigate the losses suffered by the city as a result of the delayed completion of the work, by reducing the contract price by \$9,000, from \$133,500 to \$124,500.

D. By substituting the War Memorial Auditorium at 900 Boylston street, Boston, as a site for the installation of equipment instead of the estate at 921 Boylston street, and by adding a provision for a passive repeater at the Franklin Institute at 41 Berkeley street, Boston.

E. By making the specifications more detailed in certain respects to avoid controversies respecting the meaning thereof.

The instrument making the foregoing amendment would also contain an agreement by Lake not to sue the city for damages arising from the city's notice to discontinue work, and mutual agreements not to sue for prior delays.

Inasmuch as an agreement amending a prior contract can only be made by the parties to prior contract, clearly no useful purpose would be served by inviting, by advertisement bids for such agreement. Consequently, your authority to dispense with advertising in making the above-described agreement is respectfully requested.

Respectfully,
EDMUND L. McNAMARA,
Police Commissioner.

CONTRACTS AWARDED

PARKS AND RECREATION DEPARTMENT. SUBWAY ENTRANCE AND INFORMATION KIOSK

DEAR SIR:

In response to an advertisement published in the *City Record*, wherein the City of Boston (Parks and Recreation Department) and the Massachusetts Bay Transportation Authority, acting jointly, invited general bids for construction of a subway entrance and information kiosk, Boston Common, Boston Mass., the following bids were received, publicly opened and read aloud on August 24, 1965:

Alberti Brothers, Inc., \$67,370; S. Volpe & Co., \$74,000; M. Solimando, Inc., \$74,282; Rossano Construction Company, Inc., \$77,492.

Subject to your Honor's approval, I am, acting jointly with the Massachusetts Bay Transportation Authority, awarding a contract to Alberti Brothers, Inc., 411 Salem street, Wakefield, Mass., the lowest responsible bidder, in the amount of sixty-seven thousand three hundred seventy (67,370) dollars.

For your additional information, under the applicable statute, namely, G. L. (Ter. Ed.), chapter 149, section 44 I, paragraph (1) as amended, the above stated contract price will be immediately adjusted to reflect differences between informally submitted subcontract sum as noted below and the amount stated in all the general contractors' bids as an allowance established by the Awarding Authority, for the subtrade for which no formal subbid was received.

The subtrade involved, together with the amount of the allowance as carried in the general bid and the lowest subcontract sum informally submitted therefore is as follows:

Subtrade, Electrical \$4,000, subcontract sum \$3,884.

The net result of the adjustment to be made by amendment forthwith, will be to decrease the contract price by \$116 so that the total adjusted contract price will be \$67,254.

As the above project is and will be carried out as a joint undertaking of the City of Boston and the Massachusetts Bay Transportation Authority, the joint participants have agreed that sixty-four percent (64%) of the construction cost is attributable to that part of the project to be constructed principally for the benefit of the city, and thirty-six percent (36%) of the construction cost is attributable to that part of the project to be constructed principally for the benefit of the Massachusetts Bay Transportation Authority so that the city's share of the project's cost will be \$43,042.56 and the Authority's share of the project's cost will be \$24,211.44.

The funds to be used by the City of Boston for this project, acting through the Commissioner of Parks and Recreation, will be charged to the Special Appropriation "Boston Common improvements, Budget Item 518" within the Parks and Recreation Department's account.

Respectfully yours,
WILLIAM J. DEVINE, Commissioner.

PUBLIC WORKS DEPARTMENT. SEWERAGE AND WATER WORKS

For sewerage and water works in Lake Shore court and Lake Shore road in Public Works District 4, Brighton, awarded to Lilly Construction Company, in the amount of \$64,347.

Other bids were:
Roslindale Contracting Company, \$73,640;
R. A. Buccella & Sons, Inc., \$80,745.

BHA Offering Prizes for Essay Contest Open to All Boston High School Students

Chairman Jacob I. Brier of the Boston Housing Authority has announced that the Authority, in connection with the forthcoming observance of Public Housing Week, is sponsoring an essay contest which is open to all high school students living in public housing developments in the City of Boston.

The subject of the essay which must not exceed 500 words in length is "What Public Housing Means To Me."

A \$50 Savings Bond will be awarded to the winner. Contestants who place second and third in the judging each will receive a \$25 Savings Bond.

Neatness, grammar, and originality will be considered by the judges in selecting the winning essays.

Copies of the rules may be obtained from the managers of the housing developments. All entries should be mailed to Charles W. Capraro, Boston Housing Authority, 230 Congress street, Boston, and postmarked no later than October 1.

Winners of the essay contest will be announced at the close of the Public Housing Week observance.

Quincy Bus Service

The establishment of an "interim" express bus service between Boston and Quincy is urged by Mayor Collins.

The Mayor said the service, recommended by the Metropolitan Area Planning Council, would include Quincy, Braintree, Weymouth, Randolph, Hingham, and Hull.

MAPC planner Robert Davidson said the bus plan could be put into operation "in a matter of weeks if everybody cooperates."
